NEW BERN, CRAVEN COUNTY, N. C., FRIDAY JULY 14 1905 - SECOND SECTION.

28th YEAR

## The Meanest of All.

There is probably no place on earth better than a county newspaper office to learn how many kinds of people there are. Some get huffy if a statement is sent. Others will not pay until they receive a statement. Some will pay without a statement, and others won't pay whether a statement is sent or not. Some thought they owed more, and some thought they didn't owe so much. But the meanest, scurriest in the world is the man who takes it until he is shut off for non-payment, and then spends all his time explaining how he used to take "the thing" but stopped because it was "no count."—Warrior, Ala. Breeze.

It makes no difference how many medicines have failed to cure you, if you are troubled with headache, constipation, kidney or liver troubles, Hollister's Rocky Mountain Tea will make you well. Sold by F. S. Duffy.

A case of ejectment for the possession of land was on trial in Justice S. R. Street's office yesterday. The parties were L. S. Harper vs James Eubanks, both men residing in Ft. Barnwell, Mr. O. H. Guion was attorney for plaintiff and Col. W. D. Pollock of Kinston represented the defendant.

The jury rendered a verdict giving the defendant possession of the land but required that he (the defendant) pay the plaintiff the sum of \$48 less the counter claims which made the balance of \$19.50 due the plaintiff.

## FEARS OF MUTINY PREVAIL.

Russian Government Will Try to Extradite Mutineers. Warsaw Still Scene of Bloodshed.

Gustentz, Roumania, July 11.—The Russian squadron seems to be delayed here, owing to the fear that another mutiny will break out should the vessels put to sea. The fact that fifty-five sailors from the Kniaz Potemkin, who surrendered, have been imprisoned on board the different vessels of the squadron, awaiting trial for rebellion, has caused intense indignation among the crews, and as a consequence there are fears of another mutiny.

St. Petersburg, July 11.—The Government will commence regular proceedings for the extradition of the crew of the Kniaz Potemkin as ordinary criminals. In the diplomatic exchanges on the subject the Russian foreign office pointed out that Roumania's promise to give the mutineers an asylum was made before Roumania had been apprised of the other crimes committed by the Russian sailors. Besides, the foreign office reminded Roumania that according to the Roumanian law, deserters are extraditable.

Warsaw, July 11.—Three bloody encounters between troops and striking shoemakers, in which about twenty persons were killed or wounded, occurred today. The strikers were marching through the city from house to house demanding the lowering of rents by twenty per cent. Many proprietors out of fear, complied with the demands of the strikers.

## Wanted Bookkeeper and Stenographer by Lumber Co.

## Test Farm Remains at Willard.

Special to Journal. Raleigh, July 13.—After full consideration here today the special committee of the State Board of Agriculture unanimously decided that the Test Farm for truck crops shall remain at Willard.

## HOW ABOUT THE RACES?

The Sailing Races Postponed From July 4, Should Be Given.

The sailing boat races which were to have been a part of the racing contests on July 4th were, it will be remembered abandoned on account of a lack of wind. The following Friday was set as a day to have the races but for some reason they were abandoned on that day too.

Several people who are interested in these races have inquired why the managers do not make arrangements for this contest. They are anxious to test the merits of their boats with other boats. People not owning sailing boats are interested in the race also and it will be found that when the race is announced there will be a large crowd on the river shore to witness the event.

We hope to announce this race before long. Those who were managers of the Fourth of July races should take hold of the matter. Boat racing is a sport, which when conducted properly is a most alluring attraction.

## OYAMA MOVES FORWARD.

Taking Saghalien First Step. No Cession Until Peace is Definite.

London, July 13.—The latest news from the Far East is that Marshal Oyama has begun another forward movement and has driven in the Russian outposts at several points. This is in accordance with the Japanese attitude announced after the taking of Saghalien—that no cessation of hostilities would be considered until the peace commissioners had come together and the prospect seemed good for successful negotiations. In the meantime it is understood that Japan will neglect no opportunity of strengthening her position in Manchuria, so that in the event of the failure of the Washington negotiations the war may be pushed to a speedy conclusion by natural means.

The taking of Saghalien is the first step in this direction. The next will probably be the occupation of a strip of the Trans-Amur territory, which will be a harder blow to Russia than all the territorial losses she has sustained up to the taking of Saghalien.

## RAILROAD EXTENSIONS.

Very Important Industrial Feature in North Carolina.

Roads Going Towards The Sea Coast. Watermelons Suffer From Wilt. Liquor Dealers Active. Singular Case of Murderer From Mitchell.

Raleigh, N. C. July 12, 1905.—There is a good deal of interest felt just now in railway movements in this state. It is said that when the Dukes complete the link of their road between Durham and Apex, work on which has been rapidly pushed that the name will be changed to the Durham and Southern. This line will extend to Dunn on the Atlantic Coast Line and it is very easily conjectured that it will go on further to the coast. Another company is building a line from Durham to Merry Oak on the Seaboard Air Line and it is the opinion that the Seaboard Air Line is back of this construction, as General Manager Barr is a director in this 21 mile road, the name of which has now become the Durham and North Carolina. It was formerly the New Hope Valley Road. It seems that the Seaboard Air Line will in this way get coal direct from the Norfolk & Western at Durham for all its southern division, while now coal has to be hauled from Durham to Henderson and then southward. Another point in that is the extension will give a direct line to Southport and the Seaboard Air Line may make the latter a coaling station; as it is understood to have purchased considerable waterfront at Southport.

Prof. Stevens of the Agricultural & Mechanical College has two special experiments in progress one at Auburn a few miles south of Raleigh, where there are twenty acres in watermelons. The tests there are as to wilt, which is causing so much loss of melons. Last year 213 varieties of watermelons were planted on this land and none of these stood the wilt but some of the crosses did and so these, 35 in number are being tested. Another test for tobacco wilt is in progress at Creedmore, Granville county, where last year on two acres 64 varieties of tobacco were planted, and the 20 which stood the wilt best are being tested this year. There are also experiments at Creedmore on 60 plots of chemicals in the soil to see whether they will kill the wilt germ, which is in the soil.

State Auditor Dixon has returned from the Mountain section from Cleveland Springs and from Bessemer City and says he never saw finer prospects or found the people more content. He says Cleveland Springs is admirably kept this season and that the company there is very agreeable.

The liquor dealers here have four canvassers here at work getting names of persons who desire a vote to be held on the question of open saloons on the high license system, the vote to be held as soon as the two years of the dispensary ends. One of the canvassers says he has secured about a hundred names. The temperance people will of course meet this movement.

Recently a man was brought to the penitentiary from McDowell county, he being a native of Mitchell for shooting and killing a negro boy at a railway station. He told the boy to make a fire and the boy said it was not his business. He thereupon seized the boy who cursed him and he shot him in the forehead with a revolver. The father of the man is here to try to get him pardoned. It is said that the Mitchell county people do not use the word murder but always say a "killing." One of them remarked that this man would have been acquitted if he had been tried in Mitchell but that the McDowell county people do not like those in Mitchell so they went against him.

## Convict Escapes From State Farm

## RAINS EVERYWHERE

Doing Damage to Crops, Especially Cotton.

Rogers and Sorrell Plead Not Guilty. Several State Charters Granted. Equipment For Wrightsville Encampment. Dockery Not Out Danger.

Raleigh, July 13.—General William P. Roberts, ex-State Auditor arrived here today from Gates county. He says the excessive rains there are doing great damage to crops, particularly to cotton. Some rain has fallen here at Raleigh every day so far during July.

In the Superior court this morning ex-sheriff Rowan Rogers and J. P. Sorrell were arraigned on the charge of embezzlement. Two bills had been sent in to the grand jury, one of which was returned yesterday and another, a more complete one, this morning. The men pleaded not guilty.

The State charters the Coddle Creek Manufacturing Company of No. 2 town ship, Cabarrus county, to make cotton goods, furnish electric lights and power capital stock \$100,000, part preferred, R. M. Miller, Jr., of Charlotte and others being the stockholders. Another charter was granted the Kelley Mercantile Company of Flee Hill, Harnett county, capital stock \$50,000, C. B. Kelley and others stockholders, to deal in timbers, manufacture lumber, etc.

Two car loads of equipment, etc. for the encampment of the Second and Third Regiments of the National Guard at Wrightsville have been shipped from arsenal here, including 300 common tents, 90 wall, hospital and 20 conical, 1,200 blankets, 32 camp stoves, etc.

John Dockery's condition has not improved, particularly this week and he is not yet out of danger his physicians think.

William Dunn of the State Board of Agriculture arrived today on business connected with the soil test farm in the southeastern part of the State.

Beautiful eyes and handsome faces are eloquent commendations. Bright eyes are windows to a woman's heart. Hollister's Rocky Mountain Tea makes bright eyes, 35 cents, tea or tablets. Sold by F. S. Duffy.

## Heat Kills Ten in New York

New York, July 12.—Undiminished heat and humidity marked the fifth day of the torrid wave that has afflicted New York, and tonight, there is no immediate prospect of relief. Ten deaths and nearly a score of cases of prostration was the record of the day. A brisk breeze afforded some mitigation of the general suffering, but hardly tempered the intensity of the heat in the crowded quarters of the city.

Some of the victims of the heat were rendered insane by their suffering. In Brooklyn Daniel McCarthy sought relief by drinking carbolic acid, and died immediately.

Jerry Lane, a coal-passer in an up-town hotel, went mad in the boiler room and attempted to brain a comrade with a pitcher from which they had been drinking ice water, knocking him senseless. Two policemen subdued Lane after a desperate struggle, and removed both men to the hospital.

## Tabernacle Picnic.

## A RAINY JULY.

But Not Unlike Previous Years. Record of The Rainfall.

Since July 6th there have been daily rainfalls, and these rains have been numerous but not always heavy, and as usual the average person will insist that July 1905 is an exceptional month, but if the weather records of previous years for the same month will be looked up, it will be found that this month is not specially an exceptional rainy one.

Beginning with July 6th and including the 12th the rainfall was as follows:

July 6th	.25
" 7th	.09
" 8th	1.09
" 9th	1.12
" 10th	.79
" 11th	.13
" 12th	.12

During this period the maximum daily temperature has ranged from 83 to 88 degrees, but this does not indicate the humidity which has often been quite depressing.

It is not certain if the moon has anything to do with the weather, but it is of interest to note that this month will have two new moons on second and thirty-first.

## Rogers and Sorrell Convicted.

Special to Journal.

Raleigh, July 13.—Ex-sheriff Rowan Rogers and J. P. Sorrell were quicky convicted of embezzlement in the Superior Court here. The friends of Rogers are circulating a petition asking the judge to impose any sentence save a merely nominal one.

Cincinnati, O., April 15, 1903. J. Baum Safe & Lock Co., Cincinnati, Ohio.

Gentlemen:—Please enter our order for a No-10 safe at once and get it out as soon as possible.

We are now located in the Blymyer Building on Main St., and are getting in shape for business. Everything in our establishment in the Pike Building was destroyed by the fire, and the only thing which was left was our iron safe which we bought of you. We at first were of the belief that everything in the safe would be in ashes, as the safe was on the top floor, fell six stories and was in the hottest part of the fire, but to our surprise the books were found to be in as perfect condition as preceding the fire and could be used again if it were not that they had a musty smell from the fire. We will send you one of the books as soon as we have it recopied, as a testimonial of what your safe will do, and we will write you a testimonial of any description you may desire, for we can not say too much of the way the safe stood the fire. Yours Very Truly,
