# Novel.

To use a homely illustration:
When you find yourself in the wrong and the right is pointed out
to you, to be honest with yourself, what should you do? SWITCH!
If you are using lard for frying and shortening, and we prove to
you that Cottolene is purer, more healthful, more economical, what
should you do? SWITCH!

Nature's Gift from the Sunny South

## Shortens your food - Lengthens your life

Now, lard, as you know, is made from hog fat. It may or may not be pure. Cottolene is always pure, because it contains nothing but refined vegetable oil and choice beef suet. It is always uniform, and we guarantee the quality. Besides, it is never sold in bulk like lard, but comes in sealed tin pails, and is not open to contamination. So much for purity and healthfulness.

As to economy—Cottolene is richer than lard. It requires, therefore, but two-thirds the quantity to secure better results. This means economy.

Why not do justice to your stomach and give it a digestible product rather than an indigestible one? Your grocer will start you right with a pail of Cottolene.

FREE Send us a 2c stamp to pay postage and we'll mail you a copy of our book.
