## TO CATARRH SUFFERERS

Hymel. Guaranteed to Cure By F. S. Duffy  
Or Money Refunded.

The popularity and increase in the sales of Hymel are unique in the annals of medicine. Such astonishing cures have been made by this remedy that the proprietors have authorized F. S. Duffy to sell every package of Hymel under an absolute guarantee that it will cure catarrh. If it does not, the purchaser can have his money refunded by F. S. Duffy.

The complete Hymel outfit costs but \$1.00 and consists of an inhaler that can be carried in the vest pocket, a medicine dropper, and a bottle of Hymel. The inhaler lasts a lifetime, and if one bottle does not cure, an extra bottle of Hymel can be obtained for 50 cents. It is the most economical of all remedies advertised for the cure of catarrh, and is the only one that treats diseases of the respiratory organs.

Breathe through the inhaler for a few minutes four times a day, and your catarrh is cured. That's all.

If not cured F. S. Duffy will refund your money.

## WOMAN

An Attractive Garment.

Nothing appeals to the delicate woman more surely than tasteful negligees. This one is made of white lawn with trimming of embroidery and can be utilized either for the hours of relaxation in one's own room or for the family breakfast table, being essentially graceful and becoming. The material and the embroidery are both attractive

TASTEFUL NEGLIGEE

and practical, inasmuch as they launder admirably well, but there are many pretty flowered batistes, organdies and the like which make exceedingly attractive garments of the sort, and wash silk also is much used, while trimming can be lace frills or almost anything that may be preferred, while it may be well to add that for the cooler days or for the trip to the mountains or the seashore, chills, albatross and the like are much to be commended. For the medium size will be required 6 1/2 yards of material 27, 3 1/2 yards 32, 2 1/2 yards 44 inches wide, with 7 1/2 yards of insertion and 2 1/2 yards of embroidery for frills.

### Reds Much in Vogue.

The reds most in vogue just now are the tomato and geranium colors. The red of the geranium is also worn and the matches red of the camellia. These shades are seen everywhere and in everything, but particularly in the red of the geranium worn a great deal, says the St. Louis Globe-Democrat.

The most popular red for gowns is cerise. This lovely French shade, familiar to all, comes in cloth of so soft and lovely a tone that it fairly pleads for love. It makes up very well indeed with a deep green and is very ladylike when subdued with dark green leather and with dark green bands of stitched cloth.

## NO POLITICAL DEFLECTION

The State is Safely Democratic for Years to Come.

The Condition of the Cotton Crop and Prospects for Prices. Big Meeting of Agricultural Commissioners for Cotton Growing States in Richmond. Arrangements for Big Ball.

Raleigh, Sept. 25.—Your correspondent had an interview with an ex-Democratic State Chairman regarding the political outlook in North Carolina. He said: "All the talk about North Carolina being in danger of being lost to the Democrats is idle. There is nothing in it, but yet I want to say that a very considerable number of the young men are more inclined than ever before to look with favor upon the Republican party. In the last election the Republicans were able to poll about 81,000 in this State, and I think they will be able to show perhaps as many as 90,000. They are lucky devils, as the phrase goes. While as I have said there is no danger of any defeat for us, yet we cannot afford to a still and take things easy."

In the course of a chat with Sheriff Page, who is a farmer and naturally one of the best informed men in this country, he said regarding the present cotton crop: "I think it has cost something like eight cents a pound to raise it. You must remember that labor costs very much more now than heretofore, say 75 cents to \$1 a day; mules have about doubled in price and in fact everything is higher. This crop was more expensive than usual, because of the very wet summer. I see a good deal of cotton being sold here, say 300 bales a day and when I asked some men why they were selling they said that they were getting a good price for green cotton, which if they hold would lose in weight, and that they figured they were getting very close to 11 cents a pound for it, allowing for shrinkage. I held it. There will be much holding after the first picking. Really the growers, as a general thing, got a good price for the first crop, as many sold early when the figures were high, and others sold late when cotton rose to a paying price. A few became scared and turned loose early in the spring during the dropping prices, while those who held got a good figure." Cotton is certainly opening very rapidly indeed, being forced by the dry and hot weather and very plainly the effects of such forces.

At a meeting of the commissioners of agriculture of the cotton growing States at Richmond beginning Oct. 11, there will be addresses by Prof. W. F. Massey, Dr. Tait Butler and Prof. H. J. Hume. Commissioner of Agriculture Patterson is expected to be back from Europe by that time and to attend this morning.

For many years the great hall at the State Fair, known as the Marshall's has been held at the Capitol Club but this year there is a movement to have it in the auditorium at the Agricultural and Mechanical College which is the largest room here.

### Letter To J. E. Latham & Co.

New Bern, N. C.

Dear Sir: The way to reckon on the cost of paint is to put both coats together; the cost of the paint and the cost of putting it on.

It would save this country hundreds of millions of dollars a year; it would save you alone if you happen to be a victim, several dollars a year.

See how it works. It costs as much to put on one paint as another, don't it?

Yes, if you use the same number of gallons.

Well, don't?

No, you'll use twice as many gallons of adulterated paint as of Devco; and you've got to pay twice as much for putting it on.

Mr. N. Avery, Delhi, N. Y., has two houses alike and in same condition. Painted one house with a paint that was half adulteration; 12 gallons. Same painter, Geo. Gilbert, did both jobs. One cost \$37; the other \$54.

Better go by the name.

Yours truly

F. W. Devos & Co.  
P. S.—E. W. Smallwood sells our

## Royal Baking Powder Absolutely Pure

Royal Baking Powder is indispensable to finest cookery and to the comfort and convenience of modern housekeeping. Royal Baking Powder makes hot breads, cakes and pastry wholesome. Perfectly leavens without fermentation. Qualities that are peculiar to it alone.

ROYAL BAKING POWDER CO., NEW YORK.

### Union Station For Goldsboro

Special to Journal.

Raleigh, Sept. 25.—Recently citizens of Goldsboro petitioned the Corporation Commission for an order to compel railroads to erect a union passenger station there. The commission informed the railways centering there of the petition and today was advised by the roads, Atlantic Coast Line, Southern, and Atlantic and North Carolina, that they were arranging for conference to consider the matter. The Commission concludes that the roads will build the desired station. If they do not there will be a hearing upon the petition and if necessary an order will be made.

### Revival Meetings at First Baptist Church.

Rev. J. M. Haymore of Tennessee, commenced a series of revival meetings in the First Baptist church Sunday. There is every prospect that much interest will be taken in the meetings as they proceed. The attendance is large and the sermons are practical, sound and full of gospel warnings. Rev. Haymore tells his message with sincerity and with force and he will undoubtedly meet with large success.

### Police Court News

There was one of those peculiar trials in the city court yesterday that occasionally gains publicity whereby it is demonstrated that the colored man's religion is sometimes anything but peaceable, as the doctrines generally taught in church and Sunday schools are supposed to produce peace and good order.

One Zenie Chandler was before the mayor for breaking up a religious meeting Sunday evening, by loud and boisterous talk and hindering the progress of the spirit as some of the complaining witnesses said. Reva, Jenkins and Kennedy are joint preservers of a colored Baptist congregation which holds its services in a private house up town. Jenkins is dubbed "wild cat" and Kennedy "coal burner." They avowed ignorance of any such names but other witnesses stated they were commonly known by those nick names and they had used them themselves to gain notoriety.

Both preachers were charged with performing peculiar antics while under the influence of the spirit, or as is commonly known when they have the "power." They denied all knowledge of doing anything else than just what a preacher ought to do in the practice of his vocation but admitted they did sometimes get a little excited. Rev. Jenkins testified that he had seven talents and Kennedy five. It is not known what is meant by this term "talents," but it is supposed Jenkins is able to holler louder and longer than Kennedy.

During the course of the trial it was found that Chandler carried a concealed weapon, having the ever handy "razor" with him and he was bound over for trial in the Superior court under \$50 bonds. The case of disorderly conduct was dismissed.

### New York Cotton Market.

The following were the opening and closing prices on the New York Cotton Exchange, Sept. 25.

	Open	High	Low	Close
Oct	10.66	10.75		10.67
Dec	10.81	10.95		10.86

Receipts 52,571

### The Kinetoscope.

The moving picture exhibition at the Opera House Thursday evening will be something entirely out of the ordinary. The scenes are those taken from the actual occurrences and in many instances were taken by Mr. Wyndham himself. He has traveled extensively and the people to whom he lectures get the benefit of his personal observations. It will be a highly instructive and interesting entertainment.

Of the thrilling war scenes to be seen several battles of the Boer war will be depicted and a naval engagement between Russia and Japan. The art series will consist of New Jerusalem, The Holy City, Birth of the Savior, Crucifixion, Ascension, together with Raphael's master piece, Heaven.

The Imperial Kinetoscope (unlike all other machines) does not affect the eyes. It is a pleasure to look at the moving scenes of life, and wonder what is coming next.

Mr. Wyndham prefers to work his own machine because annoying and embarrassing delays caused by incompetent assistants, are avoided, and furthermore, very few people are competent to manage successfully the Imperial Kinetoscope.

The proceeds are to be used for the Childs Study Department of the Women's Club. This is a new enterprise and is a most worthy cause. Admission 25 and 35 cents; children 15 cents. Seats reserved without extra charge.

### Call No. 15 Craven County Railroad Bonds.

Notice is hereby given that (14) Craven County Rail Road bonds of the denomination of \$500 each have this day been drawn for the sinking fund of said county in accordance with the act of assembly authorizing their issue as follows: Five hundred dollar railroad bonds numbered 121, 127, 128, 129, 132, 133, 134, 155, 156, 158, 179, 208, 180, 189. These bonds will be paid principal and accrued interest to November 1st, 1906, upon presentation at the National Bank of New Bern N. C., on or before the 1st day of October 1905. Interest on the above bonds will cease on and after the 31st day of October 1900.

C. E. Foy, Chairman

## GOVERNOR RETURNS

Evidence of Investigation and Directors Re Splendid Visit Newin land

Report On Rail Killing Given The Governor. Waits Law And More Liquor. Pecan Tree 65 Years Old Bears Well.

Raleigh, Sept. 25.—Governor Glenn has returned from his trip to New England and was at his desk early this morning looking very well indeed. He expresses delight at his New England visit and will write a letter in which he will express his pleasure. He found people there wonderfully friendly. People here at home, as your correspondent ascertained him just before his departure. Never was any visitor given more attention than was paid him, and his visit ranks with the notable one of Governor Jarvis to New England thirty two years ago. Both these gentlemen made a splendid showing for North Carolina.

Chairman Jno. W. Thompson of the Board of Directors of the Central Hospital for the Insane here this morning placed in the governor's hands the evidence taken in the investigation of the killing of Thomas Nall, together with the report of the directors on that matter. The governor will take this up in all probability tomorrow and if he sees fit to give the report to the press will do so. His examination will be very thorough and if he finds it necessary to continue the investigation or to put it in any other shape the public may feel certain that he will take such steps.

The number of students from points other than Raleigh now at the Agricultural and Mechanical is 410 and there are 50 from Raleigh.

An inspector for rural free delivery mail routes is here and reports that he has laid off two new ones. One from Middleburg, Vance county, which becomes effective Nov. 1st; another from Henderson which will be out in operation not later than Nov. 15th. There are now 1,040 routes in the State.

A term of the Superior court, here, began today and which is of considerable interest because of some important cases which are to come before, or rather which are set for it. There is one murder case on docket, but the defendant is at large and is thought has fled the State.

Some of the opponents of the Watts law are making the claim that more whiskey is manufactured in North Carolina now than was made before the law went into effect. Persons in a position to know say that this statement is without any foundation whatever.

Extremely fine pecans were shown here today, taken from a tree 65 years old, which was the first one planted anywhere in this section of the country. This tree has this year perhaps five hundred pounds of pecans. The curiosity is that these are in clusters of three to eight nuts. The trees are all very prolific and it is regarded as remarkable that this profitable nut is not grown here more.

Goes further and further. Never stops until you are well. That's what Hollister's Rocky Mountain Tea will do. A great tonic. Makes rich, red blood, firm flesh. 35 cents, Tea or Tablets. Sold by F. S. Duffy.

## Tax Books Now Open

The Tax Books for 1905 are now open and every taxpayer is invited to call and pay up at once.

J. W. BIDDLE, Sheriff Craven County.

### Notice!

An examination will be held on Thursday Sept. 28th at 1 p. m. at the white Graded School for all who wish to apply for positions in the White Graded School.

The election of teachers for the two vacancies will take place on Friday Sept. 29.

H. B. CRAVEN, Superintendent

## PSORIASIS AND ECZEMA

Milk Crust, Tetter, Ringworm, and Scalled Head, and Every Form of Torturing, Disfiguring Humors from Infancy to Age.

## CURED BY THE CUTICURA REMEDIES

The agonizing itching and burning of the skin, as in eczema; the frightful scaling, as in psoriasis; the loss of hair and crusting of the scalp, as in scalled head; the facial disfigurement, as in pimples and ringworm; the awful suffering of infants, and anxiety of worn-out parents, as in milk crust, tetter, and salt rheum—all demand a remedy of almost superhuman virtues to successfully cope with them. That Cuticura Soap, Ointment, and Pills are such stands proven beyond all doubt. No statement is made regarding them that is not justified by the strongest evidence. The purity and sweetness, the power to afford immediate relief, the certainty of speedy and permanent cure, the absolute safety and great economy have made them the standard skin cures and humor remedies of the civilized world.

## CAPT. GRAHAM'S CURE

Of Distressing Humour.

Captain W. S. Graham, 1321 Eoff St., Wheeling, W. Va., writing under date of June 14, '04, says: "I am so grateful I want to thank God that a friend recommended Cuticura Soap and Ointment to me. I suffered for a long time with sores on my face and back. Some doctors said I had blood poison, and others that I had barbers' itch. None of them did me any good, but they all took my money. My friends tell me my skin now looks as clear as a baby's, and I tell them Cuticura Soap and Ointment did it." Cuticura Soap, Ointment and Pills are sold throughout the world. Peter Irving & Co., Corp., Boston, Sole Agents. "See how it cures every humor."

### The Handkerchief Sleeve.

Pretty knifons always offer an attractive field for the woman who can construct, and one of the prettiest summer arrangements is achieved in the handkerchief sleeve. It is a large square of the material—say white lawn—bordered with colored lawn or trimmed with a straight edge of embroidery. The square should be as large as a man's largest sized handkerchief, and the circular piece for the armhole is cut a little to one side of the center so as to leave the greatest length of the sleeve on top.

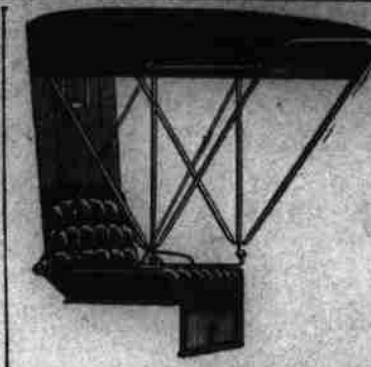

### In the French Style.

Long waited or French dresses are very generally becoming to little girls in addition to being in the height of style. This one is unusually attractive because of its big yoke collar, with wide frill, and is made of Persian lawn combined with embroidery, but it is suited to almost all childish materials. The yoke collar is a feature, and a most attractive one, but nevertheless is not obligatory, as it can be omitted and the plain yoke substituted. In the case of the lawn there is no body line.

DRESS FOR LITTLE GIRL.

ing used, but the model will be found practical for the dresses of cooler weather as well as for those of immediate use, and when cashmere, challie and the like are the materials chosen the lining is in every way desirable. For a child of six years will be required 3 1/2 yards of material 37, 6 yards 32, or 2 1/2 yards 44 inches wide, with one-half yard 18 inches wide for the yoke and 1 1/2 yards of embroidery and 2 yards of banding.

WE MAKE A SPECIALTY IN TOPS FROM \$10 to \$15

made to your order, and cart wheels and axles from \$10 to \$15 made to your order; a very reasonable price for immediate sales.

We put Rubber Tires on your old or new wheels.

We shrink your loose tires in a machine without cutting them, or without taking time from wheel as a user while you wait. Everybody is invited to see the machine at work putting new bolts in old wheels.

G. S. Waters & Sons,

Phone 185,

78 Broad St. New Bern, N. C.

## CORRECT DRESS

The "Modern Method" system of high-grade tailoring introduced by L. E. Hays & Co., of Cincinnati, O., satisfies good dressers everywhere. All Garments Made Strictly to Your Measure. At moderate prices. 500 styles of foreign and domestic fabrics from which to choose. Represented by J. G. DUNN & CO.
