A CHANGE OF CONDITION

tion Difficult.

The river Thursday evening and yes terday morning presented condition very different and the change considering the time was quite remarkable.

Thursday the river gave evidence of being full-even full to running over. The seas ran high and small craft were at the mercy of the waves even on the peaceful bosom of the Trent. But, oh what a difference in the morning. When the wind went down and the tide went out the river looked as if it had suffered a collapse, From its riotous fury it had subsided and the condition restards. subsided and the condition yesterday was possibly more dangerous than the day before because the depth of the

of culture; it is the nowering of his, the fruitage of the soul.

It is as precious as wisdom, more to be desired than gold—yea, than eyen fine gold. How contemptible mere money wealth looks in comparison with a serene life—a life which dwells in the ocean of truth, beneath the waves, beyond the reach of tempests in the eternal calm!

How many people we know accessor their lives, who ruin, all that is sweet and beautiful by explosive tempers, who destroy their poise of character by bad blood! In fact it is a ones tion whether the great majority of peo-ple do not ruin their lives and mar their happiness by lack of self control. Brg Deed- and Ex-officio, C B 11. New Bern, N. C. D. c. 1st, 190 .

A country "squire" is often called upon to settle questions which tax 10 00 both his knowledge and his ingenuity. One such matter was presented to Squire Prescott of Banbury.
"Square," said a solemn faced man, stopping the lawyer one day as be was leaving the postoffice, 'there's a point

I want you should settle, and whatever you say I'll abide by it, whether you think as I expect you will or not." "Well, let's hear what it is," said Squire Prescott good naturedly. "It's just like this," said the man, stepping closer and speaking in a low-

er tone. "Hen Rogers wants to trade farms with me, but we can't quite agree on terms. His cow pasture is better than mine, but I've got twice as many blueberry bushes as he has: his corn is all started, and mine isn't, but I've got screens to five windows and two doors; there's less stones in his meadow land than there is in mine, but there's more bog.
"Now, I won't tell you which is which,

but one of us thinks Hen's collie dog had ought to be throwed into the barter, and the other one thinks that my helfer would just about even up. Now, what should you say was the fall thing?"-Youth's Companion. White Lead. White lead is said to be the most ef-

fective agent for mending broken crockery, as it is one of the few cements that resist both water and heat. Apply thinly on the edges of the broken pieces, press them together and set Orlando, Fla., Oct. 12, 1901.

OR TETTER Is one of the many varieties of that tor-

of that tormenting disease called Ecsema. It slumbers through the summer and breaks
out in winter. The head, feet and hands
are the parts most often attacked, though
it sometimes appears on other parts of the
body, the st in hardens, cracks open and
bleeds, while the itching and burning is
at times almost unbearable. Scratching
only makes it worse, sores and scabs
forming where the skin is broken.

In this form of Ecsema brownish white
crusts sometimes

In this form of Resema brownish white crusts sometimes form which scale off in fine particles, leaving the skin raw AND BLEEDS and inflamed. It is especially painful and severe when confined to the hands, which often become so badly affected that the sufferer is unable to perform the lightest work. This, like all other types of Eczema, is due to scid poisons in the blood and not to local causes. The trouble is more than skin deep, and washes, soaps, powders and salves nor anything else applied to the surface can possibly do more than scothe the burning and itching or relieve temporarily the inflammation and pain.

It is the scids thrown off by the blood and which are forcing their way through the pores that cause the skin to harden, crack and bleed, and produce the inflammation and cleauses the blood of all irritating substances and humors and does it promptly and effectually.

S. S. S. purifies and invigorates the this acid blood, and builds up the entire system; then the unsightly cruption and sore heal, the skin becomes smooth and soft, and all signs of the Eczema disappear. Our special book on Skin Diseases free. The Swift Specific Co., Atlanta, St.
