VOICE OF THE PEOPLE.

Ed Journal-Since so much enterprice has been shown by the management of the new Military School recently established in our city, would it not be well to look around for a more suitable site, one more adapted for its development and permanency. Surely the present cramped quarters are not fitted for such an institution.

Would it not be to the interest of the city for our business men to look into the matter and lend a helping band if necessary to get it on a sound basis. If a sufficiently large plot of ground could quash the bill of indictments. be purchased in the city at a reasonable figure, or donated outside of the limits so it was not too far off, we feel sure President Holiday, would soon have a Military School and Busine a College in our midst that would be a credit to New Bern, and Eastern Carolina

We have a large section to draw from and we have no doubt it could be made OITIZEN, a success.
