#### UNDER THE SULTAN.

#### The Way the Turkish Ruler Renoves His Enemies.

Things get done in the sultan's realms, things like the massacres of 1895 in Asiatic Turkey and of 1908 in ico less than 2,000,000 can read, though Macedonia, which come home to the the first printing press in the world Consciousness of every thinking Turk. Take the case of the Kurdish Sheik Obeiduilab, who was a guest of the Hongkong in 1802 were 457,690 barrels sultan for a time in 1883 and was afterward sent to Mecca in order that plous occupations might keep him out of mischief. He died very soon after York, England, showed that 23,000 out his arrival of cholera, it was officially announced, although he was the only sufferer from cholera in Mecca that

> Take the case of Mithad Pasha, the liberal prime minister and the champion of parliamentary government. He was tried for treason in alding to dethrone Sultan Abdul Aziz and was sent to Talf near Mecca. After a time he died rather auddenly. By and by a man who had been a soldier in Arabia appeared in Constantinople babbling a tale that ended with, "I did not know that it was Mithad Pasha or I would not have put the soaped cord about his neck" Of course the police saw that the man was crazy and put him where he was safe from harm.

Take the case of Said Pasha, exgrand vizier, who fied to the British curbas-y in Constantinople seven or eight years ago, declaring that be would be killed unless allowed asylum and who could not be induced to leave the building until the ambassador brought him a formal promise of safety sealed with the sultan's own seal. Meditation upon this class of myster-

ies makes people shake in their shoes every time that they see one of the great army of paid informers who know everything. Men do not say that the sultan does the things which cause this trepidation, but that "the palace" does them. They speak of the "palace" it they look behind them and take out their handkerchiefs and wipe a clammy sweat from their faces.-Henry Thompson in World's Work.

Oysters.

As a matter of interest there is but lca. The western coast has at least five species, but only two of these are of HARDWARE 78 Middle St. importance, and these do not compare with the eastern shellfish. Thus it is apparent that a Blue Point, a Providence river and a Chesapeake bay oyster are one and the same thing so far as species is concerned. The difference is merely in food supply and conditions in growth.

The oyster is rich in phosphates, but is almost entirely lacking in fat making, muscle building material and those elements which go to make up physical force and vitality. While it is wholesome and easily assimilated, the actual food value of the oyster is not sufficient to rank it with our great food fishesthe cod, haddock, mackerel, etc.-Good Housekeeping.

### The best at one-half price

It takes five of the ordinary "quarts" to make a gallon, but a HAYNER QUART is a full quart, an honest quart of E conces, four to the gallon. Now, you pay your dealer at least \$1.25 a bottle for whiskny that cannot possibly be any better has \$7.47 NER. If an good, or \$5.25 a gallon. If you buy HAYNER WHISKEY you mave at least \$0.06 on every gallon. We cell two callons for about the same as you pay for one gallon of probably poorer whiskey. Just think that over and remember that HAYNER WHISKEY goed direct from our distillery to you, carries a UNITED STATES REGISTERED DISTILLER'S GUAR-ANTER of PURITY and AGE and saves you the dealers' ecormous profits. That's why tomers. That's why YOU should try it. Your money back if you're not equified.

stomach of all nervous

and ran through the railroad yard toward Griffich street. Ile was intercepted by two men but got away from both of them, one he knocked down with a bar of iron. Officers Lupton and Bryan arac essory and Mayor Ellis put him unper a \$50 bond for appearance at next term of court.

It is said that Od im "had appeared at the shops in an intoxicated condition and with a fixal purpose of making trouble. With that end in view he had gotten Hanff to help him, but Hanff's part in the affair was not important as he was restrained by some of the speciators.

The affair is ismentable as Mr Avery is one of the most trasted employees of the A & N C railroad, a valuble cit z n and an efficient alderman. It is to be hoped that the injuries will not terminat s-riou-ly.

Fight Will Be Bitter.

Those who will persist in closing their ears against the continual recommendation of Dr. King's New Discovery for Consumption, will have a long and bitter fight with their troubles, if not ended earlier by fatal termination. Read what T. R. Beall of Beall, Miss., has to say: "Last fall my wife had every symp tom of consumption. She took Dr K ng's New Discovery after everything else had falled. man born males in the United States moved to Washington, N C, and was have failed to become naturalized, while 13 per cent of the English, 35 per cent of the Russlans, 53 per cent of the Italians and 80 per cent of the Japanese are still aliens.

More than 8,000,000 of the 13,500,000 people in Mexico do not work. Counting out the children and aged there remain 3,774,148 possible producers who produce nothing absolutely. Then-and nere is an astounding figure-there are in domestic service 1,488,024 as against 116,000 of dignified salary earners. Jack Rowe of Crawfordsville, Ind.,

ossesses perhaps the only fishing dog in the world. Not long ago a party. the guests of Mr. and Mrs. Rowe, were at supper near the big dam on the

river, when the dog pointed some bass that were in a little pool near the camp. The canine could not be coaxed away and held the point for some time, al-

though tempted with many delicacies. The floating gardens in the lakes near the City of Mexico were recently visited by an English naturalist, who reports them a paradise and accounts for their existence. Floating tangles

of peat moss, rushes and grass are caught by stakes driven into the soft New lake bottom, and upon this mass rich mud from the bottom is thrown. The surface is then transformed into a mar-

ket garden. The spectroscope is an instrument which has done much to increase our knowledge of the sun and the stars. By its means the astronomer tells exactly what is the chemical composition of celestial bodies, of what metals or gases they are composed and even assures us that in some of the distant stars suns, some of them, far more brilliant than our own-substances are burning the like of which cannot be found on our planet.

Sir Wilfrid Lawson, who recently won a fiercely contested parliamentary election on his old platform of temper ance, is known as England's "Grand Old Man of Temperance." He is seventy-three and has devoted forty years of his life to the championship of temperance. Sir Wilfrid has been prominent in every parliamentary crisis for a quarter of a century, and it is said that there is little doubt that had

he not identified himself with the cause of temperance he would have been many times a minister of a cabinet. He has fought with and against Dis-
