REMARKABLE CASE

Of Gold Brick Swindlers How Do They Get So Much Influence to Favor Them.

Raleigh, August 2 .- A statement has been made in some of the papers that Governor Glenn intended to pardon Howard and Hawley, the gold brick swindlers who are serving ten year sentences in the penitentiary upon the payment of a \$5,000 fine by each, they having been four years in prison. The attention of the Governor was called to these statements and he said that all he knew of this matter was that it had been intimated to him that a proposition of this character might be made and submitted to him. His reply was that if it were made he would give it careful consideration as he does all Exchanged Between Southern Governors, cases without giving any intimation as to what he would do after such looking For Sale in New Bern by EAW into the matter. The proposition has Smaliwood.

forcing a most rigid quarantine. The said the people outside have no idea of Curator Brimley Falls to Cos it But Tells of from the furniture people that this was the tremendous influences which are owing to the heat. A state of panic being brought to bear to get these men out of prison; that Congressmen and There is some danger of a clash be- Governors, among others, are in the tween the Mississippi and the Louisiana movement. > A decided improvement is reported in the condition of Geo W. Norwood, chief clerk to the secretary of State who has been desperatelly ill of typhoid fever for several weeks.

There seems to be a good deal of disbelief as to the building of the probuilt though he does not know when the work will begin.

L Jones Fuller, Esq, of Durham was here today, mosquitoes having com-pelled him to leave for a while the survey of the Vedder lands in the south-western part of the State. These insects having given him a dose of malaria. Prof. Riddick and the surveying corps are in the field

FEWER FEVER VICTIMS

Authorities Feel No Alarm.

New Orleans, August 2. - Today's re. ports of the fever situation showed an increase in the number of deaths, but he health authorities confessed to no arm over the situation, and said that more fatalities were to be looked for because during the last three or four days there had been a sufficient inease in the number of cases to warrant the expectation of the heavier rtality. The official report follows:

date 79; new foci 4; total foci 54. The fever situation showed no maerial change during the day and the few new foci shows that it is not apread ing with the rapidity of former years. Of the deaths four were in the Emergency Hospital, four in the original district, and three in the charity hos-

Fully Prepared for College.

Capt. A. G. Brenizer, Casher Commercial National Bank, Charlotte, says of the Bingham School, near Mebane, N.

"It has been on my mind for som son's experience at your school, and to thank you and the faculty for your kindly interest in him.

The school, in both his and my est ma tion is all that any parent or guardian could desire-healthful climate, comfortable quarters, excellent table, genial companionship, well qualified and enthusastic professors. One feature particularly has impressed me, and that is the intimate and friendly relations established between the boys and their teachers. Addison was somewhat behind in his education when he entered your school, but notwithstanding, I found him at the end of the year fully prepared to enter college. If I had a half dozen more boys I should send them all to Bingham School,"

A DELICATE OPERATION.

A New Bern Practioneer Removes Successfully a Tumor From a Man's

Dr. James A. Duguid, who has recently begun practice here performed a delicate and successful surgical operation this week, one which he has a just right to be proud of.

For some years, Capt. Smith, of the schooner Beswick, from Laurel, Del., has had a gathering located on the ear and collar bone which has given him considerable trouble. Lately it has developed into a tumor causing him intense pain. It made a pressure on the nerves supplying the eye and affected the vision so that he was practically blind in one eye.

This week Dr. Duguid was called upon to remove it which he did successful New cases up to 6 p m 32; total cases ly, restoring sight to the eye and re-to date 378; deaths 11; total deaths to lieving him of all the pain and danger of such a disease. Every symptom of tumor has been effectually eradicated
