TRAIN FOR BAYBORO NOW READY.

The P. O. & W. Railway Will Be Completed To The Depot Site in Bayboro.

After many months the Pamlico, Oriental & Western railway has reached a stage by which one of the purposes of the construction of the road is achieved—a passage by rail to Bayboro. When work quit last night the road was completed to the site of the Bayboro station.

The vicissitudes and delays of this enterprise have been great and the temper and patience of the farmers of Pamlico county have at times been sorely tried and yet the delays incident to the construction of a railway have been no greater in this case than in others. Taking all things into consideration the road has been built as rapidly as could be expected.

Aside from the financial difficulties which arose from time to time there were natural barriers which made the construction necessarily slow. There was a dense forest to cut down ranging through a greater part of the country surveyed and on account of the low swampy condition of the land the grade was difficult to maintain, many culverts and trestles being required. The bridge over Goose Creek being most formidable. Much credit is due to Mr. Alfred Cheney who has not only laid out the route of the road, having been associated with it from the beginning, but he has also had main charge of the construction and has overcome many difficulties which seemed too great to master. How well he has accomplished his work is in the evidence of the railway as it is now. He has proved himself a very capable engineer and constructor.

The road is by no means completed but it is possible for trains to pass over it at a fairly good rate of speed and the work now will be to grade and ballast the track in order that trains may safely assume greater speed. The present roughness of the road is perfectly natural and will be remedied in a short time. The company expect to have passenger trains running on regular schedule time within 60 days. Two trains go from New Bern to Bayboro daily, the first train in the morning the other at noon. A good freight business has already been established and the farmers appreciate it. Hitherto they have been obliged to haul their products either to New Bern or Oriental for shipment meaning a loss of time and often money. Many carloads of potatoes have been received here from stations on this line and many carloads of merchandise and miscellaneous stuff have been shipped there.

It was the high privilege of the Journal reporter to take a ride to Bayboro on one of the trains one day last week. By means of interviews with farmers along the line he found that with but very few exceptions they are intensely pleased with the conditions, realizing of course that they are imperfect at present but they have great faith in the future of the road and that the improvements contemplated will in time overcome the inconveniences they are now experiencing.

Mr. Sam Moore the genial and courteous railroad man has been engaged as agent for the road at New Bern and is temporarily employed as conductor. He has had large experience as a railroad man and will undoubtedly be a valued man in conducting an important part of the company's business.

To Mr. James A. Bryan whose executive ability has built the road the great measure of praise belongs. At a time when efforts to complete the construction seemed doomed to defeat he took up the work of reorganizing the company and putting it on a working basis. The task was great but by means of his matchless energy and perseverance he is beholding the fruits of his labors early in the career of the road. It is not too much to say of him that he is the soul and body of the road. He has just right to be proud of his achievement.

The Pamlico, Oriental & Western railway will open and develop the country through which it runs in a wonderful manner. Each year will see a marked improvement in the non-essentials as well as the essentials that go to make up communities. The effect of the rail road is already noticeable in a good many ways.

Eventually the company will resume building the road and will have branches and extensions reaching to every part of the county. The road was built inside the corporate limits of the city of Bayboro early last week and it was expected to finish last night but bad weather interfered and the completion will be tomorrow.

She Tried Five Doctors.

Mrs. Frances L. Saffers, of Missouri Valley, La., writes: "I have been afflicted with kidney trouble five years; had severe pains in my back and a frequent desire to urinate. When riding I experienced much pain over the region of the kidneys. I tried five physicians without benefit and then concluded to try Foley's Kidney Cure. After taking three \$1.00 bottles I was completely cured." For sale by Davis' Pharmacy.

Cotton Making Improvement.

New York, July 27.—Dispatches to Dunn's Review from branches, report some injury to cotton in Georgia and Louisiana, while the weevil is abundant in Texas, but thus far it is difficult to approximate the extent of injury. Rain is needed at some points, but has been the cause of abandoned plantations elsewhere. On the whole cotton appears to have gained during the week, particularly in the states of greatest importance.

Cured of Bright's Disease.

Mr. Robert O. Burke, Elnora, N. Y., writes: "Before I started to use Foley's Kidney Cure I had to get up from twelve to twenty times a night, and I was all bloated up with dropsy and my eyesight was so impaired I could scarcely see one of my family across the room. I had given up hope of living, when a friend recommended Foley's Kidney Cure. One 50 cent bottle worked wonders and before I had taken the third bottle the dropsy had gone, as well as all other symptoms of Bright's disease." For sale by Davis' Pharmacy.

J. Crawford Biggs Esq., of Durham informed Gov. Glenn that in his opinion this movement ought to be taken in connection with the meeting of the American Bar Association soon to be held at Asbury Park, which will consider this very matter. Mr. Biggs, E. H. Buabee, Clement Manly and A. B. Andrews Jr., are delegates to this meeting of bar association. Gov. Glenn has appointed them delegates to the meeting at Washington and so notified Gov. Pennypacker.

Doctors Said He Would Not Live.

Peter Fry, Woodruff, Pa., writes: "After doctoring for two years with the best physicians in Waynesburg, and still getting worse, the doctors advised me if I had any business to attend to I had better attend to it at once, as I could not possibly live another month as there was no cure for me. Foley's Kidney Cure was recommended to me by a friend, and I immediately sent my son to the store for it and after taking three bottles I began to get better and continued to improve until I was entirely well." REVISED THE ESTIMATE

The Statements of Hyde And Holmes on The Cotton Acreage Found to Be Inaccurate.

In the report of Assistant Secretary Hayes to Secretary Wilson it was stated that the crop estimating board had deemed it wise to make a new estimate on the acreage of cotton with the figures used by Hyde and Holmes in the report of June 2nd as a basis. The reason for this the report says is that the estimate is lower than the actual facts representing the acreage called for. The report says in regard to the correction:

"Third—That the board finds, upon careful consideration of the reports of correspondents and agents, that the acreage planted in cotton this year, including the entire season, should have been estimated at 84.1 per cent of that planted last year, equivalent to a reduction in planted acreage as compared with last year of 15.9 per cent. (instead of 11.4 per cent. or 4,731,000 acres)—the estimate of the acreage planted this year being 26,999,000 acres.

"The estimated percentage of the decrease in each of the cotton growing states is as follows:

"Virginia 18; North Carolina, 16; South Carolina, 14; Georgia, 14; Florida 12; Alabama 11; Mississippi 16; Louisiana 17; Texas 16; Arkansas 19; Tennessee 13; Missouri 15; Oklahoma 15; Indian Territory 11.

When you want a pleasant laxative that is easy to take and certain to act, use Chamberlain's Stomach and Liver Tablets. For sale by F. S. Duffy and Davis' Pharmacy.

Bear Cub Whips Bull Pup.

Kinston Free Press.

Like snakes to a toad dogs to bears are mortal enemies from instinct and whenever the two meet there is a scrap immediately.

Mr. George Gray has a "menagerie" on upper Queen street and two little twin cub bears constitute the attraction being kept in a cage at the rear of the store, behind a curtain. Thursday one of the cubs was taken to the front of the store and while there a little bull pup belonging to Mr. Walter LaRogue came along and always "spilling" for a scrap sailed at the cub. "Harkis was willin'" and the little cub raised on his haunches and met the pup with a resounding smack with its paw that sent the dog across the room.

The pup was game, however, and made at the cub again and seizing the left fore leg of the cub with the regulation bull grip closed his eyes and laid down to it. The onlookers thought it was all-up with the cub, but not so. The cub drew the pup up to it and administered one of the severest spanking with its right paw, that baby ever got from its mother with slipper or otherwise, and the little dog yelled accordingly. The two were released and the bull went off, dumfounded.

(The little bear referred to above is one of those which were at J. H. Slade's place in this city and was bought by Mr. Gray of Kinston.)

One Dollar Saved Represents Ten Dollars Earned.

The average man does not save to exceed ten per cent of his earnings. He must spend nine dollars in living expenses for every dollar saved. That being the case he cannot be too careful about unnecessary expenses. Very often a few cents properly invested, like buying seeds for his garden, will save several dollars outlay later on. It is the same in buying Chamberlain's Cough, Cholera and Diarrhoea Remedy. It costs but a few cents, and a bottle of it in the home often saves a doctor's bill of several dollars. For sale by F. S. Duffy and Davis' Pharmacy.
