Entered at the Postoffice, New Ben A. C. as second-class matter,

New Bern, N. C., Sept. 12, 1905.

**ENFORCE OR REPEAL. WHICH ?** 

The board of aldermen of this city, at their regular monthly meeting on last Tuesday, had a most interesting session. It was not wholly given up to routine measures, the reading and adoption of bills, and the committees reporting "progress," but beyond this there was the free and uninterrupted discussion, which does not appear in the official proceedings of the meeting.

The greater part of this discussion and talk of the aldermen was on the matter of the city ordinances, their meaning, application and enforcement, or rather the absence of the last.

The application is not peculiarly or specially, local, but too many city ordinances are adopted and passed more for appearance sake, than for their ast ual, unqualified, and impersonal application. They are convenient to be employed, if occasion may arise, for extra ordinary conditions, not for every day use, to be administered, if broken, upon violators without fear or favor.

It may have been this thought, which prompted and then kept going the discussion at the aldermen meeting, that the city ordinances, in their real interpretation and administration were not enforced as demanded by their true meaning, and according to the purpose of their passage, as laws,' The discussion led to the point, if a law is not to be rigidly enforced, why not repeal

### PHYSICAL CULTURE FOR GRADED SCHOOL The Woman's Club organized in this

city a few weeks ago, is slready a growing club, with members gaining and an active interest being developed among the members, at their meetings, in the aims and purposes of the organizations As the Journal has before noted,

editorially, a live Woman's Club is a spur to civic advancement and pride, and leads to local improvements when other influences fail. It is not so much that men are indifferent to local improvement or lack in civic pride, but

that occupied with personal affairs they fail to be sufficiently impressed with local disorders and what is needed for improvement, therefore are not

aroused to action until some flagrant ocal abuse arises.

But with women it is quite different. From a well directed and orderly house hold, to poor sidewalks, rough roads, trash in alleys and on the roads, all these are offensive, and some immediate action is aroused in a woman's mind to remedy these abuses to sight and health, therefore the good of such an organization as the Woman's Club,

which calls upon the people and authorties to abate at once the nuisances. An important, latest action on the part of the Woman's Club of this city, is that of asking that the Idirectors of the Grades School to introduce physical culture into the school in this city. This is an excellent suggestion and with other needed advancements and improvements, should be put into opera

tion in the Academy.

The citizens of New Bern do not accept at its real and true worth, the New Bern Academy, and give this institution the full equipment to make it the actual force it must be, if this com munity shall be advanced educationally, and through education of the people, progress socially and industrially. The suggestion of physical culture by the Woman's Club, is one more in the State Academy's betterment, it may cost Alabama

something, but there is no practical Arkansas Florida economy in conducting the New Bern Georgia Academy, if there be omitted any modern equipment or up-to-date meth-Louisiana ods, which every first class educational North Carolina Oklahoma institution possesses. Let the Woman's South Carolina Club not only suggest reforms and im-Tennessee provement for schools and for the muni Texas

### The Estimate Put on The Crop of 1905 By

NINE MILLION BALES.

The Cotton Growers Convention Asheville, N. C., Sept. 7-The fea are of this morning's session of the outhern Cotton Growers' Association in session at Kenilworth Inn was the re

loors of the convention hall were then thrown open to the public and the report read amid applause. The report was extremely bullish. The estimated yield of the cotton crop

of 1905 was placed at 9,588,133 bales, everal hundred thousand bales short of the last government report.

The condition of the crop was placed at 73.3. The estimates were made up from 15,015 correspondents. "These figures will not be disproved' aid Secretary Cheatham; "they are correct. I stand by the report forever' At the opening of the session Mr. Brooke and Mr. Armstrong of Alabama ndulged in a lively tilt over the pro posed establishment of an official organ by the association. Mr. Armstrong favored the proposition, and in his open ng remarks took issue with an address of Mr. Brooke last evening in opposit-

on to the organ. Mr. Brooke's motion that the official organ committee be given more time was adopted. Mr. Hyatt of South Carolina moved that the executive committee as whole pledge its members to raise \$15 000 for the running expenses of the cer tral office and that each committeema

go back home and raise this money within ninety days. In reply to a question President Jor dan said the expense of the central of

fice, including the salaries of the presi dent and secretary, amounted to about \$800 per mouth. Mr. Hyatt's motion was adopted.

Col. John S. Cunningham of North Carolina spoke on the subject of finance He referred to the time he was elected president of the North Carolina Agri cultural Society, at a time when it was being run on wine and sunshine. He said that people must have faith and that it took money to run an organization.

The report of the statistics commit tee as taken from 15,015 correspondents placed the matter of yield at 9,588,132 bales and the condition at 73.3. The yield and condition by states:

But seriously, why an ordinance, if not for use? Therefore the pertinent issue, if an ordinance is not to be enferced, repeal it, and have no dummy

### THE FLIGHT OF NORTH CAROLINA CONSERVATISM.

The boasted conservatism of North Carolinians has within the past few weeks taken sudden flight, and sections of this State which had records for being quiet, for accepting the decision of judge and jury, and the regular order of the law for the punishment of the criminal, have ruthlessly violated every previous tradition of conservatism they enjoyed, and taken the law from the courts and submitted its carrying out to the individual.

The horrible affair in this city, the assault upon a judge at Durham, the attempt by negroes to do violence to a perpetrated upon an insane man by his and I was practically given up to die. keepers at Raleigh, with death following, are the bolder violations of law and order, which are crowding the I was entirely cured."
