HEALTH is the Most Important

The manufacturers of Royal Baking Powder have had forty years of scientific experience.

Every method of bread-and-cake raising has been exhaustively studied in this country and abroad.

The result is a perfect product in Royal Baking Powder. There is no substitute for it. The purity and efficiency of Royal Baking Powder have been commended by the highest authorities.

These facts mean two important things to all housekeepers:

First: that Royal Baking Powder is healthful and makes wholesome food.

Second: that Royal Baking Powder makes food good to taste.

ROYAL BAKING POWDER ABSOLUTELY PURE

N. C. TEACHERS ASSEMBLY.

To be held at Morehead City June 8-13. A Fine Program Prepared.

The 21st annual session of the North Carolina Teachers' Assembly will convene at Morehead City Wednesday, June 8th at 9:30 a. m., and continue until June 13th.

The occasion promises to be one of great helpfulness to the teacher. Every branch of the profession of pedagogy will be given due attention.

The railroads will give reduced rates and those who wish may secure reduced hotel rates.

The Atlantic hotel will be opened to the public at that time and the management offers very reasonable rates to those who wish to attend.

The secretaries will reserve rooms for those who request him to do so provided they notify him before May 20th.

Death of Mr. Jones.

Mr. D. M. Jones, died at his home in Beaufort Sunday morning April 8, aged 69 years.

Mr. Jones was once a resident of this city and had many friends here who were pained to hear of his demise.

The deceased leaves a brother, Mr. B. Jones, and one sister, Mrs. H. W. Gibbs, of this city. The interment was made at Beaufort, Monday.

Will Build Orphan Home.

The executive committee of the Grand Lodge G. O. F., of the order of colored Odd Fellows of North Carolina, recently consummated a deal whereby they have acquired a large and valuable property on which they intend shortly to build a home for the widows and orphans of Odd Fellows.

The property is what was formerly known as Rhem's Seven Mile Farm, which embraces 1400 acres of fine land several hundred of which are under cultivation. There are a number of good buildings on the place besides a well equipped mill. The consideration for the property was \$9,000, which is said to be very cheap for so fine a place.

Notice of Meeting of Executive Committee, 3rd Congressional District.

Notice is hereby given that the Democratic Executive Committee of the 3rd Congressional District will meet at Goldsboro, N. C., on the 19th day of April, 1904, for the purpose of selecting a time and place for holding the next Congressional Convention of said District and the transaction of such other business as may come before the meeting.

Dated April 3, 1904.

NO MORE HEAD COLDS

A Simple, Inexpensive and Effective Way To Knock out The Prevailing Malady.

A gentleman well known in town has solved the problem of preventing colds in the head. It may appear extravagant and out of all reason but our friend tells us that is a sure preventative.

He drills a large hole in his hat. This he claims, lets the heated, stagnant air out of the crown and permits the fresh air to circulate while the hat is being worn. Just why this should operate in the way science does not unfold but he says that he has not had a cold since that hole has been in his hat.

Ellington-Oettinger.

Wednesday evening the wedding of Mr. F. K. Ellington, of Raleigh and Miss Daisy Oettinger, of Winston, took place at the home of the bride's parents. Rev. F. D. Thomas was the officiating clergyman.

The house was very beautifully arranged for the occasion and a large number of friends witnessed the ceremony. The couple were the recipients of many beautiful and costly presents.

Mrs. Ellington is well known and a very popular in New Bern having been a frequent visitor here as the guest of Messrs. M. M. Marks and E. W. Rosenthal. Their friends wish them a prosperous life.

SMALL.

This little village is situated on the outskirts of one of the finest agricultural sections in Eastern North Carolina. It is about 4 miles from Aurora, and 3 miles from Edwards. It was named in honor of our national representative, Hon. J. H. Small.

Mr. W. R. Ross, one of our successful farmers, celebrated his 72nd anniversary on the 29th day of February last by a big deer hunt. While Mr. Ross is 72 years old, and has not had a birth day before in 8 years, he is still a very active man, and attends personally to his farms.

The public school at this place is still in operation, under the management of Messrs. Geo. M. Hardy and Fred G. Tuten, two of the oldest teachers in Beaufort county. Notwithstanding we have had much sickness, such as whooping cough, mumps, etc., our average attendance has been fairly good.

The school will close on the 8th inst. with a grand entertainment. Everybody is invited to attend.

Our farmers are considerably behind in their work, but are making good use of all favorable time. Some finished planting potatoes on the 1st day of April but if the market rules as it did last year they will be in the best.

Punta Gorda News.

April 7th.
Mr. F. T. Perkins, one of our large fruiters, has 5 acres in pine apples in full bloom. This fruit will be ready for market about June, July and August. On 5 acres of this fruit not less than \$1000 will be realized. Besides this, he has other fruit trees in large numbers. Mr. P. was born, a Tarheel, his father was the late Rev. Dr. Perkins, of Newport Carteret county N. C.

Messrs. M. S. Davis, J. H. Hill, and J. F. Githens, are some of the extensive fruit growers and vegetable raisers, of our acquaintance. The latter sold this week one dollar worth of cucumbers, from one vine. Mr. G.—has 3 acres in cucumbers, will be ready for market in 2 weeks from now.

A man set out an orange grove of 12 acre 4 years ago, not far from Punta Gorda, and this season just past, he sold \$4000.00 worth of oranges, besides some last season, it generally takes 3 and 4 years to grow oranges and only 2 years for pineapples.

We saw some corn silks yesterday regular old fashioned kind of big corn. Saw cotton over knee high full of forms very little corn or cotton made near here, only small patches in some places.

We have many N. C. people in and around here among some of those we know are, Messrs. E. W. Smith and Bro. Raymond; C. A. Tolson, S. B. Freeman, R. M. Coston, Thos. C. Willis, F. B. Weeks, F. F. Perkins, Early Weeks, Floyd Sewell, Jas. Meadows, E. B. Sanders, John C. Rigg, Sol Garner, and Thos. W. Willis.

We found some young ladies too and some middle aged ones, all of which we found to be social and obliging as well as good looking. We guess we must pick us out one far a partner, as we are an old widower, and need some nice young lady, or pretty old widow to share our loneliness through the rest of our lives, but don't please all speak at once.

Last Friday night, we heard the Governor of Fla., (W. S. Jennings), and Hon. O. M. Brown, make his political speeches here, the Governor is a candidate for U. S. Senator and Brown a candidate for Governor each made good speeches for themselves of course, but Mr. Brown was the favorite with the ladies; and if they could vote, Brown, would get there sure.

The finest lot of fish we saw last week was a vessel load of "Red Snappers" caught with hook and line in the Gulf of Mexico, about 4000 fish some weighing 50 lbs. These sell for 5c per pound to dealers. Then we saw a sharpie load of "Pompano" some 8000 lbs, caught by the crews of E. W. Smith, brought in by the E. C. Knight, "Sharple," Capt. Early Weeks, all these from N. C. We saw a pompano fish last week that weighed 23 lbs and 4 an ounce, fish caught by crew of Capt. John Lewis. The highest price paid for a bbl. of Pompano, as we heard of, was \$70.00 (200 lbs) this was paid by E. W. Smith.

Very pleasant weather all the time, last Monday the 3rd inst was the coldest day we have seen in Florida, Sunday before was very warm, in fact that in the middle of day, at night wind shifted N. W. and Monday morning was cold enough nearly, to put on your jacket. Thermometer way down to about 75 degrees, very pleasant to say 6 inst clear and wind N. E.

Summer School at Raleigh, N. C.

The prospectus of the Summer School shows a faculty of forty-four members including officers and an additional lecture list of forty speakers. The lecturers include the leading educators of the State, the Governor, State Supt, Chief Justice Clarke and other prominent professional men. The teachers will also have an opportunity to hear Hon. John Temple Graves of Atlanta, on "The Twentieth Century Woman." Mr. Graves is recognized as the South's most eloquent speaker. Polk Miller of Richmond with his banjo on "The Old Times Down South," and Dr. Correll of Washington and Lee on "Dante's Divine Comedy." The faculty is composed of specialists educated at the leading Universities of this country and abroad.

The course of study is practical and comprehensive. The Raleigh school offers opportunities to teachers never equalled in the State and at such low rates that all can afford to attend.

A copy of the Prospectus will be sent to anyone upon request. It is handsomely illustrated and is well worth reading.

Condition of Truck.

Later developments and careful investigation shows that the reports as to damage of truck by frost Sunday night were more or less exaggerated.

The frost was unusually heavy for the time of year besides there was a slight freeze, which did considerable damage to unroofed lettuce and such other truck as have been grown under cover.

Early cucumbers which were being forced in frames and were unprotected that night, were ruined, and in hills, just coming up, were completely killed.

Peas were sipped a good deal but as there were but few blossoms, that crop was not materially hurt. Very few beans were up.

Irish potatoes were cut down but they will sprout up again and the crop will only be a few days later.

Corn was scalded somewhat but is coming out all right.

The fruit crop was not injured as much as it was thought to be. The foliage was stripped and many blossoms are shedding, but enough are left to indicate a satisfactory fruit crop if no other adverse happens.

CADET EXAMINATION.

For the Government Revenue-Cutter Service.

The United States Civil Service Commission announces that an insufficient number of eligibles resulted from the examination held on February 23, 26, 27, another examination will be held on April 26, 27, and 28, 1904, at the places mentioned in the accompanying list, to secure eligibles from which to make certification to fill about fifteen vacancies in the position of cadet in the Revenue-Cutter Service, and other similar vacancies as they may occur. As the commission has experienced considerable difficulty in securing eligibles for this position qualified persons are urged to enter this examination.

Under the regulations of the Treasury Department applicants must be not less than 18 nor more than 25 years of age, of vigorous constitution, physically sound and well formed, not less than 5 feet 3 inches in height, of good moral character, and unmarried. The marriage of a cadet will be considered as equivalent to his resignation.

A recent act of Congress provides that captains in this service shall rank with majors in the Army, first lieutenants with first lieutenants, third lieutenants with second lieutenants, and that commissioned officers in this service shall receive the same pay and allowance, except forage, as are provided by law for officers of corresponding rank in the Army, including longevity pay. This act of Congress also provides for the retirement of officers in this service at the age of 64 years with 75 per cent of the pay and allowances of the rank upon which they are retired.

This examination is open to all citizens of the United States who comply with the requirements. Applicants should at once apply to the United States Civil Service Commission, Washington, D. C., or to the Secretary of the local Board of examiners at the places mentioned in the accompanying list, for application Form 304, which should be properly executed and promptly filed with the Commission at Washington. The medical certificates on Form 304 need not be executed.

Prior to appointment, however, an eligible will be required to pass a physical examination before a board of Marine Hospital surgeons at Washington.

Persons who are unable to file their formal applications and who notify the Commission of this fact, either by letter or telegram, with the request that they be permitted to take the examination, will be examined, subject to the subsequent filing of their applications, provided their requests are received at the Commission in sufficient time to ship examination papers.

The places where the examinations for this purpose will be held in this State are Asheville, Charlotte, Wilmington, and Raleigh.

"Plastico" A SANITARY WALL COATING.

Plastico is NOT a hot water, lithy glass Kalamazoo. It is a finely powdered rock, in white and beautiful tints to be mixed with cold water. Any one can brush it on. Plastico has the peculiar property of cementing to the wall, destroying disease germs and vermin and never rubbing or scaling. Kalamazoo has no cementing property—depends entirely on glue to make it stick. The glue soon gets, becoming vermin and germs of deadly disease and the wall rots and scales off, spoiling walls, ceilings and furniture. Well finished that must be mixed with hot water are Kalamazoo, no matter what brand or name they bear. Be sure these unsatisfactory mixtures and keep Plastico in 5 lb. packages only, properly labelled. Sample card of Plastico free.
