RAIN CHECKS FIGHTING

Reports of Encounters Between Russians and Jap Forces.

St Petersburg, Oct 20.—Lieut Gen Sakharoff reports that no skirmishes are reported having taken place yesterday. He gives an account of the disaster to one of the detachment Cossacks, October 18th. He says, "On the 18th when our mounted patrols were reconnoitering near Sandipou and Kasanzial Japanese outposts were encountered who hurriedly retired. Our forces were pursued but was stopped by the infantry with machine guns. One detachment came under the machine fire at a distance of two hundred paces and the horses and all the Cossacks were killed or wounded. Colonel Torgonoff brought back one of the Cossacks on his horse." It will be noted that Sakharoff makes no mention of the disaster to the two Japanese divisions reported in unofficial dispatches. Report received that during the fight five Japanese officers and forty five men were surrounded in a Chinese house and all the Japanese officers and forty-five men committed suicide. The others were surrendered. Probably this minor disaster is the basis for sensational rumor which had it that the two divisions suffered reverse and twelve thousand taken prisoners.

The rainfall continues to interrupt the hostilities. It is presumed both sides are waiting for the rain to cease and the rivers to recede somewhat to permit fording. The Russians wounded are being rapidly conveyed to Harbin, where there are ample accommodations for the care of the wounded.

AYCOCK ATTRACTS.

Raleigh Takes Holiday To Enjoy The Fair.

Chief of Police of State Convention. Inmates Soldiers Home Sick. Dispensary Having Big Business. Fire Underwriters In Session.

Raleigh, Oct 20.—Governor Aycock returned today from a campaign tour of 30 days, in the west, during which he spoke daily, frequently twice. He says that during that time he rode 230 miles and in various kinds of vehicles. During the last week and a half of the tour Commissioner Patterson was with him. The letter returned today. Mr Patterson says he never saw such a drought, and expresses the belief that it was even drier in the mountain region than it is in this part of the State. Insurance Commissioner Young, who has also been speaking is back here. He says the Governor has drawn larger audiences than he did during his famous campaign of 1900, and that people of both political parties have turned out to hear him and have given him a welcome. The Governor finds upon his return here that his little son, John has fever, which it seems is typhoid. The Governor has engagements to speak in two or three other States before the campaign is over.

Today was the great day at the State Fair, and business was generally suspended and the public buildings closed. Everybody took a holiday and went out to the grounds and the capacity of the railway train and of the street cars was well taxed. There have been no accidents during the week and only one robbery has been reported, in this case the thief having been captured promptly. Great numbers of Johnson county people attended the Fair today. It was their day and they enjoyed it to the utmost. They greatly appreciated their display, which was extremely mortifying.

The chiefs of police of this State had a meeting here last night which lasted until a very late hour. J A Woodall of Durham was re-elected president and F. M Jordan of Asheville secretary. John W. Cotton of Tarboro being vice-president and J H Mullins of Raleigh, O H Skinner of Dunn and S M Wheeler of Oxford composing the executive committee. Every chief in the State is invited to become a member.

Ten miles of the Raleigh & Pamlico Sound Railway has been graded and track laying is now progressing. The first of the steel bridges has been completed. The worst of the grading is finished.

There are several very sick inmates at the Soldier's Home. The death rate is heavy now, as many of the Veterans there are very feeble. Yesterday forty five of them went out to the State Fair and enjoyed it very much.

Tomorrow ten engines, which weigh 15,000 pounds more than any others in use on the Seaboard Air Line will pass here on their way south for use on the new Birmingham division. Orders require that they shall not exceed six miles an hour speed in passing over bridges on this division and not over 25 miles an hour on the road bed.

The Raleigh dispensary is one of the attractions of the city just now, and there was a street full of thirsty ones on hand early this morning, lined up ready to get in.

The Fire Underwriters of this State in session here elected A B Dangerfield of Winston president, J Van B. Metts of Wilmington, Secretary and R W Murray of Greensboro, C W Jacobs of Windsor, J R Patterson of Asheville, J C Marshall of Wadesboro and W W Smith of Raleigh the executive committee. The association favors the approval of the regulations which forbid division of commissions with non-resident agents and brokers.

Military Academy Sees State Fair.

The Students of the New Bern Military Academy are taking in the State Fair at Raleigh. Seventy scholars and teachers left yesterday morning on the special train at 6:30.

Their car which was assigned for their use was handsomely decorated with the school colors, purple and gold and the scholars themselves were liberally adorned with ribbons and badges of the same colors.

Majors Moss and Granberry have charge of the expedition, but all the teachers went with the school. They are undoubtedly having a fine time.

The school will return today.

DEMOCRACY EXALTED

The Virtues of Democracy and Faults of Republicanism Contrasted.

Brilliant Speech Delivered By Hon R B Glenn at Court House Last Night. Large Crowd Attends.

In spite of threatening weather and the counter attraction at the theatre, there was a very large audience at the court house last night to hear Hon R B Glenn deliver a most forceful address on the issues of the campaign. It was a brilliant effort, devoid of oratory insofar as that embraces flowery and meaningless platitudes but earnest, truthful and hard hitting statements on the condition of the country under Republican rule.

Mr Ernest Green presided and Mr C T Watson introduced the speaker. All seats on the floor were taken and many in the gallery were occupied. There was also a good attendance of ladies showing that they were interested in the question which is now on the voters mind.

Mr Glenn said he acknowledged the right of every man to vote as he pleased just as he accorded to every man to be a religiously just as his conscience dictated. There were many reasons why there should be difference of opinions and he was glad these differences existed. If the Republican party is all right, if by the promotion and election of its principals and men the condition of this country is going to be improved even in the least degree, then it is our Christian duty to vote for the perpetuation of that party in power. If, on the other hand, we should find upon thorough examination that the party in power is a party of thieves and spend thrifts then it is our bounden duty to turn the rascals out whether we are of the same political belief or not.

He next paid his attention to National politics taking into consideration at first the tariff question. He alluded to it with two or three humorous anecdotes and briefly but plainly and pointedly demonstrated the evil effects of a high protective tariff. He said the citizens of Craven county paid for the support of their State and county the sum of \$40,000 or \$50,000 and they raised a great fuss, but they let the Republican party slice them of a half million dollars directly and indirectly and never say a word. He then explained the operations of the tariff by the simple but comprehensive illustration of the walled city and the monopolist.

He then eloquently told how and in what kind of protection he believed. It was the protection afforded by the God in Heaven to the humblest and poorest man as well as the richest. The protection accorded the poor widow as well as the millionaire. Let the wealth and the enormous moneyed and manufacturing interests be protected but let those who helped to make those interests possible also share that protection.

He made the promise that when he should be elected governor of North Carolina he would invite capital and labor to this State and have them develop this State as only they can; he would open the cotton factories and invite all manufacturing enterprises and give every possible opportunity for the elevation and progression of the people, but as for the contests between capital and labor as produced by trusts and high tariff he would do his utmost to defeat them.

The extravagance of President's administration, imperialism and labor difficulties were dealt powerful and logical blows.

State politics and needs were discussed at some length. He went thoroughly into every detail of the political condition of the State and made the people know what to expect. His speech lasted about an hour and was heartily applauded by a gratified audience.

Women of 200 B C Dressed as Women of 1904.

Mr Arthur Evans, the Oxford archaeologist, who has made so many interesting discoveries in the so-called palace of Minos, in Crete, has found in a subterranean sanctuary certain very ancient small, earthenware statues representing some goddess and two of her servants. The dress of the figures is said to be highly modern. The goddess, we grieve to say, wears a corset, just such a corset as contemporary man shyly wonders at in the windows of a department store. The skirt of the robe of the goddess is "in Louis XV style" Her jacket is "exactly as is worn in the present day." Styles of say, 3600 B C, styles of 1904. Unless some humorist has "sailed" the excavations you are forced to hold that much nonsense has been written about the splendid, free, uncramped bodies of the female ancients, by no means ancient females in their time. And "we shift and bedeck and bedrape us" much as our esteemed ancestors did in the morning of the world.—With the Procession Everybody's Magazine for November.

A Remedy That No One is Afraid To Take.

Dr. Thacher's Liver and Blood Syrup has been used in thousands of homes for fifty-two years with perfect confidence and the most remarkable results.

The great success of this remedy is due to the fact that its formula (which consists of Baelia, Hydrangea, Mandrake, Yellow Dock, Dandelion, Sarsaparilla, Gentian, Senna and Iodide of Potassium) has been freely published.

Doctors and Druggists everywhere do not hesitate to recommend a preparation which they know contains the best-known remedies for correcting all irregularities of the Liver, Kidneys or Blood, and the diseases caused by the failure of these functions to perform their proper work.

Thousands of sick ones to whom life has been a burden have written grateful letters that others might profit by their experience.

Remember George Tark, Nov. 15, 1902. I was suffering terribly with indigestion and kidney trouble and sent to my druggist for something to relieve me.

As he sent me a package of Dr. Thacher's Liver and Blood Syrup I concluded to try it, and now I am deeply grateful to my druggist as well as to you. I had been an invalid from these things and a general run-down condition for ten years, and had only received temporary relief from other medicines. But after using just two packages of your Liver and Blood Syrup I feel as stout and hearty as I ever did in my life. I am satisfied that I am entirely cured. I feel no symptoms whatever of kidney trouble, and my digestion is as good as any living man's. I can now eat whatever I choose. I never had any remedy give me such quick and permanent relief, and I can not put a correct estimate on the value your medicine has been to me. I would not take any amount of money for it. Very gratefully yours, J. C. BROWN.

If you need a medicine write to-day for a free sample bottle and "Dr. Thacher's Health Syrup." Give symptoms for advice. We simply ask you to try it at our expense. We know what it will do. For sale by all Druggists—50c bottle—\$1.00 and \$1.00.
