When word came here yesterday after neon that Mrs F A Olds was dead, it was hard to believe and worse still to fully realize that this sweet little woman had passed away into the Great Beyond, and would never again with kind word and smile greet those whom she met. Out of the splendid types of woman' ood which God has given to mankind, Katle Casnon Olds. was of the brightest, cheeriest, most charitable and lovable type. Every one, from the black mammy to the greatest white man, each was the recipient of her kind word and cheer ful smile, and both loved her.

Charitable to the extent of personal sacrifice, Mrs Olds went through life with a stream of benedictions following her, for her charities knew no bounds, and she was no respecter of persons, if she or he was a sufferer or in want, it was enough, for her loving heart found its greatest source of joy in giving to, and assisting others.

By nature, Mrs Olds was gifted. Quick and apt of mind, her literary abilities covered a wide range, as did her executive ability, so that from church work, to newspaper writing, to society work, to King's Daughters, to presiding over the State's Daughters of the Confederacy, each received full and and careful attention, and all was well done.

In these and other qualities which this lovable woman possessed, made her friends everywhere she went, and friends who were bound to her by the firmest ties of devotion, because her devotion to those she loved was untiring, sacri ficing when necessary, and endless in its thoughtfulness. It is for these individual characteristics that there are mourners in very many places today for each friend feels a personal loss in death of Mrs Olds, for each received something good who knew her, something that must go with each through life, for helpfulness, for encouragement, for self betterment, and to the writer the help and encouragement that came from this ever brave, cheerful and lovable woman must ever be as a benediction, until after his name is written, as now is written after her's-Finis. C. L. B.

X.

At Rest.

It is with a sad heart, that we write in rememberance of one we loved so well, our dear grandfather, Needham Willis. He was born April 11th 1820, and died July 10th 1904. He was 84 years old, when the blessed Lord called him home. He joined the Primitive Baptist church, about 45 years ago, and lived a consecrated member until death called him up higher.

As long as he was able to go to church his seat was never vacant, but he became unable to attend, he was confined to his room about four years ago, and he suffered so much in his old age, but we believe that his suffering is all over. He has gone to dwell in the arms of Jesus, although it was hard to give him up, but we have a sweet hope of meeting him in Heaven, where parting will be known no more.

We stood by him and done all that we could, but there was one, above us, who could take him out of his suffering. He had a place for him to fill in Heaven.

He was a good father a loving husband and a kind neighbor, ever ready to lend a helping hand to the poor and needy.

He leaves a wife six children and one brother, and a host of grandchildren and great grandchildren to mourn his loss, but we mourn not, as those that have no hope, for we believe he has gone to that place where our Heavenly Father has prepared for all his children, who trust him, and he died as he lived, trusting in God: but it is hard to stand by and see one leave us, and know we will never see him no more in this world, for he cannot come back to us, but love can go to him; and may our blessed Savior prepare his dear children to meet him around that great white thrown, where parting will be no more, where they will never have to say goodby papa, where they can be together for ever and ever. What a happy meeting that will be, when we meet our loved ones that have gone on before.

And since it is God's holy will,
We must be parted for a while,
In sweet submission, all as one,
We'll say: Our fathers will be done.

Written by his grand daughter.
CORA CLAYTON.

Police Court News.

Bettie Carter, a colored woman was in the Mayor's court yesterday for the larcency of \$8.75 from a Portuguese named Brazvil.

The woman had the advantage of having a man who could not understand English and had not been long in this country to complain against her. His evidence against the defendant was damaging.

damaging.
Two other women, Eila Haywood and
Eliza Holley were arrested for having
received the stolen money.

The Haywood woman was said to be the first to take it and she in turn to have passed it on to Eliza Holley.

The Carter and Haywood woman were

The Carter and Haywood women were bound over to court under the sum of \$50 bonds. The Holley woman was discharged for want of cyldence. On account of her bad character the Holley woman was given until tonight to get out of town.

Our protracted meeting has been very successful. Everybody cays it was the best preaching they ever heard, but Miss Maggie Jones and Sabrie Wiley were the ones that obeyed it.

ones that obeyed it.

Cotton has just begun to open in Galilee. No one has begun picking it

yet.

Some of our fall crop of Irish potatoes are looking fine.

Bad colds seem to be the most of the sickness in Galilee. Most everybody is sick with one. Miss Pearl Stapleford of Morehead is

visiting in Galileo.

Mr and Mrs Samuel Jones of this place are visiting their son at Morehead

Miss Belle Stapleford and Miss I P Stapleford who have been spending some time in Galilee have returned to Morehead.

Good Luck.

Cotton Estimate.

New York, Sept 8.

Commercial and Financial Chronicle estimates the cotton crop for 1908 and 1904 at 10,123,686.

Chamberlain's Cough Remedy Aids Nature.

Medicines that aid nature are always nost effectual. Chamberlain's Cough Remedy acts on this plan. It allays the cough, relieves the longs, aids expectoration, opens the secretions, and aids nature in restoring the system to a matthly condition. Sold by F. S. Darly and Dayls Pharmacy.

NEW BERN CHALLINGE'S COM-PARISON.

No City in the State Can Show a great

ar Per Cent of Increase.

The new city directory has given some figures on the growth of the city which shows how remarbably the place has grown.

There is little doubt that the figures are correct. In the first place figures don't lie and secondly the demand for houses and the great amount of building that has been going on for the past two years will warrant the statement.

According to the efficial figures of the census of 1900 New Bern's population at that time was 9,000. The compiler of the directory after making a careful canvass of the city and making such inference and experience he has a right to make; he gives out the plassing information that New Bern has 13290 inhabitants—a growth of 46 per cent in less than four years.

habit of blowing her own horn, but in the light of these figures we would be pardoned if we got out the bress band and took a day off to celebrate. The cause will be sufficient for the deed. It is well to take note, moreover, that the population known as "floating" is

not a feature here. The names in the directory are those of people who for the most part have steady work here and are bonaide citizens.

While it is true that the colored population exceeds the white, a careful counting of the names in the directory will show that the proportion of

Bucklen's Arnica Salve.

whites to colored will be considerably

larger than it has been hitherte. It is

estimated that the correct ratio will be

seven negroes to six white people.

Has world-wide fame for marvellous cures. It surpasses any other salve, lotton, clutment or balm for Cuts, Corns, Burns, Boils, Sores, Felons, Ulcers, Tetter, Salt Rheum, Fever Sores, Chapped Hands, Skin Eruptions; infallible for Piles. Cure guaranteed. Only 25c at D C Bradham, Druggist.

Miss Helen Gould, noble woman that ale is, proposes to spend a part of her vast fortune in finding something to destroy the boll weevil, that pest of the Southern cotton fields. To this end she has employed an eminent scientist and oraithologist, one Prof. Dr Brown to conduct the campaign to exterminate the weevil. Dr Brown claims that God created a bird to destroy such insects as are dangerous to vegetation, and he is therefore proceeding on the theory to discover a bird to accomplish his work. We would be glad If the eminent professor would discover a bird, insect or something else that would prey on man's enemies, especially that annoying enemy of man's rest, the mosquito. We would agree to buy several hundred of them to turn loose in our shanty at night.

News in a Nutshell.

The latest census shows Frence has gained just 444,613 in population in 10 years. The per centage increase is small er than in any other European country.
