

POLLOCKSVILLE.

July 25th

Mr M N Harriett is having a sixty his milling property and will soon be ready for the fall trade or fall work.

Mr EB Elllot will put in a sixty horse power boiler and engine at his saw mill as the one in use is insufficient for his work, he will soon be ready to fill all orders for lumber.

We are informed that Mr Charlie Whitty has given out the order for material to rebuild a store house on his lot In this place sixty-five feet long, thirty feet wide, he will be ready for business by the 10th of October.

The heaviest rain of the season fell in this vicinity last Sunday, Many of the ladies who attended the Big July Meeting at White Oak, got their Sunday hate and dresses ruined as the rain was so heavy umbrellas and top buggles were inadequate for its fury and beavy down

Rev J W Nobles is conducting a series of meetings here in the Baptist church in which we are very much interested.

Mis Annie J Hart and son, Jeff, are visiting friends and relatives at Norfolk and Virginia Beach where they will at end the summer.

The outlook for an abundant barvest was never better. Corn is about made and it tides fair to be a very heavy crop Cotton uptodate, is as good as we ever saw it and if no serious backset in August we are bound to have the biggest crop ever known from the one fact of a greatly increased acreage.

We bear that Mr Charlle White, whose store was burnt last spring has given out the bill for material to rebuild a much larger and handsomer store 65 feet long by 30 feet wide which he hopes to be in and ready for the fall trade about the first of October.

Mr H C Foscue returned from an extended visit to his son Dr J E Foscue of Jamestown N C, last week very much improved to health. He says he likes the late Samuel Radcliffe died at 4.30 the western part of the State very well o'clock last evening at her home on but there is no place like home. He Broad street, from the infirmities inci also tells as that his son, Dr J E Fos. dent to old age. WHAT ABOUT THIS?

Shall We Let Our 200th Anniversary Pas- Unnoticed? Let Us Make Prepara is no For It.

History tells us that New Bern's two hundredth birthday will occur in 1910 It will be an occasion for which to make a special effort to ce'chrate. It is none too s on to begin the discussion of such an important matter for it wil not do to let I to I of log b fo e we undertake hear constantly, and few people soem to do something. By start ag this sgitation now the Journal has no thought of making an a peal for a Worlds Fait nor any other kind of a fa'r; neither has because clouds become visible in the It a suggestion as to the manner or form sky they are therefore going to disof a celebration but it would be glad to charge their contents upon our heads. see some energe:le persons get together and evolve some scheme whereby an appropriate and memorable celebration in oper of its beginning may be made

The Journal solicits any authentic New Bern; any blographical narrative gestions as to how this celebration shall e conducted

Six years is not a great time to develop anything like thi ; it often requires that length of time to make it perfect hence, the Journal would suggest that horse power holler and engine put in at the people take some steps to observe the bicenteninal.

Attempt to Suicide Fails.

A dull knife prevented a suicide here Sandry morning which should be a warning to everybody not to keep too keen an edge on their pocket knife. observation has proved that cirrus Duil knives have before now prevented foul murders.

Sunday morning the people living in the neighborhood of Stanly street were alarmed by an unusual outcry and horrified to learn that a man was there trying to commit sulcide. A crowd was soon attracted to the spot where the man was and found him lying on the ground, bloody and apparently in the throes of death, all the while making a most pitiful and blood freezing noise.

An examination showed that the would be suicide had made a very in that his soul was taking its flight. A ight gash was inflicted in the neck but nothing of a serious nature.

The knife was taken away from the man but he insisted that it be sharpened so he c uld complete the operations. His wishes however were not complied with, and an officer who by that time had arrived, took him in charge and escorted him to the city hall

There he was identified as a Mr New and and it was ascertained that his condition was the result of over much booze. Sedative remedies were administered which were effective for a while but later on he became violent and it was necessary to confine him in the com a.on jail where he is still confined. His condition was but little improved yesterday.

Death of Mrs Radcliffe.

Every mother feels a

great dread of the pain

and danger attendant upon the most critical period

of her life. Becoming

s mother should be a source of joy to all, but the suffering and danger incident to the ordeal makes its anticipation one of misery. Mother's Friend is the only remedy which relieves women of the great pain and danger of maternity; this hour which is dreaded as woman's severest trial is not only made painless, but all the danger is avoided by its use. Those who use this remedy are no longer despondent or gloomy; nervousness, nauses and other distressing conditions are evercome, the system is made ready for the coming event, and the serious accidents so common to the critical hour are obviated by the use of Mether's Friend. "It is worth its weight in gold," MOINCP'S says many who have used it. \$1.00 per hottle at drug stores. CLOUD BAROMETERS.

HOW TO FORETELL THE WEATHER BY LOOKING OVERHEAD.

and Cumplus Is Much the Biggest of Any Form of Cloud-The Westers Cloud of All Is Nimbus.

"It is clouding up. It must be going to rain." This, is a remark you may to realize that the one thing is by no means a consequence of the other. True, all clouds are composed of water vapor, but it is absurd to imagine that On the contrary, some clouds are

actually prophets of fine weather. Cirrus, for instance, or curl cloud, as it is often picturesquely called, is, as a rule, a fine weather harbinger. Cirrus is the highest of all clouds. You can tell estorical account of the settling of that by the fact that its thin, twisty, fibrous streaks are illuminated by the of the PeGraffenrieds or anything of last rays of the setting sun long after such a nature that will keep up interest the earth below is wrapped in shadow. in the matter. It al.o will publish sug- Threads and groups of cirrus clouds, the finer the better, appearing after a gale, presage a long continuance of settled weather. On the other hand, if after several fine days cirrus appears

in long parallel bands stretching right across the sky in the form popularly known as "mares' talls," there will almost certainly be a change of wind and probably rain to follow. Unlike other clouds, cirrus is com posed not of water vapor, but of tiny

crystals of ice. You can tell by its motion what the pace and direction of the highest current of wind. Oulet ly as it appears to be moving, careful sometimes travels at the rate of a mile in eighteen seconds.

Another form of cloud which is usually an accompaniment of fine, warm weather are those cottonlike, whitish balls which are scientifically termed cumulus.

Early in the morning of a fine sum mer day cumulus begins to form as a few soft, scattered specks in the blue square miles. above. These specks grow and enlarge without, as a rule, traveling very fast, for they are formed by vapor ascend ing from the earth in columns. By early afternoon they often cover the whole sky, but toward 4 or 5 o'clock different job of it, and only imagin d they usually decrease and finally vanish by sunset. If they believe in this plied to any storm or tempest in which way you may be almost certain that the wind blows with terrific violence. the ensuing twenty-four hours will be In the Philippine Islands and on the

> On the other hand, if the cumulu clouds increase toward sunset, turn follow, or, in very hot weather, thunder. | pressure.-London Answers. Thunder is specially foretold by th cumulus clouds showing rounded sharply marked tops with silvery white Cumulus, which turns very dark with black, shaggy edges, means

cold rain accompanied by wind. Cumulus is much the biggest of any 150 degrees-that is, from S0 degrees Fahrenhelt at the base to 75 degree

below zero at its summit. Stratus is still another form of cloud a doublet and the lower the kilt. which presents no special indication of zontal bands of darkish cloud, which lie very low and near the earth's surafter warm days and may often be date from before 1500. usually a sign of a fine, warm day to its general adoption. come. After suurise, stratus, as a rule, rises higher into the air and slowly dis-

in small, irregular tufts brightly irradiated by sunshine. The children call it cumulus, and it is a sure sign of heat winter, mackerel sky portends a thaw and wet, mild weather. It is the next highest cloud to the cirrus and is some-

times called sonder cloud. A sure prophet of wind and rain is cirro stratus or vane cloud. It consists of long, thin clouds with torn edges the young woman who was trying to flying at a great height above the earth. It is dull in color and irregular in

shape.
The wettest cloud of all is nimbus, sheet which often appears to come up against the wind. Usually when it first appears driving up over the horizon its edges are fringed and tipped with rolling masses of cumulus. The most ominous sign about a nimbus cloud is when its advancing summit is tipped with a mass of dense, where, smoky cloud, which seems to roll over and over. This is an omen of severe electrical disturbance and a furious squall. -Pearson's Weekly,

WINDSTORMS.

The Distinction Between a Cyclone and a Hurricane.

The term cyclone is applied to a torundo of limited diameter and destructive violence. All storms, therefore, in which the wind has a circulating movement about a central area of low barometric pressure may properly be termed evelones. Cyclones occur most men. frequently in those parts of the world which are subject to monsoons and take place at those seasons when the monsoons are changing. They sometimes extend over many thousands of

Tropical storms are known in the lew West Indies as hurricanes. These violent windstorms are of a diameter of cure them all. from fifty to a thousand miles, wherefrom 80 to 130 miles an hour round the central calm. Hence this term is ap-

SCOTLAND'S KILT.

The Origin of This Ancient and Picturesque Dress.

Some say that the kilt was the out come of sumptuary laws enacted durform of cloud. A single cloud of this ing the reigns of Mary and of her son, are a backache pill beyond doubt. its rounded, glistening summit-that is suppressed the ancient tunic, which those of earth's greatest mountains. knees, and had in the remoter parts of The temperature in such a cloud as Great Britain and Ireland formed the this has been measured to vary over outer dress of men from Roman times. When this was condemned, the wearers at the waist, the upper part becoming

The kilt, however, must have been rain. It is more common at night than of earlier date, for it is shown as a waist to knee, on many mediaeval crosses and memorial slabs, including face. It rises on calm, clear evenings those at Kilkerran and Kilmorle, which

seen in mountainous districts slowly It is from this plaiting, or "quilting," creeping up the hillsides. If the sun that it takes its name, and no doubt rises through layers of stratus it is the sumptuary regulations promoted

Rough on the Doctor.

In the middle of the night not long In early summer, when the weather is ago there came a territe ringing at a showery, you may perhaps notice, London doctor's bell. "Who's there?" through breaks in the rain clouds an be called down his smeaking tube. In appearance of dense white cloudlets response a voice came back asking him to go at once to a house a mile and a half distant. The doctor got up, dressmackerel sky. Its real name is cirro ed and went out with the man whom he found waiting for him at the door, and probably fine weather. Seen in Together they walked over to the caller's residence. The disturber of his slumbers told the doctor that he bad illness in his house and would like him to have a look at the case. When they entered the sickroom he said, "Now, be good enough to tell me if the case is serious enough for me to send at once for my own doctor or if it will do if I wait until morning."

Not Timid.

"They say capital is very timid," remarked the young man with the gold headed cane.

"Well, I guess you wouldn't think so," answered the young man with the cigarette, "if you'd have seen the way Mazle Goldron's father treated me when I asked for her hand."-Yonkers

The Open Door.

"I-I would k-klss you," stammered the diffident young man, "if I d-dared." "Oh, don't be afraid!" rejoined the girl in the parlor scene. "I wouldn't strike a defenseless man."-Philadelphia Inquirer.

Conclusive.
