Section Two, Friday Oct. 17, 1902

WELCOME TO THE DAUGHTERS OF THE CONFEDERACY!

Tomorrow morning October 18th, the first of the sessions of the Annual Meeting of the United Daughters of the Confederacy, of North Carolina, will be held in this city.

The interest in this meeting of the Daughters in New Bern, is not confined to the local Chapter of the Daughters in this city.

The coming here of so many members, representing Chapters of this organization in various sections of this State, means a gathering in which all of New Bern is interested, both in noting the proceedings at the various sessions of this annual meeting, and also in seeing and greeting so many distinguished North Carolina women.

New Bern, ever hospitable, will prove during the stay of the Daughters in this city, how it recognizes and values the coming of the members of the several State Chapters, by its entertainment of those who come.

Already in these columns have been published the names of those who have signified their intention of attending the meeting, and from this list can be seen how distinguished a gathering may be expected to meet in this city tomorrow.

In behalf of the citizens of New Bern, the JOURNAL welcomes the Daughters, and trusts their visit here will be all and more than anticipated. In the cordial reception given the visitors, and in the pleasure and enjoyment which our friends and guests receive while in this city.

THE FACTS ALWAYS BEST.

It has been always the opinion of the Journal, that the facts regarding local conditions, should be given the public.

This relates to the conduct of county and municipal affairs, and such statements concerning matters directly affecting the tax payer and every citizen's interest.

Not least among local matters, is that appertaining to the sanitation and health of the community.

A matter of immediate concern, is that relative to the small pox situation in Craven County and New Bern.

On this point the JOURNAL has believed in such publicity as was necessary to protect this community and outside communities, from this disease.

Exaggerated stories must go forth when attempts are made to conceal any local disorder.

Such stories have been sent from here during the past few days, and as this is the first opportunity given the Journal, it publishes in the local columns such facts on the small pox situation as are possible to be learned, and they are presented, as have previous reports on this subject, and as future ones will be, as coming from those in authority.

With the local conditions presented in their true light, all stories should come from the facts in the case, and not be taken from that too susceptible and unreliable source, street corner gossip.

The situation is therefore given, and will continue to be, whenever new facts present themselves necessary for the public notice.

IN THE MATTER OF REGISTRATION.

Less than ten days remain in which every one must be registered in order to be able and entitled to vote in the election on November 4th.

To vote is a matter of citizenship. It is an expression of the citizen on questions which shall govern him, the citizen locally, religiously and commercially.

It is an expression of how the citizen wants his laws made, how his taxes are to be regulated, and through both of these will govern the regulation and prop-

er adjustment of his social and business life.

An entirely new registration is before the people of North Carolina this year. The books will be open for a few days longer, until October 25th, when not having registered will mean that those having failed in this duty, will not be admitted to vote on November 4th.

Because a citizen may have voted recently, means nothing just now. A new registration must be made to make every one entitled to vote, a voter.

The Constitutional Amendment goes into operation, hence the present necessity for the entire new registration.

Failure to register in time means loss of the elective franchise on November 4th, and the loss, the inability to vote, will be the fault of the man who does not comply with the law in the matter, and complying, register.

Not the Example He Expected.
The master of a Glasgow school was presiding over the reading lesson when the child, whose turn it was to read, came across the word "bireling."

"What is a 'bireling'?" asked the teacher.

The boy thought for a moment or two and then replied, "I don't know." The question was next propounded to the entire class, with a like result.

The master then explained the meaning of the word as lucidly as he could and at the conclusion of his explanation repeated the question.

"Please, sir," replied the boy addressed, "you're a bireling; you're paid to teach us."—Scottish American.

The Worst Form.

Multitudes are slinging the praises of Kodol, the new discovery which is making so many sick people well and weak people strong by digesting what they eat, by cleansing and sweetening the stomach and by transforming their food into the kind of pure, rich blood that makes you feel good all over.

Mrs. Cranfill, of Troy, I. T., writes: "For a number of years I was troubled with indigestion and dyspepsia which grew into the worst form. Finally I was induced to use Kodol and after using four bottles I am entirely cured. I heartily recommend Kodol to all sufferers from indigestion and dyspepsia. Take a dose after meals. It digests what you eat." F. S. Duffy.

Dined by King.

London, Oct. 13.—United States Ambassador Choate, Adjutant General Corbin and Generals Wood and Young were the guests of King Edward this afternoon at a luncheon given in honor of Lord Kitchener.

His Life In Peril.

"I just seemed to have gone all to pieces," writes Alfred Bee, of Welfare, Tex., "billiousness and a lame back had made life a burden. I couldn't eat or sleep and felt almost too worn out to work when I began to use Electric Bitters, but that worked wonders. Now I sleep like a top, can eat anything, have gained in strength and enjoy hard work. They give vigorous health and new life to weak, sickly, run-down people. Try them. Only 50c at C. D. Bradham's drug store.

Forty Years Torture.

To be relieved from a torturing disease after 40 years' torture might well cause the gratitude of anyone. That is what Dr. Williams' Pink Pills cured for O. Hanes, Geneva, O. He says: "Dr. Williams' Pink Pills cured me of piles after I had suffered 40 years." Cures cuts, burns, wounds, skin diseases. Beware of counterfeits. F. S. Duffy.

Liquidifies the mucus, allays inflammation, removes danger. Absolutely safe. Acts immediately. Cures coughs, colds, grip, bronchitis, all throat and lung trouble. F. S. State Charter. Mixed Political Sentiment. Reward For Murderer

Timber Land Case. Baptists Increasing in Number. School Enrollment.

RALPH, Oct. 14.—A charter was granted by the State today to the Cape Fear Rice Company, which will operate a rice mill at Wilmington. The capital stock is \$200,000, and the stockholders are H. Burton Anderson, John H. Gore and Jas. W. Sweeney.

The Supreme Court today took up the 8th district appeal docket. Among the attorneys here are J. G. Shaw, G. M. Rose, H. L. Cook, Fayetteville; J. A. Lockhart, H. H. McLendon, Wadesboro; J. W. Keenan, Charlotte; N. A. McLean, Lumberton; L. D. Robinson, John T. Bennett, Wadesboro; N. J. Adams, Carthage; John D. Shaw, Jr., Laurinburg.

Politics appears to be mixed. In most sections there is apathy, but in some there is interest. For example John A. Lockhart said today: "There is no political interest in our section, people are attending to business," while W. J. Adams said, "There is nothing but politics in my county."

The prediction is made by some Democrats that the party will carry all the counties save 10, and will make gains in these.

The murderer, Frank Winn of Wayne county, who was trailed and captured by his nephew was taken at Fayetteville. There is \$350 reward and part of this an amateur detective claims.

The detective had another motive also, for the man murdered was his brother. A lawyer was here yesterday to see about the claim for part of the reward.

It is not denied now that the crops in this State are much better than was expected 30 days ago. The farmers are in good spirits and have recovered from the worries due to the crop failure last year.

Judge Purnell heard argument here in the case of Trenchard & Co. vs. Kell & Co. involving \$40,000 of timber lands and other properties in Northampton county.

A report on the white Baptists in this State shows they number 173,000. There are now 37 associations. One is a new one. It is the Wilmington association. This denomination is now doing a great missionary work in the North Carolina mountain region.

The number of white pupils enrolled in the public schools of the State is now 292,000; a marked increase over last year.

Bad Foster, colored, who murdered a white man named Johnson near Louisville, and was for weeks kept in jail here to prevent lynching, was today put on trial at Louisville.

The State charters the Norfolk & Carolina Telegraph and Telephone Co., with headquarters at Elizabeth City, capital two hundred thousand dollars. It is owned by Portsmouth and Elizabeth City people.

Goes Like Hot Cakes.

"The fastest selling article I have in my store," writes druggist C. T. Smith, of Davis, Ky., "is Dr. King's New Discovery for Consumption, Coughs and Colds, because it always cures. In my six years of sales it has never failed. I have known it to save sufferers from Throat and Lung diseases, who could get no help from doctors or any other remedy." Mothers rely on it, best physicians prescribe it, and C. D. Bradham guarantees satisfaction or refund price. Trial bottles free. Reg. size, 50c and \$1.

Cool Garden Spots.

A glacier when it dislodges itself and sails away over the Arctic ocean never travels alone. In the wake of every large one floats a line of smaller companions.

The Eskimos call this phenomenon "the duck and ducklings" and any one who has watched the progress of the elder duck followed by her brood will appreciate the aptitude of the name.

"Strange as it may seem, plants grow and blossom upon these great ice mountains. When a glacier is at rest, moss attaches itself to it, protecting the ice beneath, just as sawdust does. After a time the moss decays and forms a soil, in which the seeds of buttercups and dandelions, brought by the wind, take root and flourish.

Those who have traveled in arctic lands say they have found no point yet where the poppy does not bloom during the brief northern summer.

Out of Death's Jaws.

"When death seemed very near from a severe stomach and liver trouble, I had suffered with for years," writes P. Muse, Durham, N. C., "Dr. King's New Life Pills saved my life and gave perfect health." Best pills on earth and only 25c at C. D. Bradham's drug store.

Dextrin Comes From Corn.

Dextrin is nothing but roasted starch, and any one with a stove that has an oven attachment can make his own dextrin whenever he needs it by roasting starch to a light brown. Its best known use is to make the famous adhesive used on the back of the postage stamp.

Coal Miners are Pleased.

Special to Journal.

WILMINGHAM, Pa., Oct. 14.—The coal miners say they will trust President Mitchell. They want labor represented on the commission to be appointed. They are delighted at the willingness of the operators to arbitrate, and think the end of the strike is near.

MATLAND, Fla., October 10th, 1901. The Hancock Liquid Sulphur Co., Baltimore, Md.

Gentlemen—I have had Eczema over thirty years, have tried many remedies prescribed by various physicians, but to nothing has the disease yielded so readily as to LIQUID SULPHUR. I think if used properly it is undoubtedly a specific for Eczema. I have prescribed it for others with most satisfactory results. I consider it the best remedy for cutaneous affections I have ever known, and regard it as the greatest medical discovery of the age.

Awful Suicide.

Albert Combs, a white man, married, committed suicide at Goldsboro last night by throwing himself under the A. & N. C. shoe fly. His head was severed from his body. Mr. C. J. Rivenbark, who is in the city, says that coroner Dr. Thos. Hill made the following report to the Clerk of the Court for Wayne county.

"Having been notified by affidavit of sheriff B. F. Scott that a dead man had been found on the A. & N. C. railroad. I went to the place indicated and found that Albert Combs had been killed by the A. & N. C. shoe fly.

I examined witnesses and found that it was a case of suicide and not necessary to have a jury."

The investigation developed the fact that Combs, an hour or two earlier in the evening had attempted self destruction by throwing himself on the track before an approaching freight train and was snatched from the jaws of death by Mr. Gus Kleinhans an eye witness. Combs remarked "there was another train coming shortly" went to his home and quarrelled with his wife, left home and was found on the track after the shoe fly passed.

Mr. C. D. Danen, the engineer of the shoe fly, who is one of the most careful and painstaking engineers in the service with his hand on the throttle and eye upon the track, knew nothing of the affair until advised about midnight last night.

CAUTION

This is not a gentle word—but when you think how liable you are not to purchase for the only remedy universally known and a remedy that has had the largest sale of any medicine in the world since 1886 for the cure and treatment of Consumption and Throat and Lung troubles without losing its great popularity all these years, you will be thankful we called your attention to Boschee's German Syrup. There are so many ordinary cough remedies made by druggists and others that are cheap and good for light colds, but for severe Coughs, Bronchitis, Croup and especially for Consumption, where there is difficult expectoration and coughing during the nights and mornings, there is nothing like German Syrup. Sold by all druggists in the civilized world.

DR. MOFFETT'S TEETHINA. Our little girl, just thirteen months old, has had much trouble with her teeth. Every remedy was exhausted in the shape of prescriptions from family physicians.
