ROYAL Baking Powder

Makes the food more wholesome, and more nutritious to both brain and muscle.

I have given the Training Table to the Cornell University for five years very satisfactorily, and am certain that much of the success has depended upon the quality of articles used. In baking powder, I use the Royal, for it is undoubtedly the best. I have occasionally given others a trial, and have demonstrated to my satisfaction that there is but one always reliable, always making perfect, delicious and wholesome food, - The Old Reliable "Royal."

RECORD BREAKING PEACH TREE

Four Peaches From one Bloom, An Unusual Incident. Fruit not Hurt By Frost.;

Mr Jesse Harrison showed the Journal something rare in the line of peach culture yesterday. He brought to the office a small branch from a tree in his yard which was covered with the fruit A very strange circumstance about this particular tree is that in many cases four peaches spring from the bloom. The tree has borne fruit for six or seven years but not until last year did it give any appearance of breaking the record. Mr Harrison thought it merely a freak which would not be apt to be repeated but this year the tree has done the same thing again.

The peaches, Mr Harrison rays, do not seem to suffer for size or quality on whole troop of Japanese cavalry, in this account of this triple production, but each specimen is large and sweet. He is unable to tell the variety. It has a delicious flavor, good size and is a free

Mr Harrison thinks that the frost has not injured the fruit, at least this tree gives no sign of being affected by the weather. The promise for a large crop is very encouraging.
