quently while in the transaction of their duties they have had but few encounters. It seems, moreover, that the rivalry of the two circuses enters but little into the matter, the quarrel being of a purely personal nature.

The attack occurred at the Coast Line train left for Wilmington. Kane had checked his baggage preparing to leave for Wilmington and Service had gone got together. There was little said by. either men before the deed was done and the weapon used-a small pocket knife, was used before a lick was struck. The first knowledge of any of the bystanders that Kane had been out was when he exclaimed "stop that man, he stabbed me." Service went over a short distance to a barn where some of his men were making paste and officer Bryan arrested him there He made no resistance.

Service was arraigned in the police court yesterday afternoon. Mr W W Clark sppeared for the State and Mr E M Green was attorney for Service. The testimony was given by Doctors Caton and Jones and was introduced to determine under what amounts of bonds the defendant should be placed.

As a result of the examination Mayor Ellis bound him over for trial in Superfor Court in the sum of \$100 which he

and now I am deeply grateful to my druggist as well as to you.

I had been a sufferer from these things and a general run-down condition for ten years, and had only received temporary relief from other medicines. But after using not quite two packages of your Liver and Blood Syrup I feel as atout and hearty as I ever did in my life, and I am satisfied that I am entirely cured. I feel no symptoms whatever of kidney trouble, and my digestion is as good as any living man's. I can now cat whatever I choose.

I never had any remedy give me such quick and permanent relief, and I can not put a correct estimate on the value your medicine has been to me. I would not take any amount of money for it.

Very gratefully yours
