**THE APPEAL TO CIVIC PRIDE.**

Nothing that has been attempted in this city, which ought to appeal strongly to the civic pride of every one, and find unanimous support and endorsement, is that of the work now undertaken by the Woman's Club, who members ask that their efforts receive the cordial sympathy, which means success in their efforts.

In the Department of City Improvement, is this particularly true, for in the tree planting now going on, is one means towards the accomplishment of an end, for a beautiful city.

A southern city which has a local organization whose efforts are directed towards beautifying its city, recently issued a letter to nearly every resident asking their co-operation. A portion of this letter is of special interest at this time, being very applicable to New Bern. The letter says:

The first essentials in improvement in appearance are cleanliness and order. Without these as a foundation we can do nothing. There is a second proposition as true as the first, we cannot have cleanliness without the co-operation and sympathetic aid of the men, women and children. We think that with your influence and support in a few years we will be able to beautify our homes and improve our streets, remove garbage and obstructions of all kinds, and make this known as an attractive and beautiful city. This will raise the value of property, bring more people here, and in a word, benefit everyone. Many people will ask: 'Why cannot the city council unaided bring about these desirable changes?' The answer is not far to seek. They have not the support of public opinion, which it is the object of these associations to arouse. Nor have they the money.

The Woman's Club of New Bern has not reached so far in its work as the above, but it is following a system which co-operated in by the people of this city, will mean a much better city, in health, appearance and property values. There is an appeal in this work now being undertaken by the Woman's Club, which ought to touch and arouse the civic pride of every one and bring out assistance which will promote the betterment of New Bern, and help make it an attractive and well kept city, a pleasure to those who live in it, and a welcome place to those who may visit here.

**RAILROADS THEMSELVES MUST REDRESS ABUSES.**

The arrogance of the Trusts, and the objectionable and harmful monopolies created by the railroads which to more or less extent threaten all industrial independence in this country, has naturally aroused a public hostility against them among the people, and the attitude of President Roosevelt, whose declared policies are for warfare against such abuses as are threatening the economic social and political conditions which have provoked the wildest enthusiasm, whenever the President has spoken, indicated the tendency towards the public demand for corrections in these abuses.

President Roosevelt declares he is against government ownership of railroads, yet there is much in his policies, unless those directly interested, the Trusts and the railroads, shall themselves actively take a hand in remedying the abuses that exist, there is the danger of public ownership, as the only solution of existing evils which are tending ever more strongly towards the suppression of the individual, and offer a barrier to private enterprise and industry.

The situation is really a serious one, for there is no doubt but that the public is aroused against railroads, and are eager to accept the leadership of the President, in his advocacy of a board which shall control railroad rates. And yet the adoption of this plan is plainly a lead towards socialism, for it means the denial to the railroad owners of the control of their own property, and the

affairs in the conduct of their railroads. What would be the inevitable result of this could be nothing less than government ownership, for government control would already be in force.

To save the country from this and themselves, the railroad people must affect the cure for present existing evils or abuses, which offend the people, and which are increasing the class hatred that has its basis upon the alleged injustices that the public must endure, while favoritism is shown to special shippers. The correction of these abuses is not a matter of charity for the railroad people to perform, but it is a matter which vitally concerns their own interest, and future stability, as private owners of important utilities.

**RACHEL CUTHBERT BROOKFIELD.**

"To live in hearts we leave behind, Is not to die," must have been in the thought of every one, who witnessed the dedicatory exercises held November first at Cedar Grove Cemetery.

Men seek to perpetuate their names by amassing wealth, by conspicuous contributions to charity, by attempts in trying to do showy deeds, yet these while they may cause the passing thought to momentarily pause, to perhaps gasp in wonder, to even utter words of compliment, still leave nothing in hearts behind them, and shall bear fruit and bearing, shall cost its seed to perpetuate goodness.

The quiet, painstaking little woman, whose memory was revered and honored in this city by the exercises at her graveside, did nothing, sought nothing, during life that she might be remembered, but the very simplicity, of her actions, the quietness of her deeds were such as to bear fruit, to make their impress, not merely in the day of their doing, but to grow with the days, months, and years, to make men, women and children mourn her departure, yet to treasure up her actions and works as precious things, worthy of a perpetual remembrance.

It is the charity of today, the unselfishness of the present hour, the help in every distress which rears monuments in the hearts of those around, that shall be enduring, lasting, forever. It is the life work and life living of women like Rachel Cuthbert Brookfield which are inspirations to all, which are their own monuments, not alone in the cemetery, but in the reflected lives of those whom she came in contact with, and bear in their lives the cherished attributes that may ever follow in succeeding lives, till eternity shall bring all to a close.

**Beware of Ointments for Catarrh that Contain Mercury!**

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free. Sold by Druggists. Price, 75c. per bottle.

**AUTOCRACY SURRENDERS.**

Czar Issues Manifesto to People.

Text of the Document. Later Affect Seems That People Dissatisfied Want Nobility Abolished and Universal Suffrage and Franchise to Women.

St. Petersburg, Oct. 30.—Imperial Manifesto was as follows:

"We, Nicholas the Second, by the grace of God, Emperor and Autocrat of all the Russias, Grand Duke of Finland, etc., declare to all our faithful subjects that the troubles and agitation in our capitals and in numerous other places fill our hearts with excessive pain and sorrow.

"The happiness of the Russian sovereign is indissolubly bound up with the happiness of our people, and the sorrow of our people is the sorrow of the sovereign.

"From the present disorders may arise great national disruption. They menace the integrity and unity of our Empire.

"The supreme duty imposed upon us by our sovereign office requires us to efface ourself and to use all the force and reason at our command to hasten in securing the unity and co-ordination on the power of the central government and to assure the success of measures for pacification in all circles of public life, which are essential to the well-being of our people.

"We, therefore, direct our government to carry out our inflexible will in the following manner:

"First. To extend to the population the immutable foundations of civic liberty, based on the real inalienability of the person, freedom of conscience, speech, union and association.

"Second. Without suspending the already ordered elections to the State Douma, to invite to participation in the Douma, so far as the limited time before the convocation of the Douma will permit, those classes of the population now completely deprived of electoral rights, leaving the ultimate development of the people of the electoral right in general to the newly established legislative order of things.

"Third. To establish as an unchangeable rule that no law shall be enforceable without the approval of the State Douma, and that it shall be possible for the election of the people to exercise real participation in the supervision of the legality of the acts of the authorities appointed by us.

"We appeal to all faithful sons of Russia to remember their duty towards the Fatherland, to aid in terminating these unprecedented troubles and to apply their forces in co-operation with us, to the restoration of calm and peace upon our national soil.

"Given at Peterhof, October 30, in the eleventh year of our reign. (Signed) NICHOLAS."

**Established A Record.**

News and Observer, Oct. 31. A Postal Telegraph messenger here is credited with eating fifty-eight bananas on Saturday. Is that not a record?

**A Plea to Citizens**

The women are making a most praiseworthy effort to renew our shade trees, and should have the encouragement and support of every property owner. It is the duty of an enlightened community to plant trees, and so to care for them that property shall not suffer. The varieties recommended by the best authorities on horticulture are pecans, willow oaks, water oaks, silver maples, sugar maples, ashes and elms. The oaks abound in our woods, and young trees from 8 to 10 ft. can be obtained by the hundred as low as 35 cents each. Just think of it, a thrifty young willow oak at 35 cents: "a thing of beauty and a joy forever." Are there not a hundred people in New Bern who want one? These are the kind growing on the macadamized road, and the government paid \$2.50 each for them. The other varieties will be ordered from the nurseries, at prices less than can be bought by individuals, concessions being made by the hundred lots. The Woman's Club is making nothing out of you, they give you the benefit of all reductions.

This is an opportunity that comes seldom. Take advantage of it, and go to the Journal office or Davis' Pharmacy and add your name to the list. You will find varieties and prices that will surprise you. The city will plant the trees.

Ancient witchery was believed in by only a few but the true merit of DeWitt's Witch Hazel Salve is known by every one who has used it for boils sores, tetter, eczema and piles.

**DISCREDIT THE STORY**

That American Minister at Nanking, China, Was Attacked.

Washington, Oct. 31.—The Washington naval department received two dispatches from Admiral Train dated yesterday at Shang Hai. No mention is made in either of them about his having been attacked by a Chinese mob at Nanking. The target practice of the battleship Oregon is the subject of one message, while the other conveyed an expression of pleasure from the mikado at the visit of the American warship to Japan. In view of the receipt of these messages the navy department officials are disposed to discredit the story that Admiral Train and his son were attacked at Nanking, Shang Hai, from which the dispatches come is a long distance from Nanking, which fact tends to throw discredit upon the story of the attack.
