

MALICIOUS MISSTATEMENTS.

The position of the Kinston Free Press towards the Journal has ever been one of spite, misquoting and misstating this paper on every possible occasion.

These misrepresentations have been directed at the Journal with the ill concealed purpose of injuring New Bern's commercial interests, with the idea that such injury inflicted would give Kinston some advantage.

The Free Press' idea is to tear down your neighbor, and secure some of the spoils in the confusion incident to the tearing down process.

The present time offers such an apparent opportunity, owing to the small pox prevailing in Craven county.

The Free Press cares not for fact in this matter, but accepts rumors and hearsay and eagerly seeks to erect its tombstone marking the decease of its neighbor.

But if its publications were not so notoriously and maliciously incorrect, it might prove to be somewhat of a gain for Kinston if this city should be a sufferer from disease.

But the Free Press over does its part as usual. It gets as wild and extravagant as do those men seeking to direct trade from New Bern to Kinston, by stating to the farmers that New Bern had already 120 cases of small pox and 60 deaths from the disease, therefore you farmers keep away from New Bern.

As before noted, the Free Press believes in success to self, through pulling down others, hence its misstatements. It is blind to the failures which have come to those who have followed this policy, forgetful that New Bern has been the financial reservoir to supply Kinston's most urgent money necessities, and at times when such assistance was both necessary and welcome.

In another column of this issue will be found the latest Free Press canard regarding alleged small pox in New Bern, and a detailed reply is given to the same.

As can be seen in the local columns, the Kinston authorities are taking the sensible and practical view of the situation, and do not propose to quarantine against New Bern, when the conditions do not warrant it.

OUR GUESTS DEPART.

After a four days visit in New Bern, our distinguished guests, the North Carolina Division of the United Daughters of the Confederacy, leave for their homes.

It has not only been a season of pleasure for our guests, the Daughters, which must be judged from their actions and expressions of enjoyment, but it has been a most enjoyable time for New Bern and its people.

With the exception of a single unfortunate incident, every thing has passed to the benefit and pleasure of all.

The weather has presented its best features, day and night, and to those in charge of the entertainment of our guests there has been nothing to mar the program of daily happenings, to the satisfaction of entertained and entertainers.

The New Bern Chapter, in inviting the convention to meet in this city made no mistake, nor did the Daughters, in accepting.

The week has been one of mutual profit to those who have come, and truly so those who had the pleasant task of entertaining those who came.

It was with pleasure that New Bern greeted the Daughters arrival, and this pleasure has been greatly heightened by the meetings which have taken place during the week.

In full sympathy with this organization and its work, New Bern will always be prepared to welcome the United Daughters of the Confederacy to its shores, and will add its assistance to the Daughters' work whenever called upon to do so.

PROTECTION VS. PREJUDICE.

The protection of a community's health is of more vital importance than the protection of its every other interest.

Yet there is protection which really protects a community from outside sources of contagion, and at the same time does justice to the place which may have a contagious disease.

To establish a quarantine, one city against another, is a matter which ought not to be hastily or unduly entered upon.

A quarantine is bad enough. To follow this quarantine up by gross and malignant misrepresentation against the people of the place quarantined against, carries with it a maliciousness, inhuman.

This has been the part of Kinston, when it declared a quarantine against New Bern.

It was a quarantine of prejudice, not one of sincere desire for protection, for its own health.

It was the thought of money, trade gain to Kinston, which inspired this action, to be followed up by sending false and grossly exaggerated reports into the country, to beware of New Bern, filled with death and disease!

The Kinston animus in this matter was well exhibited in the summed up reason of the Free Press, which pointed with pride(?) to the circumstance that many years ago, New Bern had quarantined against Kinston, and this was the chance to square the account!

This quarantine against New Bern shows the same bitter hatred, only more intense, as was witnessed by some four hundred New Bernians last year, who upon invitation visited Kinston to see a game of base ball, and who were subjected to various personal indignities before they could leave that place.

To make commercial gain by a quarantine against New Bern, is shown in the same spirit "to get there," as was seen in the aforesaid ball game, when Kinston kept the dollars belonging to New Bern, because New Bern could not protect itself against Kinston's financial genius in the matter.

There is protection, just and equitable which no one objects to, but it is not this kind of protection which Kinston has sought.

It is prejudice based upon human passions, which Kinston calls "quarantine."

THE FADS OF QUEENS.

Queen Helene of Italy has many interests. Her favorite amusements are shooting and driving a motor car.

The favorite amusements of Queen Wilhelmina are skating and riding, but as a child her hobby was the keeping of poultry.

Queen Alexandra has numerous fads, but her special one is said to be photography. She owns a set of china ornamented by her own photographs.

The German empress' hobby is photography. Her collection of pictures is unique and comprises every kind of scene, beautiful views and curious people she met on her eastern travels.

The queen dowager of Saxony takes a marked interest in children of all classes. The schools, orphanages, homes and sanitariums which have been founded by her or through her initiative are numerous in her country.

The queen of Greece's favorite recreation is yachting. She is an excellent sailor and is the only member of the Russian imperial house who bears the rank of an admiral in the Russian navy, a unique honor bestowed on her by the Czar Alexander.

The empress of Russia's hobby is said to be caricaturing and collecting caricatures. She has the ready talent of catching a likeness and transmitting it to paper so that even those who are most caricatured cannot but laugh at the good natured way in which they are "taken off."—Philadelphia Press.

The Worst Form.

Multitudes are singing the praises of Kodol, the new discovery which is making so many sick people well and weak people strong by digesting what they eat, by cleansing and sweetening the stomach and by transforming their food into the kind of pure, rich blood that makes you feel good all over. Mrs. Cranfill, of Troy, I. T., writes: "For a number of years I was troubled with indigestion and dyspepsia which grew into the worst form. Finally I was induced to use Kodol and after using four bottles I am entirely cured. I heartily recommend Kodol to all sufferers from indigestion and dyspepsia. Take a dose after meals. It digests what you eat." F. S. Duffy.

An Optimistic View. The invalid looked out of the window just as a hearse went by, and he smiled happily. "Dye mind, Biddy," he said, "it's worth the dyin' to have a ride in a thing like that, with the feathers on top an' a man with a bug on his hat, an' you bein' gr-reater an' more nicker-sary than the marshal in a St. Patrick's day parade. RALEIGH

Quantity of Coal Output at Camcock Mine.

State Charter. Negroes Said to Vote Democratic Ticket. Negroes Against Pritchard. Rev. Nee Taking Course in Manual Training.

RALEIGH, Oct. 17.—A gentleman who knows more than any one else about the Camcock coal mine says that while the output is only 100 tons a day it can easily be made 800, and by sinking another shaft can be increased to 1000 and even 1500. The experts say that the bed can furnish 1800 tons a day for 40 years. The output during September, when the mine was operated 30 days, was 2100 tons. Philadelphia people now own the mine. The Seaboard Air Line is calling for coal from this mine but none is being furnished it, all going to industrial plants in various parts of the State. At one time it furnished the S. A. L. 150 tons a day.

This division of the S. A. L. has contracted for 300 cords of wood a day, for an indefinite period, at \$1.40 a cord. A charter is granted the Wilmington Bakery Company. W. A. Farris and others stockholders.

A Republican of marked prominence says that fully half the negroes who vote this year will vote the Democratic ticket. He ventures the further prediction that 35 per cent of the white vote of 1900 will not vote this year.

The State Literary and Historical Association will hold its regular annual meeting here during the State Fair.

Merchants here say business is at least 30 per cent better than it was last fall.

It is said that in Warren county the negroes are so bitterly opposed to Senator Pritchard and his treatment of them that a large proportion of them will not vote for his side. There are supporters of Pritchard, for example, I. M. Meekins of Elizabeth City, who make the astounding claim that he will win out and again be Senator. A Republican here says his party can only hope for 3 or 4 State Senators and perhaps 15 members of the house.

It is found that a registrar of election here is in violation of the law, not requiring people who register under the "grand-father clause" to take to support the constitution of the U. S. and that of the State.

Rev. T. P. Nee, head-master of St. Paul's school, Beaufort, is at the A. & M. College here, taking a special course in manual training, so he can teach it in his school. He is given the use of tools, etc., made in the colleges here.

Southern Mill Merger Assured. Special to Journal. PHILADELPHIA, Oct. 17.—The report that the First Merger of Southern Mills has collapsed is officially pronounced untrue. On the contrary a decidedly larger number of specialties was represented at Greensboro N. C. meeting on the tenth than was expected.

The official report shows 363,000 spindles passed and finally accepted. The committee adjourned to meet a fortnight hence to complete arrangements for taking over 300,000 more spindles. The First Merger is an assured success.

He Had Struck Paregoric. Representative Olmstead of Pennsylvania tells this story: "A client of mine the necessities of whose large family, recently augmented by twins, made him poor came to me joyfully one day and said he had found oil flowing from a spring on his land. "The bottle containing the sample which he brought me had evidently been seen by me, but I forwarded it to an expert for analysis. The reply dashed to the earth the hopes of my client and myself. The expert said: "Find no trace of oil. Think your friend has struck paregoric!"
