Two Months.....\$3.00
Three Months.....\$4.50
Six Months.....\$8.00
Twelve Months.....\$15.00
ONLY IN ADVANCE.

Official Paper of New Bern and Craven County.

Advertising rates furnished upon application at the office, or upon inquiry by mail.

THE JOURNAL is only sent on pay-advance basis. Subscribers will receive notice of expiration of their subscriptions and an immediate response to notice will be appreciated by the JOURNAL.

Entered at the Postoffice, New Bern, N. C. as second-class matter.

A STRIKE IS LOCAL WARFARE.

Hardly anything is so demoralizing, locally, as a strike, for it is simply war between interests which have everything in common, and which should be united for a mutual protection, and a frustration of interests, not striving to seek to gain an advantage by one set of interests at the expense of some other class of interests.

The townsmen's strike in Chicago, is fully illustrative of this, as the following figures will prove: Duration of strike, to last week, 40 days; fatalities from violence, 10; injured (reported), 150; total wages lost to strikers, \$418,000; union strike assessments, \$200,000; cost to city, extra police, \$36,550; cost to county, extra deputies, \$24,000. Drop in business due to strike—Retail, \$2,250,000; wholesale, \$1,700,000; express companies, \$1,250,000; hotels and restaurants, \$100,000; commission firms, \$2,250,000; railroads, \$1,500,000; total \$8,479,350.

What do these figures show but a warfare, deadly to person and business? Dead and injured men and women, hundreds of thousands of dollars lost to those who have it not to loss, while the losses to those who have it to lose affects indirectly every working person and every trade interest in the city of Chicago.

Even with the strike settled, there can be no restoration of the losses inflicted, and no extra work can make up the losses to the workmen, who in the end must be the principal sufferers. As for the dead and injured, nothing can restore them to the condition which they once enjoyed before the strike.

MONUMENTS REPRESENTATIVE OF CHARACTER.

No age in American history as the present, is so generous and desirous of commemorating in perpetual remembrance in marble, granite and bronze, the living deeds of its great and deserving dead.

And no act serves to educate so well, or is so inspiring to the youth of the land, as this monument in memory of the illustrious dead soldiers, statesmen, citizen. It is an honor to the living that these men or women who have done in their time worthy deeds, have not been lightly regarded, when death has removed them, and happy is the people who have their illustrious and noble dead!

But while in this monument dedication to those who wrought worthily in life, there must be here and there some monument however its inspiration which must stand without real honor, pointing out the shame of the one who rests beneath it, rather than the honor and character of the dead. Notable in this class is the monument to be erected by the State of Pennsylvania, at a cost of \$20,000 to the late Mather S. Quay, of that State.

It is not that evil should be written or spoken of the dead, yet for a State to seek to commemorate by a monument the life and deeds of such a man as M. S. Quay, serves notice upon the future generations that the people of this State gloried in the acts of a man whose political morality was of the lowest, whose standard of success had no boundary of decency and honor.

Such a statue will fittingly represent the leader and founder of the municipal corruption which now exists in the city of Philadelphia, a corruption so deep seated as to chain the people and make them seemingly helpless to preserve or have a voice in their own affairs.

Truly, this Quay monument must stand as a striking exhibit, not to the man so much, but as marking the political morality of Pennsylvania.

WHAT A PUBLIC SPIRITED CITIZENSHIP MEANS.

The value to every community of live local organizations cannot be overestimated. In every city of prominence and importance these local organizations demonstrate their value in promoting new enterprises and assisting in building up existing trade interests.

A very instructive report from the Detroit Chamber of Commerce, shows what that organization has been to its city during twelve months, securing for its city \$10,750,000 of new capital, 142 new enterprises, with six important manufacturing plants which were induced to come to Detroit from other cities. Besides this 82 conventions were held, all bringing visitors who went away to advertise the city's advantages.

Also the State Fair was brought to locate its exhibitions.

With this work done by its Chamber of Commerce, it is not surprising that Detroit is a most active commercial city and is developing along all lines of trade.

But such unity of action on the part of the people of any city, cannot be reached except there first be learned by every one, the knowledge of civic duty, which is the personal and individual promotion of every local interest, whether it may mean self-aggrandizement, or not.

It is personal selfishness which is the greatest hindrance and drag in the local development, for it is individual greed combined with selfishness that refuses to look beyond self, and demands the results shall be profitable to the individual, rather than that the community shall be equal sharers in the benefits gained.

There is nothing more depressing, locally, than the spirit which calls for each individual acting for self. There may be development, but it is not a generous or broad development, for success of one or two persons is made in some degree at the expense of many others, so that the smaller business interests must feel that the greater ones have treated them fairly, in refusing to give them the opportunity to share in the community benefits.

It is when men realize their civic duties, and boldly put into execution these duties in a united manner, that a public citizenship is created, which means present and lasting benefits to the people, and builds up not one class at the expense of other classes, but gives every class the chance to be proportionate shares in the benefits that are certain to come where such a community of interests feeling is maintained.

The laxative effect of Chamberlain's Stomach and Liver Tablets is so agreeable and so natural that you do not realize it is the effect of a medicine. For sale by Davis Pharmacy and F. S. Duffy.

New York Cotton Market.

The following were the opening and closing prices on the New York Cotton Exchange, May 31.

	Open	Close
May	821	831
July	825	854
October	835	865

Receipts 21,003;

HAS STOOD THE TEST 25 YEARS

The old, original GROVES' Tasteless Chill Tonic. You know what you are taking. It is iron and quinine in a tasteless form.

TO CURE US OF OUR IMMEDIATE LOVE OF GAIN we should seriously consider how many goods there are that money will not purchase, and these the best, and how many evils there are that money will not remedy, and these the worst—Colton.

Ancient witchery was believed in by only a few but the true merit of DeWitt's Witch Hazel Salve is known by every one who has used it for boils, sores, tetter, eczema and piles.

Experience is a jewel, and it needs to be so, for it is often purchased at an inflated rate.—Shakespeare.

Sprained Ankle, Stiff Neck, Lame Shoulder.

These are three common ailments for which Chamberlain's Pain Balm is especially valuable. If promptly applied it will save you time, money and suffering when troubled with any one of these ailments. For sale by Davis Pharmacy and F. S. Duffy.

We are often duped by dimness of vision.—Chesterfield.

Just What Everyone Should Do.

Mr. J. T. Barber of Irwinville, Ga., always keeps a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy at hand ready for instant use. Attacks of colic, cholera morbus and diarrhoea come on so suddenly that there is no time to hunt a doctor or go to the store for medicine. Mr. Barber says: "I have tried Chamberlain's Colic, Cholera and Diarrhoea Remedy which is one of the best medicines I ever saw. I keep a bottle of it in my room as I have had several attacks and it has proved to be the best medicine I ever used."

WILL SUE THE ROAD

The A. & N. C. Company Held Responsible For The Death of C. S. Andrews at Kinston.

Kinston Free Press 29.

A coroner's jury was summoned Saturday evening late by Coroner Wooten, which after going to the home of Mr. C. S. Andrews, who was killed by the incoming "shoofly" train Saturday morning and viewing the body, adjourned to meet again today and have an investigation. This was had in the court house and after hearing the testimony of six witnesses the jury rendered the verdict that the deceased came to his death by being struck by an incoming train on the A. & N. C. Railroad, said train running about 10 miles an hour, according to evidence before them.

At the coroner's trial counsel for the railroad company and for the family of the deceased were in attendance to listen to the evidence.

Ex-Governor Aycock has been retained by Mr. Andrews' people to prosecute a suit for damages against the railroad company, besides members of the local bar, though as no administrator has been appointed yet no suit is entered. No intimation of the amount of damages asked is given but by counsel retained by Mr. Andrews' relatives but street rumor has it that \$30,000 will be the figure.

Weekly Crop Bulletin, for Week Ending Monday, May 29, 1905.

The work of planting cotton was so much delayed that many fields intended for that crop will be used for other purposes, so that planting cotton is practically finished; chopping is well advanced but by no means completed; stands are regular, but low temperatures continue to prevent rapid growth, plants are very small for the season, and are yellow in many fields; much late planted cotton is not yet up. Upland corn is in fair condition, but most of this crop is badly in need of cultivation; its growth also has been checked by low temperatures; the stands have been injured by the ravages of cut worms; most lowlands have not yet been planted. The rain Friday gave a very favorable opportunity for transplanting tobacco, and this task will be completed the coming week. Tobacco is doing well; there are a few complaints of injury by insects or otherwise. Wheat and oats are not as thrifty as formerly, suffering in a number of places from excessive rains and rust, but as a rule these crops are in excellent condition; in a few southern counties wheat and oats are beginning to ripen. Peanuts have come up nicely to good stands. Planting rice is under way. Gardens and vegetables are thrifty. In regard to Irish potatoes it appears that the growth of tops is very thrifty but the tubers relatively few; digging and shipping potatoes are under way. Setting sweet potatoes continues. Melons are doing well. The crops of blackberries and huckleberries will be large. Many correspondents continue to report that fruits, especially apples, are falling from the trees.

Today was alumni day at the A. & M. College here and there were several reunions of the older alumni. There are a good many visitors to the college. The exercises of the week will be held in the spacious chapel or auditorium, which is very cool and pleasant place.

Much regret is expressed because of the fact that there will be no summer school for teachers here this year. The failure to have it is regarded as most unfortunate, particularly after the great success of the school last summer which was attended by a thousand teachers representing many counties.

Found A Cure For Dyspepsia. Mrs. S. Lindsay, of Fort William Ontario, Canada, who has suffered quite a number of years from dyspepsia and great pains in the stomach, was advised by her druggist to take Chamberlain's Stomach and Liver Tablets. She did so and says, "I find that they have done me a great deal of good. I have never had any suffering since I began using them." If troubled with dyspepsia or indigestion why not take these tablets, get well and stay well! For sale by Davis Pharmacy and F. S. Duffy.

A Severe Loss to Navy. London, May 30.—The latest reports from Tokio show that Russia's loss in the great sea fight have already reached 22 warships, and probably more.

A Bad Scare. Some day you will get a bad scare, when you feel a pain in your bowels, and fear appendicitis. Safety lies in Dr. King's New Life Pills, a sure cure for all bowel and stomach diseases, such as headache, biliousness, constipation, etc. Guaranteed at all druggists, only 25c. Try them.

Will Convene at New Bern. Special to Journal. Wilmington, May 30.—The New Bern delegation at the meeting of Episcopal Council of Eastern Carolina diocese today extended an invitation to the council to meet at New Bern next year, which was unanimously accepted.

If it is a kind of bilious mood, You wish an aid to digest food, No other pill is half so good As DeWitt's Little Early Bitters. Wherever you find indigestion, And need a single little pill, No other will do so well as this. Like DeWitt's Little Early Bitters.

Cuban Diarrhoea. U. S. soldiers who served in Cuba during the Spanish war know what this disease is, and that ordinary remedies have little more effect than so much water. Cuban diarrhoea is almost a severe and dangerous as a mild attack of cholera. There is one remedy, however, that can always be depended upon as will be seen by the following certificate from Mrs. Minnie Jacobs of Houston, Texas: "I hereby certify that Chamberlain's Colic, Cholera and Diarrhoea Remedy cured my husband of a severe attack of Cuban diarrhoea, which he brought home from Cuba. We had several doctors but they did him no good. One bottle of this remedy cured him, as our neighbors will testify. I think that for so valuable a medicine it is sold for so little a price."

No Secret About It. It is no secret, that for Cuts, Burns, Ulcers, Fever Sores, Sore Eyes, Blisters, etc., nothing is so effective as Bucklen's Arnica Salve. "It didn't take long to cure a bad sore I had, and it is O. K. for sore eyes," writes D. L. Gregory, of Hope, Tex. It is at all druggists.

RALEIGH

Arrangements to Be Made for Annual Encampment.

Memorial Exercises at National Cemetery. The A. & M. Commencement. Work Resumed on Church of the Good Shepherd.

Raleigh, May 30.—The Board of Agriculture, as the trustees of the A. & M. College spent today largely at the college, and it will be hoped much of this week's meeting to it.

Tomorrow the Adjutant General and the Quartermaster General will be here on matters relative to the encampment of the National Guard. It is now quite well understood that these will be held at Wrightsville and at Charlotte in July.

Chairman J. William Bailey of the State Anti-Saloon League was asked today what was the progress of the temperance measures at present and said that relatively little work had been done this year for the reason that the State had been virtually canvassed and that all the points had been looked after which should just now be given attention. The league has lost two towns, namely Hillsboro and Morganton but has gained a number of points in Johnson county in a fight against the dispensary. The campaign now is very quiet as elections have been held at all points where they could well be had. The work is in very good shape Chairman Bailey says.

Governor Glenn and Auditor Dixon have gone to Chapel Hill to be present at the commencement of the State University. State Treasurer Lacy was at Davidson College commencement.

The work of constructing the church of the Good Shepherd here was resumed today, and it is said that it will not again be stopped.

At the beautiful National Cemetery here the Memorial Day exercises were held this afternoon, Rev. I. McK. Pittenger offering the prayer, the address being by pastor J. C. Masse of the Baptist Tabernacle and Mr. A. B. Forest reading the poem, which was an original one written by Mrs. S. D. Watte. The Star Spangled Banner and America was sung. The Confederate veterans from the Soldiers Home were present and participated in the ceremonies and in the decorations of the graves with flags and flowers.

The attendance at the Agricultural and Mechanical College commencement was quite large today. This afternoon there was the final battalion drill and dress parade at which the new cadet officers were announced. This evening Mr. John Hamilton of Washington, D. C., delivered the annual address, which was followed by a public reception by the faculty.

The Corporation Commission is sending out blanks to all common carriers for the returns for the current year. State Auditor Dixon was asked whether he thought the high water mark of a number of pensioners had been reached, and said that while he could not say positively he did not think that it had.

Today was alumni day at the A. & M. College here and there were several reunions of the older alumni. There are a good many visitors to the college. The exercises of the week will be held in the spacious chapel or auditorium, which is very cool and pleasant place.

Much regret is expressed because of the fact that there will be no summer school for teachers here this year. The failure to have it is regarded as most unfortunate, particularly after the great success of the school last summer which was attended by a thousand teachers representing many counties.

NEW BERN'S LUMBER INTERESTS.

A Short Story of the Chief Factor of This City's Industrial Life.

There is no cessation to the milling industries in and around New Bern where some plants are being doubled in capacity and new and extensive mills being erected by new corporations yet years ago the cry was "the timber is nearly gone." Over at James City the Mungler and Bennett Co., by completing a new mill have an increased capacity from 40,000 to 80,000 feet per day. They began preparations for the building of their new mills after Christmas and had complete plants, machinery big patent dry kilns all ready in May.

The New Bern Lumber Co., began clearing the way for their big plants in December and will be in operation beginning of June. They have built a double circular saw mill the 100,000 to 120,000 feet per day, with engine of 500 horse power, and 4 boilers aggregating 650 horse power, and the 8 brick dry kilns put up by the National Dry Kiln Company of Indianapolis have capacity for 120,000 feet of lumber.

Their mills have 2000 feet of spur from the main line of the A. & N. C. and the company has two locomotives and will build twenty miles of railway of their own and have 10 years' cut of timber in Craven, Pamlico, Jones and Onslow counties, and will get the cut from other mills besides their own manufacturing for the New York market.

With big crews engaged in construction of mills, also in the woods, they also have a big force building booms which will have capacity for five millions feet of logs and the enterprise in entirety shows that limitation of capital has not been made.

The officers of the New Bern Lumber Company are President C. H. Turner of Malone N. Y. who has seven saw mills, some of them in the Province of Quebec, Canada, and the aggregate capacity is 350,000 feet per day, the new New Bern mills not included. The Vice-President and Treasurer, H. C. Turner has the head offices of the New Bern Lumber Co., in rooms 218 and 220 Citizens Bank Building, Norfolk Va., but he has devoted his energies here during the construction of the mills and it is worthy of note that the Turner Brothers were brought up in the milling and lumber business by their father Chauncey Turner who operated extensively in New York State.

The Secretary H. B. Morgan has his office at the New Bern Lumber Co., mills and all the officers are New Yorkers and college graduates and the three officers named form the company.

The contracting millwright firm is Duncan McKennie and Son, who lately built mills for the Waccamaw Land and Lumber Co. at Wilmington, also big mills at LaCade, Idaho, being completed and therefrom William J. McKenzie a son of the senior will come to New Bern, although the McKenzies are from Bay City, Mich.

The Pine Lumber Company of New Bern showed remarkable diligence in rebuilding their plant which was burned down on March 8th as they were about ready for cutting in 60 days. They have a new outfit including automatic 125 horse power Atlas engine and boilers 250 horse power circular saw, edger and trimmer capacity 40,000 feet with planing mills 200 horse power equal thereto and the same commodious dry kilns as before.

The Pine Lumber Company have 30,000 acres, 19,600 of which is in Craven county, and they have a 20,000 feet mill in Onslow county and five miles of tramway and logging camp and will build dry kilns. They ship by rail but own barges and ship chiefly by water. They have a logging camp at Croatan of 20,000 acres and seven miles of railway and steam skidder and other equipment. Freeman Hawk, the President is an extensive grain merchant and capitalist at Allentown Pa., and the general manager at New Bern Joseph E. Hawk is one of the best go-ahead and successful lumbermen and has all the traits of character which deserve success.

W. F. Aberly secretary and treasurer is a thoroughly practical mill man and a superintendent who gets good work and good will together. Mr. Jones the accountant is one of the most up-to-date office men in the business. His books seem to be always posted up and his accounts are all ready on the spot at any hour.

The Blades Lumber Company are extending as usual and are building a railway from Pollockville to Jacksonville opening up new timber, and clearing the way for cotton, corn and truck farms.

Nine miles south of New Bern at Riverdale, the Lockey and Cannon mills are finishing up, prior to removal to Whitehall, Curleton County, S. C., on Gov. Haywood's land. Harrison Cannon the managing partner milled in boyhood with his father in Delaware but came to Craven county, about 18 years ago with more energy and ability than capital but he has succeeded and deserves to succeed not only as a mill man but as a gentleman. In South Carolina he will have about 20,000 million feet to begin with and there he will add a good planing mill to his saw mill which has circular and gang edger and 15,000 feet capacity. At Riverdale the Lockey and Cannon Co., has 400 acres with half a dozen cutlogs near the railway and it is an ideal place for truck farms.

JAMES CARSWELL.

No Secret About It. It is no secret, that for Cuts, Burns, Ulcers, Fever Sores, Sore Eyes, Blisters, etc., nothing is so effective as Bucklen's Arnica Salve. "It didn't take long to cure a bad sore I had, and it is O. K. for sore eyes," writes D. L. Gregory, of Hope, Tex. It is at all druggists.
