

THE NEW CENTENARY.

The Erection of a Handsome Church Edifice by Methodists is Assured.

There has been a good deal of talk in a quiet way about the project on foot by Centenary Methodist Church of this city for the erection of a place of worship in keeping with the strength and standing of the body here.

A meeting was held at the church last night, presided over by the pastor Rev. R. F. Bumps. This was not the first one held for the purpose of raising the money but it was the first of a real public nature.

The subscription of the church members is a general one, such indeed being the special desire, each according to his means. Yet to the public at large the raising of such a large sum of money is of interest, for of course some would have to give largely.

At the present time the sum provided for is \$22,120.25, the cost of the building is set at \$30,000, a superb structure, an ornament to the city, modern in appearance and in conveniences.

The site has not been allowed to be brought forward prominently yet. A splendid location is available in the parsonage lot corner of Middle and New streets. If this is not selected an equally choice one will be selected.

The building committee and the subscription committee are called to meet this afternoon and tonight, to take such measures to push on the good work.

Take a bath in Hancock's Liquid Sulphur. They are superior to those of the most celebrated Sulphur Springs, having the additional advantage of being made of a desired strength. They will cure Prickly heat, Eczema, and all skin diseases. For sale by F. S. Duffy.

Two Well Known Birds. The Sporting News of the 7th inst. contains the following taken from the Providence, R. I. Telegram:

"Fred Applegate, last season the pitching sensation in the Virginia-North Carolina League, and later with Newark in the Eastern League, has signed a Worcester contract. Last night Manager G. W. Wrigley, of the local team received the document that makes Applegate a member of the Worcester team.

Also another player who has made quite a "hit" in the base ball world is Hopkins, the left handed pitcher who was with Wilmington and New Bern teams 1901. Hopkins has been bought from the Southern League, where he was considered one of the stars last season by the Detroit club of the American League.

DeWitt's Witch Hazel Salve. The only positive cure for blind, bleeding, itching and protruding piles, cuts, burns, bruises, eczema and all abrasions of the skin. DeWitt's is the only Witch Hazel Salve that is made from the pure, unadulterated witch hazel—all others are counterfeits. DeWitt's Witch Hazel Salve is made to cure—counterfeits are made to sell. F. S. Duffy.

A Hat Tragedy. Not long ago a lady was choosing a hat, with the usual uncertainty of mind as to the kind of hat she wanted or whether, indeed, she wanted a hat at all. After trying on nearly every model in the shop she pounced with glee on one she had overlooked. "Here's something pretty," she said. "Why did you not show me this before?" Without waiting for an answer she appealed to her patient friend. "There's some style about this, isn't there? How do I look?" The friend distinctly smiled. "It makes you look a hundred, and it's very dowdy," she said.

The other tried the hat at another angle. "It is rather dowdy," she admitted at this juncture. "Perhaps I won't risk it after all."

A voice from behind her made its third attempt to gain a hearing. "If you've quite done with my hat," it said very bitterly, "I should rather like to put it on!"

The Western Reserve. In the early days of the Hayes administration, when Mr. Everts was secretary of state, the members of the cabinet were discussing matters in an informal way one morning when the president mentioned that he had made a few appointments without consulting his official family, the appointees being personal friends. All the places filled happened to fall within the state department. Secretary Everts turned to John Sherman and said, with a twinkle in his eye, "I have often heard and read about the western reserve of Ohio, but I must confess that I have never seen any of it."

DeWitt's Little Early Risers do not grip or weaken the system. They cure biliousness, jaundice, constipation and inactive livers, by arousing the secretions, moving the bowels gently, yet effectively, and giving each tone and strength to the glands of the stomach, liver and bowels that the cause of the trouble is removed entirely. These famous little pills exert a decided tonic effect upon the organs involved, and if their use is continued for a few days there will be no return of the trouble. F. S. Duffy.

FOR THE CHILDREN

Two pints make one quart, two quarts—no, four quarts make one peck; eight pecks make one gallon.

"You're not getting that right," interrupted Janet. "Pecks don't make gallons. You mean eight pecks make a bushel. Oh, dear, I wish mamma didn't make us learn them!"

Mamma came in from the next room. "Put on your things and take a run, children, just to get freshened up a bit," she counselled.

The two sisters were running races with the spaniels, Dot and Dot, when they heard mamma's voice.

"Oh, dear, now it's pecks and pints and bushels again!" grumbled Madeline as she led her sister a chase up the stairs. She stopped short at the school-room door and gazed at the table in wonderment.

"Wh-y?" gaped Janet over her shoulder. "On the table was an array of cups and glasses and boxes, a large pail of sand and another of water. The mother smiled to see their faces.

"We'll learn about the measures in a new way," she said. She pushed the glasses and tin pails to one end of the table, beside the water. "Those are to measure liquids in," she explained. "We will take water for our liquid and play it is milk."

"Oh, that will be fun!" cried Madeline. "May I measure it out in those cunning glasses?"

"Yes, you can take charge of the 'milk,' and Janet may have the dry measure end of the table, and she can learn to measure out salt and pears and apples."

"It is only sand," laughed her sister. "Just as much salt as your water is milk," returned Janet, good naturedly. "What delightful work it was!"

Madeline took the little gilt glass and filled it four times to make the pint cup full to the brim. Then that had to be filled twice and poured into the quart bowl and the bowl four times before the big gallon pail was full.

Madeline Janet had been conquering the dry measure table with her sand and her pretty, round, coverless boxes. The girls changed sides, and the fun went on till dinner time. The next day the girls took turns in keeping grocery store. The trade was very brisk, and before the day was over both sisters knew dry and liquid measures perfectly. —Emma C. Dowd in Youth's Companion.

Cross Answers. This is not a noisy game, but it is a very amusing one nevertheless. It may be played by any even number of persons, with an odd one for leader.

The players seat themselves in two lines, facing each other exactly. The leader may walk up and down between the lines or stand off on one side, as he pleases. He should be a good talker, alert and quick witted.

When the players have all been seated, the leader calls out the name of some one of the players and asks him or her a question. Now, this player must not answer, even by one word. The answer must be made by the player or opposite to him before the leader has time to count ten.

If a person whose name is called answers the question or even begins an answer, he must take the leader's place, the leader taking his. And a similar penalty is to be paid by the opposite person if he fails to answer before the leader counts ten.

The leader must, as we have said, be quick and alert, it being his object to catch some one off his guard. If the question is properly answered, the leader asks a question of some other player, and so on until some one trips.

President Roosevelt on Boys. No boy can afford to neglect his work, and with a boy work, as a rule, means study. I am no advocate of senseless cramming in studies, but a boy should work and should work hard at his lessons, in the first place for the sake of the effort upon his own character of setting to learn it. Shiftlessness, slowness, indifference in studying, are all more certain to mean inability to get on in other walks of life. Of course as a boy grows older it is a good thing if he can shape his studies in the direction toward which he has a natural bent, but whether he can do this or not he must put his whole heart into it. I do not believe in mischief making in school hours, as this is the kind of animal spirits that makes poor scholars, and I believe that those boys who take part in rough, hard play out of school will not find any need of it.

And the Candies Too. It was Harriette's twelfth birthday, and she had been promised a party, but as her mother was sick on that day all the company she had was two little girls of her own size. One of her presents was a birthday cake with seven candles on it. After the children had eaten all the cake Harriette went very quietly to her mother and said:

"Mamma, when is it time to eat the candles?"—Ocella Colby in Little Chronicle.

A Sailor's Fish Test. Sailors have a very simple and a very certain way of finding what kind of fish is suitable to eat which they may happen to run across. In the water in which the fish is boiled is placed a bright silver coin. If the coin retains its natural color during the boiling, the fish is good to eat, but if it turns dark the food is rejected.

Keenest Soldier in the Army. Frank A. Bonner, who has just reached the age of sixteen, is the youngest soldier in the United States army. He was enlisted under a special dispensation and will be detailed as a bugler to either the Fourth or the Eighth cavalry.

The Easy Pill. DeWitt's Little Early Risers do not grip or weaken the system. They cure biliousness, jaundice, constipation and inactive livers, by arousing the secretions, moving the bowels gently, yet effectively, and giving each tone and strength to the glands of the stomach, liver and bowels that the cause of the trouble is removed entirely. These famous little pills exert a decided tonic effect upon the organs involved, and if their use is continued for a few days there will be no return of the trouble. F. S. Duffy.

FACTS IN FEW LINES

The vineyards of Germany aggregate 238,025 acres. The nationality suffering most from cancer is the German.

Insurance against automobile accidents can now be had. York's ancient city moats will probably be laid out as public gardens.

A new anesthetic preparation is known chemically as alkylxyphenylquindin. Chemical vinegar, catsup and table sauces contain no vegetable matter whatever.

There were 7,956 street accidents last year in London. Ten years ago the number was 4,890.

Baden-Powell Makepeace was the name of a little girl who died recently at Bendigo, Victoria.

Brick kilns are now fired with petroleum, 100 pounds of oil being sufficient to burn a ton of bricks.

There are nearly 80,000 Welsh residents in Liverpool, where it is proposed to found a Celtic chair at the university college.

Nine eyes and three mouths were possessed by a collie puppy born recently at Henley, England. It only lived four hours.

After his marriage the rector of Warkham, Yorkshire, England, sent a pound of wedding cake to every householder in his parish.

There are 300 places of public worship on Manhattan Island. There is a reported membership, Protestant and Catholic together, of 635,342.

Owing to the increased price of coal several British boards of guardians have decided to give an extra sixpence weekly to the recipients of outdoor relief.

For uttering a strong expression of disapprobation while quarreling with a constable at Vienna a nobleman has been fined 10s. 6d. for insulting the police.

Forty-two packets of cigarettes were smoked in four days by a youth of eighteen who has died near Bedale, Yorkshire, England, after two days' illness.

After being hooked in the river Eden a large salmon was "played" for five hours by three men, who relieved each other. Eventually the line broke and the fish escaped.

Potomac poisoning, the result of eating part of a banana, a roasted apple and a date, has caused the death of Arthur H. Lutz, aged two, at Eiland, Yorkshire, England.

At Alzen, in Hesse, the other day a prominent tradesman was sentenced to twenty-four hours' imprisonment for the "grave irreverence" of reading a newspaper in court while a case was under trial.

In 1827 a salmon weighing eighty-three pounds was caught in the Tay. This is the record British fish. The largest American salmon on record was eighty-two pounds. It was caught in 1833 in the Columbia river.

As it was apparently suffering from indigestion a bullock was slaughtered near Spalding, England, when its illness was found to have been caused by a tennis ball it had swallowed.

Six pounds weight of spent bullets, three pieces of steel, a nail, a hairpin, some glass and small stones were found in the stomach of a horse which died suddenly at Ferntree Gully, Victoria.

French journals speak of a substance which, when placed upon the roads, does away with mud and dust. The composition consists of a mixture of scoria from a blast furnace and tar. The preparation, carefully pressed, renders the surface of the road impervious to water.

Despite opposition at Athens, where the press was strongly opposed to the scheme, the municipal council of Corfu has ratified the contract which the mayor of Corfu made with a syndicate of European capitalists to allow the establishment at Corfu of a gambling casino on an elaborate scale.

In many country villages and isolated sections of the New England and the middle states woman still may be found who earn a living by spinning and knitting wool and by weaving and knitting rag carpets and rugs. There is quite a revival in demand now for nicely made rag rugs in some localities.

One of the largest genealogies ever undertaken has been partly completed at Oxford in the history of the Smith family. The investigations have not been carried beyond the fourteenth century, although Professor Mahaffy discovered a record of a brewer named Smith in a Pteris papyrus dated two centuries before the Christian era.

Countess Lonyny and her daughter, Princess Elizabeth Windisch-Grätz, have determined to erect a monument in the grounds of Hetzendorf castle, near Vienna, in memory of the late queen of the Belgians. The permission of the emperor will have to be obtained prior to the erection of the statue, but no difficulty is anticipated on that score.

The principal powers of Europe are about to adjust the differences in their domestic laws on the subjects of marriage, divorce and the guardianship of minors. The only powers that have not joined in the movement are Great Britain, Turkey, Greece and Serbia.

France, Germany, Russia, Italy, Spain and nearly all the smaller states have taken part in the conferences and consequent plans.

During a trial in Paris between the partners of a corset firm the defense revealed that one of the branches of their manufacture was men's corsets. The judge, having demanded an explanation, it was shown that more than 18,000 corsets were made yearly for Frenchmen, and 3,000 were shipped to England, principally for army officers.

German officers also created quite a demand until a rival Berlin firm offered a cheaper article.

Strange Ideas of Beauty. Babies in Fendish have the back of the head flattened artificially by their mothers, and as another mark of beauty their noses are sharpened and a dimple formed on their chin. The head is flattened by making the child sleep with it on the hard soil or inside an earthenware pot. Each day the mother presses the nose with her fingers to make it long and pointed and indents the chin long a stem. In some cases the legs are straightened by means of bands. In America the Chinooks flatten the forehead.

Low Death Rate. In a population of 245 only one death has occurred since the beginning of the present century at Fridlaythorpe, in the Yorkshire East Riding, England.

Distressing Stomach Disease. Permanently cured by the mastery power of "SOOTH AMERICAN NERVINE TONIC." Invalids need suffer no longer, because this great remedy can cure them all. It is a cure for the whole world of stomach weakness and indigestion. The cure begins with the first dose. The result is marvelous and surprising. It makes no failure, never disappoints. No matter how long you have suffered, your cure is certain under the use of this great health-giving force. Pleasant and always safe. Sold by C. D. Bradham, Druggist.

PEOPLE OF THE DAY

Studying Our Business Methods. Lord Charles Berosford, admiral of the British navy, who arrived in New York early in January, has denied that his visit to America has anything to do with the shipping combine. In an interview he said that the report that he was to take a position with the International Mercantile Marine company was untrue. Lord Charles came over to study the business methods of our great manufacturing and mercantile concerns. He says it is in the administrative element that business methods in America excel. "We in England do not know how to adminis-

"We in England do not know how to adminis-

trate our business methods," Lord Charles Berosford, admiral of the British navy, who arrived in New York early in January, has denied that his visit to America has anything to do with the shipping combine. In an interview he said that the report that he was to take a position with the International Mercantile Marine company was untrue. Lord Charles came over to study the business methods of our great manufacturing and mercantile concerns. He says it is in the administrative element that business methods in America excel. "We in England do not know how to adminis-

Uncle Sam says it's all right

Uncle Sam, in the person of ten of his government officials, is always in charge of every department of our distillery. During the entire process of distillation, after the whiskey is stored in barrels in our warehouses, during the seven years it remains there, from the very grain we buy to the whiskey you get, Uncle Sam is constantly on the watch. We dare not take a gallon of our own whiskey from our own warehouses unless he says it's all right. And when he does say so, that whiskey goes direct to you with all the original strength, purity and flavor, carrying a UNITED STATES REGISTERED DISTILLERS GUARANTEE OF PURITY and AGE, and saving the dealers' enormous profits. That's why HAYNER WHISKEY is the best for medicinal purposes. That's why it is preferred for other uses. That's why we have over a quarter of a million satisfied customers. That's why YOU should try it. Your money back if you're not satisfied.

Direct from our distillery to YOU Saves Dealers' Profits! Prevents Adulteration!

HAYNER WHISKEY PURE SEVEN-YEAR-OLD RYE 4 FULL QUARTS \$3.20 EXPRESS PREPAID

We will send you FOUR FULL QUART BOTTLES OF HAYNER'S SEVEN-YEAR-OLD RYE for \$3.20, and we will pay the express charges. Try it and if you don't find it all right and as good as you ever used or can buy from anybody else at any price, send it back to our express and your \$3.20 will be returned to you by next mail. Just think that over. How could it be better? If you are not perfectly satisfied, you are not out a cent. Better let us send you a trial order. If you don't want four quarts yourself, get a friend to join you. We ship in a plain sealed case, no marks to show what's inside.

Orders for Ariz., Cal., Col., Idaho, Mont., Nev., N. Mex., Ore., Utah, Wash. or Wyo. must be on the basis of 4 quarts for \$4.00 by Express Prepaid or 30 Quarts for \$12.00 by Freight Prepaid.
