husband is not the man a wife dresses for. She makes herself as attractive as she can for everybody worth knowing. You must be an extraordinary in for the red and green transfor treatment for you-simply for you. A woman who is really a woman and not bockey player has to watch the fashion as closely as a cook watches a pot and the married woman of the present day must do all she can to look like the unmarried woman of yesterday. It is the married women who are the most popular with men. It is the married women who control politics, the army, literature and the stage. Therefore can't you see how necessary it is for them to do all they can to remain attractive? Red hair and green eyes? Yes. Blue teeth and amber eyes if necessary or black teeth and white eyes.-London World.

Insular Ignorance. I have been told by a Canadian that in discussing with an English general the possibility of sending troops from England to the far east via Canada the latter raised the objection that it would not be desirable for them to travel over United States territory! I have been told of an English official having condoled shortly after McKinley's assassination with a Canadian on the loss of his president. I have myself heard an educated Englishman express to a Canadian audience his sur-

National Review. Odd Origin of an Epidemic. In a house in the English town of Exeter sat two men. One of them informed his companion that the last time he was in the town he suffered from smallpox in that very room. "In that corner," he said, "was a cupboard where the bandages were kept. It is now plastered over, but they are probably still there." And he took a poker, broke down the plaster and found them. From their "find" the two men contracted the disease, and

it spread through the town and work-
