IN NEW QUARTERS.

The New Bern Military Academy and Carolina Business College are Located on George Street.

A considerable transition has been made and is being made at the New Bern Military Academy grounds. The cadet barracks are being completed rapidly and present a very striking appearance. The large brick hall to be used as a dining hall has been overhauled and repainted throughout. The large brick building, the class room building has been calculated throughout and the work of repainting and improving generally is going on rapidly.

Besides the work on the new and the old building, a neat and attractively constructed picket fence around the campus is now almost complete.

This week carpenters and brick layers in full force will begin the construction of another large building which will accommodate about sixty or seventy young ladies besides will contain a large assembly hall and society hall. This will be the sixth building on the campus, and will be one of the largest and most beautiful.

We learn from Col. Holladay that new students are now enrolling in the Carolina Business College and that the summer session of the College will be very successful in every way as well as from a standpoint of patronage. Applications for catalogues are coming in rapidly while already names of students for the coming season are being received daily.

The prospects for New Bern Military Academy and Carolina Business College seem to be exceptionally bright and it is believed that the institution will enroll a study-body equal to that of any school of its kind in the State.

No longer is it necessary to go to the western schools, for now we have one of the very best equipped at home, here in Eastern North Carolina. Let us support it and patronize it.

Repair Crossed Wires.

It is exceedingly annoying to the average citizen to be torn up all the time by the constant ringing of the fire alarm caused by crossed wires.

Sunday night the bell banged away for a full half hour and while it did no particular harm it did not contribute to any one's happiness. Last night again the wires crossed and the signal indicated fire at the foot of Craven street. The fire horse came galloping down the street and there was every appearance of a conflagration but it developed that the fire was nothing than a crossed wire.

It is hoped that those who have the matter in charge can devise some way to stop this confounded annoying practice of false alarm.

The night ringing especially is very unpleasant and while there is the absolute necessity of a fire alarm let it be worth something to the citizens. As it is at present it is worse than useless.

Police Court News.

Catherine Whitehead a colored woman who has been arrested several times before was in the Mayor's court yesterday on the same old charge of drunk and disorderly conduct. She was required to pay ten dollars and costs or go to jail for 30 days. She chose the latter and was daily installed as a city convict.

Lizzie Parsons a white woman was arrested for disorderly conduct. Judgment was suspended on payment of costs.

D. R. Stanley and W. O. Bryan charged with reckless driving on Saturday night. It appears that the two men were driving transfers on Broad street and they collided throwing a passenger in one of the carriages to the ground. Stanley was dismissed; it being proved that he was not to blame. Bryan was taxed the costs and damages.

Gulford Davis, the Beaufort negro who, while under the influence of liquor, raked a row on the colored excursion here last Friday was taxed the fine and costs for his little sport which amounted to \$5.00; he was also bound over to Superior Court for trial for carrying concealed weapons.

Albert Brown, "littered" a pair of trousers in a Bryan's store Saturday night and though he paid for them the Mayor thought the evidence against the prisoner sufficient to bind him over to court under the sum of \$50.

THE LADIES

favor painting their churches, and therefore we urge every Minister to remember we give a liberal quantity of the Longmans & Marston Paint toward the painting.

Wash and covers like gold.

Don't pay \$1.20 a gallon for Linseed Oil (worth 90 cents) which you do when you buy other paints in a can with a paint label on it.

\$2 a gallon 14, therefore when you want fourteen gallons of paint, buy only eight of L. & M., and mix six gallons pure Linseed Oil with it, and the good paint at less than \$1.30 per gallon.

Many houses are well painted with four gallons of L. & M. and three gallons of Linseed Oil without the worth.

These Colored Paints are sold by Hyatt Supply Co., New Bern N. C.

REMEMBERED DECEASED BROTHERS

The Old Fellows Decorate The Graves of Members After Holding Appropriate Exercises.

The Eureka Lodge No 7, I O O F held very pretty and impressive services in memory of their departed brothers at the Court House Sunday afternoon.

The members were present in a body and occupied seats within the bar and in the main part of the room. Many friends of the order were present.

Noble Grand, C. M. Dockham presided and E. Gerock was chaplain. J. H. Weddell was master of ceremonies. A choir assisted by several ladies rendered some appropriate and beautiful music.

The address delivered by Rev. W. H. E. Rich was a touching tribute to those the order had assembled to honor. His thoughts were centered in the text, "Let me die the death of the righteous and let my last end be like his." He made a practical lesson of the death of a good man and paid an eloquent to the order for the principles it promulgated and their efforts to elevate mankind.

After the services the members marched to Cedar Grove Cemetery and gathered around the Confederate monument where the ritual was read and a song sang. They then marched around the cemetery and laid flowers on the graves of thirty of their brethren.

LAID TO REST.

The Remains of Miss Mary Dowdy Tenderly Placed in Cedar Grove Cemetery.

The remains of Miss Mary Dowdy, who died of consumption at the home of her uncle, in Bryson City Friday morning arrived in New Bern Sunday morning accompanied by her sisters and brother, and were taken to the Epworth League parlors.

The funeral services were held in the Centenary Methodist church of which she was a devout member Sunday afternoon at 8 o'clock and were conducted by Rev. G. T. Adams.

The pall bearers were Messrs. W. B. Smith, A. E. Hibbard, Don Woods, Ed Harrison, Wade Meadows and John Bowden. The floral offerings were exceptionally beautiful.

RESERVES HONOR GOVERNOR.

The Beaufort Naval reserves took the Governor out for a ride on the Sound Beaufort, N. C., June 10th, 1904.

The boat crew from the Beaufort Division of Naval Reserves, under the command of Lieut. R. E. Dowdy, left here this afternoon at 2:30 o'clock arriving at the Atlantic Hotel wharf at 4 o'clock and was there met by Governor Aycock and State Auditor Dixon.

The Governor and Dr. Dixon stepped aboard and at the command of coxswain Garner the Cutler was cast off with the governor at the helm.

The crew rowed down the harbor a mile or two and in a joking way the governor said "boys don't row so fast as we are not in any hurry." The Cutler was then turned around and again headed up the harbor, passing the hotel wharf which was crowded with spectators who cheered as the governor and his crew passed up the stream.

After going up the harbor some distance the governor said he was ready to return to the hotel. The wharf was soon reached and the governor congratulated Lieut. Dowdy on having such a good crew. At the command of Second Lieut. Guy Willis the crew gave three cheers for the Governor and Dr. Dixon. The crew was composed of the following:

Lieut. R. E. Dowdy, 2nd Lieut. Guy Willis, Quarter Master Dave Arthur, Coxswain Alex Garner, Seaman; Geo. Brooks, L. V. Lewis, G. R. Whalley, R. Whitehurst, W. Pearson, M. V. Lewis Dr. Johnson, D. Congleton, S. H. Hill G. F. Hudgins, M. Gold, W. J. Rice, W. H. Ramsey.

ANNOUNCEMENT.

I wish to announce that I did not have my brother arrested Thursday and had no part in the affair, the whole matter was by some neighbor who had an "ax to grind."

I. P. HATCH.

Eyes Tested Free!

A few of the evils flowing from incorrect eye strain are as follows: inflammation, drowsiness with an uncomfortable feeling while and after reading, headache following, the abnormal amount of nerve force expended on an imperfect eye which should go to some other part of the body, sops your vitality, dulls the brain and if the leak is not stopped can cause complete break down of the whole nervous system.

Our glasses are properly fitted by the aid of scientific instruments, at about half the price you pay others who have not these necessary instruments, we guarantee satisfaction, you to be the judge, so why pay others more than double our price, especially to those who travel? We are located permanently and in case of error you do not lose what you pay.

TRAVELING IN INDIA.

One Must Hire a Native Servant or Endure Endless Trouble.

Every one who goes to India to travel or live at hotels, says the Chicago Record-Herald, must have a personal servant, a native who performs the duties of valet, waiter and errand boy and whatever else may be required of him. This is a fixed custom of the country, to resist which brings endless trouble to the traveler.

Many of the Indian hotels expect the guests to bring all their own servants, both chambermaids and waiters, and are consequently so short handed that the traveler who comes without them has usually to wait upon himself.

On the railways a native servant is quite indispensable, for travelers are required to carry their own bedding, make their own beds and furnish their own towels. The company provides a bench to sleep on similar to those in American freight cabooses.

Each car has also a washroom and sometimes water. But if the traveler wishes to be sure of washing his face in the morning and if he is wise he will send his servant to the station master before the train starts and ask to have the water tank filled. Then a Hindoo with a goatskin full of water will climb to the roof of the car and fill it and, having descended, will stand before the door and touch his forehead every time the traveler looks toward him till he receives a penny.

At the eating houses along the road the servant will have to raid the tables and shelves for food and bring it to the car for his master, since no waiters are provided. In addition he will hire baggage carriers and will attend to all the details of catching trains and engaging rooms.

A good servant can be hired for \$15 a month. Poorer "bearers," as they are called, can be engaged for \$2 or \$3 a month, and expect to "find" themselves, but the traveler must pay railway fare for them.

Digests what you eat.

Loneliness. You may find it anywhere, perhaps most forcibly when you are among thousands of other people. There may come a feeling of being apart, of a solitary state, while you walk about and jostle a teeming population. You may be genuinely lonely among people whom you know quite well, and it is not to be supposed that this means any lack of feeling on the part of any one; for there come times when the thoughts of one cannot place themselves in harmony with those of others. The lowest creature as well as the highest in all the world may feel himself out of gear with others, and especially is this true of the average, everyday sort of people, who often experience a sort of aching void of companionship. It happens just occasionally that way.

It is only an affected person who always complains that "nobody understands" him. This man or woman may join with the great majority in so far that some of his actions are misconstrued. Who is there that has not had that experience, with all its bitterness? But, as a matter of fact, it is comparatively seldom that we are not pretty well understood by our close associates.—Charlotte (N. C.) Observer.

The Original Language.

According to the Bible, one language was spoken by all races until the "confusion of tongues." Following Biblical tradition this language must have been Hebrew, assumed also to have been the language of Adam and Eve. Another theory had it that Hebrew, Arabic and Chaldee were dialects of the original tongue. The Persians claim that there were three primitive languages, Arabic, the tongue used by Satan in addressing Eve; Persian, the language spoken by Adam and Eve, and Turkish, the speech used by the archangel when he drove them out of paradise. This would leave Persian as the tongue of primitive humanity. In older days many ingenious attempts were made to settle the question by excluding children from all human intercourse and observing the result in the means of communication growing up between them. Science has no answer to give.—New York Mail.
