**RALEIGH.**

Colonial Dames in Session. President Geo T. Winston Takes a Vacation Football Playing Begins.

Raleigh, Sept. 29.—The North Carolina Colonial Dames in session here today, appointed a committee to confer with the City authorities regarding the removal of the Andrew Johnson house in Pullen Park, where it can be better preserved. It is a tumble down shack now and as the birthplace of one of the presidents, they desire to make sure of the preservation. The removal seems assured.

An urgent call will be issued within the next few days for the business men of Raleigh to decorate elaborately this year for the re-opening of the State Fair. The list of Marshals for the fair will be announced within the next few days. The largest and most successful fair in the history of the State is assured.

President Geo T. Winston left today for a few days rest and recreation. His arduous work in connection with grappling the senior class uprising, in addition to the regular duties in connection with the opening of the college have so overtaxed him that a rest is absolutely necessary the physicians say. He is receiving hundreds of letters congratulating him on the stand he took in maintaining the discipline of the college.

Governor Aycock will get into the State campaign Oct 1st, and be in the thick of the fight from that time to the election. His first speech will be at Smithfield. Most of his speeches will be in the western part of the State.

The A & M Football team will go to Lexington, Va., Saturday to play the V. M. I. On the following Saturday they will oppose the Clemson College team at Charlotte and then on Oct. 15th they play the University of Virginia at Charlottesville. The A & M team has made a most excellent beginning of the season, having defeated Guilford College by a score of 59 to nothing.

**THREE JURORS CURED**

Of Cholera Morbus With One Small Bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy.

Mr G W Fowler of Hightower, Ala., relates an experience he had while serving on a petty jury in a murder case at Edwardsville, county seat of Cleburne county, Alabama. He says: "While there I ate some fresh meat and some sausage meat and it gave me cholera morbus in a very severe form. I was never more sick in my life and sent to the drug store for a certain cholera mixture, but the druggist sent me a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy instead, saying that he had what I sent for, but that this medicine was so much better he would rather send it to me in the fix I was in. I took one dose of it and was better in five minutes. The second dose cured me entirely. Two fellow jurors were afflicted in the same manner and one small bottle cured the three of us." For sale by F. B. Duffy and Davis Pharmacy.

**ALLOWANCES DISALLOWED**

The Latest Hold-up Attempt of the McBoe-Finch Gang Failed.

Special to Journal.

Raleigh, Sept. 29.—Judge Farnell in Federal court made final order in noted Cuyler-Finch receivership suit against the Atlantic and North Carolina Railroad Company which was dismissed a few days ago except as to the issuing order for the allowances to complainants and their counsel. The Judge declines to make any allowance at all, holding that there is no force in the argument of the complainants' counsel.

Allowances are governed by statute 1881, being held the same as the allowances in equity being in discretion of court.

Greenough and Pettus cases are cited, the one establishing the rule when fund is administered and other when property is in custody of court and administered thereby. It is then held that there being no decree except of dismissal and property of A & N C having been in custody of Court only temporarily there was no special benefit to property hence in discretion of the court it is not considered that it is proper cause for allowance.

As to the petition of K S Finch for allowance, the court says that plaintiff being an interpleader and his petition having no effect. He being only appointed co-receiver he is entitled to nothing.

**News in a Nutshell.**

An invitation will be extended to the President of the United States to open the Lewis and Clark Exposition next year at Portland Oregon, by closing an electric circuit in Washington which will put in motion the machinery, unfurl the flags and pennants and discharge a salute of 161 guns.

**Deafness Cannot be Cured**

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever, since cases of deafness are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure.

Sent for circulars free.

**THE NORTH CAROLINA SECTION,**

Climate and Crop Service, Bulletin of the Weather Bureau.

For the Week Ending Monday, Sept. 26, says:

The temperatures during the week were quite low, and their average was several degrees below the weekly normal. The days were generally fair and pleasant, but the nights were abnormally cool, especially during the middle of the week, when light frost occurred at a number of scattered localities, which fortunately resulted in no damage. The rainfall was light and of no consequence; it occurred during the early part of the week and was confined to a few scattered places in the eastern half of the State.

In the Western District the wheat has been no rainfall for several weeks, and the late crops are beginning to suffer from want of moisture, while the soil is becoming too hard for fall plowing and sowing, but in the Eastern and Central Districts it is in excellent condition and plowing and other farming operations are actively pursued while the weather continues fair and favorable.

Fodder pulling is about over, but hay is active in all sections, and both meadow and pea vine hay are being saved in good condition. With but few exceptions cotton is opening rapidly and picking is general, the present indications point to a decided shortage in the crop.

Tobacco curing is about over. Corn is maturing well and the crop is generally good. The growth of turpentine and fall potatoes has been checked somewhat by the prevailing cool nights, but the stands are about as promising as heretofore.

Peas are doing well and preparations are being made for digging, which will shortly commence. Peas will not be as plentiful as previously expected, as there is a general complaint that the pods are few. Grapes are ripening rapidly in the Eastern District and are quite plentiful. The apple crop in the western district will be much better than estimated several weeks ago.

Rains (in inches) for the week ending 8 a. m. Monday: Raleigh, 0.29; Hatteras, 0.80; Charlotte, a trace; Asheville, a trace; Wilmington, 0.92; Goldsboro, 0.96; Greensboro, none; Lumberton, none; New Bern, 0.20; Weldon, 0.01; Nashville, a trace.

**A Card.**

Bellair, N C, Sept 28th.

Ed Journal;

Dear Sir:—I would like to state through your paper my political convictions, and why I wish to make this statement is this:

"The Register of Deeds informs me that I am appointed a republican judge of the election in November." If this be the case I wish to make this statement:

1st. My great grand father, Wilcox, carried a flint and steel musket under Gen Nathaniel Green and helped to lick Lord Cornwallis at the memorable battle of Guilford court house.

He was a democrat.

My grand father (though not a Willcox) helped to elect "Old Hickory" Andrew Jackson, voting for him three times. He was a democrat.

My father was a Wilcox and voted a democratic ticket when he was 21 years old (or voted 10 times for them) making a little period of 40 years. He once whipped a man because he differed with him in politics. He was a democrat.

For twenty years I have voted for Grover Cleveland and William Jennings Bryan. The nearest I ever came to voting a republican ticket was for Daniel Stinson, when he ran for sheriff against major Hahn. We voted then a coalition ticket to defeat Hahn.

This shows the date of my democracy.

Now let me say in conclusion, I have been accused of serving a term in the county jail, for forgery for swindling and many other charges, but never before have I been so rattled by anything as being appointed a republican judge of our election.

Whenever I serve in this capacity I will change my name for I would not have the dead for, three generations rise "in sack cloth and ashes."

Not a Judge.

GEO S WILCOX.

**Democratic Speeches at Cove**

Messrs S M Brinson and R A Nunn will deliver addresses on the political issues of the day at Cove Saturday afternoon at 3 o'clock.

**Political Meetings.**

The following meetings have been appointed by the State Committee. Hon. D L Ward and W L Arendell, candidates for the Senate will address the people at these meetings:

Vanceboro, Saturday, Oct. 8th.

**What is Life?**

In the last analysis nobody knows, but we do know that it is under strict law. Abuse that law even slightly, pain results. Irregular living means derangement of the organs, resulting in Constipation, Headache or Liver trouble. Dr. King's New Life Pills quickly re-adjust this. Be gentle yet thorough. Only 25c at Druggists' drug stores.

**THE BOILED INNER'S FAME.**

How the Old North State took the Laurels for a Grand Affair of Gastronomy.

The fame of the North Carolina boiled dinner has traveled abroad.

It has got into the Effete New England States and created such a commotion that the popular after partaking of the delicious viands feel like exclaiming enthusiastically if not grammatically "Where are we at?"

At the 250th anniversary of the city of Northampton, Mass., last June a discussion of old colonial times developed the fact that the boiled dinner was a feature which was absolutely necessary to a faithful description of those days long since past. A lengthy description of the methods used in getting up this sumptuous repast was written for the Springfield (Mass) Republican by Charles Hallock.

The article is of local interest to this section of the country and we publish it believing it will do much in refreshing the memories of old times.

The article says:—

I suppose the Yankees of the period thought they had the no plus ultra of formulas for a boiled dinner, and I for one, used to think so myself when I sat down to such a feast in old New Hampshire county, in the first half of the past century. But I have since partaken in North Carolina of boiled dinners whose ingredients and style of menu would take the rag off the New England spread.

You all know, perhaps, that the Old North State was settled in large part by Scotch Presbyterians who emigrated from their native heath two centuries ago, bringing with them very much the same religious creed and forms of worship, and the worldly tastes, traits and habits of the earlier Puritans and Pilgrim fathers. Indeed, there are no two States in the union whose people are so homogeneous as those of the hill portions of northwestern Massachusetts and North Carolina.

They showed the similarity in the colonial and Revolutionary times, socially and politically, and they have shown it ever since in the trying times of our country's vicissitudes.

There is a much larger percentage of native Americans in North Carolina than any other State, and they cling to the old-time methods, the old-time houses, and the old-time utensils with greater tenacity than they do in the primitive little towns of northwestern Massachusetts, which are probably at the present time the nearest surviving types of the old time New England community. I can take the reader into many parts of North Carolina, not only in the mountains, but in the eastern counties along the ocean coast, where old-fashioned hand looms are still weaving homespun and carpets, and the lye leach stands under the rain spout at the end of the eaves, the big hominy is cracked with a pebble and whole corn is hulled in a kettle with lye and tallow candles are dipped, and spinning wheels are noisy in the evenings and boiled dinners typify the primitive feasts of our departed ancestors.

Such a dinner was given in the year 1892 by Mrs Koonce at Pollockville, Jones county, to a number of appreciative guests, of which the writer was one; and as I kept tab on the menu at the time I am fortunately able to give an abstract in carte. The articles were not boiled altogether and served together as in New England, but separately, as given in the appended specifications:

Boiled ham, fresh and salt  
Boiled salt pork  
Sausages.  
Souce (pig's feet and ears).  
Scrapple, or sucklings. \*Cash.  
Chitterlings (hog's entrails cleaned white, and looking like boiled macaroni).  
Boiled sweet potatoes.  
Boiled pork and turkeys.  
Collards (a tree Cabbage).  
Onions, Head cheese, Boiled tripe.  
Dried persimmons stewed.

**Endeavor to Pardon Boyette.**

An effort is being made to obtain a pardon for Emmett Boyette who shot and killed his wife about a year ago at her home in Kinston. Boyette was sentenced to a life term in the penitentiary and to be confined in the ward for the insane convicts.

It is asserted that he has regained his reason and therefore it is maintained by his attorneys, Messrs E M Land and G V Cowper, that Boyette is confined in violation of the State and United States laws.

An application for a writ of habeas corpus was made to Judge Ferguson Wednesday but the latter for the Supreme court to decide.

The Supreme court has an important question to settle in the Boyette matter as to the constitutionality of the law affecting insane criminals.

An order has been placed on file that the case be advanced on the docket so that a hearing and decision may be reached at an early date.

**"Plastico"**  
A SANITARY WALL COATING.

Plastico is NOT a hot water, filthy glue Kalsomin. It is a finely powdered rock in white and beautiful tints to be mixed with cold water. Any one can brush it on. Plastico has the peculiar property of cementing to the wall, destroying disease germs and vermin and never rubbing or scaling. Kalsomin has no cementing property. It depends entirely on glue to make it adhere and forms of deadly diseases, scrofula, and other skin diseases. Wall finishes that must be scaled off. Hot water and Kalsomin, no matter what finish you use, will destroy the plaster. Plastico is a 5 lb. package only, properties listed free. Sample card of Plastico free.
