A HOME MISSION NOTE.

The collections of the Woman's Ho re the store. When once inside a Mission Society of the IM. E. Church line of silks and satins South for the year are \$52,237,41. This sum places us ahead \$13,429.75 of the collections of the three quarters last year. While this increase should enourage us and stimulate our faith yet the growth of the work calls for a larger outlay so let us press on and attempt greater things for God.

Home Mission Work in the West. Dr. N. D. Hillis, pastor of Plymouth Church, Brooklyn, pays a worthy tri-bute to the workers on the frontiers. He says: "Talk about heroism These home missionaries are the true These home missionaries are the true heroes. They are fighting against the saloon and the gambling house and the overthrow of Sunday. They are standing for the home, they are strengthening the school. They are toiling in poverty, in home sickness, and some of them in the salound th hem in pain and in heart break. One undred years from now they will be looked upon as the pilgrim fathers of the great west."

You will need to prepare your sys-tem for the coming hot weather, get your organs to work like clock work. Hollister's Rocky Mountain Tea taken this month will do the business. 35 ents, Ten or Tablets. F. S. Duffy,

Was on Forbidden Ground.

"A debating society was formed in one of the counties of my district," said a Kentucky congressman, "and among the first questions debated was, Resolved, That the negroes have more cause for complaint than the Indians.'
"It was stipulated the arguments should be confined to the United States. The first disputant on the affirmative opened with a speech to sustain his po-sition, every word of which was lis-tened to with close attention by the chairman. The disputant for the neg-ative made a few remarks in answer and then turned to the Bible and com-menced reading passages for the pur-pose of proving that some of the points

pose of proving that some of the points made by his opponent were not backed up by the good book.

"The chairman stopped him with: 'Halt right where you are, Jim. Don't go any further. You have gone out of the United States for argument."—

A Robust Babs,

Sir John Richard Robinson in his "Fifty Years of Fleet Street" tells of an amusing incident during the visit of the Swazi deputation from the Transvani to England at the close of 1894; "The Swazi braves went to Windsor and had an audience of her maje 'y Queen Victoria. They were very graciously received. One of their number began to sweak, and an interpreter followed him hrase by phrase. We come, O great mather, he said, to bring to you our babs. Take him, O mother, to thy knees; fold blin to thy breast. Here the queen, half frightened, exclaimed: 'But where is he?' 'Here, O mother, said the Swazi gravely, at the same time bringing forward a big black about six feet high and weighting well over 200 pounds. 'He is here.'" ver 200 pounds. 'He is here.'"

"Reggie, can you spell kitten?" "But what do you go to school for?"
"Only cause you make me, mother,"
said Reggie sadly.

Temperance Lecture Series.

E. O. Taylor, of Boston, Delivering Course of Lectures on Differen Phases of The Temperance

Question. The Centenary Methodist church was

crowded Sunday night with the congregations of the various churches of the city to hear the first address of Dr. E. O, Taylor, of Boston. Dr. Taylor is a celebrated speaker on this topic and is a most entertaining and forceful lectur. er: He is well acquainted with his sub ject especially from a scientific standpoint, having made that feature an ex-haustive study.

The theme of his address Sunday

night was Christian Citizenship. He read and commented on the pacage of scripture found in Romans 13; Paul's exhortation to good citizership. He took for a central thought John 2;14 to seventeenth verses in which Christ rebuked and removed the money changers in the temple.

He referred to the sensational article which appeared a few years ago ent-tled "If Christ Came to Chicago." The speaker made a local application of the idea and amplified his reasoning. He said Christ would stand fast by the principles of good government. He would go to the polls and cast a ballot. He would not tolerate any loose "execution of existing laws. It is not only the privilege of the cit-

izen to vote but it is his duty. There s only one standard on which our civi: life must be regulated and that is one straight true policy for all branches, usiness, political, domestic or social, He held his audience for over an hour and impressed all of them with the im-

portance of his subject; dealing giant blows in his vigorous manner against the great evil of the liquor traffic. Dr. Taylor stated to the audience that e was not conducting the meetings in

much of his prosperity to a look of profound wisdom which has gained for him many cilents, but which is 'ent to what would otherwise be a omewhat commonplace countenance

by a pair of "owl eyes." At least three men who have come are possibly many more like them earn a precarious livelihood by sitting to animal painters. All three have come down in the world, and one is anknown to the other two. The first nentioned belonged once to a good Cheshire family, but went wrong and emigrated years ago to Canada, where he found his level on the water side at Montreal.

According to his own-story, he was on the verge of starvation when one evening he was accosted by a French-Canadian artist, who asked him whether he cared to earn a dollar by coming to his studio and sitting to him for half an hour. Only when the painting, a very large one, was completed did the unfortunate model discover that the picture was a study in farmyard life and that the hateful and all too familiar expression in his own eyes had been transferred faithfully to the optics of a pig on the canvas.

The two other men with peculiar eyes who carn a living by sitting to imal painters are also expatriated Englishmen. The writer met both in Paris in the winter of 1897. One of them had "dog eyes," while the other wore the expression of a cat. Both are well known to bohemian dwellers in the Latin quarter. In Florence one Boutempi got his living by posing to Matanamo, the well known animal painter. Dogs were his specialty. Ho had their expression, that doglike fidelity of eye which one admires so much in the pictures by Landseer.—Stray

Simple Life, Real and False, There is every reason to expect that Paster Wagner's doctrine of the simple life will be misinterpreted by many Americans who will endeavor to practice it as a kind of fad: They will pose as livers of the simple life. They will have clubs, circles and guilds. They will read papers and rush late print, They will start a cult, and by dist of raistent affectation they will convince emselves and their coposeurs that ey are the disciples of genuine sim-

The en-sence and gist of simplicity in life in to live your own life as it seems best for you to live it.—Chicago Journal.

## LITTLE ONE ONE SOLID SORE

Covered With Scaler and Scabs From Head to Foot - Doctors and All Other Remedies Fail - Skin Now Smooth and Clear.

ANOTHER WONDERFUL CURE BY CUTICURA

Writing under date of Sept. 7, 1904. Mrs. Mattie Shaffer, of Cumberland, Mrs. Mattie Shaffer, of Cumberland, Miss., says: "Some time ago I ordered and received your wonderful Cuticura Remedies, which I used on my little afflicted babe with wonderful results. I had tried many other remedies without any benefit whatever, and Cuticura came to the rescue when my doctors and all other remedies had failed. One doctor pronounced it scrofuls, the other eczema. The little one was one solid sore, with scales and scabs from head to foot, when I started using Cuticura Soap and Ointment. 'The result was wonderful, and now my baby's face and body are 'smooth and clear."

(Signed) Mrs. Mattie Shaffer.

THE DUTY OF MOTHERS At the First Sign of Disfiguring

Humors Is to Use Cuticura. Humors Is to Use Cuticura.

Every child born into the world with an inherited tendency to torturing, disfiguring humors of the Skin and Scalp, becomes an object of the most tender solicitude, not only because of its suffering, but because of the dreadful fear that the disfiguration is to be lifelong and mar its future happiness and prosperity. Hence it becomes the duty of mothers of such afflicted children to acquaint themselves with the best, the purest, and most effective treatment available, viz.: the Cuticura Treatment, consisting of warm baths with Cuticura Soap, and gentle anointings with Cuticura Ointment, the great Skin Cure. Cures made in childhood are speedy, permanent, and economical.

COPPER KILLS BACHLI.

phoid and Cholera Epidemics. Man would seem to have at last discovered an effective weapon against typhoid fever, Asiatic choiera and similar merciless scourges which invade our intestinal and digestive organs through polluted water. It is yet too soon to declare positively that we shall exterminate these dread diseases, but we shall be able to drive them out of cities and towns and camps and prised close together. The weapon is not of steel or iron, but copper, the mos convenient form being the common ompound of copper and sulphur known is blue vitriol, copper sulphate. Every school laboratory contains some beau-tiful blue crystal of copper sulphate Every schoolboy for generations has nas watched his teacher use them for ordinary class room experiments. And vet who would have imagined that a pinch of these crystals dissolved in the water tank in the attic or in the distern or well would kill any typholo germs that might be lurking there that its use would insure healthful drinking water in a crowded military camp; that it would exterminate ma taria and yellow fever carrying mosquitos in stagnant pools and swamps by destroying the vegetable organis which the mosquito larvae feed; that it would in a few hours make the water of an evil smelling and foul looking city reservoir, containing billions of gallons of water, clean and sweet and that the amount of copper that ac lishes all this is so small that while it kills the bacteria in the water it does not make the drinking water

us or injurious to the human It has been known for a long tim that copper destroys bacteria, but the metal has not been much used bereto fore for the purpose, because scientists have generally believed that the dose required to kill the bacteria must be required to kill the bacteria must be very concentrated—so concentrated, in fact, that it would polson the water or substance containing the bacteria and make the cure worse than the evil. A specialist of the United States government, Dr. George T. Moore, has now come forward and announced, with the authority of the government behind him, that he has discovered how to get the good effect of copper without any dangerous result; that he has a way of using copper so diluted that it cannot have a baby and yet so active that it will destroy virulent cholers and typheld bacilli in four or five hours.—Century.
