

THE WEEKLY JOURNAL

Established 1878

Published in Two Sections, every Tuesday and Friday, at Journal Building, 56-60 Craven Street.

CHARLES L. STEVENS,

EDITOR AND PROPRIETOR.

SUBSCRIPTION RATES

Two Months, \$2.00; Three Months, \$5.00; Six Months, \$10.00; Twelve Months, \$20.00.

ONLY IN ADVANCE.

Advertising rates furnished upon application at the office, or upon inquiry by mail.

The Journal is only sent on pay-advance basis. Subscribers will receive notice of expiration of their subscription and an immediate response to notice will be appreciated by the Journal.

Entered at the Postoffice, New Bern, N. C., as second-class matter.

THE VOTER'S SERIOUS SECOND THOUGHT.

The reare Democrats in North Carolina who view the present Democratic administration with disfavour. Arguments may be offered to show that much might have been done, which was not done.

It is the spirit of North Carolinians to be conservative, and history shows where mistakes take place when a people refuse to take the second serious thought, and instead act upon rash impulse, influenced by prejudice, and injure themselves by acting without the calmer second thought.

Accepting as fact that the State Democratic administration has made errors, there is a splendid second side of wise acts upon which the people have realized great gains, morally, educationally, commercially and industrially.

If it was possible to place men in public office who could make no mistakes, there would be no need for parties or opinions. It would be life positions for such men, and the general public would be the gainers thereby.

But such men are not born, hence the demand at each election, and the putting forward of candidates who are represented to be men fitted for public honor and the people's trust.

In very many political campaigns, the ticket to be voted is offered, and the voter is placed in the position of selecting a party to be put into public office as the lesser of two evils.

To the North Carolina voter no such political condition exists today. The Democratic party in its administration of State affairs has not been perfect, but it has brought prosperity and development, it has advanced social and educational conditions, it has stood for the best things, although at times it has failed to secure all of them.

The fact that New Bern continually gains in population and grows, commercially, while there is no real, strong taking hold and pushing material things here in a live progressive manner, only proves the great merit in the geographical location of this city, and the natural splendid resources which this section gives towards assisting the growth of this city.

It is a good question for every business man and every citizen of this place to ask himself what would and could New Bern be made if there was a unity of the people in forwarding every commercial and industrial interest?

Certainly there would be no patch work progress, but everything would be gone into with the thought of a big future for New Bern, one to which a future generation or two would look backward upon and say, "our forefathers were builders. There were giants in those early days of New Bern's developing and upbuilding."

THE SECRET OF SUCCESS.

Forty million bottles of August Flower sold in the United States alone since its introduction! And the demand for it is still growing. Isn't that a fine showing of success? Don't it prove that August Flower has had unerring success in the cure of indigestion and dyspepsia—the two greatest enemies of health and happiness?

The question whether the Canal Commission will do the work of building the canal or if it will be done by contract, will be determined when the commission looks into the work, and the engineers submit their proposals.

The work on hand was accomplished when the work was done by contract, and the canal will be built in two and three months.

sent from the United States engaged in the engineering and construction work, and upon sewerage and water supply, with a force of from 1,000 to 1,300 laborers. This does not include the sanitary force, nor the force of the governor of the zone, nor the personnel of the material and supply department.

There are also surveying parties at Colon making estimates upon inner and outer harbors, and at Bohio investigations are being made in detail on dam sites.

An engineering corps along the main line of the canal in the vicinity of Culebra is making surveys to determine the feasibility of straightening the line of the French company. Another engineering force is constructing a reservoir in the valley of the upper Rio Grande, which will furnish a minimum supply of 3,000,000 gallons of water a day for the city of Panama; also a distributing reservoir for the city of Panama at Ancon. It is also making surveys and estimates for sewerage system for Colon, and plans are being prepared for the construction of a harbor there.

The commission has purchased so far three modern steam shovels and opened bids for eleven more, has sent to the isthmus a large amount of railroad ties; has recently opened bids for 2,700,000 feet of lumber, and will soon advertise for about 4,000,000 feet additional.

And in connection with this canal work it is of local interest to note the recent newspaper statement that the company which has just purchased what is known as the Green Swamp, lying in Brunswick and Columbus counties in this State, are to furnish large supplies of timber from the thousands of acres of timber land they purchased.

LET UP ON PATCH WORK PROGRESS.

Repairing which is just now being done upon some of this city's streets, is quite illustrative, unfortunately so, of very much that is constantly going on in other affairs and matters in New Bern's daily life.

There is a period in every city's growth, when it gets beyond patch work, as the one method to stay its decay and extend its growth. It would seem that New Bern ought to have outgrown this patch work stage, and begun building beyond one day, or one city administration, as if the people were going to stay here, and not going to leave to go to some other place of residence.

It is strictly rural to chronicle local fence painting or grass cutting, and it is patch work progress when New Bern cannot go into substantial and permanent material improvements instead of repairing for today, only, with every probability that the repairs must be reprobability that the repairs must be renewed tomorrow.

The fact that New Bern continually gains in population and grows, commercially, while there is no real, strong taking hold and pushing material things here in a live progressive manner, only proves the great merit in the geographical location of this city, and the natural splendid resources which this section gives towards assisting the growth of this city.

It is a good question for every business man and every citizen of this place to ask himself what would and could New Bern be made if there was a unity of the people in forwarding every commercial and industrial interest?

Certainly there would be no patch work progress, but everything would be gone into with the thought of a big future for New Bern, one to which a future generation or two would look backward upon and say, "our forefathers were builders. There were giants in those early days of New Bern's developing and upbuilding."

The patch work stage of New Bern is past, and it is time for the people to arouse themselves and go into a state of real and substantial progress, a period worthy of the surroundings and the natural resources which bless this section.

WHAT WORK IS BEING DONE AT PANAMA.

The report of the Panama Canal Commission recently made shows what has been done on the isthmus since the United States acquired possession of this property, and is full of interest and importance to the people of this country, as showing what progress is being made.

The question whether the Canal Commission will do the work of building the canal or if it will be done by contract, will be determined when the commission looks into the work, and the engineers submit their proposals.

The work on hand was accomplished when the work was done by contract, and the canal will be built in two and three months.

30TH DAY NO RAIN

Dry and Cold Weather Continue at Raleigh.

Successful Park Season. Foot Ball, Colored Church. Schools Closed by Diphtheria. Colt Revolver. Complimentary Banquet. Republican Speak.

Raleigh, Oct. 15.—Pullen Park here has had a very successful season. From the first of May to the last of September the number of visitors from the city averaged 300 a day, and during that time more than 40 excursion parties from other places went to the park. The receipt of the swimming pool were \$500. A number of improvements have been made at the park.

This morning the football team of the Agricultural & Mechanical College, left for Charlottesville, Va. to play the University of Virginia team.

Rapid work is now being done on the large First Baptist Church, colored, at the southeast corner of the capital square. It will be one of the four most conspicuous churches in Raleigh.

Today was the 30th day without a drop of rain. The combination of the drought and the cold weather is rather odd and not at all pleasing.

In a day or two Mr. R. D. W. Connor is expected here from Wilmington to take a position in the office of State Superintendent Joyner made vacant by the election of Mr. E. O. Brooks to the superintendency of the public schools at Goldsboro. Mr. Brooks is still here, the schools at Goldsboro being closed on account of diphtheria. This disease has also closed the oldest and largest public school here. There is some increase of it, and it is claimed that the dust which is blown everywhere is largely responsible for the increase.

For a number of years a claim has been made that Calvin Cox of Pitt county was the inventor of what is known as a colt revolver. The latter revolver was first used by the American troops in the war with Mexico, and gave the Mexicans a great surprise. Today Secretary of State Grimes received the two patents granted to Mr. Cox for improvements in breech loading fire arms, dated in 1858 and 1860, and signed by Jacob Thompson, Secretary of the Interior, who was by the way, a graduate of the University of North Carolina. Your correspondent looked at these patents and the drawings of the weapon, the latter do not show the revolving mechanism.

The banquet of the alumni of the State University resident here was held this evening. One of the special guests was Dr. Charles Baskerville, now occupying the chair of Chemistry at the college of the city of New York. He will go from here to Chapel Hill tomorrow to receive a testimonial from the faculty and students of the University.

Two cases of small pox are reported in the country in this county. There are no cases in Raleigh.

This evening Mr. Chas. J. Harris, Republican nominee for governor, and Hon. Thomas Settle spoke at the court house here. Mr. Settle has spoken here a number of times, but it is the first time Mr. Harris has been heard.

RUSSIANS FLEE

Japanese Pursue Capturing Men and Guns. Japanese Minister Relieves Report.

London, Oct. 14.—Baron Hayaashi, the Japanese minister this morning issued a report from Field Marshal Oyama, received in Tokyo confirming many of the press reports of the Russian reverses about Yentai. The report reads: "Near Penzhan the enemy's counter attacks were repulsed on all sides. The centre and left columns and the right army are vigorously pursuing the enemy. The central army has captured the heights a few miles east of Yentai, taking two field guns and eight ammunition wagons. While pursuing the enemy they also captured field guns and ammunition wagons numbering eleven at Sankushichan, besides one hundred and fifty prisoners. The pursuit by the right column of the left army is proceeding satisfactorily. On Wednesday, a detachment of the enemy with artillery, while being enveloped by us ran panic struck. This was eleven miles east of Yentai and are retreating northward in disorder. Our left since Tuesday night has been continuously attacking the enemy, posted near the railway within ten miles north of Yentai. The central column of the left army after repulsing the enemy's strong force occupied Lantzen with five miles northwest of Yentai, capturing sixteen guns. Thereupon they immediately pursued the enemy who were retreating in disorder and captured four more guns. The right column of the left army while pursuing the enemy near Schilli river captured five guns and ammunition."

A Judicious Inquiry.

A well known traveling man who visits the drug trade says he has often heard druggists inquire of customers who asked for a cough medicine, whether it was wanted for a child or an adult, and if for a child they almost invariably recommended Chamberlain's Cough Remedy. The reason for this is that they know that there is no danger from it and that it always cures. There is not the least danger in giving it, and for coughs, colds and croup it is unsurpassed. For sale by all druggists.

RALEIGH

Showing of September Climate and Crop Report.

Editor Had to Decline Position. Government Gets Liqueur Tax. Receivership Bill Costs. Cavalry Company to Organize.

Raleigh, Oct. 15.—It is learned that J. D. Eggleston, Jr., formerly Superintendent of public schools at Asheville, but now Superintendent of schools in Prince Edward county, Va., has declined the position of Editor of the Charlotte News on account of sickness. He is now in the hospital at Richmond, his disease being appendicitis.

The climate and crop report for this State for September was issued today. The most temperature for the State was 70 degrees, half a degree below the normal, the highest being 74, at Hatteras the lowest 59 at Lynville. The highest absolute temperature was 90 degrees, on the 30th, at Lexington, and the lowest 81 degrees on the 16th at Lynville. The average rainfall was 3.38, which is a little over an inch below the normal. The greatest rainfall was nearly eight inches at Pittsboro, and the least a 3rd of an inch at Waynesville. The drought now prevailing in Central North Carolina and in fact over most of the State is specially referred to in the reports. It breaks all the records since 1867. There were killing frosts in parts of the mountain region as early as September 16th.

Revenue Collector Duncan who is looking after Republican politics for Eastern North Carolina will make a tour through his county, Carteret, and will visit all the precincts. He was talking today about the enforcement of the Watts law, and says that none of the State officials has ever examined what is known as record No. 10, in his office which shows the persons who have paid special taxes for the sale of liquor. He says that in nine cases out of ten where sales of liquor are made in Watts law territory the government has got its tax, the liquor being sold in defiance of the State law. In other words the Revenue department has seen that its law has been complied with and that the Federal tax has been paid. The records contain a complete list and is really the only thing open to the general public.

A bill of costs amounting to \$995 has been filed in the Federal court here in the receivership matter of John P. Cuyler of New York against the Atlantic & North Carolina Railway. Exceptions have been filed by the attorneys for the railway.

A troop of cavalry is about to become a certainty here. The requisite number of men has been secured and application will be made to the governor for commission to organize as part of the North Carolina National Guard. It has been 13 years since there was a cavalry troop, this having been the Scotland Neck Mounted Riflemen. The State will of course, if the troop is admitted to the National Guard, uniform and equip it, but of course the members will have to furnish their own mounts, the State allowing pay for these only when the organization is on ordered tours of duty.

The four hundred and twelfth anniversary of the landing of Columbus was celebrated at the World's Fair, the day being "Italian day."

Valuable models and art treasures worth \$100,000 were burned in a fire which destroyed one of the studios of Augustus St. Gaudens, the sculptor, in New Hampshire.

For a silver dollar of 1804, W. F. Dunham, of Chicago, paid \$1,100 at an auction in New York.

Ex Gov W. Murray Crane was appointed by Governor Bates United States Senator to succeed the late George F. Hoar.

The situation is growing serious in the Manufacturing section around Spartanburg, S. C. The cotton mill located on streams from which they derive their power, are facing a crisis on account of the exceedingly low water. Some are only running three days in the week on account of the lack of water power.

Saves Two From Death.

"Our little daughter had an almost fatal attack of whooping cough and bronchitis," writes Mrs. W. K. Hatfield, of Armonk, N. Y., "but, when all other remedies failed, we saved her life with Dr. King's New Discovery. Our niece, who had Consumption in an advanced stage, also used this wonderful medicine and today she is perfectly well." Desperate throat and lung diseases yield to Dr. King's New Discovery as to no other medicine on earth. Intallible for Coughs and Colds. 50c and \$1.00 bottles guaranteed by C. D. Bradham. Trial bottle free.

The Hyman Supply Co.

Over fifty years ago, our firm began selling paint throughout the South and has continued uninterrupted, and ten times greater than any other brand of paint. Read the following: "Have used the L. & M. paint twenty years, houses painted with it eight years ago show better today than houses painted with other paints within two years."

KUROPATKIN IN FRONT

Reported Wounded. Japanese Pursuing Aggressive Fighting.

Rome, Oct. 15.—A report from Tokio has it that Gen. Kuropatkin has been wounded. The Italia Militaire has a dispatch from Mukden stating the garrison there is departing for Harbin.

Tokio, Oct. 15.—After the Japanese had partly occupied Shabopan yesterday evening the Russian's main body fell back into the mountainous district east of the railway where they halted and are now facing the Japanese right, which they endeavored to surround last evening. The Japanese engaged the Russian reserve divisions who were believed to be personally commanded by Kuropatkin. Fight against these reserves resumed this morning. The utmost importance it attached to the outcome. Russians about Penzhan fled to the northeast.

General Oku has captured ten more guns and the fighting continues along the whole front.

News in a Nutshell.

The annual report of the Western Union Telegraph Co gives total revenue of \$39,249,393, an increase of \$1,703,076; revenue was \$7,897,475, a increase of \$336,997.

It is officially announced that the arrangement for a parcel post between the United States and France including Corsica and Algeria, will come into force on Nov. 1.

Typhoid fever is epidemic in the Baptist State orphanage at Thomasville. There have been 48 cases and two deaths. There are now 30 cases in the hospital and fresh cases are daily added. The demonstration is raising \$10,000 to build a sanitarium.

Italian deputies who have returned from the Peace congress at St. Louis are highly pleased with American hospitality.

A \$10,000,000 hotel, the largest in the world is to be erected in Chicago.

A farewell banquet was given in honor of the Archbishop of Canterbury at the Waldorf-Astoria. Bishop Potter presided and many distinguished persons were present. The archbishop sailed home yesterday.

The four hundred and twelfth anniversary of the landing of Columbus was celebrated at the World's Fair, the day being "Italian day."

Educational Note.

The educational impulse is continuing to grow in Oriental. A fair proof of any people's interest in any cause is how much money they invest in it. Last May the people of this town showed a genuine interest in education by voting a special tax on themselves, and now they are going still farther down in their pockets to buy the new Academy and the one acre lot on which it stands.

The School Committee and the County Board of Education made the bargain with Capt. B. F. Pickles for the sum of \$2,000. Of this amount the State lends \$1,000 to the town to be paid in ten years, and the citizens are to raise the other \$1,000 which will be paid in January when the property changes hands. This is getting at educational work in a business like way. We all feel justly proud of this transaction, it speaks well for Pamlico county.

The school has opened up well. We visited all the patrons before the opening day, urging them to send their children regularly and to take advantage of the opportunities offered them for education.

Already nearly five sixths of the children in the district have been enrolled.

The young ladies and school girls are going to give a basket supper Friday night the 21st inst., the proceeds of which will be used to put in some school apparatus.

We all know that when the good women throw their influence into any movement it means success, so we expect a feast and a pleasant social occasion on that evening.

R. C. HOLFON, Oriental, N. C., Oct. 15th.

Ten Thousand Churches Painted With L. & M.

There is not much money lost in buying one pint of ready mixed paint, but when a quantity is needed, then its big loss to buy any ready mixed paint. The Longman & Martine's L. & M. Paint is semi-mixed, and is quickly made ready for use as follows: to four gallons of the L. & M. at \$1.65 per gallon, add 8 gallons of Linseed Oil at 50 cts per gallon, thus making 7 gallons of paint for \$3.10 or \$1.16 per gallon. Wears and covers like gold.

Sold by Hyman Supply Co.

Professor Harding.

Charlotte News Oct. 14. The many friends of the Charlotte schools will rejoice to learn that Mr. Harry P. Harding, the new principal of the north school is getting along well with his new work. The children and patrons of the school are delighted with him. He has already gotten the work well in hand, and has greatly endeared himself to the pupils.

The schools are doing a splendid work this year and especially is this true of the north school over which Mr. Harding has been placed. All in all the school feel that he is the very man for the place. It may be interesting in this connection to give a short account of Mr. Harding's teaching experience. He graduated at the University of North Carolina with the class of 1899 taking the A. B. course. During the next two years he was principal of the New Bern graded school. In the fall of 1901 he became superintendent of the Oxford graded school. The next year he went back to New Bern becoming superintendent of the schools of which he had formerly been principal. At all of these schools Mr. Harding has been successful in his work, and left each place much to the regret of all the patrons.

NOTICE I

The school committee of No. 3 township will meet at Trust, October 1st at 10 o'clock. All applicants as teachers are requested to meet and contract as the law directs.

W. D. WHITFORD.

TRINITY COLLEGE

One hundred and seventy graduates and undergraduate courses of study in departments of Literature, History, Science and Philosophy. Well equipped laboratories in all departments of science. Large library facilities. Gymnasium furnished with best apparatus. Expenses very moderate. Aid for worthy young men. Broad and national spirit.

TRINITY COLLEGE HAS THE LARGEST ENDOWMENT OF ANY COLLEGE IN THE SOUTH ATLANTIC STATES.

For catalogue and further information, address: D. W. NAWSON, Registrar, DURHAM, N. C.

Divorce Notice.

North Carolina, Superior Court, Jones County, before J. B. Collins, Clerk. Mary Boykins vs. Cyrus Boykins. Divorce. Service by Publication.

NOTICE.

The defendant above named will take notice that an action entitled as above has been commenced in the Superior Court of Jones County for purpose of dissolving bonds of matrimony now existing between plaintiff and defendant in this action; and that the said defendant will further take notice that he is required to appear at the next term of the Superior Court of Jones County to be held on the 8th Monday after the 1st Monday in September, it being the 1st of October 1904, at the Court House of said County in Trenton, N. C., and answer or demur to the complaint in said action, or the plaintiff will apply to the Court for the relief demanded in said complaint.

This 30th, Sept. 1904. J. B. COLLINS, Clerk of Superior Court of Jones County.

Timber For Sale

The undersigned offers about eight hundred thousand feet of fine spruce timber for sale, near the banks of Neuse river, six miles above Seven Springs. Apply to A. H. DALY, Seven Springs N. C.

TUSCARORA.

We are glad to see it cool again. Fine weather for picking cotton and peas, and the farmers are as gay as a mocking bird with 100 cotton. Mr. J. F. Register is having a dwelling built on his place.

Mr. Floyd Stewart is hauling lumber to build his dwelling. We are glad to see our boys making such improvements.

The protracted meeting closed at Gettsville church last Sunday with two accessions to the church. Mr. T. Weeks went to Kinston today on business.

The friends of Mrs. D. C. Taylor will be glad to know that she is improving.

Mr. J. C. Moore's family were sick with sore throat. We were afraid it was diphtheria, but Dr. Street was to see them yesterday and said it was ulcerated sore throat.

Master Walter Moore set two steel traps in a pond to catch a fox and they were about four feet apart and he was surprised one morning one had a hawk and the other had a crow.

Honey Dew.

Plague of Rats Heavily Wiped Out. Since Stearns' Electric, Ra. and Rock Paste has been recommended the decline of this city, there has been a great decrease in the rat and mice family. \$100 reward is offered to any one who uses Stearns' Electric Paste and does not find it successful in killing off mice, rats, water mites, etc. It is easy to use, and is speedily absorbed by rats, mice, cockroaches and all vermin. It is sure death, and gives universal satisfaction, especially as the rats or mice do not die in the house. If you obtain this Paste of your dealer, or will be sent free of charge on receipt of price by Stearns' Electric Paste Co., Chicago, Ill. Small size, 25c; Home size, eight times the quantity, \$1.00. Sold by F. S. Duffy.
