WONDERFUL CURE OF SORE HANDS

By Cuticura After the Most Awful Suffering Ever Experienced

EIGHT DOCTORS

And Many Remedies Failed to do a Cent's Worth of Good

"I was troubled with sore hands, so sore that when I would put them in water the pain would nearly set me crazy, the skin would peel off and the flesh would get hard and break. There would be blood flowing from at least fifty places on each hand. Words could never tell the suffering I endured for three years. I tried everything, but could get no relief. I tried at least eight different doctors, but none did me any good, as my hands were so bad when I got through doctoring as when I began. I also tried many remedies, but none of them ever did me one cent's worth of good. I was discouraged and heart-sore. I would feel so bad mornings, so that I had to go to work and stand the pain for ten hours. I often felt like giving up my position. Before I started to work I would have to wrap every finger up separately, so as to try and keep them soft, and then wear gloves over the rags to keep the grease from getting on my work. At night I would have to wear gloves; in fact, I had to wear gloves all the time. But thanks to Cuticura, that is all over now."

CURED FOR 50c.

"After doctoring for three years, and spending much money, a 50c. box of Cuticura Ointment ended all my sufferings. It's been two years since I used any, and I don't know what sore hands are now, and never lost a day's work while using Cuticura Ointment."

Russians Losing Fight.

St. Petersburg, March 4.—According to the latest information from the front the battle is now general and of the most desperate character. The losses have been exceedingly heavy on both sides during the preliminary fighting. Although it is not officially admitted, it is regarded as certain that General Kurapatkin is directing all his efforts to the withdrawal of his army to Tie Pass.

It is now practically a rear-guard action, but the task of extricating himself is proving very difficult.

The Japanese have not only driven in his left, but a column is already reported to have crossed the Hun river east of Fushan. At the same time the Japanese are passing the Russian center under cover of the fire of their siege guns and General Kurapatkin is gradually retiring before the Japanese advance.

The efforts of the Japanese to envelop the Russian right wing have been unsuccessful, but it has been forced back almost on a line with Mukden. Two Russian divisions were dispatched to head off the wide flanking column advancing from the Liao river towards Simnith (about thirty miles west of Mukden) but according to the latest reports they were too late to the Japanese having entered the town yesterday.

No official figures regarding the losses are obtainable, but according to unofficial reports the Russian losses up to last night were nearly 7,000 men. General Rennenkham, particularly distinguished himself during the fighting in the mountain passes southeast of Mukden.

PEANUT POLITICS.

Some Non-sensical Bills Made Laws.

Sensational Scenes During Debate on the Divorce Bill. The South Dakota Bond Debt Settled. Municipal Bonds to be Taxed.

Special to Journal.

Raleigh, March 4.—In the Senate the following bills were passed today: to abolish exemption from taxation of municipal bonds heretofore exempted; to invite investors and good farmers, from the north and northwest to visit the State; to incorporate the Southport & Northwestern Railway; to allow Washington to issue additional bonds; to settle the South Dakota bonds; Crisp, Bales and Taylor Republicans, being required to vote and voting "aye" thus the vote was unanimously; to increase fire insurance public buildings to a million and a half dollars; to appropriate \$2,000 for renovating the Capitol; to forbid sale of peanuts in bulk at night.

The bill to regulate trials of capital cases by reducing the number of challenges and the bill to regulate payment of county liability, were tabled.

Bills passed amending the oyster law; amending the law regarding stranded boats in Dare county; amending the laws regarding analysis of fertilizers; to facilitate trial of civil and criminal actions by allowing judges in their discretion to summon venire from other counties; to pay solicitors \$2,500 salary.

The divorce bill was taken up, McLean intensified the debate by holding up the Bible so all Senators could see it and reading from it, declaring that the bill (McNinch's) should pass just as it came from the House. Eller offered a substitute inserting in place of subsection one, section 1825 of the code the words "if the husband shall commit fornication and adultery and that all laws created for divorce since the code of 1883 be repealed." The substitute was adopted 21 to 13. The bill passed third reading.

The code passed third reading unanimously, all amendments being voted down. The house bill to prevent dealing in futures was amended by Eller, providing that it should not apply to any person, firm or corporation or their agents engaged in manufacture or wholesale merchandising in the sale of the necessary commodities required in the ordinary course of their business. It then passed.

Senator Mason, on behalf of the Senate presented Lieutenant Governor Winston with a silver service.

In the House bills passed: To prohibit the exemption of some city bonds from taxation; to encourage country fairs by allowing each \$100 instead of \$50. The bill transferring Wilkes from the eleventh judicial district to the 13th and Ashe from the 13th to the 11th. Passed 49 to 38 republicans voting no.

It's a Rare Play.

Mr. Thomas Jefferson will produce in this city next Thursday night the ever interesting old play "Rip Van Winkle." It is unnecessary to assure the public of a rich dramatic treat, because the bare name of Jefferson stands for all that is best and most artistic in the dramatic world. Mr. Thomas Jefferson is no different from the rest that bear his name, an artist to his finger tips.

His jolly good humor in the lighter scenes is contagious to his audience, and in the more pathetic scenes, when poor old Rip realizes all the changes that time has made after his 20 years sleep, the audience find themselves shedding tears of sympathy with the hero, whose art makes him for the time being seem a real alistic personage. "Rip Van Winkle" is a play that has defied time to shelve it as one that has seen its day and outlived its usefulness.

THE WIRES WERE CROSSED.

Our devil got loose Saturday night and concocted a special telegram purporting to have been sent from Washington about the inauguration day weather. There were extraordinary circumstances for publishing the item which doubtless the majority of the Journal readers are acquainted with and it is not necessary to explain the matter further.

Suffice it to say that the Journal was the only paper in the country to report rainy weather in Washington March 4, 1905.

Why suffer with headache, constipation, stomach, kidney and liver troubles, when Hollister's Rocky Mountain Tea will cure you? No money wasted unless you are cured. Buy one box of Tablets. F. S. Duffy.

LEGISLATORS GO HOME.

A GOOD MANY SALONS LEFT RATHER EARLY SATURDAY

Everybody Glad The Session Is Closed. Gov. Glenn Returned From Washington He Reports The Final Time In The World.

Raleigh, March 6th.—The anti-bucket shop bill passed the legislature allowing cotton mill men to deal in futures, as a protection, this amendment having been secured by Senator Eller in the interest of the mill men. The bucket shop people, as they are called although they deny that they are bucket shops at all, are saying that the law is no good, because it is class legislation, and hence they say they will continue business and let a test case be made, and so take the matter up to the Supreme Court for settlement. They do not appear to be worried by the outcome of affairs, although they fought the bill with all their might, and spent a great deal of money in employing lawyers.

A great many members of the legislature went home Saturday and a number Sunday, but it was the comment of the democrats that the republicans all remained here. That is what they always do. Some of the democrats were saying yesterday that they were afraid there would not be a quorum today and that the republicans would spring the point of no quorum as three important matters had been left over until the very last, these being the revenue act, the act appointing county boards of education, and the one appointing magistrates, towards none of which did the republicans have any great fancy. As to the magistrates it seems that in a lot of counties, both democratic and republican, in which there is local government the legislature appointed magistrates in some cases to have democrats, and in some to appoint personal friends of various members. The people elect only three magistrates to a township and in some cases the legislature wanted to have more. The point was made by some members as to whether there was a right on the part of the legislature to appoint magistrates for counties having self-government, but another member said there was such a right and that the legislature was taking advantage of it. It was felt to be a very risky matter to have these important things undisposed of until the very last.

Everybody is glad that the legislature has ended its session, not a voice to the contrary has been raised. No doubt the members are glad, and the public is certainly as well pleased as ever was to see the end of a tiresome session.

Governor Glenn returned today from Washington, and said "I had the finest time in the world. I was treated with the greatest possible courtesy by every body and I shall never forget the attention paid me. I rank the trip among the most enjoyable I ever took in my entire life." North Carolinians who were at Washington were very proud of the appearance the governor made on horseback and declare there was not a handsomer man in the parade. His staff and escort presented a very handsome appearance and was complimented from people from other states.

The hardest worker in the legislature was ex-Judge Graham of Oxford, and it is a wonder he did not kill himself. He is very sick with lagrippe, but it is said will recover. A lawyer here, who has had years experience with legislators says he never before saw a member do such an amount of work as Graham had done on the floor and in the committee room. There was really no call for him to do such an amount, but he put his soul into it.

The legislature has renewed the free library law, so as to allow six new and six supplementary libraries, the supplementary ones to be based upon those provided for and established two years ago, five hundred of each being allowed. There are now 886 libraries which the State has aided and 119 supplementary ones, the latter being based upon the acts of 1901. Over 100 libraries were privately established so that number is 1000 in all.

The comment on the legislature is that the House was rather mediocre in point of ability, with a few bright men and that the Senate was much the stronger body, though some members of the House say the Senate leaned pretty strongly towards railroads and other corporations.

THEY COME AND GO.

Mr. N. C. Holton, of Vandemere, who has been visiting up the State, passed through the city yesterday enroute for home.

Miss Hattie Marks left Sunday night for a visit with friends in Baltimore and Philadelphia.

Mr. Albert J. Odell left for Norfolk yesterday evening after a short visit to his sister, Miss Lucy Odell.

SHORT PASSING EVENTS.

The weather clerk in his bulletin issued for today, threatens us with rain.

The body of Abram White, a colored man, well known around town, was brought up on the tug Wm. B. Blades Saturday and landed at James City for interment. White was a cook and has been employed in various restaurants at times, but lately has been cooking on water crafts. In this instance he was holding down the kettle and pans aboard the tug W. B. Blades Jr, was seemingly in usual health, which was robust, when he was stricken with something like a fit and after two or three convulsions, expired. Abram was about 45 years old and lived in James City.

Mr. James H. Chadborn of Wilmington, N. C., President of the Inland Waterway Association, expects that within the next 30 days work will begin in a small way on a part of the proposed inland water route lying between Swanboro, N. C. and New River, and that this small beginning will lead to larger appropriations by the government. — M'fg. Record, 2nd.

Mr. J. M. Hilton, who has come to New Bern from Indianapolis, Ind., to conduct a stove factory has rented Mrs. Basil Manly's house on East Front street.

A very delightful entertainment was furnished by the Alice Cary Concert Co., last night under the auspices of the Lyceum Lecture Course. The young ladies are fine artists and under and how to give a popular concert. We regret very much that lack of space prevents giving a more extended notice.

Owing to the prevailing northeast wind yesterday, the tide was higher in the Trent and Neuse than has been for some time. The high tide is unfavorable to the fishermen.

The steamer Neuse did not arrive in the city Sunday until 7.30 o'clock in the evening. Owing to the absence of a light, she ran aground on a point of land in Pamlico Sound and was got off only after much hard labor. She was about 11 hours late.

The anti-bucket shop law went into effect yesterday and its provisions preclude the publication of stock and cotton markets, consequently until other arrangements can be made the Journal will not publish them.

Tomorrow being Ash Wednesday there will be services at Christ Church at 11 a. m. and 5 p. m.
