

**Appointed As Delegates.**

Editor C. L. Stevens received last night from Governor Glenn an appointment as delegate from this State to the Southern Conference on Immigration and Quarantine to be held in the city of Chattanooga, Tenn., Nov. 9th and 10th. A convention which will consider matters of importance to the whole South.

**MRS. RALPH GRAY HURT**

**While Driving With Her Sister She Sustained Painful Injuries.**

Mrs. Ralph Gray was the victim of a distressing accident yesterday and she is liable to be laid up on account of it for several weeks. She was driving with her sister, Mrs. H. C. Lumsden, on South Front street between Hancock and George streets while a train was switching cars on the Elm City Lumber Company's side track of the A. & N. C. road. The steam exhaust of the engine frightened the horse and it reared and scared the ladies and Mrs. Gray jumped out. She landed in such a manner that her foot turned and the ligaments of her ankle were torn and lacerated.

She was removed to her home and Dr. Primrose attended to her injuries. Last night she was reported as resting as well as can be expected. Mrs. Lumsden was not injured.

The horse did not run but fell in the shafts and nearly demolished the buggy in its efforts to free itself. It was restrained by the by-standers before much damage was done.

**Superior Court at Beaufort.**

The Superior Court for the trial of criminal cases is in progress at Beaufort this week and there are several quite important cases being tried. It is said that blind tigers abound in Carter county and that officers are busy arresting alleged violators of the liquor law.

Prominent among these is the case of State vs. Bennie and Laurie Garner and Sam Hall. The parties live in Newport and last summer the two Garners, who are released, became involved in a fight with Hall and the latter was cut and stabbed in ten places. He nearly died of his injuries. This was a case where the parties had been drinking. The three defendants were found guilty of an affray by the judge. The case aroused considerable interest in the entire county and several hundred people witnessed the proceedings.

The attorney for the Garners was Mr. D. L. Ward and Messrs. A. D. Ward and R. A. Nunn represented Hall's interests.

**Wire Grass**

October 18th

The weather keeps warm for fall, probably it is an indication that we are going to have a mild winter.

Many of our people are attending court at Beaufort this week.

Capt. and Mrs. James S. Caffrey and daughter, little Miss Estelle, of Beaufort, were visitors at the home of Mr. and Mrs. D. F. Langdale last week.

Misses Leila Hardesty of Harlowe and Pearl Langdale spent Thursday in Beaufort.

Rev. and Mrs. J. R. Jennett and children were guests of Mr. and Mrs. D. E. Langdale Sunday.

Mr. J. H. Davis of Harlowe passed through our village Sunday afternoon enroute for Beaufort.

Messrs. D. E. Langdale and W. D. Hunnings left this morning for New Bern where they go to sell cotton.

The painters, Messrs. Ramsey and King of Beaufort, have begun painting and putting the finishing touch on the inside of the M. E. Church at Tuttle Grove.

The "Vandelaar" sailed yesterday from the dock of the Saunders & Norris gin, bound for New Bern with a cargo of cotton.

While in the forest cutting light-wood, Saturday about noon, with Mr. Ezekiel Wooten, Mr. Isaac Guthrie, a young man, was rendered unconscious by brain trouble, and had to be taken to his home by force. He remained unconscious until Monday morning. He is being treated by Dr. C. M. Maxwell of Beaufort, and at this writing seems to be recovering.

ZOE.

FOR SALE—One fine, large horse, suitable for buggy, dray or plow. A splendid traveller, kind and gentle. C. T. Hancock.

**A GRAND PARADE.**

**A Review of the Military Service of the United States From Colonial Days to Date.**

In the American character a martial spirit has ever been evidenced. Familiar with the use of firearms from boyhood—accurate marksmen—it is no surprise to the student of our military history that the volunteer soldier has always been the most prominent in actions at arms, acquitting himself with honor wherever engaged. The volunteer soldiers of America make the pages of the history of this country's wars interesting reading. The volunteer soldier is the idol of the American people.

A stupendous spectacle depicting the glorious achievements of the volunteer soldiers of America is one of the offerings of the Donnelly & Hatfield magnificent minstrels, with elaborate stage embellishments, sumptuous scenery, inspiring music, a mammoth military pageant, "While Old Glory Waves" is the title. The first scene is that never-to-be-forgotten exploit of Washington and his army crossing the Delaware on that bleak December night, culminating with the successful attack on the Hessians at Trenton—one of the notable events that stirred the volunteer soldiers of Revolutionary times to dreams of American supremacy, that made patriotism a pride and love of country a religion with them.

The second section of the review is illustrative of the war of 1812. No more decisive battle was ever fought than that "Hickory" Jackson and his valiant volunteers behind the cotton bales at New Orleans. This is one of the most striking events in the series of pictures illustrating this great review.

The third great tableau deals with the Mexican war. In that war the "Alamo" is an event recorded as the most remarkable of the war of 1849. The names of Davy Crockett and Sam Houston were immortalized. Not until the last shot was fired and the last defender was dead did the enemy obtain possession of the Alamo. Nothing more realistic has ever been portrayed on the stage than the sanguinary scene enacted at San Antonio.

This grand spectacle will be seen in the splendid pageant of the Donnelly & Hatfield minstrels Friday night, Oct. 20.

—A. P. N.

Miss Louise Bond of Edenton, who has been attending the Lynn-Davenport wedding, has left for home.

Miss Rena Mills of Wilmington, who has been attending the Lynn-Davenport wedding left for home.

Mr. and Mrs. H. C. Lynn of Richmond, who were here for the Lynn-Davenport wedding, left for home.

Mrs. Harry Ross and daughter, Miss Ethel, of Baltimore, are visiting at the home of Mrs. B. H. Brinson.

Mrs. E. W. Watson returned last night after passing a few days with friends in Pender and Onslow.

Mrs. F. D. Perry and daughter went to Beaufort to spend a few days.

Mrs. Geo. B. Waters and Miss Mattie Clark spent the day in Havelock yesterday.

Mr. R. L. Watkins, representing the Buckhorn Lithia Water Co. of Henderson, was in the city yesterday.

Hon. Charles R. Thomas is attending the meeting of the State Historical and Literary Society at Raleigh.

Mrs. W. H. Griffin and son and her sister, Mrs. Eagle, left for Tarboro yesterday where they will reside.

Miss Fannie Griffin went to Winston-Salem yesterday to attend the Moravian school.

Mrs. M. O. Windley and daughter, Miss Bettie, returned last night from a visit in Nyack, N. Y.

Prof. L. B. Ennett of Cedar Point, is the guest of his brother, Mr. G. N. Ennett.

Mr. W. G. Forlong of the A. C. L., Richmond, Va., was here last night on his way to Onslow Court at Jacksonville.

**Located Bullets by X-Ray.**

Dr. Pollock of Dover, came here yesterday with Andrew Rhodes, colored, who was shot some weeks ago in an affray, and who was brought here by Dr. Pollock, in order to locate two bullets which are in the body of Rhodes, who was taken to Dr. J. F. Rhem's office and at once placed under the X-ray, which Dr. Rhem recently added to his office equipment. Without difficulty both bullets were located and Dr. Pollock left last night for Dover with his patient. Before leaving Dr. Pollock spoke in high terms of the X-ray machine, and what an assistance it was in such cases as the one he brought to New Bern.

**Maple Grove.**

October 17th.

Mr. William Henderson and family visited Mr. W. W. Pollock Sunday.

Mr. and Mrs. H. M. Pollock of Trenton visited Mrs. Mary E. Jenkins Sunday afternoon.

Miss Eunice Hall and brother Mr. Henry Hall was in our midst Sunday.

Mrs. Nannie Westbrook and Miss Lillie McDaniel of Trenton visited Mrs. Dalis McDaniel Sunday.

Mr. William Costons, wife and little daughter, who have been sick for over a month are improving fast.

May Flower.

**BEAUFORT THE BEAUTIFUL**

**The City By The Sea Is Entering a Life of Prosperity.**

The city of Beaufort is now experiencing prosperity which in ordinary parlance is called a boom but in reality is more solid and permanent than a mere boom. It is to have what the people have long craved—a railroad and if plans materialize there will be two railroads. That one is to be built there is a certainty. Work on the big trestle connecting Beaufort with Morehead City has commenced and will be pushed vigorously. It is hoped that it will be completed so that trains can run over it by the time the summer season begins next year.

With this innovation another enterprise will be established and that is to be a modern hotel. It is well known that the citizens voted to bond the city in the sum of \$15,000 to secure the site for this hotel, having the assurance from capitalists both in and out of Beaufort that money would be furnished to erect a handsome and commodious hotel to provide for the multitudes that throng to this popular resort in the summer season.

The natural advantages that Beaufort enjoys as a resort make it very popular even when it is a great inconvenience to reach the place, consequently it is easy to see that its popularity will be largely increased by the construction of these railroad facilities.

The beauties of the city are being added to year by year and it is safe to say that Beaufort is in the beginning of a prosperous era which will grow until the city has a reputation as a resort that will be second to none in the State.

Among the interesting attractions at Beaufort is the wireless telegraph station at the U. S. Fish Commission laboratory. As is well known the laboratory is located on an island opposite Beaufort and is one of the best stations on the coast from where specimens of sea life can be obtained.

The wireless telegraph station was established in August and the equipment is not complete yet, but apparatus will soon be put in to enable the operators to perform their work. This is a science that is only in its infancy, the first wireless message having been sent only a little more than a year ago.

The machinery at the Beaufort station is for the Massie system and is manufactured at Providence. It is complicated to the person not familiar with the terms and uses of the instruments but it is declared to be the best system in use; finding more favor than the Marconi system which always had the name of being the original.

Mr. J. C. Claus, a young gentleman who has proved himself proficient in the science of wireless telegraphy, has charge of the Beaufort station. He states that the position of that station is the most advantageous on the coast, and he hopes to get good results from his experiments which he is making all the time. When the station will be in full operation there will be a number of men to assist him in his work. This feature together with the deepening of Beaufort harbor, which work is in progress at the present time, will make Beaufort a very important sea port. Other improvements are contemplated which will increase Beaufort's importance in the history of the State.

St. Paul's School, an institution of learning in that city, is a growing school and a great factor in Beaufort's progress. It has been established for several years and each year sees material improvement and advancement. There is a large dormitory being built in connection with the school which signifies that the foreign attendance of the school is growing too large to be accommodated at private boarding houses. The management and instruction at the school is excellent and it is one of the flourishing institutions of education in Eastern North Carolina.

**Reduced Rates via A. & N. C. R. R.**

Round-trip rates on the Certificate Plan are authorized from all points on the A. & N. C. R. R. account the following occasion:

Neuse River Baptist Association, Ayden, N. C., Oct. 26-29, 1905

Certificates to be signed by Mr. C. C. Teague, moderator, and by Mr. E. L. Brown, special agent, Ayden, N. C., Agent Kinston, N. C., will honor certificates on or before November 1, 1905.

North Carolina Christian Missionary Society, Lagrange, N. C., Oct. 23-26, 1905. Certificates to be signed by Mr. J. B. Jones, Corresponding Secretary, and by Mr. J. V. Graham, Lagrange, N. C. Agent LaGrange will honor certificates on or before Oct. 30, 1905.

Bible Institute, Y. M. C. A., of North Carolina, Chapel Hill, N. C., Oct. 21-24, 1905. Certificates to be signed by Mr. A. F. Jackson, Secretary, and by Mr. T. J. Fraley, special agent, Chapel Hill, N. C. Agent Chapel Hill will honor certificates on or before Oct. 27, 1905.

R. E. L. BUNCH, T. M.

**Wounds, Bruises and Burns**

By applying an antiseptic dressing to wounds, bruises, burns and like injuries before inflammation sets in, they may be healed without maturation and in about one-third the time required by the old treatment. This is the greatest discovery and triumph of modern surgery. Chamberlain's Pain Balm sets on this same principle. It is an antiseptic and when applied to such injuries, causes them to heal very quickly. It also allays the pain and soreness and prevents any danger of blood poisoning. Keep a bottle of Pain Balm in your home and it will save you time and money, not to mention the inconvenience and suffering such injuries entail. For sale by Davis Pharmacy and F. S. Duffy.

**Sleep impossible with scratching Eczema diseased feet and ankles.**

Read what this Indianapolis man says and believe that this is more than medicine talk.

Indianapolis, Ind., May 22, 1904. About two years ago I had a bad case of eczema on my hands, which later broke out on my feet and ankles. Nobody knows what I suffered as I lay awake at night trying to devise some way to keep from scratching the diseased places. I tried physicians, but got little or no relief. I tried patent remedies with like results. I began to feel it was almost insupportable when I was induced to try a bottle of D. D. D. The effect of the first application was worth many times the price of one bottle. I continued using D. D. D. for six weeks and it was completely cured. I have never had any signs of recurrence of the disease.

HENRY MITCHELL, 1401 Orange Street.

Such misery now cleared away as surely as the sun shines above. Not merely attended, not a matter of improvement merely, not a temporary relief—but a clearing of it all away absolutely and permanently. The D. D. D. Prescription, a specific formula, put up in sealed bottles with authentic label at \$1.00 per bottle, has proven to be the only certain cure for these diseases. Its record of cures is astonishing, amazing, almost miraculous. It is a liquid, used externally, non-greasy.

Try it on our guarantee.

**WE PROVE IT.**

To convince you we have arranged with the D. D. D. Co. so that any sufferer from any skin diseases can get direct from the D. D. D. Co.'s laboratory a large free sample bottle of D. D. D. prescription together with 32 page new pamphlet on skin diseases and free advice on your particular case from the world's greatest skin specialists.

Write to: Medical Department, D. D. D. Company, Chicago, for free consultation and advice.

**A Favorable Report**

The committee of ladies appointed by the Village Improvement Department, canvassed the different streets last week and consulted with property owners in interest of shade trees. While the reports were good, and show that the citizens generally, heartily endorse this most excellent work of the Women's Club, yet there are still a great many who have not been consulted, being either out of town, or away from home. In order to give each one a chance to secure shade trees at a slight cost, the city of course, it is understood, will plant these trees out, thereby making the cost of the tree the only expense to the buyer. The ladies will place a list of shade trees that are highly recommended, and being taken by different parties at the Journal office, and those wishing trees will please call at the office and write their names opposite the tree they prefer, and number of trees, and your order will be sent with others in a short time. The object in urging this is to get the trees here by the middle of November, which is the proper time for planting them.

Arbor day will be celebrated with appropriate exercises, beginning with the Graded School. It is just and proper to plant trees there, keep 'em square as it has always been, a beautiful shaded green. Inspire in the hearts of the children a patriotic love. Let them realize that they too have their part of the work to do, in beautifying and improving our city. There can be no better place than there, where their young minds and hearts are being trained and fitted to fill the many noble calls of life and duty.

Over a Million Vehicles.

According to the census of 1900 the number of vehicles of every kind manufactured in the United States during that year was 1,697,272, while the cost of material used by the 7,632 establishments reporting to the census bureau was as follows: Lumber, \$8,940,823; iron and steel, \$11,892,442; carriage hardware, lamps and mouldings, \$3,942,629; paints, oils, turpentine, and varnish, \$4,048,383; enamel, rubber, and cloth, \$3,165,987; leather, \$3,538,719. Among the vehicles manufactured in 1900, 974,482 were family and pleasure carriages, 2,216 were public conveyances, and 675,351 were wagons to be used for business and farm purposes.

The total value of the conveyances built in the United States in the last census year was more than \$91,000,000, while the sum received by the carriage manufacturers for repair work in 1900 was in excess of \$25,000,000. The November Metropolitan Magazine.

Italian physicians declare that the "American bars" established in their cities in recent years are responsible, with their food drinks, for the increased number of cases of serious apoplexy in warm weather.

**A FEW DON'TS.**

Don't write letters with a lead pencil.

Don't write on soiled or torn sheets of paper.

Don't fail to inclose a stamp to carry an answering letter to a letter of business.

Don't send a letter bearing blots or smudges. Make a new copy if necessary.

Don't send a letter of introduction. The person to whom it is given is supposed to inform himself of its contents.

Don't write carelessly. Spell correctly and be painstaking about your punctuation and the language in which you express your thoughts.

**QUESTION OF RAILROAD.**

**Do Citizens of Vanceboro And Number Two Township Want Raleigh And Pamlico Railroad Extension?**

The projectors of the Raleigh and Pamlico Railroad, which is building from Raleigh to Washington, N. C., are contemplating building towards New Bern from Washington, their road to pass through Vanceboro and Number Two Township in Craven county. In building through these townships, the projectors expect to find out how much the people want this railroad, and this means, will the taxpayers of these townships be willing to vote township bonds, to be given in exchange for second mortgage bonds of the Raleigh and Pamlico railroad of equal amount, and bearing the same interest. This matter will come before the commissioners of Craven county in their November meeting, when they will be asked by the Raleigh and Pamlico railroad projectors, that a bond election will be called for the purpose as noted above.

The amount of bonds expected to be asked for is \$25,000 from Vanceboro township and \$10,000 from Number Two township; five per cent, and the railroad people will give in exchange the same amount of their second mortgage bonds, five per cent interest.

The section of the State through which the Raleigh and Pamlico road will pass, has voted bonds, and the people are greatly interested in the road's extension. Sixteen miles from Raleigh are already completed and work is now going on. Near Washington, by January first, it is planned that one hundred convicts will be at work, grading through Chocowinity Swamp, and the builders are taking up the construction along the entire line.

The people of this county, through which the road would pass need an outlet which such a railroad would give them. It is a matter demanding their attention and action, and they should seek full information on the matter and be prepared to act decisively when the question is brought up for their votes. The Journal will have further and more detailed particulars on this subject in following issues of this paper.

**Sport and Skill.**

"The Darktown Circus" is the title of one of the interesting features of the Donnelly & Hatfield magnificent minstrel, under the personal A. G. Field. It is a burlesque on the popular tent show and is replete with humor, every detail of the canvass exhibition being developed. Many hundreds of dollars were spent to produce this burlesque act. The scenic investitures and stage effects being the most complete ever devised. The big company consisting of forty people participate in the burlesque which closes the performance. So clever is the animal portrayal of this act that it takes but a little imagination on the part of the audience to behold that they are sitting on the narrow boards opposite the sawdust ring.

Animals in every hue and color run rampant in the calcium light, noises peculiar to the cages, the springboard and ring are heard upon every hand. The small urchin gingerly reaches his tail peanut to the hungry elephant while the monkeys climb the bars and wide-eyed watch the broad panorama of events. At an opportune time the lion breaks from his cage and plays havoc among the other animals and the people who have congregated around the cages.

Everybody scatters for a place of safety. The monkeys scream and the lions roar. The motley clown steals the rube's best girl and the rube gets mixed up with the hyena's claws. During the enactment of this scene a typical circus band plays its melodies.

This feature which will be seen at the Opera House tonight is alone worth the price of admission. Donnelly & Hatfield are the Kings of Minstrelsy.

**FOREIGN FACTS.**

Fifty per cent of the insanity in England is ascribed to heredity by recent official investigation.

Quek's florid immensely in Russia. Dr. Kiriloff can see only one effective remedy against them—a better education for the masses.

The general in command of the recent field operations in Scotland by volunteers stopped a "battle" before it was half over. But it was explained afterward that he "had to catch a train."

At Venice the other day a submarine boat was christened, not by the breaking of a bottle of champagne over the bow, but by the sinking of a ring into the lagoon in accordance with an ancient custom.

Italian physicians declare that the "American bars" established in their cities in recent years are responsible, with their food drinks, for the increased number of cases of serious apoplexy in warm weather.

A FEW DON'TS.
