

Letters from Women

Cured by the use of Kodol are received daily. Their troubles nearly all begin with indigestion or other stomach disorder.

If the food you eat fails to give strength to your body, it is because the juices secreted by the stomach and digestive organs are inadequate to transform the nutrient properties of the food into blood. That is indigestion. The system is deprived of the amount of nourishment required to keep up the strength, and the result is that one or more of the delicate organs gradually grows weak, and then wastes, until finally it is diseased. Here a great mistake is made. That of treating the diseased organ. The best doctors in the land make this very mistake. Why should they? It is so easy to see that the trouble is not there.

Kodol Cures

This famous remedy puts the stomach and digestive organs in a healthy condition so that rich, red blood is sent coursing through the veins and arteries of every muscle, tissue and fiber throughout every organ of the entire body, and by Nature's law of health, full strength and vigor is soon restored to each.

Kodol cures indigestion, dyspepsia and all stomach disorders.

I have taken Kodol for nearly two months after each meal and it is the only remedy that gives relief from the terrible pains I endured. After a time I would take it but once a day, and now, while I keep a bottle handy, I seldom need it, as it has cured me. Mrs. J. W. COOLBAUGH, Milo Center, N. Y.

Kodol Digests What You Eat.

Bottles only \$1.00. Size holding 2 1/2 times the trial size, which sells for 50 cents.

Prepared by E. O. DEWITT & CO., CHICAGO

F. S. DUFFY

SMITH IN TROUBLE

The "Blind Tiger" Man again up Against Uncle Sam's Minions.

Timothy Smith, colored was arrested yesterday by U. S. Deputy Marshal Jewell, on the charge of violation of section 2242 of the revised statutes of the United States, which provides for the punishment for retailing liquors without a license.

Smith was taken before U. S. Commissioner Charles B. Hill and required to furnish a justified bond in the sum of \$100, which was secured and the prisoner discharged from custody pending the next term of U. S. Court.

It will be remembered Smith was arrested for violation of State and City law by officer Lupton for furnishing liquor to men on Sunday about two weeks ago. At that time Mayor Patterson put him under \$100 bonds for appearance at the next term of criminal court. Consequently he will have to stand two trials. It is understood that his bondsman is the same person in both charges.

There were sales in the local cotton market yesterday at 9 cents.

The Kiel Italian band of Wilson, a well known musical organization arrived last night and will furnish the music for the dance tomorrow night.

The E. C. D. dock, foot of Craven street, is being further repaired for Mr. James Redmond. The dock has been piers and the east one is being covered by extending the roof of the main building to the end of the pier, a distance of about 90 feet, the work being done in a substantial manner.

Several days ago Mr. George R. Brinson was severely injured while operating his cotton gin at Baldrick Creek. His right arm was caught in the machinery and mangled. He came to the home of his uncle, Mr. L. H. Bray on Metcalf street this week where he can receive medical treatment to a better advantage and is recovering from his injuries finely. Dr. Duguid is attending him.

ANOTHER NARROW ESCAPE.

A Drunken Farmer Runs Into a Boy on Horseback. A Bad Accident Avoided.

Another accident happened last night which might have been a parallel of the strange accident of a few weeks ago whereby two horses were killed. It was however, not attended with any serious results, at least it is not so thought at present.

About five o'clock yesterday afternoon Robert Wetherbee, a farmer, of Lima, being under the influence of liquor was driving recklessly on West Broad street and at the corner of George street he ran into Nelson Angell's horse talking to Mr. Stewart Callaway. The Hanks boy's horse was knocked down, and Wetherbee's horse and buggy on top of it and the boy underneath the whole. In spite of so great danger the boy and his horse escaped with only slight injuries.

The Hanks boy and Nelson Angell had changed horses shortly before the accident happened; it is said if he had been on his own pony which was much smaller and lighter the accident would have been more serious.

People who witnessed the affair say that it was one of those peculiar accidents in which great damage seemed almost unavoidable and yet all escaped.

Wetherbee and the negro who was riding with him escaped injury, but the buggy was wrecked and the horse slightly injured.

Unveiling of Monument.

The Woodmen of the World will meet tonight to institute measures for the unveiling of the monument to be erected at the grave of late Sovereign J. A. Paris who was buried at LaGrange.

The unveiling ceremonies will be held about the latter part of February. The day will be announced later on.

All woodmen are requested to be present tonight.

W. N. PUGH,

Clerk Elmwood Camp No 12 W. O. W.

GOOD ADVICE.

Are you sick? Repining will not give you health.

Are you poor? Unhappiness will not make you rich.

Are you ignorant? Unhappiness will not make you wise.

Be happy today. No matter about yesterday or tomorrow, be happy today.

Did you do wrong yesterday? Regretting will not correct the act nor atone for it.—Suggestion.

GALILEE.

Jan. 27.—We are having some unpleasant weather but there is no sickness to report.

The Sunday School is flourishing and is preparing for a grand time Easter Sunday.

Mr. Z. V. Gaskins, of Wasp was a guest of friends here Saturday and Sunday.

Miss Maggie Jones of Wasp is visiting relatives and friends here.

Rev. Spear of New Bern will preach at the Galilee Christian church Saturday February 7.

Mr. Alexander Price of Bayboro visited here last Saturday and Sunday.

Elder V. G. Brittain filled his regular appointment here Saturday night and Sunday.

Mr. G. A. Everington made a business trip to Vanceboro last week.

A few farmers are making preparations for their tobacco crop next season.

Mr. R. C. Wayne was in New Bern yesterday.

Sweet Roses.

The SPORTING WORLD

Miss Hecker to Play Abroad.

Golfers everywhere will be interested to know that Miss Genevieve Hecker, the women's champion golfer of the United States, has decided to go to Great Britain next summer to endeavor to win the international championship title.

Miss Hecker has a good chance to defeat her sister rivals across the big pond, and her many admirers are wishing her success.

MISS GENEVIEVE HECKER, CHAMPION WOMAN GOLFER.

Ing her all kinds of good luck. She is easily the leading woman golfer in this country, having won the title two consecutive years.

Miss Hecker is a native of Orange, N. J., but has for a long time represented the Wee Bum Golf club of Noroton, Conn.

White Sox Lack Manager.

With Clarke Griffith as the manager of the proposed New York American League team next year, Owner Comiskey of the Chicago club is at his wits' end for the man to fill his place. Unless George Davis shall return to the White Sox camp next spring, and this is said to be remote, there is strong likelihood that Comiskey himself may have to direct his charges from the bench.

The Davis end of the matter is said to be about this way: Chicago's shortstop of last year wants to play with McGraw's Giants, and the latter claims to have signed him. Mrs. Davis does not like the west, and her home is near Philadelphia.

With Davis gone Comiskey would have to look outside for a new manager or return to the bench himself. If Davis does not return, it is more than probable that Comiskey will be on the bench directing his players again next summer.

Fencing at the U. of P.

An Italian fencing master is coaching the fencing team of the University of Pennsylvania. He is Leonardo Raphael Terrene, a graduate of the school of Rome and at one time fencing master in the school of Venice. He coaches the Pennsylvania three nights each week. The Quaker team began work recently. They have three of last year's men to begin with—namely, Captain N. L. Knipe, P. H. Castner and L. B. Holland. Pennsylvania's poor showing in the intercollegiate tournament last year is responsible for the coming of Signor Terrene.

Next Year's Quaker Nationals.

This is the team that the Philadelphia National League expect to put in the field next year: First base, Jennings; second base, Glendon, Keister or O'Leary; shortstop, Halvick; third base, Walverton; right field, Flick; center field, Keister or Thomas; left field, Barry; catchers, Dowd, Douglas and one other; pitchers, Fraser, Orth, Dugdale, Iberg, Whiting, Gokey and two others.

Penn's Track Team.

Dr. Shell, the athletic instructor at the University of Pennsylvania, is making extensive preparations for turning out a strong track team. He has but little more than new and untried material to work with, but it is all promising. Amster, Dear, Baird, Bowen, Ballice and Westney are said to be a good nucleus with which to work.

Detroit For Mullin.

Pitcher Mullin, who has recently been on a hunting expedition with Jim McGulre and Chick Stahl in Michigan, says that he turned down the offer from the owners of the Cardinals and reiterates that he is entirely satisfied with the terms submitted by President Angus and will be with Detroit next season.

More Henley Talk.

The action of the stewards of the Henley regatta in trying to keep Cornell from entering a crew next July is not approved by thorough sportsmen in England, who say that the English should be able to defeat the best amateurs in the world.

Naval Academy Football Captain.

Carl Soole, who will captain the "midshipmen" kickers next year, obtained his football knowledge at the Brookline (Mass.) High school. Farley, who will probably play left tackle, a brother to the Harvard coach and also came from Brookline.

DISTRESSING STOMACH DISEASE.

Permanently cured by the masterly power of "SOUTH AMERICAN NERVENO-TONIC." Invalids need suffer no longer, because this great remedy can cure them all. It is a cure for the whole world of stomach weakness and indigestion. The cure begins with the first dose. The relief it brings is marvelous and surprising. It makes no failure; never disappoints. No matter how long you have suffered, your cure is certain under the use of this great health-giving force. Pleasant and always safe. Sold by C. D. Bradham, Druggist.

FOR THE CHILDREN

Pretty Christening.

Frequently when a vessel is to be christened there is a discussion as to whether wine or water should be used. It is an old, old custom, the using of wine, and there is a strange superstition that water will bring ill luck. A far prettier christening took place the other day than the breaking of a bottle of champagne or water. A ball of flowers was substituted, and as it touched the vessel it opened and out flew two pure white doves that circled about the tiny launch. They finally disappeared over the bay.

Such a christening seemed especially appropriate in this instance, for the boat had been built to carry little sleek babies from New York across to Staten Island, where there is a home for them. It is kept up by St. John's guild, and this vessel was given as a present by a gentleman interested in the work. It was christened by his wife, and her idea was so prettily conceived that it would do well as a permanent substitute for the wine or water.—Pittsburg Dispatch.

A Faithful Friend.

At Albany, N. Y., there lives a blacksmith whose particular pet is an English mastiff. One day the blacksmith was working at his forge putting a new steel in the point of a pick. The steel was slightly burned in the heating, and instead of welding it flew into half a dozen pieces. One piece struck the blacksmith with such force as to fasten itself firmly in above the right eye. The blacksmith staggered and fell backward. How long he was unconscious he does not know, but when he came to he saw the mastiff in the middle of the shop. The dog was crying almost like a human being and was rubbing his jaws in the dust on the floor. The piece of steel that had struck the blacksmith was on the floor a few inches from the dog. The faithful animal had seized the hot steel with his teeth and had drawn it from his master's forehead. The dog's mouth was badly burned. As for the blacksmith, strange as it may seem, he is in a fair way to recover.

A Great Memory.

Little Samuel Arthur Moser of Chicago, who is only eight years old, shows a wonderful power of memory. The faculty seems to be a natural one, as his memory has never been cultivated. The boy has been in the public schools for two years and prior to that time spent two years in a kindergarten. When he was but five years of age, his playmates noticed his wonderful aptitude for figures and dates. He knows the names of all the presidents, the dates of their births and deaths and can add imposing sums by mental arithmetic. He has at his tongue's end a mass of geographical and historical information and seldom stumbles in an answer. He is a great reader of the Bible, historical works and the daily newspapers and often has to be literally driven from reading to his bed. The boy is in perfect health and spends much of his time on his bicycle.

A Breath Injane.

Take a piece of cardboard and with a sharp penknife cut some kind of figure. When it is cut out, lay the cardboard from which you cut the figure upon a well cleaned piece of glass and breathe on it. Leave the cardboard resting on the glass until the breath first blown on it has evaporated. Then carefully lift the cardboard and breathe the again over the piece where the figure lay and you will see the image appear on the glass.

When the breath is blown on the second time, it covers, besides the figure, a portion of the glass not touched before, and, since the spot where the picture stands was twice breathed upon, it has a greater density than the surrounding portion. Thus the figure stands out clearly by contrast.

Earning an Education.

One hundred and one of the students of Columbia university worked at various employments last summer to earn money with which to continue their schooling. The total sum earned by the 101 was \$15,531.05.

There is a committee at Columbia which aids needy students by helping them to get employment. Almost nothing was refused by these young men, who had determined some way to get along. One boy earned \$270 as a companion to boys. Another made \$104 as a farm hand. One made \$40 and expenses as an attendant at a summer resort, and another earned \$175 as an insurance agent. Almost every kind of work was represented by these boys.

Dread of Cats For Dogs.

The instinctive fear which cats have of dogs is illustrated very amusingly by stroking a dog and then caressing a blind and new born kitten with the same hand that has touched the dog. At once the kitten will spit and snuff itself up in the most absurd way, distinguishing the smell of the beast which experience for thousands of generations has taught it most to dread.

Warning.

My papa tells me if I rout and keep my lips "all sticking out" they'll freeze that way some day, and then they never will unfreeze again.

So, boys and girls, you'd better try to be as full of fun as I!

Then if your face should freeze and stay your folks would love you anyway.

—St. Nicholas.

Strong Enough.

Small Son—Mamma, may I go skating?
Mamma—The ice is very thin yet.
Small Son—Well, I'm pretty thin too.
—Good News.

One Hundred Dollars a Box

is the value H. A. Tisdale, Summertown, S. C., places on DeWitt's Witch Hazel Salve. He says: "I had the piles for 20 years. I tried many doctors and medicines, but all failed except DeWitt's Witch Hazel Salve. It cured me." It is a combination of the healing properties of Witch Hazel with antiseptics and emollients; relieves and permanently cures blind, bleeding, itching and protruding piles, sores, cuts, bruises, eczema, salt rheum and all skin diseases. F. S. Duffy.

HINTS FOR FARMERS

A New Idea For Potato Growers.

One of the enterprising farmers in Kennebec county, Me., is the one, C. Jacobs, and among his specialties in the agricultural line is raising potatoes. He has been very successful in producing the earliest to be found in the market. The past season he succeeded in raising two good crops on the same piece. The ground was thoroughly plowed the previous fall. In the spring it was harrowed until the earth was fine and light, and when ready for planting phosphate was dropped in the hills to the amount of one ton to the acre.

The potatoes for seed were brought up from the cellar the last of February or first of March and placed in a light cool room, so that when they were planted they had large root sprouts and well developed leaves. As soon as the soil was warm enough they were placed in the ground. His crop did not diminish any more than the potatoes were planted, and very soon the leaves began to push up toward the light and air. They were kept free from weeds and bugs until the middle of July; then Mr. Jacobs began marketing them, largely at a dollar per bushel.

Meanwhile a second lot of potatoes had been sputtered the same as the others and planted the first of July between the rows, so that when the first crop was dug they had the second lot, which was already above the ground. In September the second crop was harvested. From the first planting Mr. Jacobs raised at the rate of 300 bushels per acre, from the second 100 bushels. The variety used was the New Queen, and the only fertilizer was phosphate.—American Agriculturist.

The Prices of Breeders.

Some people who would like to invest in improved live stock have been scared a little by the high prices paid for fancy individuals. They seem to think that there is no use in trying to get improved stock at reasonable figures. This is all wrong. Good breeding stock can be bought today at prices that bear a proper relation to the value of market animals. It is not necessary now and it never was for the breeder of grades to pay extravagant prices for pure bred sires, no matter what kind of live stock he is producing. The sale of fancy animals, with pedigrees in the height of some craze, affords no criterion of the market for pure bred stock. Further, it is not merely unnecessary for the breeder of grades to pay extremely high prices, but it is usually unwise to do so. It is also unwise and dangerous to pay extremely low prices. The seller of an article knows its value, and when he offers a pure bred animal at or near slaughter prices it is often worth less than that. Be judicious but not parsimonious in buying sires.—Stockman and Farmer.

Protect Your Friends.

If we would stay the ravages of insects, we must employ nature's greatest insecticides—birds. To do this will require only a few simple laws, but a public opinion that will compel their enforcement. The farmers themselves often destroy their best friends and then complain of bugs and worms that destroy their crops or reduce them below the point of possible profit. Farmers can cease this injurious foolishness, and they can compel the exemption of their farms and lands from the depredations of the bird killer. They will do neither one nor the other until they realize the importance to themselves of doing so. To solve this problem is to effectively educate the people on the subject. Their proper laws may be made and enforced. By so doing we can attack not only the bird itself, but all other insect pests in their most vulnerable point.—Farm and Ranch.

The Gypsy Moth.

People in Massachusetts are becoming a little anxious over the rapid increase of the gypsy moth since the campaign to exterminate was stopped three years ago. The pest is likely to give a great deal of trouble soon. Why not government and state combine forces, as in the case of the present cattle epidemic? Let congress be urged to make a liberal appropriation conditioned on help by the state. The state cannot finish the work alone, but both in co-operation could handle the job without putting much of a load on taxpayers.—American Cultivator.

Tobacco Dust and bees.

Last summer I was induced to try tobacco dust on my melon and cucumber vines as a protection against the striped beetle and am satisfied that while it proved most effective in that regard it also deterred the pollenizing insects from visiting the flowers as they are wont to do. My crop of melons and cucumbers suffered in consequence of its use. True, the weather was unpropitious, but I noticed that while the bees, etc., were plentiful in other parts of the garden they seemed to give the melon and cucumber flowers the "go by."—Cor. Rural New Yorker.

Why He Moved His Barn.

We came across the historic man the other day who had actually moved his barn to get rid of the piles of manure. His crops were poor enough and needed all the fertilizer he could get, but he had to put in so much time saving the country, running to town and fishing that he had to move his barn to get rid of the manure.—Farmers' Guide.

When a Horse Gorges Himself.

If a horse breaks into the crib or bin and gorges himself on grain, give him a good dose of oil. Castor oil, sweet oil, cottonseed oil and lincseed oil are all good. To give him water on a grain gorged stomach will insure an aggravated case of founder.

GRAIN AND TRACK.

The new east and west Cuban railway, which is near completion, is 300 miles long.

All but one of the six great railroad systems of France have a terminus in Paris, and it is not often easy to travel between important places on different systems without going to Paris.

The management of a Virginia railway has issued a notice that in future no unmarried men will be employed on the lines and that all men seeking employment must be married and at least thirty years of age.

Your money back

If you are not satisfied

DO YOU SUPPOSE that a company with a capital of \$600,000.00, paid in full, and the proof reputation of 25 years of continuous success, would make such an offer and not carry it out to the letter?

DO YOU SUPPOSE we would jeopardize our standing with the public and our chances of still greater success by failing to fulfil any promise we make?

DO YOU SUPPOSE we would make such an offer if we did not have the utmost confidence in the satisfactory quality of our goods?

WE KNOW we can please you and save you money, for HAYNER WHISKEY comes direct from our distillery to you, with all its original richness and flavor, carrying a UNITED STATES REGISTERED DISTILLER'S GUARANTEE OF PURITY AND AGE and saving you the big profits of the dealers. That's why it's the best for medicinal purposes. That's why it's preferred for other uses. That's why we are regularly supplying over a quarter of a million satisfied customers. That's why YOU should try it.

Direct from our distillery to YOU

Saves Dealers' Profits! Prevents Adulteration!

HAYNER WHISKEY

PURE SEVEN-YEAR-OLD RYE

4 QUARTS \$3.20 EXPRESS PREPAID

We will send you FOUR FULL QUARTS of HAYNER'S SEVEN-YEAR-OLD RYE for \$3.20, and we will pay the express charges. When you receive the whiskey, try it and if you don't find it all right and as good as you ever drank or can buy from any body else at any price, then send it back at our expense and your \$3.20 will be returned to you by next mail. How could we offer so easy a trial? We take all the risk and stand all the expense of the goods not please you. Won't you let us send you a trial order? We ship in a plain sealed case; no marks to show what's inside.

Orders for Calif., Cal., Idaho, Mont., Nev., N. Mex., Ore., Utah, Wash. or Wyo. must be on the order 4 Quarts for \$4.00 by Express Prepaid or 20 Quarts for \$16.00 by Freight Prepaid.

WOOD'S Garden Seeds

Best for the "Sunny South," because they are specially grown and selected with full knowledge of the soil conditions and requirements of the South. Twenty-five years experience and practical growing of all the different vegetable plants has led to know the very best, and to select seeds that will give pleasure, satisfaction and profit to all who plant them.

Wood's New Seed Book for 1903 (Mailed on request) is full of good things, and gives the most reliable information about all seeds, both for the Farm and Garden.

T. W. WOOD & SONS,

Seedsmen, Richmond, Va.

WOOD'S SEED BOOK also tells all about Grass and Clover Seeds, Seed Potatoes, and all Farm Seeds.

Write for Seed Book and prices of any Farm Seeds required.

PENNYROYAL PILLS

Original and Only Genuine

WATERBURY'S ENGLISH PILLS FOR CHICKEN POX, ENGLISH COLIC, BRUISES, SWELLINGS, RHEUMATISM, GOUT, GRAVEL, NEURALGIA, MIGRAINE, HEADACHE, DYSPEPSIA, INDIGESTION, BILIOUSNESS, CONSTIPATION, AND ALL AFFECTIONS OF THE BOWELS.

Eight United States Senators, Messrs. Aldrich, Burdick, Dillingham, Foster, Gilman, Hear, Perkins and Platt of Connecticut, all of New England birth, attended the dinner of the New England Society of Philadelphia.

Those individuals who profess to believe that an active man should retire from work at fifty will be interested in Colonel Thomas Wentworth Higginson's statement that he has never been busier than during the past year, and the industrious colonel is seventy-nine.

King Oscar contributed an article to the Christmas publication of the Swedish Authors' union, in which he discusses his own writings in fiction and poetry. He states that he loved verse from childhood and that as a member of the royal navy he was inspired to attempt to produce it.

Negroes are good cooks in Africa as well as in America. A recent tourist declares that the average negro family in the Sudan enjoys much better cooked meals than the average American family. Palm oil and cayenne pepper are ingredients in most of their dishes, and these are considered almost a specific against dyspepsia.

Dr. Woolley's OPIUM

Whiskey Cure

SENT FREE to all who send for a bottle of morphine, opium, laudanum, extract of opium, etc. Large book of parables, "The Story of the Opium Trade," and "The Opium Trade in America," sent free to all who send for a bottle of Dr. Woolley's Opium Whiskey Cure.

STORK TIME

to women is a term of much anxiety, serious thought and sweet anticipation. Pain and Gloom, love and joy, come ever changingly.

With the cessation of pain necessary to childbirth comes calm nerves, sleep, recuperation.

MOTHER'S FRIEND

diminishes the pain accompanying maternity. With its aid mothers can bring healthy babies into the world. Take away the pain of childbirth and you have bliss and contentment. Morning sickness, sore breasts and other excruciating pains caused by the gradually expanding organs are relieved by this remarkable soothing balm.

Among the manifold aids to childbirth, *Mother's Friend* has grown in popularity and gained a prestige among rich women, as well as poor; it is found and welcomed in the mansion as well as the cabin.

Children, strong intellectually and physically is a duty every pregnant woman owes society.

By lessening the mother's agony of mind and diminishing pain a beautiful innocence is wrought upon the child, and instead of perishing through the birth, the child you have brought into the world remains a blessing ever after to you and its country.

Try a 4¢ bottle. Druggists everywhere sell *Mother's Friend*.

Write us for our new book "Motherhood."

THE BRADFIELD REGULATOR CO.,

Atlanta, Ga.

Always Croup Syrup

Will cure baby's Cough or Croup and do it safely. Mothers endanger their children's lives by giving them the ordinary cough syrups. ALWAYS is made for children's Coughs and Croup and sells for 25 cents a bottle. Try it. Guaranteed. Sold by ALL DRUGGISTS.

SLOW-HEALING SORES

Slow healing sores are unsightly, painful and dangerous. They are a constant care and source of anxiety and worry.

Chronic, slow healing sores are frequently the after effects of some long debilitating sickness that leaves the constitution weakened and the blood in a polluted, run down condition, when a scratch, cut, simple boil or bruise, becomes a fearful looking ulcer that grows and spreads, eating deeper and deeper into the flesh in spite of everything that can be done to check its progress. Old people whose blood is below the standard and the circulation sluggish, are often tormented with face sores, and indolent, sickly looking ulcers upon the limbs that give them hardly a moment's rest from pain and worry.

Ordinary sores Purify the Blood and Heal the Sore, when the blood is too weak to throw off the germs and poisons, and no amount of external treatment will heal them, but they continue to grow worse and worse, and many times terminate in that most horrible of all human maladies, Cancer.

S. S. S. cures slow healing sores by purifying and invigorating the germs laden, vitiated blood, and purging the system of all corrupt matter, thus striking at the real cause and removing every hindrance to a rapid cure, and this is the only possible way to reach these deeply rooted, dangerous places. S. S. S. strengthens and tones up the circulation, and supplies rich, nutritious blood for the rebuilding of the constitution and healing the sore, when you get rid of the old plague spot for all time.

If you have a slow healing, stubborn sore, write us about it, and our Physicians will advise you without charge.

The Swift Specific Co., Atlanta, Ga.

SSS
