VOLUME XXVII.

NEW BERN, CRAVEN COUNTY, N. C., TUESDAY, JULY 26, 1904 -- FIRST SECTION.

NUMBER 3.

AYCOCK REPLIES

To Wilmington Citizens Committee On Encampment.

Case of Felonious Assault. Melon Will in Wake County. Raleigh and Pamlico Sound Railway. State Charters Granted.

Raleigh, July 23.—Gov Aycock today replied to the citizens committee of Wilmington which adopted and sent to him resolutions criticizing him in relation to the encampment of the Second and Third regiments of the National Guard at Carolina City, near Morehead City. The governor will not make his reply public, but will let the citizens committee do this.

George T. Huff, a white man who was charged with attempted felonious assault upon a married woman, Mrs. Jones, of Fuquay Springs, this county, but who was convicted only of a misdemeanor and sentenced to the public roads for thirty days, and who appealed to the Supreme Court has given bond for \$100, pending the appeal. Several questions are raised in the appeal, one of the chief ones being whether a mayor, or magistrate, or even the superior court can sentence a man convicted of a misdemeanor to work on the roads, the defense claiming that such a punishment can only be imposed upon felons and not upon persons guilty of a simple misdemeanor.

The melon will be continuing to knock out the watermelons in the southern part of this county, which is the most important part of section for them. It is said no shipments will be made this year. The loss to the growers is quite heavy. The State agricultural department is trying to find a variety of melons unaffected by the wilt.

There was a large gathering of Masons at Wakefield, this county today, at which speeches were made by State Treasurer Lacey and others. Wakefield is in a very fine farming section and the great question there just now is whether the Raleigh and Pamlico Sound railway will not run through the town, which in such a case will be the most important place on the road between Wilson and Raleigh. The township voted ten thousand dollars in aid of the road, but it is said that the cost of getting into and out of Wakefield would largely exceed this sum. It is stated that the people of Wakefield have been asked to subscribe \$10,000 to the stock of the road, in order to offset this expense and assure the building of the line through that town.

Charters are granted to the bank of Gibson, capital stock \$10,000 W. P. Pate and other stockholders, and to the Elk Mountain Cotton Mill Company, of Asheville, capital stock \$150,000, Jas A. Barroughs and other stockholders. The company is authorized not only to make textile fabrics, but to mine all sorts of minerals, and buy patents.

Percentage Increasing.

The summary given below of the trap shoot Friday shows that our local sportsmen will soon be able to hold their own with almost any gun club.

The results of each tournament show a higher percentage than the one preceding it, and therefore it gives a chance to those who participate and who have an ambition for such things to hope to be able to pluck a trophy or two from some big tournament.

Following is the score:—

	SHOT	BROKE	P.
W T Hill	25	21	84
O C Jordan	50	41	82
Wm Ellis	25	20	80
Ed Clark	25	19	76
J W Duguid	25	18	72
J V Blades	25	17	68
Fred Whitty	50	31	62
Geo A Nicoll	25	14	56
J L Hartsheld	25	14	56
R DuVal Jones	25	11	44
Wm Haar	25	9	36

BETTERMENT PUBLIC SCHOOL HOUSES

Suggested Readings Compiled by New Bern Association.

I can't, therefore, a complete and general education that which fits a man to perform justly, skillfully, and magnanimously all the offices, both private and public of Peace and War.—Milton.

There's a fount about to stream,
There's a light about to beam,
There's a warmth about to glow,
There's a flower about to blow;
There's a midnight blackness changing into gray;
Men of thought and men of action,
Clear the way.

—Charles Mackay.

A free bottle of Dr. Thacher's Liver and Blood Syrup will be sent to any reader of this paper who will write to the Thacher Medicine Co., Chattanooga, Tenn.

THE CONCORD, N. H. DEDICATION

Special Correspondence Giving Details Of Rev Mrs Eddy's Gift To Christian Science.

Concord, N. H., July 20.—The dedication of Christian Science church at Concord, New Hampshire the gift of Rev Mrs Mary Baker Eddy, the discoverer and founder of Christian Science on July 19th, 1904, will ever be a memorable day in Concord, New Hampshire. The dedication of this church, First C C S of Concord, N. H. presented to the Christian Scientists by their revered leader, marked not only an epoch in the city in church building, but also to the capital city of New Hampshire, for it is said to be the handsomest structure representing religion in the state.

The day was perfect in its summer gladness, and the vast number arriving from distant points, brought only joy and thanksgiving to blend with the happiness of the recipients of the gifts. The building is magnificent in appearance, the pale gray Concord granite especially effective in the Southern Gothic architecture, a special feature being the very beautiful tower of unusual height and design, from the top of which may be enjoyed an extensive view of the surrounding country. The seating capacity is one thousand, and as the chimes pealed forth for each of the four services, every seat was taken and others waiting.

The church is 73 feet wide, by 115 feet long, including the reading room, and a room for the exclusive use of Mrs Eddy when she chooses to visit the church.

The hospitality of the town was an especial feature of the day. It was announced that many of the best homes in the city were open to all visiting Scientists, for the hotels could not accommodate the crowd. The clubs also were put at their disposal. Two stores were opened, that passersby could rest, and iced lemonade was served all day.

The Unitarian church was opened for their convenience between the services and the Episcopal church most generously proffered the use of its very commodious Parish House, so beautifully located.

The gift of Mrs Eddy was \$130,000, this was added to by loving donors from all over the United States, among Christian Scientists until it was nearly doubled. Among the gifts was \$1,000 given by the Scientists of North and South Carolina, in loving memory of when Mrs Eddy's life touched these two States, accompanying this was a magnificent cross of gladstone five feet high. The flowers were selected by the Scientist who thought of it, and forwarded to Concord from the fields of them in Magalloway N. C., the design being also sent with them.

That a church of such size, workmanship, and cost could have been built in just one year from the day the corner stone was laid, seems a marvel to all here. Verily Mrs Eddy is one prophet who is honored in her own country.

This little incident shows how she is thought of in her own community by those who do not even embrace her religious convictions. The writer was enjoying the scene at the close of one of the services, when a citizen who had attended began to express her great appreciation of the occasion and the pride of the town in this last gift from her generous impulse. She remarked how Mrs Eddy's absence from the services of the day showed her utter lack of look of notoriety, or display, and as she drove by, she remarked she could well understand how all from such distances enjoyed seeing her for the short while.

That as for reports of Christian Scientists worshipping her, it was not true. Still she said that on her daily drive, Mrs Eddy had for years passed her house, and although not a member of her church, or a believer in its healing, she felt it a great privilege to daily see a woman whose life was so consecrated to establishing more of happiness, holiness and health in the world, and so successfully. Many who read your good paper will no doubt be glad of this opportunity to hear directly from the dedication of the first Christian Science church built in the home of its Founder and Discoverer.

Contraband on Malacca

London, July 23.—A stock exchange broker informs your correspondent that it is reported in stock exchange circles that contraband of war has been discovered aboard the steamer Malacca which is at Suda Bay. The contraband says he was shipped at Antwerp and labelled sugar.

A Home Mission Note.

What you leave undone stays undone. Somebody else may do something else that takes its place, but that is not the thing which you were to do. It is a different thing, and the work you left undone is undone. In the thing that is given you to do, there is a touch of yourself which belongs to it, and which nobody else can give it.

That will always be wanting if you leave it to another to do. It may be that if we neglect a work there will be somebody found to do it, but the touch of our hands upon it who can supply that?

There is never a one save ourselves for that. This will be forever; wanting if we do not put it there.

THE HAIL DAMAGE.

From An Eye Witness From Scotland County

Masonic Lodge at Hamlet. Mr Rosenthal's Condition. Dr Charles Duffy Resigns From Public Charities

Raleigh, July 25th.—Application has been made for a charter for a lodge of Masons at Hamlet. Grand Secretary John O Dreyer says the Order continues to grow rapidly. There is a little delay in the beginning of work on the Masonic Temple here, this being due to some points of difference as to details of the interior of the building. In the building will be the Raleigh Savings Bank and the handsomest fruit store in the State. The weather bureau will have offices there. There will be a Roof Garden and Summer theatre on the eighth floor.

Dr Ivey, editor of the Christian Advocate, has returned from a visit to Scotland county, where he saw part of the hail-smited area. He says the damage done exceeded belief. The hail actually beat off the bark from red oak trees and made dents in houses, as he saw with his own eyes. It not only swept away a great many crops badly but in other cases has left the stalks standing entirely dead and withered. Some crops that appeared to be badly damaged will come out considerably. Dr Ivey said that in some sections, where the fall of hail was the greatest it would have killed people exposed to it, judging from its effect upon vegetation.

Governor Aycock and State Superintendent Joyner left today for Dare county, where they will make a series of educational speeches this week.

Mr. Gustave Rosenthal, who was so suddenly attacked by congestion of the brain Saturday afternoon, continues in a very critical condition. He is 67 years, and age and overwork, without rest or recreation as told upon him, the physicians saying that the attack had really been imminent for several months. All the members of his family are here. He is one of the most valued citizens of Raleigh and a most accomplished business man. He is the secretary and treasurer and a large stockholder of one of the large cotton mills at Burlington and is widely known in North Carolina, socially, as a Mason, and as a business man.

The resignation of Dr. Charles Duffy from the State Board of Public Charities causes a general regret. The board was organized in October 1898 and he had been with it ever since. Its first chairman was Dr. E. Burke Haywood, of Raleigh, who held that position not quite two years and was succeeded by Dr Duffy, who was deeply interested in the work and always zealous regarding it. Mr. William Blair of Winston is acting as chairman. The Governor has filled two vacancies on the board by the appointment of A J McAllister of Asheville and Carey J. Hunter of Raleigh. The board meets in October and will then elect a chairman to succeed Dr. Duffy.

A CORRECTED JUDGE.

From the Church Standard, Philadelphia.

Four time ago Judge Funnell of the Fourth Federal District Court took certain action in relation to the receiver of the Atlantic & North Carolina Railroad. Mr. Joseph Daniels, editor of the Raleigh News and Observer, published an article in that Journal plainly criticizing the action of the court. The reply of the Judge was to fine the editor \$2,000 for contempt of court and to order him into custody until the fine should be paid. Mr. Daniels coolly gave the Judge to understand that the fine would never be paid, so to jail he went, and there he remained for just four days, when he was released by order of Judge Fritchard, the new Federal Judge of the District, who declared, at once with justice and with common sense, that the official acts of judges are as lawful subjects of criticism as the acts of other men; and that to hold the contrary would abridge the constitutional liberty of the press and imperil the rights of individuals. We admit that the just freedom of the press is sometimes licentiously abused; and we do not deny the right of judges to protect the dignity of their courts by due punishment for contempt; but the man who fined Mr. Daniels \$2,000 for the exercise of his constitutional right in this case ought himself to be fined at least that sum for his ignorance, if he was ignorant, and \$20,000 if he was malicious.

With the Warehouses

Kinston Free Press, 25th. Kinston will have five warehouses in operation this fall. Nobody is expecting anything like as much tobacco to be sold this year as was sold last year, but the quality and prices will undoubtedly be much better.

The market will open on August 1st, next Monday, and the dull season for the merchants will have passed away.

PARKER FIRST.

In matter of Presidential Notification July 26th The Date.

Washington, July 23.—The announcement that the Democrats have decided to anticipate the Republicans in the matter of formally notifying their candidate of the nomination came as a surprise. It had been expected they would wait until after the ceremony at Oyster Bay on the 27th of this month in order to profit by the remarks to be made by the Republican committee and the president.

Now it is announced that a formal notification to Parker will be held at Esopus, July 26th. The most plausible theory for this coup is that the Democrats wish to get in the public eye first, believing Parker's speech appearing in the papers as it will one day in advance of Roosevelt's will be more generally read and attract more attention than it would otherwise. Democratic managers believe they will thus make a popular hit by placing themselves in the role of leaders instead of followers.

SHOO-FLY DERAILED.

The Morning Passenger Train to Morehead Meets A Slight Accident Near Newport.

An accident happened to the "Shoo-fly" train yesterday morning, when two miles north of Newport. For some reason which the train crew was unable to discover the tender jumped the track carrying with it the baggage car.

Happily no one was hurt in the accident nor was there any material damage to car or contents. The train was delayed for several hours on account of the work required to set the cars on the track again.

RUSSIA SINKS VESSELS.

What Will This Call For From England.

Yokohama, July 25.—The Russian Vlastvoostok squadron while off Idza Sunday sunk the British steamship, Captain Knight commander, bound from New York with a general cargo for Manila. The crew of the vessel were transferred to the British steamer Tiaman which arrived here this morning.

The squadron also sank two Japanese sailing vessels and captured a German vessel, believed to be the steamer Arabia, having three thousand tons of flour aboard. The British steamship's name which is not yet known, was sent to Vladivostok.

Butchers And Packers Strike Renewed

Special to Journal.

Chicago, July 25.—The Butchers and Packers strike which began July 11th and was called off July 21st was renewed today upon the alleged repudiation of the agreement by the employers. All stock handlers and machinists at the yards are out in sympathy with the strikers. The thing is rapidly becoming serious. Teamsters are anxious to join the strikers but are holding off.

VOICE OF THE PEOPLE.

Who Are The Swindlers?

Mr Editor: I saw an article in the Charlotte Observer, I believe accusing the farmers of swindling the Fertilizer Companies by drawing samples from sacks of guano sold them, with a guaranteed analysis sending samples to State Chemist whose duty it is to analyze such samples for protection of farmers, said article also intimated that the farmers adulterated the samples for the purpose of reducing the grade.

Now, I am hot in the collar and feel like saying something, but I will wait until I see whether the Fertilizer Companies can prove their allegations or not. I am a farmer and have no means of telling whether I am getting value received or not, only by results, and results are so varied by seasons and soils, that I am at the mercy of the Fertilizer Manufacturers, only through the wisdom and generosity of our great State, which maintains a competent Chemist who reported samples above mentioned below guarantee and the farmers according to the law refused to pay for the guano. I think before accusing the farmers of fraud for the purpose of perpetuating their swindle the Fertilizer Co should have evidence and prosecute the perpetrators of the swindling scheme. In the absence of such evidence the Fertilizer Company should stand convicted as the swindlers and the farmers should let their goods stand alone, as there are honest reliable Fertilizer Companies, who are willing for their samples to go before the Chemist, and the farmers should send more samples, and better educate themselves in matters of so much importance to themselves.

NASH MATTOCKS.

Silverdale, N C, July 25.

Lawn Party at Lima.

There will be a lawn party at Perry's Grove, Lima, tonight, July 26th. A game of base ball between the Lima and Cove teams will be played at the base ball park at Lima at 4 o'clock p m today; after which refreshments will be served at the grove.

All are cordially invited to attend. A pleasant time is assured.

AN UNUSUAL GRIST

The Police Court Grinds Out a Lot of Sanitary Law Violators.

The round up in the police court yesterday was so large a gathering as has been assembled there for some time and strange to say more than half of them were defendants before the court. Violations of the sanitary ordinance was the cause of most of the arrests. Disregard of this very important law is being vigorously prosecuted and it will probably catch a great many unsuspecting persons.

The accumulation of filth of any kind or the negligence to keep one's premises in proper cleanliness is sufficient cause for one's appearance as defendant at the municipal bar. The reason for this very rigid ordinance is obvious. Filth breeds disease more than any other source. Its continuance within a community is certain to be the fountain head of some dread disease. Therefore for the sake of the health not only of one's own family but of a whole neighborhood or may be a whole city, it is important that every one should keep their premises clean.

There were twenty two warrants in the Mayor's hand yesterday. Most of them were for the violation of the sanitary ordinance. Some of the cases were continued to Monday. Judgment was suspended in the sanitary cases upon the payment of the costs. The complainants in these cases were Messrs W W Prescott and W H Griffin.

The defendants on trial were: J A Cully 40 Cedar Street, Enoch Johnson 134 South Front Street, Anna Haywood 180 Queen Street, Virginia Williams 15 Norwood Street, Stephen Lee 73 New South Front, Lucy Lawson 34 Bern St, Missouri Nelson 18 German Street, Mrs Scott 24 German Street; Lorena Will Hams 32 German Street, Thomas Davis 78 New South Front Street, Sarah Holley 132 South Front Street.

John Dawson and Clyde Hargett, negroes had a falling out and set off their differences by a very lively scrap. Each one had the other arrested on the charge of assault. They were let off with the costs, the evidence not being sufficient to warrant the assessment of a fine.

The "Moonshine Alley" gang of whom the readers of the Journal have read from time to time were in court. They were: Sam West, Niece Brock, Mary Wiggins and Lizzie Sultan. They were a bunch of females who charged each other with using the vilest language imaginable. They were all like to the mayor and he put five dollars and costs on each one and in default of payment they are to spend twenty days in jail.

List of Letters

Remaining in the Post Office at New Bern, Craven county N. C. July 25 1904:

MEN'S LIST.

Persons calling for the above letters will please say advertised and give date of list.

The regulations now require that (1 one cent shall be collected on the delivery of each advertised letter.

S. W. HANCOCK, P. M.

Alford—Voliva

A pretty wedding occurred at the home of Mr C Lupton on East Front street last evening at 8 o'clock, in which Rev John Alford, pastor of the Baptist church at Kinley and Miss Lucy Voliva, were united in marriage by Rev Mr Rouse.

The bridal couple were attended by Mr Shiver, a friend of the groom and Miss Maud Lupton, niece of the bride.

After the ceremony delicious refreshments were served.

Mrs Alford has been until recently a saleslady in the store of A J Smith and has many friends who wish the happy couple a long, prosperous and happy career.

Mr and Mrs Alford will leave this evening for their home in Kinley.
