ORLOFF, THE SCAPE GOAT

To Satisfy Rosslins. Two Months for Fighting Before Winter. Both Armies Now Inactive.

London, Sept. 15th.—Inactivity of the opposing armies of Russia and Japan continues and no fighting of a general character is reported. Information coming from an authoritative source in St. Petersburg is that the Russians will winter at Harbin, but the fact that there probably will be two months of good weather for military operations before extreme cold weather sets in leaves room for a revision of this purpose in the light of events that may transpire. The Japanese are reported to be collecting taxes and otherwise administering affairs in Manchuria, as though that country were conquered territory. The publication of General Kurapatkin's report of the fighting from August 26th until the retreat upon Mukden has created a better feeling in St. Petersburg.

What is Life?

In the last analysis nobody knows, but we do know that it is under strict law. Abuse that law even slightly, pain results. Irregular living means derangement of the organs, resulting in Constipation, Headache or Liver trouble. Dr. King's New Life Pills quickly re-adjusts this. Its gentle, yet thorough. Only 50c at Bradham's drug store.

A NOTED CASE.

Damages Asked for Injuries Received by Free Pass Holder.

Marriage. Politics. St. Mary's and Peace Crowded. Storm Freaks at Mt. Olive. Senator Aldrich at Beaufort. Reform Ticket Majority.

Raleigh, Sept. 15.—In the Supreme Court today argument of cases from the Third district was concluded and the noted case of McNeill vs the Charlotte & Durham railroad, was called for the argument on the rehearing of a rehearing. This is the case in which Editor McNeill of the Carthage Blade sued for damages for injuries sustained while he was riding on a free pass that had expired, the conductor allowing him to ride on it at his earnest solicitation. Of two jury trials the first verdict was for \$5,000 and the second on a new trial allowed by the Supreme Court a \$4,000 verdict was rendered. This was affirmed, then a rehearing allowed and another affirmation followed and now there is a rehearing of a rehearing on the ground that plaintiff has no standing in court or just ground for the suit.

The executive committee of the State Hospital for the Insane at Raleigh, in session yesterday and today report the affairs in excellent condition but the institution terribly crowded. They declare that appropriations for material enlargement by the next legislature is an imperative necessity.

Chas B. Ellis, manager of the Bell Telephone exchange at Selma was united in marriage last afternoon in this city to Miss Willette High, the ceremony being at the home of the bride in the presence of a few friends. Chalman F D Jones of the republican congressional executive committee for this, the fourth district was here today in hopes of getting the committee together and naming a candidate for congress to oppose Ed W Pout Democrat congressman, but other members did not show up. Jones says he hopes to have a candidate named within two weeks.

Both St. Mary's School and Peace Institute opened today with the largest attendance in their history. Every room in both institutions is taken and several applications have been refused by both for lack of room.

Parties who arrived here from Mt. Olive, since the cyclone yesterday tell of some remarkable freaks of the wind in one instance a dwelling house was blown down and four small children were carried by the wind into the yard unhurt. At another house a Mrs Cox was sitting in a chair in front of her house when the force of the wind smashed the chair, jammed the woman in a corner and overturned the house, pinning the woman down so that it required hard work by three neighbors to extricate her. However she was unharmed.

Senator Simmons has received a telegram from Senator Aldrich of Rhode Island notifying him that he cannot meet him in Beaufort, until Sept 25th. They were to have met there today for the purpose of conferring as to the possibilities for deepening the bar by government appropriation.

Armeded Jones, for the past several years chairman of the Wake county Democratic executive committee announces that he will not stand for reelection and he will be succeeded by W B Snow who led the victorious fight in the Democratic primaries for the reform ticket of county commissioners whose majority was about 1,500.

The official count of the Democratic primary returns shows that Ellington's majority over N B Broughton's for the State Senate was 304. Ellington was on the ticket with the reform county commissioners whose majority was 1,500.

DEAFNESS CANNOT BE CURED

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever, nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surface.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure.

Sent for circulars free.

THREE JURORS CURED

Of Cholera Morbus With One Small Bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy.

Mr G W Fowler of Hightower, Ala., relates an experience he had while serving on a petit jury in a murder case at Edwardsville, county seat of Cleburne county, Alabama. He says: "While there I ate some fresh meat and some some meat and it gave me cholera morbus in a very severe form. I was never more sick in my life and sent to the drug store for a certain cholera mixture, but the druggist sent me a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy instead, saying that he had what I sent for, but that this medicine was so much better he would rather send it to me in the fix I was in. I took one dose of it and was better in five minutes. The second dose cured me entirely. Two fellow jurors were afflicted in the same manner and one small bottle cured the three of us." "Plastico" A SANITARY WALL COATING.

Plastico is NOT a hot water, flammable Kalamine. It is a finely powdered rock, in white and beautiful tints to rock, in white and beautiful tints to rock, in white and beautiful tints to rock, in white and beautiful tints to rock. Any one can brush it on. Plastico has the peculiar property of cementing to the wall, destroying disease germs, and vermin and never rubbing or scaling off. Kalamine has no cementing property—depends entirely on glue to make it remain and germs of deadly diseases and the stuff rubs and scales off, spoiling walls, clothing and furniture. Wall finishes that must be mixed with hot water are Kalamine, no matter what fanciful names they bear. Plastico is a sanitary wall coating and has these unhealthy mixtures and heavy Plastico in 5 lb. packages only, properly labeled. Sample card of Plastico tints free.
