

# "Did Not Thrive in Growth"

"And nothing we did for her seemed to do her good."

MARY ELIZABETH DONNELLY.

"Did not seem to thrive in growth." We think that sentence covers a great part of our subject. Why is it that children do not thrive in growth? We notice every day the children of the richest parents, provided with every care and attention money can provide, lose appetite, fish and color, and languish in health the same as the under-fed, under-clothed, poorly-nourished child of poverty alley. Nature is no respecter of persons, at any rate. Here is a case where a child did not thrive, and you can judge it for yourself.

At Rose St., New York City, December 7, 1901. Dear Sirs—Our little daughter has been greatly benefited by the use of Ozonolium. She did not seem to thrive in growth, and nothing that we did for her seemed to do her any good. She did not eat with any relish and was losing flesh. In this condition we commenced to give her Ozonolium with most remarkable results. She gained in flesh and strength from the very outset of the treatment. Her appetite became very much better and now she is as healthy a child as one could find. We found Ozonolium very beneficial for coughs and colds, and for children of all ages. Our little daughter loves the taste of Ozonolium, and this makes it easy to give her. Very truly yours, Frank Donnelly.

Ozonolium contains remedial agents not found in any other similar preparation. It contains no harmful drugs whatever, and is so superior to any other remedy for children that it gives our many friends pleasure to endorse it. While Ozonolium is rapidly growing into popular favor, we think there is one phase of its work which is still insufficiently understood. This is its beneficial effects during teething. Babies have distress while cutting their teeth just in proportion as they are properly nourished. Ozonolium contains hypophosphites of lime and soda, which not only supply the necessary lime for the teeth, but are also soothing to the nerves, while the cod-liver oil gives soft vigor and strength to the system so essential to baby's comfort.

Do you ever pity a fat baby with dimpled cheeks and laughing eyes? No, indeed! You want to pick it up and hug it—and it is all because the baby is well. You pity the delicate, sickly baby or child who shows by every sign that it is not "thriving in growth." And Ozonolium will just as surely transform that child to health as night turns into day. Druggists sell Ozonolium at 25 cents and 50 cents. If your druggist does not keep Ozonolium in stock he can easily order it for you, or if you desire a small sample, to see what it is like, you can obtain the same by mentioning the name of this paper in which you read this advertisement and sending 10 CENTS TO THE OZONOLIUM CO., 38 Pine St., New York City.

F. S. DUFFY, Wholesale & Retail Druggist.

## ITEMS ABOUT JAPAN.

A foreigner cannot own land in Japan. In Japan the excess of males over females employed in various industries is 2 per cent. The house of representatives of the Japanese parliament consists of 375 members, elected for four years. In Japan there are pagodas of considerable height which have withstood the effects of frequent earthquake shocks for centuries.

## Best Cough Medicine For Children.

When you buy a cough medicine for small children you want one in which you can place implicit confidence. You want one that not only relieves but cures. You want one that is unquestionably harmless. You want one that is pleasant to take. Chamberlain's Cough Remedy meets all of these conditions. There is nothing so good for the cough and cold incident to childhood. It is also a certain preventive and cure for croup, and there is no danger whatever from whooping cough when it is given. It has been used in many epidemics of that disease with perfect success. For sale by all Druggists.

## Love Plants.

A favorite plant with the old herbalists was satyria, a name applied to several species of orchis. As far back as the days of the Roman empire it was commonly supposed that the roots of the satyria supplied the satyrs with food and prompted them to commit those excesses for which they became proverbial. Kircher relates the case of a youth who, whenever he visited a certain corner of his garden, became so lovesick that he mentioned this strange circumstance to a friend. On examining the spot it was found to be overgrown with a species of satyria, the odor of which alone had the effect of inspiring love—Chambers' Journal.

## ALBEMARLE PRESBYTERY.

Meets With the Local Church. A Full Number of Delegates Present.

The first session of the spring meeting of the Albemarle Presbytery was held in the Presbyterian church last night. The attendance was large and the pastors and delegates, about 50 in number were present. The retiring moderator, Rev Dr W D Morton, of Rocky Mount delivered the sermon. It was an able address having for the text the passage of scripture found in Isaiah 55:1. The central thought of his discourse was that the teaching of God's word is sure to bring results. The careful study of the Bible even by those who are not Christians will tend to the enlightenment and uplifting of humanity such as no other book can give. After the sermon the gathering was constituted with prayer by Dr Morton. The services today will begin at 11 o'clock and further announcements will be made from the pulpit.

## CASORIA.

What Wrinkles Signify. Wrinkled foreheads in children betoken consumption, rickets or idio. Vertical wrinkles of the brow come early to men who do much brain work. Arched and crossing wrinkles above the lower middle of the forehead betoken physical or mental suffering. Fine close meshed wrinkles which cover the face, sign of age and decrepitude, are caused by loss of contractile nervous force and are prevented by hot bathing, friction and electricity.—Atlanta Constitution.

## SSS FOR THE BLOOD

The best known and most popular blood purifier and tonic on the market to-day is S. S. S. There is hardly a man, woman or child in America who has not heard of "S. S. S. for the blood." It is a standard remedy, a specific for all blood troubles and unequalled as a general tonic and appetizer. S. S. S. is guaranteed purely vegetable, the herbs and roots of which it is composed are selected for their alterative and tonic properties, making it the ideal remedy for all blood and skin diseases, as it not only purifies, enriches and invigorates the blood, but at the same time tones up the tired nerves and gives strength and vigor to the entire system.

FROM CONGRESSMAN LIVINGSTON, OF GEORGIA. I know of the successful use of S. S. S. in many cases. It is the best blood remedy on the market.

FROM EX-GOV. ALLEN D. Candler. S. S. S. is unquestionably a good blood purifier, and the best tonic I ever used.

FROM THE SWEET SPECIFIC CO., ATLANTA, GA.

## "Punta Gorda Notes."

March 18th.

Mr. J. F. Githens, the vegetable man has shipped about 100 crates of fine cucumbers during the last few days from 2 acres he gets about \$4 per crate net.

Mr. A. C. Freeman, our candidate for Sheriff of this county, (De Soto) is some what of a farmer as well as a prosperous merchant. He has watermelons nearly ripe now.

Mr. J. H. Hill, another prosperous farmer, trucker and fruit raiser, has the largest sweet potato grown this year. We saw some yesterday at his place that measured 16 inches, in length and 6 inches in circumference. They were of the "Cuba Yam" and "Nancy Hall" variety.

They plant sweet potatoes here in some places, in large beds of ground about 10 feet wide, set the potato tubes about 3 inches in the bed and cover the bed over with a thick layer of straw or cane leaves. They make fine sweet potatoes in that way.

We saw a Honey bee farm in the suburbs, they make nice honey which sells for a good price, and the best vinegar is made from honey and cane syrup.

Apples are not grown in or near Punta Gorda.

We don't know the reason for this, and while peaches are raised in places, they too are not a successful fruit here.

Mr. W. H. Brown, a Tar heel, is one of our successful merchants and business men in Punta Gorda. He is proprietor and owner of the Punta Gorda Trading Co.

Mr. Stephen Morton, a Tar heel boy is one of our seemingly prosperous young men at present, clerking for a big firm in the grocery and bakery business.

Mr. C. A. Tolson, another "Tar heel" is one of our sober and working young men. He is Capt. of a fishing schooner. Mr. Raymond Smith, Sam Freeman, R. M. Canton, M. E. Bell, and Bros James and Thomas, P. H. Phillips, and E. B. Sanders, are "Tar heels" and there are others of the men folk, are from N. C., also many women from that State too.

Our neighbors near us are kind and very sociable. Messrs J. A. Roberts, Jesse Patrick, James Underhill, W. Herbert Chadwick, M. S. Davis, are some of our good and kind people, whom we call neighbors, there others good and kind.

We went to the city of Bartow last Thursday to a grand barbecue and political speaking. As you must know, at this time, Florida is under great excitement in the political world. The laws of this State require a general election throughout the State, which comes off on the 10th of May. The candidates from third constituency down to U. S. Senate, met at Bartow, a town some 75 miles from Punta Gorda, to "discuss" the right each had for office; For U. S. S. there were 4 candidates for Governor, 4 candidates for Congressmen, 4 candidates for every district but one so far, and 4 or 5 each for the following, viz. Secretary State, Auditor, Treasurer, Attorney General, Adjutant General, Supr., Public Instructor, State Senator, and House Sheriff and set down to third class P. Pa. This was our first trip to Bartow, a pretty town of some 2500 people and such a crowd of visitors to eat the barbecue and see the candidates. They saw and we saw about 20 bbls of flour, 75 bushels sweet potatoes, 100lbs ground coffee, and 6 large hives and a dozen hogs were barbecued, baked, cooked, and boiled. Some 5000 visitors came saw and conquered. We think this was really the biggest thing of the kind we ever saw. Speaking commenced at 10:30 A. M. and at a quarter after sunset, we left and they were still speaking. We would like to note some of the speakers and speeches, but we haven't room here will only say that for U. S. S. the present incumbent Jas. P. Taliferro, 1st 3 spots, W. S. Jennings, present governing one of them, and if you never heard maddling you could have heard it there.

From now on till the 10th of May, it will be danger us to say your case for office is better than your opponents. Wonder how it is in old North Carolina. No opposition here and not much there all Democrats "Let em fight."

Last Tuesday night we had a dozen of the candidates here in Punta Gorda one of them Hon A. B. Clark Abrams, liked to jump on the governor. Abrams, is a candidate for Attorney General, and the governor is opposed to him. People take sides with another man against Abrams.

"TAR HEEL,"

Nothing Equal to Chamberlains, Colic, Cholera and Diarrhoea Remedy for Bowel Complaints in Children.

"We have used Chamberlain's Colic, Cholera and Diarrhoea Remedy in our family for years," says Mrs J. E. Cooke, of Netherlands, Texas. "We have given it to all the children. We have used other medicines for the same purpose, but never found anything to equal Chamberlain's. If you will use it as directed it will always cure." For sale by all Druggists.

What a Life Did.

The madness of suicide is a relief from mental anguish was vividly illustrated years ago by an incident which occurred in an Italian town. Moretti, a tailor, was sent to prison on a charge of fraud. His sweetheart called upon the police officer to ask how long Moretti was likely to be confined and was told that it would be probably for many years. The policeman had been instructed to say this by the girl's mother, who disliked the match. Overwhelmed with grief and thereby driven to despair, the poor girl put an end to her life by poison. A few days later Moretti was released from custody, the accusation against him having been proved false. He returned home to find his affianced bride a corpse. Frenzied at the sight, he, too, destroyed himself. The lie wrought a double tragedy.

FROM THE SWEET SPECIFIC CO., ATLANTA, GA.

## WASHINGTON LETTER

[Special Correspondence.] An old song with new words has appeared in congressional circles. Mr. Sherman and Mr. Tawney, the sweetest tenors in public life and leaders of the house chorus, have placed the music loving public under obligation to them for having brought it out. The title is "Our Good Old Uncle Joe," and it goes to the tune of "I Smoked My Last Cigar."

We have with us a pleasant guest. One whom we love to know: Of all the good souls the rarest, best, His friends call "Uncle Joe."

Oh, he's a man to know, This same old "Uncle Joe," Seemeth best a hottish Josh, There's none like "Uncle Joe."

This song was first rendered at a recent festive gathering at the residence of Representative Sibley of Pennsylvania, when he entertained in honor of ex-Speaker Henderson. Messrs. Tawney and Sherman made a decided hit in their rendering, particularly with the following:

He's a witty, wise and tactful man, His words do say, flow, He seldom bets a hottish Josh, Our esteemed "Uncle Joe."

There were several stanzas of like heartfelt tribute, but enough has been given to convey an idea of the spirit of the tuneful lay.

## Cautious Secretary Shav.

Secretary Shaw has decided to deprive the sightseeing public who visit Washington of one of the most popular souvenirs of the trip. The little busts of Washington and Lincoln in greenback pulp, with the bits of bills in green and red showing their genuineness, are to be abolished. Some quid nunc in the treasury department has convinced the secretary that it is a dangerous thing to allow the greenback pulp to be made up into such trinkets and sold, as they often contain pieces of quite noticeable size, and there is a constant temptation to pick them out and patch together a bill.

No one here ever heard of the thing being done, and one of the expert mathematicians out at the Naval observatory made a computation that it would be done but once in 8,000,000 years. Nevertheless Mr. Shaw is a very careful man, and he will take no chances even at the rate named. The greenback pulp is hereafter to be more carefully guarded and will be ground to a fine flour so that it will lose all identity with its former noble purpose as money. The bust modelers will be permitted to use this, but they say that no one will want to buy the things unless they can see the bits of greenback sticking out of them.

## A Gentleman's Weight.

Secretary Taft is huge. He is tall and broad and thick. At Senator Foraker's reception in his honor the other night somebody looked the secretary over and asked, "Mr. Secretary, how much do you weigh?"

"You remember that Speaker Reed told a similar inquirer that no gentleman weighs more than 200 pounds, don't you?" said the secretary.

"Yes; I believe he did say something of that kind."

"Well," boomed the secretary, "I have revised that. I tell everybody that no gentleman weighs more than 300 pounds."

## Obliging Policemen.

Washington police are the most obliging in the country. The other afternoon a woman went into the Sixth precinct station house and complained to Sergeant Goss: "My husband has not been home to his dinner, and everything is getting cold. I wish you would make him come home." Whereupon a detachment of coppers went out sleuthing for the recalcitrant husband, found him playing poker in a room over a tailor shop and sent him home double quick to his dinner. Then they arrested the host, and he was fined \$50 the next morning.

## David and Goliath.

When Senator Stewart was engineering the Indian appropriation bill in the senate Senator Spooner entered vigorous objection to some of its provisions. Mr. Spooner, whose seat is directly in front of Mr. Stewart's, is about five feet tall. Mr. Stewart is at least six feet. The latter persisted in preserving certain provisions in the bill which Mr. Spooner thought should be rejected, and finally the "little giant from Wisconsin" used a gesture which closely resembled shaking his fist at the big Negadan. "David and Goliath," remarked Senator Frye to Senator Platt of Connecticut. "I wish somebody would hand David his sling," remarked the tall senator from Connecticut without a suggestion of a smile.

## Chinese Voters Republicans.

A San Francisco man says that all Chinamen who become voters in the United States vote the Republican ticket. Only those who are born in this country can become voters, the immigrants being excluded. This gentleman told me that the political alliance of the Chinese was determined by the close alliance on the Pacific coast of the labor unions and the Democratic party. Labor unions are not liked by the Chinese and they are apt to be prejudiced against any party that is closely affiliated with the unions.

## Would Hate to Crowd Mr. Dalsell.

A bright faced page about ten years old was talking with Representative Ruppert of New York. "Who had you appointed?" Mr. Ruppert asked.

"Mr. Dalsell of Pennsylvania," the youngster answered.

"I suppose when you grow up you are coming to congress to succeed Mr. Dalsell?"

"Well, I'd hate to crowd Mr. Dalsell out," answered the page hesitatingly. CARL SCHOFIELD.

## Sciatic Rheumatism Cured.

"I have been subject to sciatic rheumatism for years," says E. H. Waidron, of Wilton Junction, Iowa. "My joints were stiff and gave me much pain and discomfort. My joints would crack when I straightened up. I used Chamberlain's Pain Balm and have been thoroughly cured. Have not had a pain or ache from the old trouble for many months. It is certainly a most wonderful medicine." For sale by all Druggists.

## A TEST OF FLOUR.

It is Quite an Important Event in the Big Mills.

The letters XXXX which decorate our flour bags are a source of mystery to the average housewife, but get there very naturally. In the largest flour mills several tests are given all flour sent out, but the final test is the baking trial. In a kitchen attached to the flour mills, which is replete with shining pans, electric ovens and white cooling boards, there are loaves of bread made daily from the different samples of flour which have just been ground. Cooks are kept the year round for this purpose, for as many as sixty loaves are made daily by one mill alone.

Exactly at 3 o'clock in the afternoon, after the bread is done, the head millers file into the kitchen and cut and inspect the different loaves. No man knows which flour has come from his mill, so the test is an impartial one. A vote is taken on the best loaf, and the flour from which that was made is marked with the mysterious X's. So great has this business of testing flour become that one great mill has testing rooms to which samples of grain are sent from all over the United States and Canada. These samples are made into bread after going through a minute flour mill. After the bread has been made the package of grain is sent back to the miller who shipped it with full directions how to mark his flour, whether best or second best.

## THE LAND CRAB.

A Mean Trick by Which Pacific Island Natives Catch Them.

In Fiji and other Pacific islands the natives have an ingenious plan of capturing the land crab. The native goes out in the late night, and when he hears a crab at work up a tree he climbs up some fifteen or twenty feet—the tree is generally a hundred feet high or more—and ties a large slip of grass round the trunk. The crab, having finished his work, hurries down to his partner for a feed, traveling backward, as usual. When he comes to the treacherous clump of grass, thinking he is once more on mother earth, he lets go his hold of the tree and of course goes down smash, breaking his legs and getting stunned, to fall an easy victim to the native boys who come round with their baskets in the morning. The whole of crabdom apparently regarded this as a mean trick when it came in first, and they are now very circumspect on their expeditions, so that few are caught in this way.

In his hole the land crab makes himself a comfortable bed of cocoanut fiber, and he makes the material up so well that the native women burrow for it, as it is found useful for many purposes—pillow stuffing, the making of chignons, pads and other modern toilet "fakings" which they have now picked up from the mission stations and towns.

## Won His Appointments.

When Hoke Smith was secretary of the interior he was especially generous to Georgians in the matter of department clerkships. It was generally conceded that around the patent, pension and land offices one could not throw a stick without hitting a Georgian. Senator Voorhees of Indiana had been trying to place one or two Hoosier constituents, but had failed. One day the senator came along whistling "Marching Through Georgia" and keeping step to the tune.

"What are you doing that for?" asked Hoke Smith.

"Just can't help it," said Senator Voorhees. "It is just like marching through Georgia to come through your department."

He got the appointments that day.

## Cats and Cattle.

In certain parts of southern California it is absolutely necessary to have cats to successfully raise cattle. The cows feed on a red clover which makes a superior quality of beef. This clover grows very sparsely until it was discovered that one farmer who had raised a large number of tabby cats always had fine clover fields. Investigation proved that the cats killed the field mice who killed the wild bees which fertilized the clover seeds by carrying the pollen from flower to flower, thus causing the seeds to sprout thickly every year. Now all the farmers have many cats.

## ONE WAY OUT

A Resident of New Bern Shows the Way.

Only one way to cure a bad back. Liniment and plasters may relieve it; They won't cure it. Backache means sick kidneys. Doan's Kidney Pills cure all kidney ills.

New Bern people prove this. Read a case of it:

J. H. Curtis, plumber of 71 Craven St., residing at the end of Neuse Bridge, says "I suffered with a weak back which started from a wrench I gave my back when seventeen years old, and it has troubled me ever since, sometimes so badly I could not work. I seemed to lose all use of my back at times, and was hardly able to stand, and could not straighten to save my life especially when I took cold. I never thought about it coming from my kidneys. I used plaster after plaster and liniments without number but without permanent relief. I saw notices about Doan's Kidney Pills and was induced to go to Bradham's Pharmacy for a box. They are a backache pill beyond doubt. I used them and have not had my former pains and my back has become well and strong. You can use my name as one who endorses the claims made for Doan's Kidney Pills and I am glad to have you do so."

For sale by all Dealers, Price 50 c. per box. Foster-McLurg Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no substitute.

# Your money back

If you are not satisfied. DO YOU SUPPOSE that a company with a capital of \$500,000.00, paid in full, and the proved reputation of 25 years of continuous success, would make such an offer and not carry it out to the letter? DO YOU SUPPOSE we would jeopardize our standing with the public and our chances of still greater success by failing to fulfil any promise we make? DO YOU SUPPOSE we would make such an offer if we did not have the utmost confidence in the underlying quality of our goods? WE KNOW we can please you and save you money, for HAYNER WHISKEY goes direct from our distillery to you, with all its original richness and flavor, carrying a UNITED STATES REGISTERED DISTILLER'S GUARANTEE OF PURITY AND AGE and saving you the big profits of the dealers. That's why it's best for medicinal purposes. That's why you're preferred for other uses. That's why we're regularly supplying over a quarter of a million satisfied customers. That's why YOU should try it.

Direct from our distillery to YOU. Saves Dealers' Profits! Prevents Adulteration!

# HAYNER WHISKEY

PURE SEVEN-YEAR-OLD RYE

## 4 FULL QUARTS \$3.20 EXPRESS PREPAID
