

# New Bern Weekly Journal.

VOLUME XXVII.

NEW BERN, CRAVEN COUNTY, N. C., FRIDAY, APRIL 29, 1904—SECOND SECTION.

NUMBER 9.

In every receipt that calls for cream of tartar and soda or other quick leavening agent use Royal Baking Powder. It will make the food of finer flavor, more digestible and wholesome.

## BELLAIR.

Farmers are catching up with the weather if not with their work, and some are taking time to go fishing and a nice blinch is occasionally secured.

Cotton planting is about finished, corn is coming up and some of it that was cut to the ground and is coming the second time which does not hurt it. The few cabbage plants about here are looking fine, and being planted in winter have the advantage of not running to seed as those plants early are doing. With some few exceptions the stand of potatoes is good and though rather dry for they are growing nicely, and the ever busy potato bug has put in his appearance.

Spring greens are not so scarce now as formerly young collards have attained good size to eat and they certainly take the place of no greens at all, very much.

Mrs. H. W. Holt, of Goldsboro is visiting her parents and friends at Bellair. Also Miss Henry Metz, of New Bern, is visiting in our vicinity.

The venerable pastor Mr. Lewis Kilpatrick of near Grifton made a short visit to his children and grand children about Bellair. He is nearly 85 years old and walked fifteen miles one day not long since, and that too, looking after business for a friend.

Our public roads are in fair condition now with the exception of a few holes one or two over see a seem to neglect.

## LONG BRANCH.

Our farmers are busy this week planting cotton.

Mr. H. K. Scott finished planting cotton last week.

Miss Stella Simpson of this place made a visit to her home Saturday and Sunday accompanied by one of her pupils, Hattie Banks.

Messrs Sam Robinson and Ransom Booth went to New Bern last Saturday.

Mr. W. F. Banks, wife and children spent Sunday at Mr. D. E. DeBruhl's and also Mr. J. A. DeBruhl.

We are having some trouble with fire in the woods recently. It seems as if there is always some one loafing around and causing trouble.

It seems as if we are going to have a long dry spell now, it is almost too dry for seeds to get up now.

Mr. A. J. Banks went to New Bern Saturday on business.

We are glad to say our school is progressing nicely under the skillful management of Miss Stella Simpson.

Mr. and Mrs. J. H. Rhodes of this place made a visit to Mr. Bob Boyett's Sunday.

Mr. Z. V. Rawls and family spent Sunday at Mr. L. M. Mallard's, his wife's father.

Fishing seems to be right popular among some of our ladies, but we don't know how they get along, all we see is the ladies and their poles. That does not denote much fish.

Don't forget our picnic and fish fry the 7th of May.

## DEW DROPS.

Our farmers are nearly done planting cotton.

The cool weather for the past few days has made the corn and truck look bad.

Mr. J. H. Stanly went to New Bern Monday.

Mr. Henry Wiggins of Reelboro passed through our berg last Monday.

Mr. E. D. Wetherington of Cove passed through our town Tuesday.

Our school closed last Wednesday with one of the finest entertainments, at the school house, that we have ever enjoyed here.

Sarah bade us good-bye. We wish her that degree of happiness and prosperity through life, we trust that in the near future some gentle southern breeze may blow her upward again and that her influence may be thrown about us in the future.

P. M.

## ARAPAHOE.

Our people are having fine weather for their farms which is moving on nicely. Some of our farmers met with the misfortune last week of getting their potatoes cut down by the frost. But only about in the loose sumps newly cleared.

There is much work going on in our vicinity in the way of improvements. Within 3 miles of Arapahoe there are six new buildings nearly completed, the most of which are well constructed and of modern style. The farming business has advanced rapidly for the last few years. We are safe to say for the last 5 years the farming business in our community has advanced 50 per cent taking all things in consideration together with the new lands just cleared up and the old worn-out farms that have been improved. While our people are far behind in some respects I make mention of these things to let the readers of the Journal know that we are making at least normal progress.

Mr. W. R. Reel who not long since went out of the merchandise business has bought a tract of swamp land and will go to farming.

There continues to be much sickness in our surrounding neighborhood. Mrs. Hattie Philpott wife of Mr. George Philpott is very low with hemorrhagic fever.

Mr. A. D. Rawls has been very sick this week.

Mr. Thomas Fornes wife and two of his children have been very sick this week. There seems to be an unusual amount of sickness for this season of the year.

A. B.

A New Bern Woman Asks "have you a floor paint that will last two weeks?" Yes we have Devco's; it has a beautiful gloss and will last two years if properly applied.—E. W. Smallwood.

## DOVER.

Mr. Seth West spent yesterday in New Bern on business.

Mr. Joe Kinsey of Fort Barnwell spent a few hours in town this morning.

Mr. Freeman Erwin was here yesterday on business of a political nature.

Mr. W. B. Pearce and wife passed through this morning on their way hom from New Bern.

Mr. Will Davis of Wilmington and Miss Jennie Daugherty were married at the home of the bride last Wednesday and Mr. Davis took his bride to Wilmington the following day.

Mr. H. P. Daugherty is the first man through this section to make a shipment of garden peas. He brought out several boxes this morning consigned to John Balder, Phila.

A negro convict was killed in the Goldboro Lumber Co's logging woods one day last week. It seems there were several convicts on the log train while it was backing when a car jumped from the track and this negro jumped from the car and was run over the others remaining on car were not injured.

Dr. H. Pollock went to Richmond yesterday to accompany a patient to the hospital. He will return tomorrow.

Messrs W. O. Wooten and N. S. Richardson are off to Trent river this evening on a fishing tour. We wish these clever gentlemen a good time.

## CASTORIA

For Infants and Children.

The Kind You Have Always Bought

Bears the Signature of J. C. Watson

## Men's Oxfords.

E. W. ARMSTRONG.

## Straw Hats, etc

If you want a Straw Hat, Fanny Vest, a New Shirt or anything else in the furnishing line, we can supply you with the goods.

E. W. ARMSTRONG.

## CHRISTIAN SCIENCE—A SCIENCE

Of Love. Eloquent Lecture by Ricknell Young, C. S. B. of Chicago.

The court house was well filled last night, the occasion being the lecture on Christian Science by Mr. Ricknell Young, C. S. B. of Chicago. For this occasion the Scientists of New Bern had transformed the court room's interior into a beautiful hall. In the bar which was cleared of its table and chairs, a small platform had been erected upon which the speaker stood. All around in groups and upon stands and in pots and vases, were vines, plants and flowers.

REV. MARY BAKER G. EDDY, Discoverer of Christian Science.

Everything was pleasant and agreeable to the eye, and it only needed the presence of the speaker, Mr. Young, with his magnetic eloquence, to make the scene complete.

Mr. Romulus A. Nunn introduced the speaker in a pleasing manner, saying—since the time the people of this world have looked around and upon its beauties to bring them to their minds to enjoy them, there has been activity of study, the desire has been to regard religion in various ways, and from restricted doctrines, the disposition has been to go beyond, to accept some good in each, to find no harsh criticism of any, and the spirit has been to let it believe what they would believe, so it was good, and the question may be

THE MOTHER CHURCH, BOSTON, MASS.

asked who shall say otherwise? The time was when no toleration prevailed in religious thought, but today that is changed. Tonight we have with us, Mr. Ricknell Young of Chicago, a gentleman whose reputation has come before him, and we shall tonight hear him upon, Christian Science.

Without any preliminary, the speaker at once entered upon his lecture, and for over an hour held the close attention of his audience. Mr. Young, is a quiet, deliberate speaker, his language is the best, his manner attractive, his enunciation clear, decisive, eloquent and he impresses his hearers as not only being well versed in his subject, but equally serious and a firm believer in his every argument in favor of Christian Science. Perhaps it is firmness and apparent absolute belief in what he says, which gives Mr. Young most strength in his speaking.

He said in part: "Christian Science may be defined as the science of all that relates to God, and is science not only in relation to healing, but as corrective in relation to all the problems of existence. Accepted theories of religion and science have accorded at the association of these words but reason and logic show conclusively that science must relate to truth, and therefore to God, since God is the cause and basis of all that is true."

"Christian Science does not proclaim a new God nor a new law, but comes declaring the same God, and the same law that Jesus declared, the one infinite, eternal God, and His good and unchangeable law. It declares the omnipotence, omniscience and omnipresence of God as do all other denominations, and upon these basis shows that evil has no power, knowledge or presence, in other words, that it is unreal."

"Christian Science never ascribes evil to God, or makes Him in any way responsible for it, but shows that evil originates in a belief of material existence entirely apart from God, and is supported by science or truth. Of all people, Christian Scientists believe most absolutely in Christ. They accept the teachings of Christ Jesus without reser-

vation. They declare that His command to heal the sick is as binding as that to preach the gospel, and that there is no evidence that it was intended for His time only. It was scientific religion that healed the sick in the time of Jesus and His disciples, and it does the same work now, and must always do it, since His life and work were an example for all time, and His method was a universal and imperishable heritage of man.

"The steps of salvation in Christian Science are not unusual. As in other denominations, they involve the admission, confession of sin, sorrow, for wrongdoing, or repentance, and reformation manifested in a correct life. Salvation in Christian Science, however, includes exemption from sickness, want and woe, as well as from sin. It is not contingent upon death, but is a way of life, as a way of righteousness. Christian Science is founded upon the Bible.

"The Christian Science text book is a commentary upon the Bible. Her denominations have commentaries, but neither in the world has ever been published as much as this one. Thousands of people have testified that they have been healed, some of them of so-called incurable diseases, through the perusal of this book. In some instances this testimony has been given in courts of law, and has been in the least shaken by cross-examination. Many of these cases involved the most terrible diseases known to mankind, such as cancer, tuberculosis, locomotor ataxia, and in other instances such diseases as asthma, hay fever, St. Vitus' dance and others.

"It is erroneous to suppose that Christian Scientists deny the reality of things. They affirm the eternal existence of all things, and that they exist in the divine mind in their perfect individuality and proper order. It denies materiality of things including all the discordant conditions that material things manifest.

"Christian Scientists are in no wise arrayed against those who believe in materia medica. They were all believers in it themselves until they found in Christian Science a more efficacious way of healing. This way they believe to be the very best one, because it is God's way, as shown in the works of Jesus. Although charitably disposed toward those who practice materia medica, Christian Scientists are fully aware of the fact that it is merely an experimental system. Surely after four thousand years it ought to be beyond this stage. Furthermore, it is a self-confessed condition of weakness that combinations of medical societies and the medical fraternity generally should come before our legislatures, the tendency of which is almost invariably to shut out all other systems. Nor can any valid excuse be given as far as Christian Science is concerned on the ground of protection to the public, since

corded only good deeds. The signs of these times are prophetic. They point to the gratitude to God that is appearing in the hearts of men for the life and works of the leader of this great movement, destined as it is to accomplish the regeneration of mankind."

## J. C. Pritchard Nominated.

Special to Journal.

Raleigh, April 27—Judge Jeter O. Pritchard has been nominated by President Roosevelt to succeed the late Judge Simonton, as Circuit Judge.

## Death of Alfred Fentress.

Mr. Alfred Fentress whose home was near Bayboro died at Mrs. Smith's boarding house on South Front street Tuesday night. He became very sick at Pollockville Monday and was brought here but his disease was too far advanced to control.

Mr. Fentress was well known in Pamlico county belonging to one of the old families of that section. He was born near Bayboro about 40 years ago and that has always been his home. He had the misfortune to have suffered an affliction of the eyes which had made him nearly blind for several years. His wife and two children survive him.

Relatives came yesterday and took the body to his former home for burial.

## Harlowe and N. Harlowe.

April 27.

The Harlowe Telephone Co. have their line with seven connections in and are having very satisfactory service.

Dr. C. N. Mason spent a day last week in Beaufort where he went to see his aged father, Mr. J. H. Mason who is very feeble.

Mrs. G. W. Thompson is again at home from New Bern where she and little Marvin had been spending a few days.

Mr. J. H. Davis and daughter, Miss Dollie of Beaufort were up to spend the day with his son, Mr. J. H. Davis Sunday.

Miss Reba Morton of Beaufort is on a short visit to her relatives.

Mrs. Joseph Fisher and children, Miss Bessie Morton and Mrs. R. W. Ward returned from Riverdale Sunday.

Mr. T. D. Hewitt, of Carteret Lodge, was here yesterday in the interest of life insurance.

Mr. Donnie Hanks has gone to New Bern to be present at the marriage of his sister, Miss Brownie, at one time the very popular and courteous teller of the F and M Bank.

Mr. J. A. Morton was in New Bern on business yesterday.

The carpenters have commenced work on the building of a new bridge in place of the old one at the southward end of the canal, which is much needed.

Mr. Jno S. Morton went to Winthrop yesterday collecting taxes and performing other official duties.

Mrs. J. J. Long and son, Ira, and Miss Madie Bell are spending the day in the City of Elms.

Messrs J. H. Davis and Jas. R. Bell are on a business trip to New Bern today.

## "Plastico" A SANITARY WALL COATING.

Plastico is NOT a hot water, stinky glue Kalsomine. It is a finely powdered rock, in white and beautiful tints to be mixed with cold water. Any one can brush it on. Plastico has the peculiar property of cementing to the wall, destroying disease germs and vermin and never rubbing or scaling. Kalsomine has no cementing property—depends entirely on glue to make it stick. The glue soon rots, nourishing vermin and germs of deadly diseases, and the stuff rubs and scales off, spoiling walls, ceilings and furniture. We all know that must be treated with hot water are Kalsomines, no matter what fanciful names they bear. Refuse these unwholesome mixtures and buy Plastico in 2 lb. packages only, properly labeled. Sample card of Plastico this free.

ANTI-KALSOIMINE CO., Great Britain, Etc.

For sale by E. W. SMALLWOOD.

## Fire, Accident, and Plate Glass Insurance

Home and Foreign companies:

MISS NANNIE P. STREET.

## When You Get Time

bring that carriage around to us and we will soon tell you how little it costs you to repair and put it in order again. We do all kinds, and it is seldom a vehicle is so damaged that we can't make it good as new. And it won't cost anything like the price of a new one either.

We put Rubber Tires on your old or new wheels. We shrink your loose tires in a machine without cutting them, or without taking them from wheel on buggy while you wait. Everybody is invited to see the machine at work putting new bolts in old wheels.

**DISEASE** Caused by **Constipation 80%** Through other **20%** Causes. **100%**

**DR. THACHER'S Liver and Blood Syrup**

**CURES BY REMOVING THE CAUSE**

A THREE-FOLD REMEDY for all ill-effects of **Acid** and **Bilious** troubles. Acts on the **Liver and Kidneys** and **Purifies the Blood.**

Thousands have used this reliable remedy with perfect confidence and success for 62 years, because they know just what it contains. The formula consists of Buchu, Hydrangea, Mandrake, Yellow Dock, Dandelion, Sarsaparilla, Gentian, Senna and Iodide of Potassium. Any doctor or druggist will tell you that this is a scientific and reliable combination of great merit for all diseases having their origin in the Liver, Kidneys or Blood. After years of experience and patient experiment, Dr. Thacher so perfected the process of manufacture, that it never fails to bring the expected relief when taken according to directions.

Thousands of sick ones to whom life has been a burden have written grateful letters of thanks.

"I have suffered greatly with indigestion, constipation, also a severe liver trouble, with loss of appetite. Could not rest well at night; in fact, had no energy to work or even walk around. I felt like I was packing a heavy load and, was easily exhausted, until I took Dr. Thacher's Liver and Blood Syrup, which helped me almost from the first dose. When I had taken one and a half bottles I felt like a different man; and I know that it was due entirely to your medicine. I used it in all three bottles, and consider myself perfectly cured. At this time my appetite is good, I sleep well, and feel strong and refreshed on arising in the morning." T. L. SWEN.

If you need a medicine write to-day for a Free sample bottle and "Dr. Thacher's Health Book." Give symptoms for advice. We simply ask you to try it at our expense. We know what it will do. At all druggists. 50 cents and \$1.00.
