THERE IS NO SUBSTITUTE

A NOBLE CAUSE.

An Orphan's Home Established at Greensboro.

A charitable institution known as the North Carolina Children's Home Society located at Greensboro has been incorporated in this State. It has for its object the harboring of homeless children with a view to providing them with good care and attention until they are adopted or are able to take care of themselves.

The institution is a noble one and one that is greatly needed. Its affairs are conducted on a business basis with business men to conduct them. It is not sectarian but the children are all reared with a careful moral and religious training. Mr. W. B. Streeter is the Superintendent of the concern.

The organization has operated in many States and every where good results are being reported. The need of an institution of this nature is very apparent in every State of any size and while it is charitable, people should not begrudge the money given this worthy cause.

Boxes have been placed in drug stores and hotels of this city to receive the contributions of all who are disposed to give. There is also an opportunity given to any one to adopt a child as there is always a supply of children who have lost their parents and are awaiting a good home.

In soliciting aid the management feel that they have a right to ask the support of the people of the State. The orphan children who have no other means of support must be supported by such an institution and in turn the institution should receive proper encouragement from the people. The children are to grow up and become citizens it therefore behooves us to be liberal to this cause.

The many friends of Mrs. Azeta Palmer will be pained to learn of her serious illness. Mrs. Palmer was stricken very suddenly with paralysis, Tuesday morning about 8 o'clock and is now critically ill.

FALLING HAIR

Save Your Hair with Shampoos of

Cuticura Soap and Dressings of Cuticura,

Purest, Sweetest, Most Effective and Economical Remedies

For Making the Hair Grow when All Else Fails.

Prevent baldness and cleanse the scalp of crusts, scales and dandruff with shampoos of Cuticura Soap, and light dressings with Cuticura, purest of emollients and greatest of skin cures. This treatment at once stops falling hair, removes crusts, scales and dandruff, destroys hair parasites, soothes irritated, itching surfaces, stimulates the hair follicles, loosens the scalp skin, supplies the roots with energy and nourishment, and makes the hair grow upon a sweet, wholesome, healthy scalp when all else fails.

Millions now rely on Cuticura Soap, assisted by Cuticura Ointment, the great skin cure, for preserving, purifying and beautifying the skin, for cleansing the scalp of crusts, scales, and dandruff, and the stopping of falling hair, for softening, whitening and soothing red, rough, and sore hands, for baby rashes, itching and chafing, in the form of baths for annoying irritations and inflammations or too free or offensive perspiration, in the form of washes for ulcerative weaknesses, and many sensitive, antiseptic purposes, which readily suggest themselves to women and mothers, as well as for all the purposes of the toilet, bath, and nursery. Sale greater than the world's product of other skin cures. Sold throughout the civilized world.

CAUSED NO STIR

The Habeas Corpus Proceedings of Haywood Counsel.

Railroad Wreck Blocks Travel. The School House Loan, Educational Matters. Marriage. Prisoners For Penitentiary.

RALEIGH, May 13.—The move of counsel for Ernest Haywood for a writ of habeas corpus to be heard before Judge R. M. Douglas here May 21st has not aroused the interest here that previous incidents in this noted affair excited. The matter has by no means become the sole topic of conversation though the public does not appear indifferent.

The counsel for the prosecution, Solicitor W. E. Daniel of Weldon, Senator Jno. E. Woodard of Wilson, Senator Donnell Gilliam of Tarboro, Senator H. E. Norris of Raleigh and R. C. Strong, Esq. of Raleigh, were all here this morning for a conference. Only one, Mr. Norris, was in the city when the writ was issued yesterday. One of the prosecuting counsel when asked if he was surprised at the application for the writ replied:

"Of course we understand the object of the defense. The only matter of surprise was that after Haywood had remained in jail all this time they should show their hand so near the court term."

All the prosecuting counsel expressed confidence that the assurance of this writ would be successfully resisted and Haywood would remain in jail. One of Mr. Haywood's counsel said their only reason for this delay in asking bail was to get this case properly prepared. Now they had the evidence in hand and their witnesses would be here. Mr. Jno. C. Winder of Columbus, Ohio, brother-in-law of Ludlow Skinner, the deceased, has been here since Saturday.

A wreck on the Seaboard Air Line at Merry Oaks last night blocked the track until 8 o'clock this morning. A coal car jumped the track and a dozen freight cars were derailed. A tramp, stealing a ride, was killed, his head being nearly severed from his body. No one else was injured and the track is now clear.

Prof. E. C. Brooks of the Supr. of Public Instruction's office announced today "In a few days rules and regulations governing the \$300,000 loan fund for building school houses will be adopted by the State Board of Education and then blank applications will be sent to the counties in order to secure information about the districts desiring to borrow the money. No loans will be made until these blanks are filled out and returned."

There are now 110 local school tax districts in the State and 30 more are to vote on the question while 136 others are considered favorable to local taxation and work will be directed largely towards the latter. Letters have been sent to the County Superintendents to arrange rallies in these districts. Westfield, Curry county, voted a graded school tax yesterday and an election will probably be called in Louisburg today.

Gov. Chas. B. Aycock delivered the commencement address at Franklinton last evening.

Two negroes are received at the penitentiary to serve 12 years each for horse stealing in Cabarrus.

Mr. Franklin Sherman, the State Entomologist, and Miss Grace Berry were married at Asheville, Va., last evening and will be at home here after May 17th.

Miss Elizabeth Cheshire, daughter of Bishop Cheshire, has returned from Europe.

B. C. Beckwith has returned from the meeting of the board of internal improvements at Wilkesboro. He declares that the hotel at Wilkesboro is fine, Judge Boyd to the contrary notwithstanding. Mr. Beckwith regards the Wilkesboro-Jefferson turnpike as a necessity.

Gen. Theo. F. Davidson will deliver the Confederate Memorial address here next year upon the services of Gen. Robert Vance.

ANTI-SALOON LEAGUE.

Calls For the State Convention in July.

Tracing the Dynamite Suspect. General J. S. Carr's Presentation to Hall of History. Iron Land Examined. Companies Incorporated.

RALEIGH, May 14.—Mr. J. W. Bailey, for the Executive Committee of the North Carolina Anti-Saloon League issues a call for a State convention to meet here July 7th next.

The purposes of the convention are 1st, the marshaling of the temperance forces for the battle at hand; 2nd, the reorganization of the executive department; 3, the reelection of one or more field men to devote their time exclusively to the campaign; 4, putting the work on an adequate basis; 5, forming the policy of the league. Every one interested in temperance is invited to attend.

The Raleigh police were in a stir last evening searching for traces here of Rosseau or Rasso the man who sent a dynamite machine by express to the steamer Umbria in New York. The first telegram from New York stated that a coat belonging to Rosseau had been left in a tailor shop for repairs and that it bore the name of Cross and Lineban of Raleigh, N. C. Mr. Joe Bland a salesman with this firm remembered waiting on a man of that description about April 22nd and he bought a \$32.50 suit and a Stetson stiff hat. The man attracted attention by his manner and remarked that he would not buy a price Albert because he would be in New York in three weeks.

The description tallied with the Austria would-be-dynamiter except that Mr. Bland thought his customer was taller than 5 feet 8 inches. However, a later telegram last night stated that the suit belonged to R. C. Rivers, who formerly lived in Raleigh.

Mr. Rivers is now in New York in the theatrical business. He was once manager of Senator Marion Butler's paper, then chief clerk to State Auditor Ayer and later manager of the Academy of Music here. He married an actress in Norfolk last summer. Rivers was in the same boarding house with Rosseau in New York.

Gov. Chas. B. Aycock will deliver the commencement address at Winterville in Pitt tomorrow.

General Julian S. Carr of Durham, has presented, through Col. F. A. Olds, to the Hall of History a memorandum of Laws and Agreement made April 18th, 1865, between Gen. Joe E. Johnston and Gen. Wm. T. Sherman. Gen. Carr has also loaned a leaf from Andrew Johnson's shop book when he was a tailor at Greenville, Tenn.

Mr. James F. Royter, son of Dr. W. T. Royter of Raleigh, has returned from the University of Berlin where he has been studying.

Work has been begun remodeling the grand stand at the Fair ground. This building is over 280 feet long and 60 feet broad and the improvements will cost over \$2,000.

Manager E. W. Lyon of the Seaboard Steel and Iron Co. of New York, has just completed an examination of the tract of 2,500 acres of iron ore land leased 12 miles from here. The company will probably place its furnace at or near Raleigh.

Rev. T. F. Gallor of Tenn. will preach the baccalaureate sermon at St. Mary's School Sunday after next.

Companies incorporated: The Gastonia Banking Co. of Gastonia, capital \$35,000; The Garther Mfg. Co. of Newton, capital \$25,000; The State Association of Young Women's Christian Associations of North and South Carolina, with headquarters at Asheville.

MERRITT.

May 7.—We had a fire here last week which burned up a dwelling house and caught other houses on fire. The fire was discovered in the dining room of J. C. Little's house and burned down before help arrived. The grain house of Mrs. H. J. Kennedy caught but was put out by hard work.

The whole of Merritt's seemed to be doomed and would have been destroyed had it not been for the timely assistance of the people around here.

The house belonged to the heirs of the late J. C. Little and there was no one living in it. The two little colored boys around the house about 15 minutes before the fire and it is not known whether they kindled the fire or not. The loss was not very much as the building was old and rotten.

Mr. J. E. Jones lost property amounting to about \$25.

Guess.

Launch Sappho.

Messrs. Geo. N. Ives and Son, are repairing and remodeling the launch Sappho, preparatory for the summer service at Beaufort and Morehead. The Sappho is 40 feet long, 8 feet wide and will accommodate fifty passengers. A closed cabin is fitted up in the stern for the engine and steering gear. Comfortable seats are arranged all around the cabin.

The forward part will be open but will be furnished with storm curtains, for bad weather. The boat has a ten horse power engine and it is claimed will make eleven miles an hour.

MORE FAVORABLE WEATHER.

Crops Show Improvement in Most Sections of State.

The Weekly Crop Bulletin for week ending Monday, May 11, 1903.

There has been some further improvement in crop prospects in North Carolina during the past week, in consequence of the favorable conditions that prevailed for farm work, but crop growth has advanced slowly. The entire week was very dry except in the extreme southern and eastern portions where showers occurred Monday, May 4th, and Saturday, May 9th, with largest amounts at Wilmington and New Bern. The rainfall was very beneficial in that section, and elsewhere throughout the State a warm rain is now much needed to bring up seeds, promote growth, and soften the hard soil. The temperature averaged over 5 degrees daily below the normal, and the deficiency in temperature had an unfavorable influence on growth; while moderately warm during the day, though nowhere reaching 80 degrees, the nights have been quite cool, and the days cloudy and windy. There was no interruption to farm work during the week, and planting of corn and cotton is now well advanced and in some sections completed. Lowlands are in excellent tilth, but there is increasing complaint of the hard, refractory condition of uplands which are difficult to work.

Planting corn on uplands is nearing completion, but most of the bottom lands are still to be planted; late planted corn is coming up somewhat better than early seeded, but stands are not generally good; some corn is being cultivated in the south portion; cut and bud worms are injuring corn to some extent. Planting cotton is about finished in the east and south, but elsewhere not more than half completed; the acreage will be large some farmers have good stands, but chipping has not commenced; more sunshine and warmth is needed for cotton which is not doing well. Tobacco is all set in the east, where the plants need a warm rain; dry weather has checked transplanting in the north-central section, where a large amount of land is prepared, and plants are fairly plentiful; setting is now awaiting proper "seasons." The condition of winter wheat and oats is very diversified; some correspondents report excellent crops, others that both have suffered much from rust and fly; wheat is heading low and small, and the crop will be below the average. Some peanuts have been planted; also sweet potato slips. Gardens continue to improve slowly. The Irish potato crop is very promising, and shipments of new potatoes will soon begin. Shipments of truck crops and strawberries continue. The reports concerning fruit indicate favorable prospects for apples. At the present time warm showers would be extremely beneficial.

Job Open For Portuguese.

Mayor Ellis received the following telegram, yesterday, which indicates that the Portuguese here are in demand and for good wages.

"Have railroad work in West Virginia for Portuguese immigrants at \$1.50 per day, transportation free."

It is understood that this work is in the mines in West Virginia.

A MINISTER'S BUSY WIFE.

Pe-ru-na a Prompt and Permanent Cure for Nervousness.

Mrs. Anna B. Fleharty, Galesburg, Ill.

Mrs. Anna B. Fleharty, recent superintendent of the W. C. T. U. headquarters, at Galesburg, Ill., was for ten years one of the leading women there. Her husband, when living, was first President of the Nebraska Wesleyan University, at Lincoln, Neb.

In a letter written from 401 Sixty-Seventh street, W., Chicago, Ill., Mrs. Fleharty says the following in regard to Peruna:

"Having lived a very active life as wife and working partner of a busy minister, my health failed me a few years ago. I lost my husband about the same time, and gradually I seemed to lose health and spirit. My daughter is a confirmed invalid, and we both felt great need of an invigorator."

"One of my neighbors advised me to try Peruna. A bottle was immediately secured and a great change took place in my daughter's, as well as in my own health. Our appetites improved very greatly, the digestion seemed much helped, and restful sleep soon improved us, so that we seemed like new women."

"I would not be without Peruna for ten times its cost."—MRS. ANNA B. FLEHARTY.

Peruna never fails to prevent nervous prostration if taken in time.

"Summer Catarrh," a book written by Dr. Hartman on the subject of the nervous disturbances peculiar to summer, sent free to any address by The Peruna Medicine Co., Columbus, O.
