Fire Volunteer Co. Given Barbecue Army Tests For Dormitory Purposes. New Bern Bee Hive Co. Chartered. Farmers Institutes.

RALEIGH, Aug. 13.—Hon. S. L. Patterson commissioner of agriculture, left this morning for an extended trip through the western part of the State to hold a series of farmers institutes. He was accompanied by Prof. Burkett, of the chair of agriculture A. & M. College Dr. Tate Butler, State veterinarian, Mr. W. F. Massey and State chemist, B. W. Klugore. They go first to Snow Camp, Alamance county and will then go into Guilford, Forsythe, Lenoir and other counties.

The secretary of State granted a charter today for the Bee Hive Company of New Bern. The capital stock is \$10,000 and the incorporators are Jas. A. Patterson, Chas. S. Hall, Edward E. Perry and Jas. C. Smith.

First assistant State chemist W. M. Allen left today for Blowing Rock where he will spend a month's vacation. The chemist department has just completed their work of analyzing fertilizers sold in the State and specimens of the food stuffs gathered in all parts of the State are receiving their attention now under the provisions of the new pure food law.

President Winston, of the A. & M. College announces that arrangements have been made for a quantity of army tents owned by the State to be used for dormitory purposes provided the number of North Carolina boys desiring to enter overtaxes the capacity of the buildings available.

The Imperial Tobacco Company has assigned E. L. Fleming of Louisville to buy tobacco on the Raleigh market. The American Tobacco Company also has a buyer here. The market is developing admirably, over 19,000 pounds were sold yesterday and the breaks today are equally as good. Prices ranged from 96 to \$24 per hundred pounds.

The Raleigh Fire Department (volunteer) gave their annual barbecue at the State Fair grounds today. It was given complimentary to the teams which won prizes during the recent State tournament here.

Evidence is being gathered with a view to instituting a suit by Mr. C. G. Latta, president of the Raleigh cotton mills, against the Metropolitan Railway Co., of New York for injuries which he sustained in an accident there some weeks ago. Mr. Latta is gradually recovering from the paralysis which settled in his left leg and arm. The damage claimed will be very high and will be on the ground that negligence on the part of the motorman caused the accident.

Why suffer pain and severe sickness from Bowel Complaints, when DR. ROLD'S BALSAM stops one and cures the other. It has been successfully used for fifty years. Warranted to give satisfaction or money refunded by T. A. Henry.

Monument to Virginia Dare.

United States Senator Simmons of North Carolina wants a monument erected to mark the place where the first English speaking people landed and where the first Anglo-American woman was born—Virginia Dare. The historic spot is in Senator Simmons' state. It is Roanoke Island, and the date was 1585. The people who settled there had been sent over by Sir Walter Raleigh, and they wrote such glowing letters home and made such attractive maps that in 1585 and 1587 the colony largely increased. It was at Roanoke Island in 1587 that Virginia Dare was born. She ought to have a monument, says Mr. Simmons, and he wants congress to appropriate \$25,000 for this purpose.—Patriotic Review.

More School Book Depositories Now Needed.

Address to County Superintendents of Public Schools. State Charter Granted. Republican Convention 6th Judicial District. Silk Cocoons Wanted.

RALEIGH, Aug. 14.—Col. P. M. Pear-sall, private secretary to Gov. Aycock, left for Hickory today to join the Governor who spoke there last night at a conference of County Superintendents of public schools, embracing twenty counties. The Governor and Col. Pear-sall will go tomorrow to Waynesville where they will be the guests of Attorney General Robert. D. Gilmer, for a week.

A charter was granted today to the Rose Cotton Ginning Co., of Warren, capital \$30,000, and the principal corporators are W. D. Rose, of Axtell, Martha L. Rose and S. S. Parham, of Henderson and Thos. Horner of Monroe. The Ginning of cotton is the principal business specified.

Much complaint comes from Haywood county and Asheville, on the books prescribed by law to be taught in the public schools. The superintendent of public instruction will take steps to compel the publishers to increase the number of depositories and see that an ample stock and assortment of the books are in each depository.

John Nichols, chairman of the Republican executive committee of this the sixth Judicial District has issued a call for a convention to be held in Raleigh August 27th.

Mr. Gerald McCarthy, biologist of the State department of agriculture announces to silk growers in this State that the department has arranged with well known manufacturers to sell all cocoons grown in the State and also that all growers classify their cocoons and send them to the department of agriculture from which they will be shipped in bulk to the manufacturer. No price is specified. The department gave away silk worm eggs last season and the present move is to assist experimenters in silk culture to dispose of cocoons.

Seeding Raisins.

Put a little butter on the fingers and on the knife when seeding raisins to avoid the stickiness.

Tea Bricks.

Bricks of tea once were current in Russia and Siberia. The tea was of poor quality, merely the scrapings and leavings pressed into brick form. Frequently the little bricks were used as money and were exchanged for horses or cattle.

A Safe Summer Beverage.

By Amos Gray, M. D., in United States Health Bulletin.

During the heated season people need a cooling and bracing beverage. Such a palatable tonic must at once quench the thirst and also revivify the energy that has become dulled by the high temperature of the blood.

To satisfy these requirements many kinds of drinks are offered the public, such as lemonade, composed principally of tartaric acid and water; the carbonated product known as soda water, that is so difficult for the stomach to assimilate, and very many more, that our limited space does not permit enumerating.

Popular usage has decided that a malted beverage best supplies the proper stimulation to give a tonic strength, to overcome summer lassitude. The best beverage we have found to be pure beer. Not cheap beer, that may prove an overtax on the liver and thus cause headache, but pure beer, that in itself combines those good features so much desired in a summer beverage.

These United States Health Bulletin, being the highest American authority on all matters pertaining to health, sanitation and hygiene, have just completed an unbiased and disinterested examination and analysis into many brands of beer, and the result of laboratory investigation has proven the proper beer to drink and the purest and best to be the beer from the Prospect Brewing Company of 11th and Oxford streets, Philadelphia, Pa.

This beer, therefore, has the full editorial and official endorsement of the United States Health Bulletin. Our Staff of Physicians have found that this beer yields the greatest tonic strength so much desired to assist digestion, that it keeps down the temperature and thus prevents sunstroke and establishes that proper physical activity thus counterbalancing the effect of summer heat.

For home use it excels as a table beer, being of value to wives and children. As a preventative of disease it adds tone to the system and thus many forms of ailments are happily overcome. To the convalescent it is a tonic, adding new strength and hope, while as a summer beverage it is par excellent. The above beer is carefully brewed, and from first to last the utmost cleanliness is maintained. It is filtered and refrigerated and before being offered for sale it undergoes a final treatment that produces the best sterilizing effect, entirely eliminating all danger of germs and assuring the customer the purest and ripest of beer.

CONGRESSMAN FITZPATRICK

Says Pe-ru-na is a Splendid Catarrhal Tonic.

Congressman F. Y. Fitzpatrick.

Hon. T. Y. Fitzpatrick, Congressman from Kentucky, writes from the National Hotel, Washington, D. C., as follows:

"At the solicitation of a friend I used your Peruna and can cheerfully recommend your remedy to anyone suffering with catarrh or who needs a good tonic."—T. Y. FITZPATRICK.

Peruna is a natural and efficient nerve tonic. It strengthens and restores the activity of every nerve in the body.

Through the use of Peruna the weakened or overworked nerves resume their natural strength and the blood vessels begin at once to regulate the flow of blood according to nature's laws. Congestions immediately disappear.

Catarrh Cured. All phases of catarrh, acute or chronic, are promptly and permanently cured. It is through its operation upon the nervous system that Peruna has attained a world-wide reputation as a sure and reliable remedy for all phases of catarrh wherever located.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice free.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, O.

Swans Reach Old Age.

John Lover, the keeper of the wolves, stood on the bank of the lake at the zoo, a bit of pie in his hand. "Whew-w-w!" he whistled, and a white swan at the far end of the island turned and swam like lightning to him. It took the pie from his hand, waddled back into the water and in a moment had disappeared behind the island. "An old bird," said Lover; "a very old bird. It is, in fact, 114 years old at least. I guess it is, except for our bald eagle, the oldest creature in the gardens. The eagle, you know, is supposed to be 125. Swans are the longest lived creatures there are, the natural history books say. They live 300 years sometimes. Eagles live from 100 to 150 years, and parrots sometimes about 125."—Philadelphia Record.
