HOSPITAL ATTENDANTS CRUEL

And Charged With Death of Charles Nell, a Patient From Chatham County.

Raleigh, Sept. 7.—The latest sensation here is the arrest and placing in jail of the four attendants at the hospital for the insane here, who were charged with cruelty which resulted in the death of Charles Nell, the thirty-year-old patient from Chatham county, three weeks ago. As has been stated a farmer gave the first knowledge of the affair, having witnessed the running away of the man, the pursuit by the attendants, the capture and what he stated was the beating of Nell with a plank. The embalmer who handled the body here said there were no bruises upon it; that there was a cut on the side of the head and that a knot over one eye had been there a long time. The superintendent of the hospital stated that no undue violence was used and that death was due to over-exercution on a very hot day. It was further stated that one of the attendants nearly fainted, in fact was made sick by the exertion of the capture. On the other hand it is alleged that when the head of Nell was shaved, at the post-mortem, a number of bruises were found, notably one at the base of the skull, and that the rear of the body was very badly bruised. The four attendants are in jail and have nothing to say. Three of them retained as counsel Ryan & J. C. L. Harris and the father of one of them named Durham, has retained Argo & Shaffer. It was learned at the court house that there would be no habeas corpus proceedings before tomorrow, the lawyers having said that they could not prepare the papers in the case before that day. Very great secrecy was observed in the handling of this case and in the two autopsies. The case was very earnestly pressed by Chatham county people, notably by editor Henry A. London of the Pittsboro Record. The case has caused much more excitement and talk in Chatham than it has here.

Colds cause congestion and costiveness. Fluids which should pass through the bowels and kidneys are accreted by the nose and throat. Hollister's Rocky Mountain Tea will positively cure. 35 cents. Sold by F. S. Duffy.

Yellow Fever at New Orleans.

New Orleans, La., Sept. 6.—Report to 6 p. m.:
New Cases, 31.
Total to date, 2,142.
Deaths, 4.
Total to date, 298.
New foci, 6.
Cases under treatment, 317.
Cases discharged, 1,527.
There was no special feature in the fever situation today beyond a small number of cases reported and the few deaths. A heavy rain fell this afternoon, following ten days of similar weather. This, however, has not increased the number of cases nor the mortality, a fact which speaks well for the efficient work of the marine hospital surgeons.

McCOWAN'S SENTENCE

Confirmed by Supreme Court Decision.

Pay for Spanish Volunteers. Audubon Law Enforced. Why Immigrants are Not Sought by Farmers in This State. Confederate Veterans Barred.

Raleigh, Sept. 6.—The Supreme court, through Chief Justice Walter Clark, as soon as it met this morning at ten o'clock made announcement of its decision in the contempt case of ex-Mayor Moses McCowan of Durham, who struck Judge Ward of the Superior court, and who, by that judge, was sentenced for contempt to serve thirty days in a common jail and to pay a fine of \$200. The Supreme court affirms the action of Judge Ward. The opinion was oral and the chief justice announced that later there would be a written one filed. This will probably be done next Tuesday, when the regular filing of opinions begins. The action of the court was of course expected, the State having made a very strong showing in support of the course taken by Judge Ward in protecting his own honor and that of the courts.

Mr. Carter of Alabama was here today and had a conference with Governor Glenn regarding the matter of additional pay for volunteers in the war with Spain. He stated to the Governor that troops were entitled to pay from the time that they arrived at their respective armories. Here in North Carolina the troops were mustered in during May, but a number of them drew pay from April 27th, to which they were found entitled, yet a number had reported at their armories in response to the call some days before April 27th.

North Carolina will send quite a large delegation to Richmond on the 12th to attend the annual meeting of the Farmers National Association. Last year over 100 delegates were appointed by Governor Aycock, and all these appointments have been continued.

There are now forty-three game wardens in North Carolina. The supervising warden, John W. Upchurch of this city says the Audubon law is popular in North Carolina and is being well enforced. So far as he can discover there are now very few violations of it.

The Agricultural & Mechanical College is really over-crowded. It is greatly to be regretted that more dormitory room is not to be provided. There are more students in the agricultural department now than any other and for this increase no provision whatever has been made.

In an interview with acting Immigration Commissioner T. K. Bruner as to the reason why there are so few calls for immigrants, to come to North Carolina as laborers, or as tenants, he said that on the side of the people here in North Carolina who wanted such people on their farms, they do not wish any people unless they know who they are, while, on the other hand, Mr. Bruner cannot afford to make arrangements at New York to bring persons here unless there is a positive arrangement as to the price they are to receive and as to the homes they are to have. There has been a very slip shod way in hiring labor in North Carolina, but of course all this will have to be changed if people are to be brought in here from elsewhere. There will have to be a regular agreement as to wages, or as to the part of crops to be allowed those who come as tenant farmers.

The board of penitentiary directors is to meet on the 20th inst., at which time it will specially consider matters relative to the Wilkesboro and Jefferson turnpike, the construction of which has reached the point in less than 2 miles of the crest of the Blue Ridge. The question is whether the State shall finish it.

Lorraine Unger, a native of France, who served in the French army in a number of campaigns, and who was in the Confederate service for three years in Company G, 50th North Carolina Regiment was buried this morning in the Confederate cemetery here, having died last evening at the Soldiers Home. He had been in feeble health for some time.

Music Class Opening

The Misses Wyatt will open their music classes, in this city, next Monday September 11th, the place will be noted in a few days in these columns. The following as to their musical standing of the Misses Wyatt is of importance:

TO THE PEOPLE OF NEW BERN.

I take this opportunity to recommend to those who desire to secure competent teachers of piano and violin the Misses Bessie and Jessie Wyatt. Miss Bessie Wyatt has taken both the certificate and the full diploma course in piano playing, and has had several years successful experience as a teacher in some of the prominent schools in the State. Miss Jessie Wyatt also took a teachers certificate in the violin department and has had experience as a teacher. They are deserving of confidence and patronage.

Very respectfully,
GILMAN WARD BRYANT,

COTTON GROWERS IN SESSION.

Some Questions of Vital Importance Discussed. A Successful Enthusiastic Meeting.

Asheville, N. C., Sept. 6.—The first session of the Southern Cotton Growers' Association was held this morning at 10:30 o'clock in the sun parlor at Kenilworth Inn. When President Harvie Jordan rapped for order there were fully 200 committeemen, delegates and visitors present. It is a fine, intelligent body of men, and that they are here for business is evidenced by the snap and vim manifest at this morning's session. The feature of the meeting this week will be the fixing of the minimum price of cotton and the decision as to whether or not the association shall purchase 1,000,000 bales of cotton at the opening of every season in order that the price may be held up. The sentiment of the growers is strongly in favor of this move. It is pointed out that there is a certain portion of the crop that must be marketed early to meet obligations of the growers, and that if the association can purchase this cotton the price at the first of the season can be fixed by that organization.

It is the opinion of many prominent cotton growers attending the convention that the minimum price of cotton will not be fixed at less than 12 cents, that it is more than probable the price will be 12 1/2 cents. A number of delegates have come instructed for 12 1/2 cents.

The report of the committee on minimum price will not be made until the morning session tomorrow. There are two elements contending with each other. One is holding out for 12 cents, the other wants the price fixed at 10 cents. It is believed tonight that the 12 cent men are in the majority and that this will be the minimum price.

Colonel Peters, who was summarily removed as vice-president of the association by President Jordan, is attending the sessions.

THEODORE PRICE NOT WANTED.

It has been the opinion that Theodore H. Price of cotton fame would arrive in Asheville last evening or today to "look in on the Southern Cotton Growers convention," but from information learned today, Mr. Price has not come in fact, it was stated on authority that Mr. Price was in New York City last night. It was asked today if Mr. Price would be heard by the convention should he desire to talk, a member of the association said: "Oh, we would listen to what he had to say. He would be given an opportunity to express himself, but that would be all." President Harvie Jordan was asked this morning if Mr. Price would be here. "Don't know," he said, "we are not interested in whether he comes or not. He can't have anything to do with our meetings." The cotton growers have now no use for Mr. Price, and they show it plainly.

NEW AMENDMENT ADOPTED

The Royal Arcanum Has Made New Rules For Assessments.

The much criticised action of the Royal Arcanum of raising the rates of assessments was the principal topic of discussion at the annual meeting of the Royal Arcanum at Put-in-Bay, Ohio, this week. The amendments adopted appear to meet the demands of the policy holders and very likely the large number of members who announced their determination to leave the society last spring will reconsider and will continue in the ranks.

We herewith publish the amendments:

An amendment was adopted for the reinstatement without new medical examination of members suspended since June 1st, if they apply for reinstatement before November 1st. The proposition to create a fraternal fund by annual contributions of 20 cents from each member, to be used in payments of assessments of aged members was referred to an executive committee with power to procure the necessary State legislation, the proposition being contrary to the laws of the State of Massachusetts.

An amendment was adopted providing that members over 65 years of age may pay only one half of their assessments and that the remainder may be charged against their certificates, deduction to be made when the benefits are paid.

The Supreme Regent was directed to act upon the reading of unauthorized circulars in the councils.

The local market for cotton yesterday was 10 and 10 1/2 cents. Mr. Alfred Kafer is the first to successfully run an automobile over country roads. Wednesday night he carried a party in his touring car to the Oaks farm and thence to the Neuse road. The machine was geared high and he had no trouble with it at all although he complains that the road was a little rough in places.

The first meeting of the creditors of W. T. Riggan & Co., Marshallberg, bankrupts was heard before referee Samuel W. Smallwood yesterday. Important testimony was taken. The attorneys interested were Messrs. D. L. Ward for W. T. Riggan & Co., William Dunn Jr. for petitioning creditors, and E. M. Land of Kinston for Einstein Bros., S. R. Sterling, of Marshallberg is trustee. The meeting was adjourned until Friday September 22 at 11 a. m.

Pursuant to an order from Federal Judge Purnell, Deputy Marshal R. W. Ward removed David Bryan, a United States prisoner from the Craven county jail to the Wayne county jail at Goldsboro last night. Bryan is awaiting trial at the next term of Federal Court here in October. The cause of the removal was probably prompted by the incidents attending the recent lynching. There evidently was no fear of personal violence to any United States prisoner but the security of the jail seems to be a matter of doubt.

CHOICE MISCELLANY

As Up to Date Lass.

The advancement of woman by leaps and bounds continues. First, we had the women's clubs, then the women's hall, with bell girls and "lady" porters, and later the Woman's Downtown Lanching club. There is one New York young woman, living in the vicinity of Madison square, who is still ages ahead of the rest of her sex in the race for equality with man. She wears men's shoes, a four-in-hand tie and a dress that is as near an approach to a suit of clothes as the laws of dressmaking will permit. She carries her umbrella as a man would his cane, and her walk is a close imitation of the Harvard "strut." The other day one who passes constantly through the park on her way downtown saw this concrete example of advanced manhood sitting on a bench writing. Let her instead of reading the paper while she had her shoes shined. The passer-by looked by instinct, as it were, for the cigar in her left hand, but that fortunately was reserved for a still more remote period of feminine development.—New York Post.
