### WHO THEN WILL VOTE?

A correspondent in the Richmond Times-Dispatch offers the suggestion that voters contribute ten cent a piece to help out the primary expenses in which nominations are made, and to this the Times-Dispatch says:

"The suggestion is novel. Had every Democrat who voted in the Virginia primary this year paid a dime when he deposited his ballot upwards of \$8,000 would have been raised to defray the cost of the election. The question is, Would the voter be willing to make a compulsory contribution for the privilege of expressing his choice as between candidates for the nomination? We are in some doubt, but it is very probable that a large sum could be raised in the manner suggested by our correspondent. The probabilities are that it would not be a long time before the candidates would be expected to pay the fees of intaking voters, or a large portion of them, so our last estate would be no better than the first."

To this the Norfolk Virginian Pilot says, that the suggestion is impracticable, and that while a small number might contribute, the bulk of voters would balk at the paying.

So far as the primary feature has been tried down this way, instead of the voters rushing to vote, there has been a good deal of persuasion needed on the part of the candidates seeking nomination to get voters out.

The proposition to assist candidates in their campaign expenses would not get a hearing, much less a dime down in this section, where voters are not generally enthusiastic at primaries.

It might be asked, if voters were asked to contribute to the expenses of primaries, besides being taxed for general elections, who then would vote? Disfranchisement would not prove such a cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

towards one or the other, placing the masses of the people in an attitude of being under a guardianship, and sapping every individual effort and ambition towards personal endeavor and advancement.

### SEEING THE BEST IN EVERYTHING.

"Twixt optimist and pessimist  
The difference is droll—  
The optimist the doughnut sees;  
The pessimist the hole."

The above jingle may not be elegant, but it expresses much that is true of human nature, the one that never fails to see the best of everything in ordinary, very day life, the other, with eyes ever to single out, and growl about what may be lacking.

It is this lack to note the best side of everything, in social and business life, to see good in one's fellow being, that may lead and often does, to less personal self-reliance, to feel failure before the work demands undertaking, and thus feeling uncoiled the individual with faint heart before an effort has been made.

The absolute refusal to feel defeated, has brought victory to an army partly overwhelmed, and given business success to men, who with a faint heart, would have gone down to financial ruin.

The optimist lacks the trait to see, or at least be at all impressed with possible failure in what he may undertake, therefore so constituted, there is no thought of possible limitations as to individual capacity or ability. The object is ahead, is to be accomplished, and there is effort only towards the goal of success.

Without this spirit of seeing only success, there is an endless drag upon the person seeking any object in life. Trifles become important enough to stumble over, while a mole hill assumes such proportion as to seem a complete barrier towards further effort or endeavor.

It is seeing the best side, and profiting thereby, that gives an appearance of genius, because such a person accomplishes things. Men and women with splendid physical and mental qualities have made nothing of importance of their lives, their work has proven of no special value to themselves, and nothing to the world, because they lacked the power to see rightly, and gain through the genius of looking for and finding only the best things in life.

Failure in life is too often self-invited. It comes because the individual refuses to see that success can be won by the resolution to be optimistic, to look only for the best side, and that side wins, for there is creative success in looking and seeking only the best, and with it failure cannot enter in.

### \$100 Reward \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

### Given Up To Die.

B. Spiegel, 1204 N. Virginia St., Evansville, Ind., writes: "For over five years I was troubled with kidney and bladder affections which caused me much pain and worry. I lost flesh and was all run down, and a year ago had to abandon work entirely. I had three of the best physicians who did me no good and I was practically given up to die. Foley's Kidney Cure was recommended and the first bottle gave me great relief, and after taking the second bottle I was entirely cured." For sale by Davis Pharmacy.

## INSURANCE CASE

### Involving Important Question of Changing Its Plan

From Assessment to Old Line Insurance. Other Law Cases of Interest. R. & P. By Progress. German Families Wanted.

Raleigh, Sept. 15.—State Auditor Dixon was much pleased on reading a decision of the U. S. Supreme Court which says that owners of stock in a non-resident corporation are liable for tax upon such stock. Of course the corporation pays a corporation tax in the State in which it is located. Auditor Dixon has been collecting taxes here on such shares, but has had a great deal of trouble and no little kicking about it, which this decision will put an end to.

A number of students at the Medical Department of the State University, which is located at Raleigh, today has twenty-three students, which shows a very marked increase as compared with any previous number.

The Raleigh and Pamlico Sound Lumber Company will within sixty days open its first section to traffic, this being from Raleigh northeastward, about fifteen miles.

Acting Labor Commissioner Bruner today received applications from persons in Forsyth Co. for four German families.

Judge Purnell of the Federal Court did not file his decision in the Police Justice case, regarding the power of the Raleigh police justice under a special legislative act, until this afternoon, having given the subject much consideration. The contention of the Attorney General is that this case is not in line with the Georgia case, in which there are always regular trials, with counsels and the right of appeal.

A very important case has been argued in the Supreme Court, this being Green against the Hartford Life Insurance Company, involving greater interests than any case before this court in many years. The principal question is whether an assessment company has the right under legislative authority to change its future business from assessment to old-time insurance. Over twenty of the largest assessment companies, confronted by the other failure of assessment insurance have been permitted by the laws of ten States to make this change and hundreds of millions of insurance have been issued in consequence of and relying upon the legality of the change. The courts, including the Supreme court of the U. S., have uniformly approved the change. If now a different rule shall be generally adopted the dissolution of an immense number of insurance contracts will be the inevitable result. The case comes up upon complaint of Mr. Green of New Bern that the Hartford Life Insurance Company which by its charter has always had authority to issue both assessment and legal reserve insurance, for the first few years of its existence did an old-time business, then did exclusively an assessment business until 1899, when it ceased this and recommenced the issue of old-time insurance but has continued to carry out its contract with assessment members, holding their reserve intact for their sole benefit and protection. The change of business was caused by the failure of assessment insurance. Mr. Green was an assessment member and claims that the company is bound to go on with that class of business and that by making the change the company has broken its contract with him. He therefore demands the payment to him of all the assessments he has ever paid, with interest. Judge Allen non-suited the plaintiff in the lower court and he appealed. The plaintiff was represented in the Supreme court by A. D. Ward and Charles L. Abernethy and the company by Charles W. Hinsdale and W. W. Clark.

### Are You Engaged?

Engaged people should remember, that, after marriage, many quarrels can be avoided, by keeping their digestions in good condition with Electric Bitters. S. A. Brown, of Bennettsville, S. C., says: "For years, my wife suffered intensely from dyspepsia, complicated with a torpid liver, until she lost her strength and vigor, and became a mere wreck of her former self. Then she tried Electric Bitters, which helped her at once, and finally made her entirely well. She is now strong and healthy." All druggists sell and guarantee them, at 50c a bottle.

### An Old Slave Made Happy.

Being informed that Aunt Sarah Hall the oldest living member of Forsyth Chapel A. M. E. Zion church, Beaufort N. ### Pirates Deplete Oyster Beds

Norfolk-Virginian Pilot 15th.  
At daybreak this morning a large fleet of oyster boats go up the bay and its tributaries, for this is the opening of the oyster season, and hundreds of men, who have been idle all summer, now find employment. While it is said that the oysters are better in quality than last season the supply is not so good on account of the activity of the pirates during the closed season despite the efforts of the State police to stop the depredations. If a freeze like the one of last winter should set in this season things would go hard with the tongs and dredgers, who have large families dependent upon them. In this city a large number of men are employed at shucking the oysters for ship ment north, east and west. The last oyster season was one of the worst in the history of the industry.

But five months have elapsed since the season closed, and it is not believed that the supply of the business has materially increased. If this be the case there will be a short supply with high prices for the choice stock.

## You Can Be Cured.

No. 11 Cedar Terrace, Forth St. Station, N. C., April 26, 1905.

When I was first married I found that my strength and health were gradually diminishing. I became nervous and irritable, and was in bed a week and sometimes ten days every month, and had intense bearing down pains. My husband had the best physician for me and I used his medicine for nearly four months, but I gradually grew worse, had less strength, and finally, I was unable to leave my bed at all.

A friend who was calling on me brought me a bottle of Wine of Cardui and was so loud in its praise that I told her that I would take it to please her.

I was surprised and pleased that before I had used the bottle I really felt better so I kept on taking it. Eight bottles brought back my lost health and strength, and I have not had a sick day in six months.

Mrs. C. Finnegan

**WINE OF CARDUI**

Mrs. Finnegan had little hope of relief because she knew that every time she had those spells of menstrual suffering with attendant bearing down pains she was weaker. And every month the pain was growing more severe.

But Mrs. Finnegan was cured by Wine of Cardui. She is now so well that there are few women who would not be glad to have the health she has. And any woman who has those dreaded bearing down pains can have the same relief.

You can be free from menstrual irregularities if you take this pure vegetable wine. Why don't you take it when you see what it has done for others? Secure a bottle of Wine of Cardui today. Your druggist has \$1.00 bottles.
