Cottolene

Shortens your food - Lengthens your life

Is Upheld By All Good Cooks

No matter how faithful and honest your cook may be, she is behind the times if she uses lard or cooking butter for frying and shortening. The great medical and cooking authorities of the country say so; they endorse Cottolene as the most palatable, healthful and economical cooking fat on the market. The following names of Cottolene endorsers are household words:

Mrs. Sarah Tyson Rorer, Mrs. Emma P. Ewing, Marion Harland, Mrs. Eliza R. Parker, Lida Ames Willis, Mrs. Janet M. Hill, Dr. Mary E. Green, Miss Margaret Wister, Mrs. Elizabeth O. Hiller, Mrs. Helen Armstrong, Christine Verbune Herrick, Mrs. F. A. Benson, R. Ogden Doremis, M. D., L. L. D., J. Robert Egbert, A. M., M. D., Ph. D., and hundreds of others, prominent in household economy and the medical profession.

USE 1/2 LESS. Cottolene being richer than either lard or cooking butter, one-third less is required.

FREE Send us a 2c stamp to pay postage and we'll mail you a copy of our book "Home Help," edited by Mrs. Rorer, which contains 300 choice recipes. Made only by THE N. K. FAIRBANK COMPANY, Dept. 589 Chicago

WASHINGTON LETTER

(Special Correspondence.)

President and Mrs. Roosevelt received the members of the Episcopalian Pan-American conference during the recent meeting in Washington. The bishops entered into the spirit of the occasion with zest, and many had a quip or jest ready to enliven the dreary round of handshaking. Bishop Dudley of Kentucky said to the president:

"I am not familiar with these stately functions, Mr. President, but I am like the Kentucky mountaineer who once went to my church. He told his fellows afterward, 'I don't much understand such gatherings, but I guess I got along, because I riz and fell with the rest of them.'"

Bishop William Lethbrun of Keewatin, Man., known as the "snowshoe bishop," was an object of curiosity to the Roosevelt children. He mixed a little politics with his story. "I understand you are sending an expedition to annex the aurora borealis, Mr. President," he said. "I wish you would tell the boys to drop in on me, as the north pole is in my diocese, and I might make it convenient to go along as a missionary to my northern Indians."

Seeds For Millions.

Within the ensuing three or four months over a thousand tons of garden and field seeds will be distributed among the people of every state and territory in the Union at a cost of \$270,000, the amount appropriated by the last congress for this purpose. The total distribution this year will amount to about 45,000,000 packages.

Some important changes in the manner of conducting this distribution have been made by the department of agriculture this year. With a view of handling the seed to better advantage the country has been divided into six districts, and seeds and plants particularly adapted to each district will be distributed therein at an earlier time than heretofore.

In years past much complaint has been made of receiving seed too late in the season to be of particular good. The department has not been responsible for this condition, but the fault lay with the congressmen, who to a large extent were tardy in making out the lists for their quota. It is expected to overcome this condition by beginning the distribution two months earlier than has been the custom.

A Diplomat Leader.

John Sharp Williams of Mississippi, the newly elected leader of the Democrats in the house of representatives, was asked how he would keep the Democrats in line if they should become obstreperous.

"Easiest thing in the world," Mr. Williams replied. "I shall be prepared for any emergency, like a justice of the peace down in my country when he was called on by a gathering of citizens who had it in mind to hang a man without due process of law."

"The justice was told of the gathering and was asked to come down and see what he could do. He appeared with a copy of the statutes of Mississippi under one arm and a repeating rifle under the other."

"Gentlemen," he said, "I am the servant of the people. I can apply the law of the great state of Mississippi in this case or I can help you shoot the culprit—just as you elect."

The New British Ambassador.

Sir Henry Mortimer Durand, the new British ambassador to the United States, will sail for America on the Eurymedon on Nov. 31. Lady Durand and Miss Durand will remain in England about a fortnight longer, but expect to reach Washington by Christmas.

The successor of Sir Michael Herbert, it is said, is a man who looks barely past middle age and has a frank, open manner that will in all likelihood create a favorable impression among his diplomatic and other associates in the American capital. His bearing is most courteous, and his voice is of a pleasant, even tone. He is rather tall, broad shouldered and with a high forehead and slightly prominent chin. The new ambassador gives the impression of having force and personality.

Wants to Face Members.

Champ Clark of Missouri admits that he is disappointed as a result of the seat drawing, but insists that his desire for a front seat was wholly unattended by selfish motives.

"I wanted to secure a front seat," said Mr. Clark, "so that when I addressed the house, without making myself too conspicuous, I could walk down to the open space in front of the speaker's rostrum and face the members as I spoke. I believe that every member in making a speech of any length at all should take that position, and I would like to see the rules changed making it a requirement."

For Uniform Militia Organizations.

The assistant secretary of war, General Oliver, is sending out to the governors of all states recommendations for state legislation in the interest of uniformity in the militia organization. The general plan adopted for the closer articulation of the federal and state military organizations requires some change in many of the state laws, and the department's communication is intended to point out just what is needed.

Our School Children.

The report of the commissioner of education for the last fiscal year places the total number of pupils enrolled in the common schools during the year at 15,925,857, or over 20 per cent of the entire population. The average daily attendance for 1922 was 10,560,273, being 65 per cent of the total number enrolled. This is the largest average attendance on the number enrolled ever reported in the United States.

CARL SCHOFIELD.

MODES OF THE MOMENT.

The pointed toque made of chenille or taffeta braid and garlanded with fruit or flowers is very popular.

Silk muslins covered with large flower designs, woven or printed, are lovely for dancing and for youthful evening frocks.

In velvet all shades of gray, from silver to gun metal, ivory to champagne and pastel blue pink and mauve, will be worn for evening.

The new shaded ostrich feathers are of such magnificent proportions in both length and breadth that they are quite as much "property" as the silk dress used to be in the days of our grandmothers.

Revolution Imminent.

A sure sign of approaching revolt and serious trouble in your system is nervousness, sleeplessness, or stomach upsets. Electric Bitters will quickly dismember the troublesome causes. It never fails to tone the stomach, regulate the kidneys and bowels, stimulate the liver, and clarify the blood. Run down systems benefit particularly and all the usual attending aches vanish under its searching and thorough effectiveness. Electric Bitters is only 50c, and that is returned if it don't give perfect satisfaction. Guaranteed by C. D. Bradham, druggist.

A New Pearl Supply.

Ralph Dubois, professor in the University of Lyons, has informed the French Academy of Science that he has found a means of acclimating the pearl oyster and reproducing pearls on the coast of France. He exhibited several specimens of living pearl oysters which had been cultivated in the Mediterranean. Moreover, while the usual rate of finding pearls is one in 1,200 to 1,500 oysters, Professor Dubois has succeeded in getting one out of every ten.

To improve the appetite and strength in the digestion, try a few doses of Chamberlain's Stomach and Liver Tablets. Mr. J. H. Seltz, of Detroit, Mich., says, "They restored my appetite when impaired, relieved me of a bloated feeling and caused a pleasant and satisfactory movement of the bowels." There are people in this community who need just such a medicine. For sale by all druggists. Every box warranted.

A New Breed.

"I think he's the most intelligent hunting dog in his country," said the owner of the animal, proudly exhibiting him to his friend.

"When he makes a 'point' he turns his head and looks at me a moment and asks me as plainly as if he spoke it, 'Shall I go ahead and flush that bird?'"

"See," said the friend. "He's an interrogation pointer."—Youth's Companion.

A Costly Mistake.

Blunders are sometimes very expensive. Occasionally life itself is the price of a mistake, but you'll never be wrong if you take Dr. King's New Life Pills for Dyspepsia, Dizziness, Headache, Liver or Bowel troubles. They are gentle yet thorough. 25c, at C. D. Bradham's Drug Store.

A "Dude Elephant" Killed.

For years Toby was the pet elephant of the botanical gardens at Saigon, Indo-China. Lately because of advancing years and possible infirmity of temper Toby was sent inland to Pnom Penh, the chief town of his native jungle, and put into "retired life" among a troop of his fellows. The latter, however, refused to recognize the "city dude," who had for so many years lived in luxury and had lost his wild habits. They set upon Toby and killed him after a desperate struggle.

One Hundred Dollars a Box.

WORK STEADILY PROGRESSING.

The Pamlico, Occoquan and Western Railway being rapidly built.

The men interested in the construction of the Pamlico, Occoquan and Western Railway are very busy now and work on the road is progressing finely. Yesterday Messrs W. A. Gullen, Albert Cheney and Gray were engaged on the north side of Neuse river locating the line from New Bern to Olympia and also getting a place for the convict camp. It is expected that 100 State convicts will be put to work grading and building the road about January 1st.

Mr. Okey arrived from Trent last night to assist in the construction, he being associated with the W. A. Gullen Construction Co., who are superintending the making of the road.

About 63 car loads of timber for the ties and the bridge. The road is laid from the junction at National avenue to the river.

The promoters feel confident that the road will be completed and trains running over the entire line by June 1st. Every effort is being made to push the work as rapidly as is consistent with good workmanship.

Kindness general offices have been located in the three story building at No. 25 Craven street. Rooms for the use of the Company have been fitted up on the first two floors and the other rooms will be occupied as the occasion demands.

PEOPLE WE KNOW.

They Are New Bern People, and What They Say is of Local Interest.

When an incident like the following occurs right here at home, it is bound to carry weight with our readers. So many strange occurrences go the rounds of the press; are published as facts, people become skeptical. On one subject skepticism is rapidly disappearing. This is due to the actual experience of our citizens, and their public utterances regarding them. The doubter must doubt no more in the face of such evidence as this. The public statement of a reputable citizen living right here at home, one whom you can see every day, leaves no ground for the skeptic to stand on.

Nrs. N. Vincent, widow, living at 108 Craven street, says: "Doan's Kidney Pills have been very beneficial to me. They certainly relieved me of very disagreeable pains in my back from which I suffered for a long time. I obtained them at Bradham's Pharmacy and I must say they proved to be a good remedy in my case."

FATAL RAILWAY ACCIDENT.

One Man Killed and Three Men Injured in Freight Wreck.

The engine and three cars of freight train No. 1 jumped the track at a point near Hines siding between Core Creek and Dover, yesterday at one o'clock. The engine turned over in the ditch but was not badly damaged, but the cars were a total wreck. A special train bearing Dr. Primrose, the company's surgeon and Dr. Rher, went up at shortly after one and the wrecking train followed.

One brakeman was killed and three wounded. All were brought to New Bern. Zeb Chapman, the colored brake man who was killed was brought here and the coroner's inquest held. The bodies were placed in homes where they can receive attention from the company's surgeon.

Following is the list of the dead and injured:

Zeb Chapman, Morehead City, brakeman, neck broken by wheel passing over it.

N. H. Russell, engineer, New Bern, white; badly shaken up but no bones broken.

Thomas Kernam, fireman, New Bern, colored; sprained ankle and larnna.

Dash Hadley, New Bern, brakeman, colored; sprained knee and ankle.

One of the train men, brakeman, colored fracture of left leg involving the knee joint; amputation probable.
