## Owing to Friday Night's Fire

Which Destroyed Our Store and Goods We Must Ask Our Patrons and Friends to Wait until the Insurance Adjusters Pass Upon Our Damaged Property, before we can accept orders or show Goods. This will be in a few days and as soon as possible afterwards we will open for Business.

## Thanking the Public

For its kindness to us in our Misfortune, We ask Indulgence until we can get our affairs in shape to accept Business.

Respectfully

**Simmons & Howell**

## CAMPAIGN WORK

Beginning in Circulating Printed Speeches.

Big Melon Profit. Wine Merchants Move From State Tobacco Crop Farmers Institute. North Carolina Speakers Abroad.

Raleigh, Aug 6.—At Democratic headquarters the regular work for the campaign will begin about the 15th inst. Secretary Fields is very busy getting up mailing list and printing speeches and documents, in fact getting ready for doing all kinds of preliminary work. He is having printed a large number of copies of the plan of organization and also the plan for holding primary elections. In one document was printed the speeches of Senator Simmons, Governor Aycock and Congressman Small at Greensboro. John Sharp Williams speech at St. Louis will also be printed. A large issue of the Democratic hand book will be made. This is now being compiled by Senator Simmons, State chairman.

It is learned that one farmer at Laurinburg has netted \$18,000 on 110 acres of cantaloupes.

From D J Lewis of Halifax, deputy revenue collector who is here it is learned that Garrett & Company have removed the headquarters for their great scuppernon wine business from Weldon to Norfolk. This firm controlled the scuppernon wine trade in the world, and ships its products all over the United States, many carloads lots going even to California. It has a regular warehouse at St. Louis. In the Medock vineyard in Halifax county there are 130 acres and it also controls the tokay vineyard at Fayetteville. It sends agents all over eastern North Carolina to buy grapes from the farmers and some days as many as 15 car loads of these are received. The wine house at Medock cost \$100,000, and is absolutely fire-proof.

Raleigh is to have another bank, to be known as the Wake County Saving Bank with W W Vass and others stockholders. It will be the seventh bank here and will be in the Commercial and Farmers Bank building. Raleigh has more banks than any place in the State.

From representatives of the American Tobacco Co, it is learned that the tobacco crop in this section will be a heavier one to the acre than that of last year. There is a falling off of 50 per cent on the average, but the yield will be nearly 60 per cent of last year's crop. The opening breaks were held here yesterday and about 10,000 pounds were sold at the two warehouses, all primings and brought from 8 to 12¢.

The next Farmers Institutes will be held in the northern part of the Piedmont section, in about twenty counties, including Alamance, Guilford, Forsyth, Davie, Catawba, Gaston, Lincoln, Person, Stanly, Stokes, Rowan, Rockingham, Caswell, Granville, Vance and Franklin. After this tour the Institute holders will go to the mountains. State chemist Kilgore will go with them.

North Carolina will be very strongly in the North and west this season, by reason of the notably fine speakers who go to those sections, these including Governor Aycock who will make an educational tour of Maine, Auditor Dixon who will speak to the Grand Army of the Republic at Boston and Dr. Charles D. McIver who will speak in New Hampshire before the State Teachers Association which has 3000 members and also before the Teachers Association of Wisconsin.

## Stings From The Hornet.

"The fools are not all dead yet" and The Hornet has just received a letter from one of them. The mutton headed scoundrel accuses the editor of The Hornet of being a Republican, when he, a good for nothing, political rascal is the Republican himself. Doubtless The Hornet has stung him and he has, as a result kindly "got" out on the matter. This low type of human flesh hails from the good State of Tennessee. We wonder if there are many more such "critters" over there. We judge not, though we shall ask this all wise fool to write us if there are many others like him in this section.

A subscriber has asked us, "Republicanism is what?" To this reply, it is the most damnable thing that was ever in Washington City.

If you are getting tired of looking for "Republican prosperity" stop rubber necking for it by voting the Republican ticket, and try another and better way.

We arise to remark that it is high time these United States and America was being ruled by others besides the present trade of Radical hyenas and Republican leopards.

That Roosevelt is not a fit subject for the Presidential chair is admitted even by Republicans. That Republicans will vote for his nominee regardless of their dislike for him is only proof that the concern called the Republican party is made up of long-headed, shallow-minded, "don't care" fellows.

Editorial clippings from The Hornet published at Fork Church, N. C.

## BETTERMENT PUBLIC SCHOOL HOUSES

Suggested Readings Compiled by New Bern Association.

Construction.  
To invent, to design, and to construct have been the promising factors in the rise of man. In expression of the dormant potentialities of the race the child seeks to repeat his ancestral history. The high educative values of activity, order, and creation establish the claim of design and construction to a major place in the exercises of the school. The child should be encouraged to make things for his plays and games and toys; instruments for his experiments, for the school, and for the home. The exercises in manual training must be related to service in play or work to help the individual and to make happy his friends. The development of the creative faculty is the highest mission of the school. As the genius of man has always expressed itself in constructive exercises, so must the child in like ways climb to the higher levels. The education which ignores creation makes man a servile creature of imitation, dependent in his every movement upon the fancy of others.

## TOO MUCH RAIN.

Reported Over State Injuring Cotton. Cammock Coal First Class. Raleigh's Health.

Raleigh, August 8.—The rains are worrying the cotton growers very much. Fred W F Massey was interviewed today and said that cotton was going backward every day. He added that people always over estimate the crop when it makes too much growth and that there is now entirely too much weed. Cotton on sandy lands is being damaged, and a continuance of the present weather will prove serious injury. State Weather Observer Welner was interviewed and said that the reports from all over the State showed too much rain. There are really complaints of excessive rains all over everywhere except in the extreme west where plenty has fallen. Cotton is beginning to shed. Corn seems to be getting on very well except in some sections, where there are complaints of its shooting up too rapidly.

A special meeting of the Grand Lodge of Masons is called to be held at Copeland, Surrey county, August 20th, at the corner stone of a church.

The city health officer here says there are no contagious diseases in Raleigh. Only two cases of typhoid fever have been reported, and three cases of consumption. Reports on the latter are now required. He says Raleigh is remarkably healthy.

Mr G Rosenthal, whose sudden and severe illness was mentioned a fortnight ago will leave Thursday with his family for Philadelphia and Cape May.

Among today's arrivals were Theodore F Davidson; R S Howland and R P Foster of Asheville, Jarius Davis of Wilmington.

Samuel F. Henszey, who again becomes the owner of the Cammock Coal mines was interviewed today. He says the largest output of the mine was about six or eight years ago and was 300 tons a day. Of late very little coal has been mined there. He says the mine has been badly managed recently. John Fulton, one of the greatest coal mining experts in this country has made a careful examination of the mine and says the plant can handle 400 tons a day. He sampled the mine and had the coal analyzed by the State chemist of Pennsylvania and also coked at Conneville Penn., and pronounced it the equal of Pocahontas and little, if any below Conneville, which is the standard of the world. The company owns 2700 acres of land. The mine will be worked to its full capacity. The advance work in all parts of the mine show the best coal ever taken from it. Mr Henszey says he has never varied in his estimate of the high value of the property. He says he will get possession again at once of the Raleigh & Western railway, from Colon to the mine and that the receiver of the road will be discharged tomorrow.

## Weather in Cotton Belt.

Washington, D C Aug 8th 1904.  
The Carolina, Georgia, Alabama, eastern Florida, western Louisiana, Mississippi and Texas showers today and tomorrow. Western Texas fair in Southern parts, showers in Northern today and tomorrow. Oklahoma, Indiana Territory, and Arkansas, showers and cooler today and warmer tomorrow. Tennessee showers in eastern section, fair in Western today, and tomorrow fair. Kentucky fair and fair cooler today, tomorrow fair.

Prompt treatment of a slight attack of Diarrhoea will often prevent a serious sickness. The best known Remedy is Dr. SETH ARNOLD'S BALM. YOUR apothecaries, Messrs F S Duffy and T A Henry, New Bern, N. C., warrant it to give satisfaction.

Women find quick relief in Dr. Thacher's Liver and Blood Syrup.

## BID FOR A & N C.

R. S. Holland of Asheville Promises to Promote Great Interests if he Gets the Road.

Special to Journal  
Raleigh, July 8.—Governor Aycock this afternoon announced that R S Holland of Asheville was here to see whether he would make bid for lease of Atlantic and North Carolina railway. Theodore F Davidson being Howland's attorney. They had conference with the Governor today, and will have another tomorrow. The Governor said he could not yet give terms of bid.

Col Davidson said Howland was a man of means, very public spirited, great developer of Electric Railways and suburban properties at Asheville, and that next after George Vanderbilt, he had been a most useful man to the mountain section. He said Howland's plan, if his bid was accepted to thoroughly equip and overhaul the road, and if possible to induce the general government to aid in deepening the bar at Mophead City, Howland is looking forward to the time when all that delta section of North Carolina will be a vast truck garden.

## ANNUAL ENCAMPMENT.

Mixture of Mule Warfare And Pleasure In Store For Second and Third Regiments.

Preliminary arrangements for the encampment of the Second and Third Regiments N C N G at Carolina City next weekend completed. The ground has been platted out and the work of setting the tents will begin Monday. The encampment proper will commence Wednesday August 10. The officer in charge is Col Francis D Macon, Quartermaster General, assisted by Lt. Col W E Gerry.

There will be 23 companies in camp. Two bands will furnish the music and the parades and drills will be impressive and exciting. This encampment will be much larger than that of last year and it is expected that the events connected with it will be more brilliant than ever. The date of the review by the governor has not yet been determined.

For the transportation of the troops there will be 33 cars by way of Goldsboro, 10 by way of Wilmington and New Bern and 1 from Kinston, making in all 44 cars. This provides for an enormous crowd at the encampment.

The companies that will be present are:

## SECOND REGIMENT.

I, Plymouth.  
G, Washington.  
A, Tarboro.  
K, Wilson.  
L, Lumber Bridge.  
F, Fayetteville.  
M, Maxton.  
C, Wilmington.  
E, Goldsboro.  
D, Goldsboro.  
B, Kinston.  
H, Clinton.

## THIRD REGIMENT.

G, Reidsville, (band)  
L, Greensboro.  
I, Burlington.  
D, Durham.  
A, Durham.  
B, Raleigh.  
K, Raleigh.  
H, Warren Plains.  
E, Oxford, (portion)  
E, Henderson, (portion)  
C, Henderson.  
F, Franklin.

## BATTERY A.

Battery A composed of the following companies will be there.  
M, 3rd reg't, Sanford.  
M, 3rd reg't, Hamlet.  
C, Maxton (portion)  
C, Wilmington (portion)

## Much Fuss. No Graft.

FRANKLIN TIMES Aug 5th.  
We took occasion also to make an inspection of the Atlantic & North Carolina railroad, about which we have been reading so much in the newspapers recently. We have come to the conclusion that it was a great big fuss about nothing. It is true right much money has been spent in the way of improvements, but they are permanent and were necessary for the successful running of the road. The road bed is in good condition, new and substantial warehouses and waiting rooms have been built at all important stations, the shops at New Bern have been put in excellent condition, the freight depot at Morehead has been greatly improved, and although much money has been spent there is something substantial to show for it, and above all, there does not appear to be any "graft" in any department.

The rainy weather seems to be an almost continuous performance. One would think that the supply would almost be exhausted there has been so much rain. Sunday afternoon a heavy rain and high wind was visited upon the city for about an hour.

## BOUND OVER TO PENDER COURT

Sam Faison Accused Rock Thrower at Excursion Train.

The case of Sam Faison, the colored boy, accused of throwing a rock through a window of the excursion train of the Knights of Harmony, at Wampstead, on the night of July 29th and severely injuring a small boy, as given in the Journal, was given a hearing yesterday afternoon before Mayor Ellis. The state was represented by attorney W. D. McIver.

The testimony was rather one sided. The accused who gave his age at 16, stated that he was with two colored men on the sight excursion train passed and both men "chucked" at train, and threatened accused if he told on them. The men, Dave Chadwick and Geo Nixon, both told a story of being at a dry kiln on same night, and brought two witnesses to prove their story. Both the men denied seeing Faison until after the train had passed.

Mayor Ellis bound Faison over, in default of \$200.00 bail, to the next term of Pender County Court, September 3th.

## AFTER FOUR YEARS.

Nick Rogers Captured. Escaped Before Trial In 1900, Wanted For Distill'g.

Deputy U. S. Marshal R W Ward made an important capture on Sunday morning about 2 a. m. in the person of J. N. Rogers, better known as Nick Rogers, the capture being made about nine miles from Newport, in Carteret county.

In June 1900, Nick Rogers with his brother Jim, was arrested under the statute for removing and concealing spirits upon which no tax had been paid the government. This charge is mostly known as illicit distilling, there being illicit work done before the moving etc, took place.

Before his trial came up Nick Rogers escaped, while his brother Jim was tried in the Federal court and in October 1902, was sentenced to three years in the penitentiary and a fine of \$500. He is now serving his sentence.

The case of Nick went along with capias being issued time and again, all being returned, with not found. The case was finally nolprossed, and Nick learned this, and it is said has been quite open in his movements, so much so that word finally reached Judge Purnell that Nick was again in business, distilling without the formality of taking out a license. Upon this, the judge ordered the case re-instated on the docket, and Deputy Ward was given the order to take Rogers, which he did, Sunday, as above noted, and for which the Deputy Marshal deserves good credit, as Rogers was a difficult fellow to capture.

Rogers gave \$400 bond for his appearance at the next term of the Federal Court.

## ROE.

Aug 6.

Mr George B Goodwin's little daughter, Charlotte, is very sick.

Mr Wallace Goodwin's little son, Dallas, who has been very sick, is improving.

A Union meeting was held here Friday and Saturday. It was attended by numerous ministers and was greatly enjoyed.

Mr and Mrs J O Daniels are visiting relatives in New Bern.

## OLD MAID.

The outlook is that Forepaugh and Sells Brothers Circus will visit New Bern within the next few weeks. The A & N C road has been asked for rates to carry the circus. The circus will be gladly and largely welcomed by thousands in this vicinity.

## STOMACH DOSING WILL NOT CURE.

Only Way To Cure Catarrh Is By Breathing Hyomel.

Ask any physician if catarrh is a blood disease and he will tell you that it is a diseased condition of the mucous membrane and that it cannot be cured by blood purifiers, pills, tablets, or other forms of stomach dosing. The only sensible and scientific way of curing catarrh is by the use of Hyomel.

Breathed for a few minutes, four or five times a day, through a hard rubber inhaler that is so small that it can be carried in the vest pocket, Hyomel will absolutely destroy all catarrhal germs and cure the disease. Catarrh can never exist where Hyomel is used. It has a two-fold action, destroying the disease germs in the air passages and lungs, and soothing and healing the inflamed mucous membrane.

F S Duffy, one of the most reliable firms in New Bern is giving his personal guarantee with every package of Hyomel he sells, that it will effect a cure or he will return the money. He has had scores of reports of remarkable cures of both acute and chronic cases of catarrh by Hyomel.

No other treatment has the endorsement of so many reputable people in all walks of life, as this scientific yet common sense cure for catarrh.

The complete Hyomel outfit costs \$1.00 and comprises a hard rubber inhaler, a bottle of Hyomel and a dropper. The inhaler will last a lifetime; and additional bottles of Hyomel can be obtained for 50c.
