KINSTON OBJECTS.

Our Neighbor On The Rorth Will Not Subm To The Extenson of Charter.

At ajoint meeting of the Chamber of and citizens of Kinston Thursday night relative to the bill to extend the charter of the Atlantic and North Carolina Rail road Company, the following resolutions were passed:

Whereas, under the contract of the lease it was stipulated that the rates for passenger and freight service exist-ing at the date of the lease should not

he increased and,
Whereas, notwithstanding said provisions in said lease the Howland Improvement Company has increased the
freight rates very materially, therefore

Resolved, that a committee consisting of stockholders and patrons of the Atlantic and North Carolina Railroad be inted to call upon the president and etors of the road for the purpose of requesting them to bring suit against the Howland Improvement Company for violating the terms of said contract and

ease. And also Resolved, that the said committee be authorized and requested to look into the feasibility of instituting proper pro-ceedings against said Howland Improvement Company and their successors and assigns to prevent them from collecting any more or greater charges for freight or passenger service than those in exce at the date of the lease and if found to be proper the Chamber of Com merce with said president and board of directors to take immediate steps for

It was then moved that a committee of three be appointed by the chairman to select a delegation to represent this board and the county of Lenoir before the present legislature to help prevent any uct passing said House and Senate that will extend the lease of the Atlantie and North Carolina Railroad Company or make it more binding upon the State and people until all these matters that are now disturbing the commercial interests along the line of said road caused by said lease are satisfactorily settled to the people.

ANOTHER BIG MILLS

New Bern Lumber Company Building Large Wood Working Plant in James City.

In the early part of 1904, the large ber mill in James City, belonging to Mr. J. S. Basnight was entirely consumed by fire. Notwithstanding it was a severe loss to Mr. Basnight, his innitable energy would not allow him to be discouraged and he began plans at once that would result in a still larger

Capitalists from the north became interested and on September 6th a charter was granted to the New Bern Lumber ny with an authorized capital of \$125,000

Since that time active preparations have been in progress to rebuild the burned plant, or in other words to build a new one, for when completed it will be one of New Bern's largest enter-

Basnight's burned mill, and is in James City, on the waterside just about where the Treut river empties into the

The frame for the mill proper is being raised, but the magnitude of the plant can only be realized by a perusal of the

A nest of four boilers will generate

a nix hundred horse power of steam, while the machinery will be driven by, a five hundred horse power, four valve, Atlas engine of the latest make. The mill will be what is known as a 'double circular mill' and will occupy a building 48 by 120 feet, two floors, all the machinery is of the latest improved

nts. There will also be a spacious r-room dry kiln, built of brick. Wharves will be built along the water

wharves will be built along the water side extending to the channel and an immense storage horse capable of holding one million feet of lumber will be erected on piles over the water The company will put in ten or more miles of steam tram road, right away, and will also lay a spur of track con-necting their mill with the A. & N. C. ad. This will give them transportation eitner by rail or on the water by

earge or sail vessel. STARTLING BUT TRUE. People the world over were horrifled on learning of the burning of a Chica-go theater in which nearly six hundred people lost their lives, yet more than five times this number or over 30,000 people died from pneumonia in Chicago during the same year, with scarcely a passing notice. Every one of these cases of pneumonia resulted from a cold and could have been prevented by the use of Chamberiain's Cough Remedy. A great many who had every reason to fear pneumonia have warded it off by the prompt use of this remedy. The following is an instance of this sort: "Too much cannot be said in favor of Chamberlain's Cough Remedy, and especially for colds and influenza. I know that it cuted my daughter, Laura, of a sovere cold, and I believe avec her life when she was threatened with pneumonia."—W. D. Wilcox, Logan, New York. Interest Deepens.

The interest in the fate of the son of State Senator Beasley has grown State wide in extent. The mystery deepens as time goes on and the search is taken up by friends and relatives by the score. The suspicion that the boy has been kidnapped seems to rule and detectives have been engaged to ferret out the kidnappers.

The mother of the boy is almost dis tracted over the affair and has neither ate nor slept since the boy was first missed. She cries continually for the body of her boy.

THE BEST PHYSIC.

When you want a physic that is mild and gentle, easy to take and certain to act, always use Chamberlain's Stomach and Liver Tablets. For sale by all druggists.

Thomas Jefferson's Umbrella.

Jerome Eddys Weekly Squib has this good story to relate of Thomas Jefferon who plays Rip Van Winkle here March 9.

Thomas Jefferson, the son of Joseph Jefferson happened in New York one day and called upon an old friend, an Alderman. During the call an Italian couple came and asked if the Alderman would unite them in maraiage. The Alderman performed the ceremony, and after accepting his fee politely handed to the bride an umbrella

Mr. Jefferson eyed the proceedings gravely, and after the couple went out asked: "Do you always do that, Charles?" "Do what? Marry them? Oh, yes." "No; I mean bestow a present upon

"A present! Why, wasn't that he umbrella?" gasped the alderman. "No, it was mine," replied Mr. Jeffer-
