torneys License

Snow.

Special to Journal.

Raleigh, Feb. 6.—Bills were intro-
duced in Senate to prohibit dealing in
futures; to provide a short form of
crop lien. A bill passed to allow Dare
county to levy a special tax. A resolu-
tion was adopted urging Congress to
make an appropriation for the improve-
ment of the upper Cape Fear River.
Bills were introduced in the House to
abolish the North Carolina geological
survey; to require county surveyors to
keep records of all surveys; to allow the
Camden Ferry company to build a
bridge across Pasquotank river, to es-
tablish the Eastern North Carolina
Normal College for Women; to repeal
the law taxing agents who take labor-
ers from the State; to encourage sheep
husbandry by taxing dogs. Regulating
the fees of magistrates in Currituck
county. A bill was tabled increasing
the jury tax to \$5 in civil and criminal
cases. Ehringhaus bill to establish a
Normal Woman's School for Eastern
N. C. carried ten thousand dollars an-
nual appropriation for support, and
\$25,000 special appropriation for build-
ings. A bill of the A. & M. College
calls for \$35,000 annually for support,
\$35,000 special for a laboratory and \$20,
000 for a heat, light and power plant.

After argument by railroad attorneys
the Senate committee reported adverse-
ly on Foushee bill giving the Corpora-
tion Commission power to order rail-
ways to repair road beds, bridges or
equipment, which investigation shows
to be defective. Foushee was instructed
to consult the Commission and pre-
pare another bill.

Three inches snow here and heavy
sleet. Very heavy snow in west. 34
applicants for attorneys license before
Supreme Court, 4 colored.

Reports of Corporation Commission
on banks, shows total to be 198, State,
Savings and Private. Total resources
thirty-two million dollars, a gain of four
millions dollars in one year.

WORST IN ATLANTA'S HISTORY.

Atlanta, Ga., Feb. 5.—Never before
in the history of Atlanta has the ice
king held such a grip on the city as he
has tonight. Traffic is completely at a
standstill, the street car service closing
down at night fall. The entire electric
light service except that in the imme-
diate center of the city, is dead.
It has been either sleeting or raining
since Friday afternoon, a heavy rain
falling and freezing as it fell this after-
noon. Tonight three inches of solid
ice covers the streets. The telephone
and telegraph service is badly crippled.
Every wire between here and New
Orleans is down.

DIVORGE BILL JUST PASSED.

Special to Journal.

Raleigh, N. C., February 6th.—By
a vote of eleven to ten the house
Judiciary Committee reported favorably
the divorce bill. The abandonment
clause provides that unsupported testi-
mony of plaintiff shall be insufficient to
secure divorce. The bill as agreed on
contains seven causes. The present law
has six for divorce.

REPUDIATE DELEGATES.

Workmen at St. Petersburg. Claim
to be Misrepresented.

St. Petersburg, Feb. 6.—The work-
men to the number of 4,000 in the car
shops here have drawn up a manifesto
disclaiming the delegates who were
put forward as representing them in
the deputation which visited Empor
Nicholas at Tsarskoe Selo on Wednes-
day, February 1. They assert that
these men were selected by the em-
ployers, and were not representatives
of the workmen. The employees of one
or two other factories may follow suit;
but the workmen in general are inclined
to stand by the deputation.

There were a few slight collisions be-
tween Lessner's workmen and the po-
lice guarding the factory yesterday.
Poland, however, continues to be the
storm center of the disturbances.
Though the strike has ceased in some
establishments, it has assumed a more
important phase by its extension to the
great coal mines and sugar factories;
and three more governments have been
placed under martial law. Police and
Cossacks have had to break up a num-
ber of demonstrations and quell dis-
orders; but as yet there has been no
repetition of rioting on the scale of the
first collision. Strikers in Tiflis and
other parts of the caucuses are frequent
and the present one does not attract
much attention, except as bearing on
the general situation in Russia.

The rumor as to General Kuropat-
kin's retirement is generally discredit-
ed.

Cures dizzy spells, tired feeling,
stomach, kidney troubles. Makes you
well and keeps you well. That's what
Hollister's Rocky Mountain Tea will

WINTER KNOWS NO SECTION.

Charlotte Observer.
Talk about wiping out sectional lines.
When a blizzard like that of the last
three days extended to the Gulf of
Mexico we feel indeed that the Lord
intended us to be one people. Mason
and Dixon's line is assuredly not the
Tropic of Cancer. Next summer we
shall be reminded that it is not the
Arctic Circle, either.

WANTS OYSTER PROTECTION.

Fishing Gazette.

Mr. J. N. Whitehurst writes as fol-
lows regarding oyster conditions in
North Carolina: "If every Tom, Dick
and Harry come down with their vessels
after dredging is over in Virginia and
Maryland and pay no taxes, take charge
of the beds in North Carolina, I don't
think it just. If one of our vessels
should go in the waters of the above
named states and throw a dredge, in less
than 48 hours the vessel would be locked
to a wharf, and the captain would look
from behind prison bars. Then if other
states protect their citizens, why not
North Carolina? We need a law that
will allow our boats to dredge through
the month of April in upper part of
Pamlico Sound and compel every vessel
to be owned by citizens of the state for
so many years."

RALEIGH

LITTLE DOUBT BUT PENSION BILL PASSES.

Railroad Case. Severe Winter Weath-
er. P. M. Pearsall Sick. Plan
For Electric Lighting of
Capitol. Free From
Cattle Tick.

Raleigh, Feby. 4.—State Veterinar-
ian Tait Butler is notified by the U. S.
authorities that the State extension of
territory free from the Texas cattle
tick is accepted, this covering the en-
tire counties of Wilkes, Gaston, Cataw-
ba, and parts of Burke and Surry,
which are added to the exempted area.
Dr. Butler says this is a very fine work
for the year, and he is very much grati-
fied.

H. P. Seawell is here in regard to the
case of the Atlantic Seaboard Company
against the Carolina and Northern rail-
road Company. He is approving re-
ceivers certificates, amounting to about
\$60,000. The company operates large
saw mills at Kingsdale and the road is
also in operation. Mr. Seawell has
been to Philadelphia and approved \$460,
000 of the bonds.

Last night the eighth snow of the
winter began falling. It was thought
it was going to be a very severe one but
perhaps the weather was too cold, any-
way less than an inch fell. The weather
is among the coldest of the winter.

The Supreme court meets next Mon-
day. The two new associate justices,
George H. Brown and W. A. Hoke are
here. Monday will be devoted to the
examination of applicants for licenses,
and Tuesday the appeals for the first
district will be called, the docket being
a very light one. Justice Walker arriv-
ed today.

Private Secretary Pearsall is quite
sick at his home here. He had expect-
ed to go to Jackson Springs for a few
days and thence to New Bern.

Charles E. Johnson, Lieutenant Wil-
liam L. Walton, U. S. A., and Oscar
D. Green have been made members of
the North Carolina Society of the Sons
of the Revolution.

The project of lighting the capitol
and other State buildings by means of
the electric plant at the penitentiary is
revived. It is claimed on one hand that
the plant is ample to this work, while
on the other it is said that a new one
will have to be put in.

The changes to be made in the char-
ter of Raleigh, some of which are radi-
cal, are agreed on. All of the impor-
tant changes were first covered in this
correspondence. Some of the provis-
ions are very interesting.

The divorce question has yet to get
through the legislature. It was at one
time much talked about, but now less
is said of it. As predicted there
will be some additions to the law and
it will not be very greatly changed
from what it now is, in spite of the
plea of the church people of the State
for a return to the Biblical causes.

The increase of pensions is very pop-
ular and there is little doubt that the
bill carrying the \$97,000 increase will
get a unanimous vote in both branches
of the legislature. It secured such
a vote in one branch yesterday.

Judge Purnell of the Federal court
sustains the State's acceptance to the
bills of costs of the complainant in the
Cuyler suit for a receivership of the
Atlantic & North Carolina railway and
allows to V. E. McBee only \$20 where
\$900 was asked for.

COLD FOR FIGHTING.

With Moderation In Weather Japanese
Will Advance In Manchuria.

St. Petersburg, Feb. 6.—According to
General Kuropatkin's latest reports,
which indicate the wounding of a third
Russian general, the operations at San-
diapu and the fighting at Shakhe have
been momentarily suspended.
The Russians successfully repulsed
the latest attack of the Japanese east-
ward with heavy losses. The cold is
still intense, there being 24 degrees of
frost. There are indications that the
Japanese are preparing to break the in-
activity on their own account as soon as
the weather moderates.

When you feel a sense of weight and
oppression after meals it means indig-

stipation and stomach troubles. 35

Raleigh, Feby. 4.—Bills were intro-
duced in the Senate to authorize exe-
cutors to provide grave stones for de-
ceased persons; to memorialize Congress
to pass more stringent laws regarding
food adulterations. Bills passed to re-
quire railways to deliver freight with
reasonable promptness; to allow Bertie
County to sell part of the jail lot; to

lina.

letters from several citizens of Eastern
N. C. inquiring why the bill to allow
discrimination between the races in
school taxes had not been acted on,
one letter being from the Superintendent
of Education of Giles county. Bills
were introduced to regulate land rent-
ing by the year for agricultural pur-
poses; to prevent the importation of
liquor into North Carolina; to provide
for the elections of boards of commis-
sioners by the people.

MRS. T. L. CRAIG ENTERTAINS.

Gastonian Gazette.

Mrs. T. L. Craig entertained the
Tuesday Afternoon Club this week with
an elegant violet dinner served in eight
courses. The hostess received in a beau-
tiful violet gown. The handsome home
was thrown open and lavishly decorated
with Parma violets and palms. The
game of the evening was Trail, the score
cards being hand-painted violets.

The dining room was very attractive
with its wealth of hand-painted china
cut-glass and silver under the soft glow
of the electric lights. On the table
were silver candelabra, violet and green
candles and handsome violet centerpiece.
The place cards were hand-painted vio-
lets, the favors were tiny green and
violet baskets filled with crystallized
violets. The color scheme was carried
out in the ices and refreshments, crys-
tallized violets being used in profusion.
The guests of the club were Mrs. O.
F. Mason, of Dallas and Mrs. E. L.
Bain. Mrs. G. W. Ragan won the prize,
which was the little prose poem on vio-
lets written by Mr. I. E. Avery with
his portrait encircled in violets.

CHANGES IN REAL ESTATE.

Two tracts of city property were sold
by auctioneer S. R. Street at the court
house yesterday. The first sale consist-
ed of some property up town situated
between George and Bern streets. It was
a commissioners sale and was the result
of an order from court to sell the prop-
erty in order to affect a division. John H.
Fisher vs Samuel Bryant et al were the
parties to the sale. The land was sold
to W. P. Metts for \$305.

The second transaction and one of the
most important real estate deals that
has taken place recently was the sale of
the old Slover estate corner of East
Front and Union streets. Quite a num-
ber assembled at the sale but the bid-
ding was slow only a few participating.
It started at \$7500 and was run up to
\$10,000, the property being sold to S.
W. Smallwood for that price.

A FUNERAL UNDER DIFFICUL- TIES.

The following special taken from the
Philadelphia Record and dated from
Laurel, Delaware, shows that there
were other cold places on the map last
week and that the cold worked many
hardships:

"Undertaker W. D. Gravener arrived
here today with the body of Mrs. Re-
becca McLane, of New Bern, N. C., af-
ter an arduous funeral procession from
Galestown, Md., where the woman died.
Mrs. McLane weighed about 300
pounds and as all roads are choked with
snow, it was impossible to take it to
Reed's Grove, Md., the nearest railroad
station. Finally the undertaker thought
of the frozen surface of the Nanticoke
river, which is covered with smooth ice
all the way from Galestown to Laurel.
The coffin was placed on skids and easily
pushed up the river until near Laurel.
It was then loaded on a wagon and
brought to the railroad station here.
This afternoon it was expressed to New
Bern, N. C.
