Potash as Necessary as Rain
The quality and quantity of the crops depend on a sufficiency of Potash.
In the soil, fertilizers which are low in Potash will never produce satisfactory results.
Every farmer should be familiar with the proper proportions of ingredients that go to make the best fertilizers for every kind of crop. We have published a series of books, containing the latest researches on this important subject, which will send you a free copy. Write now with your blank of it to the

APPROACHING CEREMONIES.

Of Governor's Inauguration Being Determined.

Death at Soldiers' Home. Sentiment Fav rs Reformatory. Opinions on Liquor and Divorce Legisla-tion. Klanton's Mall Delivery. Mills Lum ber Co's. Debt Schedules

At the Capitol today a good deal was going on. Outside the vast front workmen were building the platform for the inauguration ceremonies, which if the weather is favorable will be held out doors. Inside the rotunda was being electrically arranged and also decorated, so there was plenty of sight. The very cold weather of course is a drawback, this morning being about the coldest of the winter.

At the Soldiers' Home yesterday afternoon one of the inmates, H P Tharrington, died very suddenly. He was at the church services, which ended at 5 o'clock and an hour and a half later was sitting in a chair in his room, talking to his roommate when suddenly he fell over and died in a moment.

Chairman T B Womack of the Code Commission says the second volume will be completed by the public printer tomorrow. It is a small volume as compared with the first one.

In an interview with Representative Winborne of the House regarding important matters he said that the sentiment here in favor of a reformatory for young criminals is very strong. It is learned from the head of the Kings Daughters of North Carolina that the Order is entirely willing to give to the State the site presented to the Order for a reformatory at Lakeview, Moore county. This site was viewed last spring, and the location is very fine.

Representative Winborne was asked what seemed to be the opinion in regard to liquor legislation and replied that it seemed to be to allow the Wa ts Law to remain in force, merely curbing a few details in it, as that law appears to have a very large measure of public favor, and Dem cratic opposition to it has become very small. In response to an inquiry about what would be done in regard to divorce, Mr Winborne said there were a good many views on that question and said that while some members warmly favored a sweeping law, limiting divorce to biblical grounds, some wanted the open door. He expressed the opinion that whatever bill was passed it would be a sort of compromise and that there would be nearly a hard fight on the divorce question. Some members are heard to say that they want anybody who desires a divorce to have one.

Examinations have been held at Kinston for Free Delivery Mail Carriers. There will be three of them and they will begin work at 6:30 a. m. and end at 5 p. m. unusual hours, but made necessary by the way the mails arrive. There will be a delivery to the whole town as late as 8 p. m.

It is learned at the U. S. Marshal's office that while directly after the Water Law went into effect there was a great falling off in business, that now the latter is back at about the old amount. It is said by the officers that for a while ago he would report the location of illicit distilleries and that one sheriff told the deputy marshal that if he saw a still in operation he would not report it.

On the 24th, instant the creditors of the W. W. Mills Lumber Company and of Walter W. Mills, both bankrupts, will meet here. Walter W. Mills is trustee. The schedule of the Company show debts amounting to \$28,929 and assets claimed to be worth \$95,314, mainly in the way of securities, amounting to \$92,000. Mills personally owes \$30,438, and his assets claim to be \$147,010 of which all except \$24,000 is in securities. Most of the debts of the Company and Mills are to saw mill men.

C C Henderson Dead.
It is with deep regret that we chronicle the death of our young friend, Mr C Henderson, Jr., who died at his father's residence near Pollocksville this morning, January 4th, of pneumonia. He was just in the prime of young manhood, being about 18 years old. He was the oldest son of Mr M L Henderson. He leaves father, mother, and brother and a host of friends and relatives to mourn his untimely death.

To the bereaved family we extend our heart felt sympathy, and point them to the Lamb of God who taketh away the sins of the world.
We mourn not as those who have no hope.
For our departed friend.
But trust implicitly in our God
Who doeth all things well.

Some fine trout were offered on this market yesterday. They were of the speckled variety and were in good demand, going at fancy prices. The writer was on New River a few days ago and learned that trout were scarcer than usual, and were rated higher than ever before.

The latest proposition for a petition to the General Assembly from this good old City of Elms, is one to grant an election to forbid the sale of cigarettes, cigars and tobacco. Certain good citizens who are opposed to the proposed dispensary, say that instead of compromising with evil influences, that they are in the fight to the finish, and expect to antagonize the sale and use of any and everything that does not contribute to the upbuilding of the physical and moral condition of man.

Attention has several times been called to the nuisance of persons clinging to the steps of the cars on the A. N. C. road entering this city. It's a great big nuisance and should be abated. A few nights ago it was noticed that several persons who desired to get off at the A. & N. C. station had great difficulty in doing so, several ladies being compelled to remain until the other station was reached. Of course, it's all right to remain on the train until one arrives at the proper station, but in New Bern all the hack drivers congregate at the A. & N. C., and one can scarcely be persuaded to go elsewhere for a passenger. The night in question was very rainy, the ladies referred to had no escort and they would have been compelled to wade around indefinitely had it not been for a gentleman who knew the custom of the hack drivers and who had forethought enough to alight and procure a conveyance in time.

LEGISLATIVE BILLS INTRODUCED

Raleigh, Jan. 9.—In the Senate today bills were introduced to punish more severely attempted felonious assault upon females; to amend the charter of Salem by permitting it to issue bonds to ten per cent of the total valuation of real and personal property.

Representative Stronach, of Wake, introduced a novel bill in the House, making it a misdemeanor for any merchant to make false representation about his goods, either oral or in advertisements. Harrison introduced the most amusing bill of the session, this being to make it a misdemeanor for barbers to use soiled towels on customers, or to neglect to cleanse shaving utensils after each shave.

Other bills introduced in the House were to make the minimum amount of fourth-class pensions \$20 annually, the amount being now only \$14; and to put the offence of dead-beating on railway traing within the jurisdiction of magistrates.

A Well Deserved Tribute.

The awarding of the Grand Prize to the Winchester Repeating Arms Co., of New Haven, Conn., at the St. Louis Exposition, confers upon this company the highest mark of distinction attained by any manufacturer of guns or ammunition in the world. Although a great number of medals were given to this class of manufacturers, the only award of a Grand Prize was to the Winchester Repeating Arms Co; and given as it was in competition with the leading manufacturers of all countries, it testifies in a most decided way to the superiority of Winchester rifles, shotguns and ammunition over all other makes. The success attained by the Winchester Repeating Arms Co. at this exposition is simply in line with the honors received in the past. At the Paris Exposition, Winchester arms and ammunition received the Grand Prix; and wherever they have been exhibited they have always been given the highest possible prizes. This latest recognition of superiority is the natural result of thirty years of careful and successful endeavor in maintaining the high quality of Winchester rifles, shotguns and ammunition.

Punta Gorda, Fla.

Jan 3.
A Happy New Year to the readers of the New Bern Journal, and especially to the Editor and staff.

Things in and around Punta Gorda are about the same as when we wrote last.

Christmas and New Year's passed off pleasantly, the weather was delightful all the week, on Christmas day it was clear and warm, the thermometer registered 86° in the shade at 12 noon and nearly the same on New Year's day. We had a cool shift during the week, but it only lasted two days. Today is clear and warm with thermometer about 78° in shade.

We have had the usual Christmas festivities, generally seen in a town. On Saturday night, Christmas Eve, there were three Christmas trees, one each, in the Methodist, Baptist and Presbyterian Churches, all well attended, and next day services in all the churches, we attended at the Methodist, to hear the new preacher, Rev. T J Phillips. Yesterday New Year's day, the same program was observed. We attended the Baptist Church, Rev. J C Graham, pastor.

Dots of travelling shows came to town, all last week, and three more to come this week, people will go to the circus, church or no church. Last Saturday the Salvation Army came and held services in the streets for three days.

Northern tourists are right plentiful and hunting and fishing are the principal sports with them. Hotels are open and doing good business. Truckers and gardeners are looking well, it looks strange to us to see these mid-winter gardens all in full bloom and nice vegetables on our table every day. We have had no cold weather to bother gardeners nor truckers, not even a light frost, or a thin slice of ice has been seen in Punta Gorda this winter so far.

The fruit crop is the largest seen in several years, and thousands of crates and boxes are being shipped every day, from 4 to 6 trains a day are kept busy all the time shipping fruits and fish.

This scribe took a week's hunting down the bay among the islands, before Christmas and had a jolly old time, there were five of us, all told besides the dogs and guns. We only got two deer, but coons, fox, duck and birds etc. Our main dog was "Rover" the one we brought from North Carolina, and the way he made the fur fly with the coons and foxes, was not slow.

Some of the North Carolina boys went home Christmas, among them were—Mr E W Smith one of our fish dealers, but we suppose he went on very important business, as we hear he will bring a partner back with him, but not a fish partner. Several marriages lately, and several new immigrants, which keeps our town on the increase in that line constantly.

We had, what they called a "Doll Bazaar Show" here last week in the City Hall, among the many things of attractions was a large Doll about 3 feet high to be given to any girl or young lady guessing her name, that is the number on list with name, some 100 in number, Miss Lizzie M. Lingleth a N C girl was the successful guesser. She is the grand-daughter of the late George Lingleth of Smyrna, Carteret County, N. C.

All our N. C. boys are at work and most of them prospering. Messrs Clem Tolson, Rigdon Weeks, Sam Freeman, Steve Norton, Dan Ward, Ed Smith, R M Coston, T O Willis, M E, Thos and James Bell, Floyd Boowell and others seem to be doing well.
