The farmers are all busy now cleaning up fences and ditches, plowing and grubbing, it is livening up some.

There seems to be a full crop of tramps this winter, there is one or two along every week. On Saturday the 17th a well dressed, good looking young man appeared here among us, put up at a hotel and said he was out to learn to estimate standing timber, giving his name as Tompkins from Philadelph a, Pa., he skipped on Monday leaving his bill uupaid. Raleigh, January 28 .- Senator Wilson was sworn in from 36th district today. He is a Democrat.

Bills were introduced in Senate to appoint committee to investigate the insane asylums, to allow bodies to be used for dissection, to provide for dispensaries by a vote of people, to prevent the use of railway tracks as highways.

Bills allowing divorced persons to remarry three years after decree divorce, passed 26 to 19.

Bills introduced in the house to permit school districts to be formed of contiguous territory ifiln different townships, to provide for State board of examiners for trained nurses.

Senate committee today resolved this evening by a vote of 3 to 2 to report unfavorably the Justice bill requiring locomotive engineers to blow the whistle and ring bell when ever they cross tracks.

Both provide for submission

Senator Woodard has introduced what he terms a compromise liquor bill, taking a place between the London bill, which the anti-liquor league favors, and the Watts bill, which it does not favor. There is all sorts of talk about these bills. Some Democrats declare that they will injure the party; others that they will give it new life. There is certainly a powerful wave of temperance in the State. This is easy to see. Never before was so much influence and pressure brought to bear in aid of temperance legislation. Ex-Mayor McCall of Charlotte declared to the Legislature that 90 per cent of the crime there, was directly

traceable to liquor. There was argument today before the Senate judiciary committee on a bill which was "sneaked" through the last Legislature, as a private and local act, to prevent the felling of timber in Pamlico river, but which further along forbids on-residents from buying and holding over 100 acres of timber land. The odds are the bill will be repealed.
