Dun's Review on Cotton.

New York, Aug. 3.—Dispatches to Dun's review show that cotton is progressing well in South Carolina, where all work except gathering is finished. Hot weather has advanced cotton in Georgia, although it is a little dry. Excessive moisture will make the current crop the most expensive ever grown in parts of Arkansas and rain is also causing injury to Louisiana.

G. B. Burhans, of Carlisle Center, N. It entirely stopped the brick dust sediment, and pain and symptoms of kidney disease disappeared. I am glad to say that I have never had a return of any of those symptoms during the four years that have elapsed and I am evidently cured to stay cured, and heartily recommend Foley's Kidney Cure to any one suffering from kidney or bladder trouble." In Memoriam.

Mrs. Sara Stimson died July 28, in Biddeford, Maine, and was buried in New Bern, N. C., Aug 4, 1905.

She was possessed of a strong constitution and blessed with remarkably good health. Though in her seventies she possessed the vigor that is usual among those in the sixties. Her death was preceded by a sickness of less than a half hour, and that attended by little pain, by which we are reminded of the Psalmist's description of the death of a saint, "So he giveth His beloved sleep." Though called into the presence of her Saviour at midnight, she had that requisite preparation of heart and mind to meet the Divine appointment, which enabled her to respond with readiness, "Come, Lord Jesus."

Her life and death both beautifully exemplified the sanctities of our religion; she adorned the doctrines of the gospel in her daily conduct, and died triumphant in the faith.

About 40 years she lived in New Bern where she was identified with the better life of the people and dearly beloved by those who knew her, and where many hearts are touched with sadness at her death.

In the spiritual sphere she was especially prominent, and preeminent in usefulness.

For many years a member of the New Bern Presbyterian church, she was materially and personally interested in and identified with all church life and progress. It was her constant endeavor and joy to hold up the pastor's hands by her words of counsel and encouragement and an abiding sympathy. Her interest in church life extended especially to the young, to whose welfare she maintained a continuous devotion.

Every cry of need found with her a patient hearing and a ready and liberal relief. She was ever free to share another's joy and unfeeling in her sympathies for those acquainted with grief.

Thus she engraved herself on beating loving hearts which shall be her lasting memorials.

Though leaving no children of her own, yet she was a mother to many, who "will arise up and call her blessed" as a friend she loved with an affectionate tenderness and seemed akin to all her friends.

She was one of a type of the beauty and loveliness of christian womanhood which bears the charm of dignity, blended with an open friendliness.

Her life was the consummation of ripened piety, exemplifying this scripture, "The hoary head is a crown of glory if it be found in the way righteousness," and she realized the loving promise "Thou shalt come to thy grave in a full age, like as a shock of corn cometh in his season." Now she rests from her labor and her work do follow her.

Public Is Aroused

The public is aroused to a knowledge of the curative merits of that great medicinal tonic, Electric Bitters, for sick stomach, liver and kidneys. Mary H. Walters, of 546 St. Clair Ave., Columbus, O., writes: "For several months I was given up to die. I had fever and ague, my nerves were wrecked; I could not sleep, and my stomach was so weak from useless doctors' drugs, that I could not eat. Soon after beginning to take Electric Bitters, I obtained relief, and in a short time I was entirely cured." Guaranteed at all drug stores; price 50c.

All the gestures of children are graceful. The reign of distortion commences with the introduction of the dancing master.—Reynolds.

13 Years.

Ira W. Kelley, of Mansfield, Pa., writes: "I was in poor health for two years, suffering from kidney and bladder trouble, and spent considerable money consulting physicians without obtaining any marked benefit, but was cured by Foley's Kidney Cure, and I desire to add my testimony that it may be the cause of restoring the health of others." Refuse substitutes. For sale by Davis' Pharmacy.

Best and Next Best.

The best thing on earth is a good woman, and the next best thing is a good dinner prepared by a good woman.—Winchester Sun-Sentinel.

A Touching Story

is the saving from death, of the baby girl of Geo. A. Eyer, Cumberland, Md. He writes: "At the age of 11 months, our little girl was in declining health, with serious Throat Trouble, and two physicians gave her up. We were almost in despair, when we resolved to try Dr. King's New Discovery for Consumption, Coughs and Colds. The first bottle gave relief; after taking four bottles she was cured, and is now in perfect health." Never fails to relieve and cure a cough or cold. At all drug stores; 50c and \$1.00 guaranteed. English Rector to Parliament—Good morning, Thompson!

"Good morning, Thompson! I hear you have a son and heir. Parliament—Yes, sir, our household now represents the United Kingdom. Rector—How so? Parliament—Why, you see, I am English, my wife's Irish, the nurse is Scotch, and the baby walks—Harpers Weekly.

Peculiar Disappearance

J. D. Runyan, of Buttersville, O., laid the peculiar disappearance of his painful symptoms, of indigestion and biliousness, to Dr. King's New Life Pills. He says: "They are a perfect remedy for indigestion, sour stomach, headache, constipation, etc." Guaranteed at all drug stores, price 25c.

THE ELECTRICITY HABIT.

There is One Thing in Its Favor—it is Usually Beneficial.

"Of all the habits the one that sticks closest to a fellow is the electricity habit," said a young doctor. "The drink habit and the cocaine habit are mere summer fancies compared with it. But there is one thing to be said in its favor—it is usually beneficial. The electricity habit is contracted just like any other habit. A few currents are administered during an illness. They strengthen and stimulate, and the first thing the patient knows he finds the tonic indispensable. Even after he gets well he craves the treatment. I know one young woman who makes a fair living by calling at the homes of electricity victims and dosing them with a few shocks from a galvanic battery. Most slaves to the habit have their own batteries, but they are afraid to apply the treatment to themselves. That is practically a groundless fear, for there isn't one chance in a thousand of a person giving himself an overdose. Still they prefer an experienced hand to manage the current. Not all the electricity victims are invalids by any means. Many of them are now as well as they ever were, yet they have become so addicted to the habit that they require the weekly, semi-weekly or possibly daily electric thrills to tone them up."—New York Post.

THE KISS IN THE TUNNEL.

The Way a Man Had Revenge for an Act of Discourtesy.

"Courtesy always pays; discourtesy never does," said a famous Frenchman. "Let me tell you a story of an actual happening:

"Two women occupied a compartment in a railway carriage with one man, a stranger. They were extremely rude to this man. In whispers that he could overhear they criticised his costume, his figure and his manner. He, to be revenged, did a singular thing.

"The blackness of a tunnel enveloped the car, and under cover of the darkness the man kissed the back of his hand loudly and repeatedly. Then when the train entered the light again he looked from one woman to the other with a significant smile.

"They exchanged glances of suspicion.

"Was it you he kissed?"

"No; of course not. Was it you?"

"And neither lady would believe the other's denial, and each in her utmost heart believed the other had encouraged the kiss. The man looked cool and complacent. When finally he rose to go he said, lifting his hat with a jocular air:

"Have no fear, ladies, I shall never tell which of you it was."

The Sago Plant.

Sago is a nutritive, tarlike substance obtained from the pith of several species of palms growing in such hot countries as Java and Sumatra. The stem, about fifteen to twenty feet long, is cut into pieces and the pith dug out and placed in a vessel having a sieve bottom. Water poured into the sieve washes the flour thus exposed into a second vessel. When the water is poured off and the residue becomes dry it is known as sago flour. The pith left behind forms what is known as common brown sago.

Revised Version.

"It's curious that women are never great poets or great musicians," said Mr. Meeker.

"What did you say?" asked his wife belligerently.

"I was merely remarking that women are too sensible to squander their energies on poetry and music to the extent that some men do."

Light on Ma.

Little Brother—Mr. Poseyboy, won't you go and stand before the window?

Poseyboy—Certainly, my little man.

But why? Little Brother—Oh, ma says she can see through you. I want to see if I can.

REACHING THE SPOT.

It Can be Done, so Scores of New Bern Citizens Say.

To cure an aching back, The pains of rheumatism, The tired-out feelings, You must reach the spot—get at the cause.

In most cases 'tis the kidneys. Doan's Kidney Pills are for the kidneys.

A. L. Bryan, officer in the police department, residing at 123 East Front street, says:

"My back was so bad that when I got down on the bed I could scarcely get up. There was no strength in my back and it ached all over. I thought I had rheumatism. The kidney secretions were dark colored and full of sediment. I saw Doan's Kidney Pills advertised and procured a box at Bradhan's Pharmacy and used it. The very first dose helped me and after finishing the first box I bought a second. The pain in my back disappeared and I was stronger and better in every way.
