## A CAMPAIGN OF ACQUAINTANCE.

### A New Departure in Industrial Campaigning.

National Biscuit Company Sends Special Representatives to New Bern, on Most Important Mission.

New Bern has been invaded. For the time being it is the headquarters of the special reception and exhibition committee of the National Biscuit Company, who are now in the city. Already evidences of their coming are apparent, and there is more to follow. The purpose of their visit will be accomplished tomorrow afternoon, when a reception will be given at the Naval Reserves Armory, to which all the ladies of New Bern and vicinity are cordially invited.

The object of the entire undertaking is to enable the public to satisfactorily answer the now celebrated question, "Do You Know Uneeda Biscuit?" and incidentally acquaint them with many other delicious products of the baker's art, as manufactured by the National Biscuit Company.

The popularity of Uneeda Biscuit has been earned within the last five years, and is an example of good business judgment. Six years ago the National Biscuit Company came to the conclusion that the time had arrived when the American public was ready for something better than the common soda crackers put on the market in barrels and boxes, delivered to the consumer in a paper bag, more or less damaged and defiled, without a sponsor and without a name. The idea was, first, a cracker as nearly culinary perfection as it was possible to manufacture. Then to protect this perfection by enclosing it in a package which should exclude all air, dust and moisture, and finally to guarantee the whole to the consumer by the trade mark of the National Biscuit Company on each end of the package. Of the appreciation of the consumer the sale of more than three hundred million packages of Uneeda Biscuit bears the best witness.

The same methods that have proved so successful with Uneeda Biscuit have also been extended by the National Biscuit Company to many other lines of biscuits; crackers and wafers, such as Butter Thin Biscuit, Graham Crackers, Oysterettes, Social Tea Biscuit, Zu Zu Ginger Snaps and others. No matter what is wanted, whether a cracker for the soup, or the most delicious wafer for dessert, it can be purchased any time, anywhere, with the absolute surety of always getting it fresh and good.

Nabisco Sugar Wafers and Festino Almonds are two of the delicacies that will be served with the refreshments at the reception. They are among the most delicious of the products of the National Biscuit Company, and are especially appropriate as dessert confections.

Every lady in New Bern is cordially invited and should be present at the reception which will be held at the Naval Reserves Armory tomorrow afternoon, from two until five o'clock. Appropriate refreshments will be served under the supervision of a chef who accompanies the reception committee. The musical features of the entertainment will be ably rendered by Reale's Orchestra, and a hearty welcome extended to every guest.

Commenting on the case of the State vs. Dewey which was mentioned in yesterday's Journal a citizen remarked to the reporter that he could not help but notice the contrast of this case with that of a negro woman sentenced to the penitentiary for twelve months for stealing thirty dollars while Dewey's case involving the theft of \$50,000 was continued to the next term of court. See the point?

Having borrowed the privileged twelve days of March, it is now time for April to quit blowing and behave herself.

Quick result from the ad of lost memorandum book in Wednesday's Journal was the return Thursday morning of the lost book to this office, by the colored man who found it.

The frame building on South Front occupied by L. H. Ervin, grocer, is being fast torn down, and will be replaced by a brick building. It is the property of Dr. F. W. Hughes, and like all that the Doctor does, will work a material improvement on the street.

Mr. T. W. Wharton of Belleville, N. J., who has had charge of the mason work of the Methodist church has been awarded the contract for restocking the New Masonic Theatre. The work will begin in about two weeks.

Two handsome souvenirs will be given by the Country Store today. Between the hours of 5 and 6 a special souvenir will be presented, and from 7 to 8 each lady making a purchase will receive a handkerchief.

While the dust has been very disagreeable at times during the past week yet it was nothing to what it might have been without the street sprinkling which was done. And in this connection many thanks are due Mayor Ellis for this sprinkling, which has had his personal attention night and day.

There was a continuation of the high wind from the southward all day yesterday, with the temperature again up to 80 degrees. The storm signal was up last night with a lull in the wind. Rain began falling at 9 p. m. The forecast is for rain and colder with wind from northwest today.

The Atlantic Coast Line train was delayed an hour last night on account of an accident which occurred at Northeast, a station east of Jacksonville. It is reported that the engine of the work train was derailed and caused such a bad wreck that a temporary track was laid around the wreck to allow the passenger train to pass.

The sidewalk is now fenced off on Pollock street, on each side of the burned property, as work is to begin today to rebuild the stores burned down. Substantial brick buildings are to be erected.

Burglars broke into the store room of the revenue cutter's warehouse Wednesday night and stole a lot of articles the value of which has not yet been determined.

The merry-go-round is in operation at the foot of Broad street. Parents may be assured that their children will be well taken care of and need have no fear.

## Col. Waddell Wins.

In the primary election held at Wilmington yesterday, in which W. E. Springer, the present incumbent, and Col. A. M. Waddell were candidates for Mayor, Col. Waddell won by a majority of forty.

The opinions expressed before the election were that it would be very close, which the above majority proves to be correct. The registration was large.

## CRIMINAL COURT TRANSACTIONS.

### Trial and Judgment Made With Dispatch By Solicitor and Judge.

The cases tried in the criminal court moved off with ease and the cases on the docket were perceptibly lessened. A good number of trivial cases were disposed of and some were not even given to the jury.

One of the most important cases was that of the State vs. John Gilley, the defendant was tried on the charge of assault with intent to kill. The specific charge was pushing Frank Abbott under the Atlantic Coast Line train on November 16, the train running over his arm causing injuries necessitating amputation. The jury returned verdict of guilty as in the indictment which was for assault with intent to kill. The judgment was that the defendant serve six months in jail and that he be put to work on the county roads.

State vs. Iam Wright for larceny of money from the overcoat of Capt. W. G. Jones at Clark's Brick yard. The evidence in the case being deemed insufficient the judge took it from the jury and rendered a judgment of not guilty.

State vs. Chapman, assault with deadly weapon. Prisoner pleaded guilty and was sentenced to four months in the county jail or to pay a fine of \$25. He was given until Saturday to pay the fine.

State vs. William Bell, for larceny of a hog from John Dennis. After hearing the evidence a verdict of not guilty was rendered.

State vs. Lewis Green, assault with deadly weapon. Defendant pleaded guilty and was fined five dollars and costs.

State vs. Elijah Slade for abandonment. Defendant was found guilty and judgment was suspended upon the payment of costs.

In the cases of George Caraway, indicted for murder and E. S. Ballenger for the illegal sale of intoxicating liquor the grand jury returned, not true bills. The former case was one in which the defendant shot and killed a negro in self defense at his home a few miles from New Bern. The latter was for the sale of beverages claimed to be intoxicating. The defendant asserted that he never knowingly sold liquors of the nature named in the indictment confining his sales entirely to beverage known as "soft drinks." His statement was taken in good faith by the officers of the court.

The last case to be argued was State vs. Randolph Yelverton for the illegal sale of liquor. This matter has been in the courts on or on the docket for a year or more and is a "blind tiger" case. The jury rendered a verdict of not guilty.

## IS IT YOUNG BEASLEY?

### Boy And Abductors Said to Be At Rocky Mount, N. C.

Norfolk, Va. Pilot 12th.

Unless unexpected developments occur young Kenneth Beasley, who was spirited away from the home of his father, State Senator Beasley, at Poplar Branch, N. C., in February, will be in the hands of two Norfolk police detectives at Rocky Mount, N. C. today, and it is also probable that arrests may be made there in connection with the kidnapping.

Detectives Paul Rose and Sam Cotton, of the Norfolk department went to Rocky Mount yesterday and a long distance telephone message from Police Chief Davis of that place to the Virginian-Pilot last night stated that the two officers were busily engaged on the case.

Just what clue has been found to carry the search to Rocky Mount can not be learned because all parties interested in the search are reticent on the subject. It is understood however that the strongest belief is entertained by the police and father of the missing boy that Kenneth is being held captive near Rocky Mount and that he will be secured by the Norfolk detectives today.

Police Chief Boush of the Norfolk department last night admitted the fact that Rose and Cotton were in Rocky Mount but said there was no local significance attached to their visit and that they were not operating under the direction of the Norfolk authorities.

## SMALL POX CASES

### In Deaf, Dumb And Blind Institution.

Press Meeting. State Printing Co. 1. State Charities Grant. Presentations of War Relief. Blockade Distillery Captured.

Raleigh, April 12.—Ten pupils of the institution for the deaf, dumb and blind here were carried to the pest house this morning with mild cases of varioloid, the school has been closed and a strict smallpox quarantine established. The presence of the disease in the institution was discovered yesterday. It is thought to have been carried to the institution from Shaw University which has been quarantined to the past week. There are about two hundred negro children in the school.

President H. D. Varner of the North Carolina Press Association is just now completing the program for the session of the association to convene in Asheville July 5th. It will be issued by Secretary Sherrill of Concord very soon.

The State Council has decided to defer action as to the awarding of the contract for the State printing the next two years until next Tuesday. The bids have been open but Secretary Varner of the printing commission says they are so complicated that it will take time for the council to figure out just which of the two bids in hand is the most advantageous to the State.

The Revolution Co., was chartered this morning with \$10,000 capital for the purpose of conducting a mercantile business near Greensboro. The incorporators are Jno. J. Phoenix, Robt. C. Campbell, Geo. P. Stone.

Another charter is to the Sikes Co., of Monroe, \$10,000 to conduct a general live stock business. V. D. Sikes the principal incorporator.

Mrs. B. F. Dixon, wife of State Auditor Dixon, went to Clayton this morning for the purpose of organizing a Missionary society in the Methodist Church there.

While at Appomattox Monday an old negro, Sam Patterson, presented Governor Glenn an old cavalry carbine that the negro picked up on the battlefield soon after the battle. It has been given a place in the hall of history of the state museum.

A fifty gallon blockade distillery was captured last night by revenue officers on the line between Wake and Harnett counties. They report moonshining in Harnett and Johnston worse now than it has been in years.

## THE MISSISSIPPI.

### Immense Volume and Varying Moods of Its Yellow Flood.

"The Mississippi river has an irresistible attraction for a person of imaginative mind, but perhaps its most impressive characteristic is the majesty with which its turbid, yellow tide sweeps along between the shores, impressive by its sullen murmur and inspiring awe by its immense volume," said a traveler.

"The river is sublime no matter when or where you view it, and one has only to catch a glimpse of the yellow flood, ruffled by rain or glistening in the sunshine, to fall beneath its spell. At times the river moves so smoothly and peacefully that you are almost lulled to sleep by the gentle purring of the water, that constant eddying and washing sound that is distinctive of the Mississippi. Then, again, the water will swirl angrily around a hidden snag or rushing with impetuosity against the yielding bluffs it will eat into the earth, and tons of dirt will rumble down only to be absorbed and swept away. Perhaps for a moment the water will assume a chocolate color, but the influx of yellow tide from above will soon dissipate every trace of what was once an acre of cotton field. Sometimes there are trees growing along the shore that are engulfed. These fall with a crash into the flood, spin about for a moment, and then drift slowly down with the current, their half drowned boughs rising at intervals from the water."—Birmingham Age-Herald.

## Lee's Surrender.

After General Robert B. Lee's last attempt was made with Gordon and Fitz Lee to break through the lines of the enemy Colonel Venable informed General Lee that it was not possible. He said, "Then there is nothing left me but to go and see General Grant," when some one near him, hearing this, said: "Oh, general! What will history say of the surrender of the army in the field?" He replied:

"Yes, I know they will say hard things of us. They will not understand how we were overwhelmed by numbers. But that is not the question, colonel. The question is, is it right to surrender the army? If it is right, then I take all the responsibility." And he did.—"Recollections and Letters of General Lee."

## Cashmere Popular.

Cashmere is back with a greater prestige than ever. It has many qualities that adapt it to the present fashion; a highly finished surface, suppleness and a long range of colors—American Beauty, the pretty greens, of which bronza, almond and lichen are most popular; all the browns, including the favorite mode and cinnamon; the blues, with Parsial in the lead, and the purple, dahlia and copper shades. In the delicate pale tones black velvet suggests the most pleasing trimming, especially when Persian embroidery is introduced and lace is lavishly used.

## Smart Accessories.

Among the dress accessories are little waistcoats of silk, ornate velvet, vesting, cloth or leather, the last usually being cut to order. They are precise and severe in finish, though all sorts of devices are wrought upon them in braid, needlework, jet and even in beads. The smartest examples are to be worn with the open coats, of which there is a great variety.

## Unhealthy Cooks.

Lincoln Journal.

Charlotte seems to have an unhealthy lot of cooks, judging from the number of prescriptions for whiskey filled by the drug stores there during March. There were just three times the number as in January. Three more drug stores have gone in the business, making a total of twelve from which the medicine can be had.
