HEALTH

is the **Most Important**

In buying food-products, several things are to be thought of-i. e., Economy, Results, Easy Handling, Reliability, but the most important is Health.

Health means everything. In buying clothes, shoes, hats, furniture, etc., if the buyer is deceived and gets an imitation the only harm is loss of money. In buying food-products, if imitations are supplied, there is not only a loss of money, but perhaps an injury to health—which is beyond price.

Remember these facts when buying baking powder.

A Happy Man.

Tom Midyette, the transfer driver h the happiest man in the city. It is all on account that his son Lennie, of whom the Journal has made mention several times, has been wonderfully cured of a very severe case of lock jaw. The boy went through every stage of the disease even to the very door of death. The case is certainly a remarkable one and Midyette has a good right to rejoice over this triumph of science and skill and the boy has marked prominence of being one victim in about 1,000 that have recovered from the dread disease. The weather continues cool for the To Dr Charles Duffy Midyette attributes

the praise for the boys recovery. Midyette took the boy out riding yes terday and he is improving finely, but little remains as evidence of the awful been quite Sick but is much better agony that the boy passed through. He was confined with the disease nearly five and hurt herself quite seriously. Dr

GRAVEN COUNTY REPUBLICANS.

Meet In Convention. Name Delegates.
Pass Resolutions. A Surprising Gathering.

Every pevious record of the Republican party of Craven county was broken on Thursday noon, when the party's representatives met in convention in the Court house in this city.

It was a convention of all white men, not a colored dalegate being present in the meeting, and but a few colored men in the small delence which gathered to witness the convention proceedings.

There was not a contest reported and not a sign of agitation, much less fight, which has marked the usual Republican

convention gatherings in this city. The convention was called to order by Chas B Hill, who declared the object of the meeting. J M Harrison, acted as Secretary.

On roll call all county precincts reported except three. The following committee on credent'als were elected. Robt Hancock, Thes Weeks, J L Hahn, G L Conner, L H Outlaw, this committee reporting the following precincts and committeemen.

A Substantial Monument Brected by J. C. Whitty at Thomasville,

The following clipping was taken from the News and Observer of Sunday. It is a tribute from Rev Hight C Moore, formerly pastor of the First Baptist church, to the little girliwhose memory lingers in the hearts of those who knew her and will rejoice to see her name per petuated in so practical a memorial.

A few years agolwhile I was pastor in New Bern * e held a series of meetings and one of those joining the church was the twelve-year-old daughter of Mr John C Whitty. ISurely a brighter and lovelier young Christian never lived. In the home, in church and Sunday School, among her friends and school mates, as an angel of mercy to the poor and the sick, she united a charming vivacity with a sincere plety and led a life of singular purity and devotion. But death loves a shining mark" and this fair young girl after a brief struggle with fever passed into the Great Beyond. The city mourned with the bereft family as her body was laid away in peaceful Cedar Grove. Green the turf, and handsome the monument on the Whitty lot with its one treasure offlove, but here on these Orphanage grounds, away up in the billcountry, is the real memorial that will perpetuate her name. It is a handsome structure of brick, costing \$3,000, and will accommodate forty orphans and the very day I am here it is being coccupied by girls about the age of Rowena. Though dead she yet lives and speaks and blesses within these walls and will d) so through the coming years.

No Gloss Carriage Paint Made. will wear as long as Devoe's. No others speech made a short one, defining the are as heavy bodied, because Devoe's position of the Republicans of Craven weigh 3 to 8 ounces more to the pint county. J M Harrison, was elected Sold by E W Smallwood.

War Against Mosquitoes.

Owing to the short time required for county two delegates and two alternates the complete development of the mosto State convention, to the new plan of quito from the egg to maturity, there is ten delegates and ten alternates, on mo time in our long summer for the protion the following delegates were elect- duction of several generations. As each ed-Robt Hancock, C B Hill, C C Clark, female lays a great many eggs, it is easy Jr. J W Smallwood, J L Hardison, W R to understand how millions could come ering Capacity. Dixon, L H Outlaw, S W Hancock, Geo in August and September from hundreds proper thing to do is to force the fighting "from the jump" and practically exterminate them before myriads of reinforcements come in.

As is already well known, mosquitoes small stagnant pools protected by grass and undergrowth from the wind, and and Paint Brushes. free from fish, which prey upon the known that a thin film of oil upon the surface of such waters will prevent the summed up in this one sentence; Drain, nees for his untiring labor in our behalf fill up or oil (every ten days or two and his sincere and conscientious work | weeks) every body of stagnant water, no matter how small. Empty all old discarded fruit cans, buckets and barrels about the premises, and put them under shelter or turn them upside down; drain, al pools; open the ditches and small wetoff and prevent the re-formation of the pools so often found along their courses. We shall always remain true to this Larger ponds stocked with fish are not so favorable as breeding places, for 1easons given above, provided no shallows protected by grass, bullrushes, cat-tails, etc., are permitted on their borders. The clean and abrupt as possible, so as to ex pose the entire pond to the wind and fish. But some man will say: Why take this trouble, when there is a swamp within a mile or half a mile of my house? For the reason that fortunately mosquitoes rarely ever fly a mile or even half a mile. If instead of laying the mosquitoes on the distant swamp the ho

holder would make a careful inspection of his immediate environment, he would nearly always find the source of supply to be within a radius of two or three hundred yards of his house—as is pointed out in Dr. Howard's book on more of the second trans. SANITARY WALL COATING
