OPPOSED TO PRESIDENT'S RAIL: ROAD RATE PLAN.

President Roosevelt's plan to put the railroad rate making powers into the hands of the Interstate Commerce Com mission, is likely to receive more support outside of his party than within Republican lines, and the effect of this is already foreshadowed, and the best outlook for whatever railroad legislation attempted in the next Congress, will be in the nature of a compromise, and this while it means some gain, perhaps, for regulating the railroad people in the matter of rates, is not going to prove radical enough to please either the President or those who would set a commission to practically control railroad rate making.

The Washington dispatches tell of a bers of the Senate Committee on Interstate and Foreign Commerce. The Democratic members had previously declared their position on this railroad rate matter, in caucus, which was favorable for Commission control. The Republican committee, with such prominent member as Senators Elkin, For-

The quiet fight throughout the counthat the contest will be a stiff one. with the commercial interests of the accept the above excuses. country, in this instance the commercial interests being the railroad ed, and where they cannot openly deare capable of bring about compromise measures which mean nothing, in the way of changes.

There can be no doubt but that the next Congress will be the scene of active legislation, and the great contest will be on this rate making commission problem. It is not a political issue. and the President must depend upon his political enemies, even if a compromise measure is to be secured.

WATCHING WOMEN WORK

From the earliest ages, when much of the menial and hard labor fell upon woman's shoulders, to the present day when civilization has raised woman from being the drudge and slave, "proud man" has often watched and perhaps too carelessly noted the real capacity of this being, whom he, man, has been wont to assume the "lord and

But in this day while men watch women work, it is with very different thought, than did the early men, who watched women as slaves, for it is today as equals, often as superiors, do men note woman's work, for it commands both respect and attention, because it shows genius and ability, and it is only the indifferent or thoughtless man who cannot profit by watching the work of the woman of today.

that it begins when man has either given up, or is on the brink of quitting, this applying more particularly in the who refuses to palliate evil, and de-mands correction. It is woman's nature to have order, to have her surroundings clean and well kept, and fortunate it

s. Some men and a few women ill smile or decry the work of a Woman's Club, with it departments for chool betterment, library extension nd city improvement, for what busiess is it of Woman's to tell how the streets shall be cleaned, trees planted along the public roads, or to criticise the acts of those officials who do not look after a city's cleanliness !

It may not be actually woman's business to look after city improvements, but it becomes her duty, therefore business, when man fails to look after the public welfare and health, to take up the burden until man is made to feel the odium which is surely his, when he stands about, indifferent and correct local abuses which are patent to every person gifted with senses, of seeing, smelling and hearing.

It is only when a man becomes dereliet in his public duty, that woman's full force is seen, and in no way is this nore to be noted than in the Woman's ommunity, refusing to accept anything except the absolute correction of local irregularities, and the positive betternent of conditions which need improving; and which keeps at work until "proud man" is made ashamed and driven to work himself, instead of being a watcher while woman works.

AN APOLOGY FOR MUNI-

CIPAL OWNERSHIP.

Those public utilities, electric lights, vater and sewerage, are under municioal control in New Bern. The evidence of this has been all apparent during the past week, for if they had been under private ownership, there would have been some demand made upon the own ers to give light, or forfeit their charter But under municipal ownership there is too much general partnership, every recent caucus of the Republican mem- tax payer is a partner, and to abuse the system, means to cast reflections

The partners in this local municipal ownership, the taxpayers, have recently had two nights without the street electric lights burning, and one night there were no lights for stores and residences. Excuses for these failures aker, Aldrich and Kean, who were in were offered, no steam, injury to mathe majority, are quoted as being un-chinery, not enough power. All those alterably opposed to any legislation may do for excuses, but they cannot be which shall be giving the rate making a cepted as reasons by those who pay for lights. Neither is it an acceptable reason for lack of water pressure to chartered this year. try already being waged on this rail- say that the fireman had let the steam way rate problem, indicates that once fall off, because he had failed to keep partners in municipal ownership and The Republican Senators, strong and one of the supporters of lights and man of marked talent and is a graduate influential, both in their own party and water, as a user, the Journal does not of the University of North Carolina

And as a partner and payer, the Journal would like to ask if those who people, are factors in this contest. use lights and let them continue burning Their legislative ability is unquestion- all night in store or residence pay for this service. And if those who use feat legislation which they oppose they fans or hydrants in their stores, and let these run without stop, day and night, week day and Sunday, whether the store may be open or closed, pay for this all the time service. Here is wasted power, unless the service is paid for. Is it paid for?

It is now the time of year when with colder weather, store keepers and householders are likely to try and save their water-pipes from freezing by letcing the water faucets run continuously Who pays for this? Those who waste the water? Those who will pay most ally through unsigned letters and there severely will be the property owners "burn this letter". One such letter whose buildings may take fire on a cold before this that with hard pumping, the water works could not on winter nights force sufficient streams of water

The fact of municipal ownership is no warrant for waste and neglect of power which ought to be and is demanded by every consumer who pays for lights and water, for light and water waste means wear out without the money returns to make good in repairs. If consumer get twelve hours of light and pays for six, the consumers who pay for twelve are given less than they pay for. And for water service the loss is also increased the same way but the fire menace is added.

This is the season for taking note and winter has begun, or next spring. The being offered, for they are too trivial to be worthy of being given, and discredit those who offer them

Wash your hands with warm water,

POSSIBLE \$100,000

Gift For Agricultural and Mechanical

Sensation.-Big Charter Granted.

Raleigh, N. C., Nov. 24 .- The Agrithe recipient of a gift of \$100,000. This is a piece of very interesting news. A gentleman connected with a very great careless in his citizenship, and fails to educational movement says that the money can easily be secured if the college, that is the State, will accept the building or buildings and maintain them It is understood that the gift will be in the line of marked development of this now notable and rapidly growing institution, which is so much in need of more of what may be termed houseroom, and of [course in need of special Club work when it takes hold of a buildings for the development both of

> The Raleigh and Southport Railway s to be completed to Fayetteville about the 1st of February, the laying of rail from Lillington towards Fayetteville having begun, and the steel bridge cross the Cape Fear river at L'llington which cost over \$40,000 having been completed. It is the purpose to have a celebration of the completion of the road to Fayetteville and a special train alled with officials and Raleigh's leading business men will go there on that occasion as it went to Lillington last

There was a decided sensation in the Southwestern part of Raleigh today, tue to a mad dog, which bit a white nan named Thompson and two negroes. The animal attempted to bite a negro woman, the wife of one of the men who was bitten but she got into her house The dog ran amuck through the streets and was finally shot by a policeman several blocks away. Physicians at once cauterized the wounds made by the dog's teeth and it is possible that other special treatment will be

A charter is granted E. V. Finlayson Mfg. Co. of Charlotte, with capital stock amounting to \$500,000 of which \$50,000 is preferred stock. Paul Chatham, E. V. Finlayson and W. R. Ebert are given as the stockholders, Mr. Chatham, whose residence is given as Charlotte holding a very large block of the stock. The company will manufacture many kinds of textile fabrics and deal in these as well as in the manufactured clothing and can treat and handle the products of other mills. It is one of the largest corporations

Mr. Ivey Foreman Lewis, a son of a professorship at Randolph-Macon College, Va. Mr. Lewis is a young For the past two years he has been taking a special course at Johns Hopkins University, Baltimore.

Raleigh already has in operation lant for making sand lime brick, etc., and now is to have an extensive plant for the manufacture of ties, etc. buildings are under construction for this and are north of the Seaboard Air Line shops, near where the old car wheel works used to be.

At the Caraleigh Cotton Mills, a mile south of here, new and much larger boilers are being installed, and some other improvements are being made to

the mills. Revenue officers say that in this district this year at least 150 moonship listilleries have been seized. The in formation as to the location of these is harder to get than ever before. In fact the information now comes gener is very often a foot note to the saving, was in fact received today. Some of winter's night, for it has been found the moonshiners are quite daring, as they have always been, and have their plants in quite public places, and near the roads., while others lurk in the thickets, along the little branches.

> Ancient witchery was believed in by only a few but the true merit of De Witt's Witch Hazel Salve is known by every one who has used it for boils ores, tetter, eczema and piles

COL. OLDS' HUNT.

lives Governor Glenn and Others Big Day's

Raleigh, Nov. 24. - Your corres dent and his guests, the State officers had a splendid day of it yesterday o nad a splendid day of it yesterday on the annual rabbit hunt, and although the number of rabbits bagged was not as large as usual there was never more nor Glenn proved himself a capital shot at both rabbits and partridges, is fact an all round sportsman and good fellow. The party had two regrets, one that President Roosevelt was not with it and that, for the first time Commis and they love him for the simple reason that one can run about as fast as the other. In the party yesterday was Mr. Henry Clay Brown, clerk to the Corporation Commission who took his first holiday since the commission was formed 1891. All the commissioners are delighted that Mr. Brown took this rest. State Treasurer Lacy was the life and soul of the party, of course, and his big cowboy hat, the prize of Arizona was cost Mr. Lacy money, as he had bantered the Governor and made an offer of 25 cents per hole. It was a great day, and did everybody good.

Demands Dr. Souchon's Resignation

New Orleans, Nov. 24.-Answering ommunication addressed by Dr. Edmund Souchon to the New Orleans Times-Democrat in which the president of the Louisiana State Board of Health says that he is compiling a report on the yellow fever outbreak in New Orleans for Gov. Blanchard and that he is willing and ready to abide by the Governor's decision as to his culpability. Loveque's Harlequin, the independent weekly says today:

"Why the Governor's decision? Have you no decision of your own? Is the Governor's judgment of an extraordinarily superior character? Do you regard it as superior to the people's? Is there any doubt in your mind as to the people's decision? In what shape do you want the people's decision? Must it come as a formal petition? Whose money, sir, are you drawing for the office which you have discredited in the eyes of a State and a nation? Is it Governor Blanchard's or the people's? Have you heard a murmur on any side to the effect that you should continue in office? Have you failed to hear the suggestion on every hand that you should resign? What in h-do you take public office in this State to be? A private snap, hanging on the Govern-or's decision? You say you have complied with the law and with the compact of the Southern States? Do you challenge reputation of this fact? Do you mean seriously to say that fever was not reported, according to law, by practicianers in this city long before it was officially given out? Do you mean to say that no attempt was made to Dr. Richard H. Lewis the Secretary of conceal the existance of fever here? given out to the profession that the reporting of fever as fever was unpopu-lar? I shall put a fine point on it: I assume, sir, that you are filling your 14,000 pensioners, Mississippi \$250,000, 7,000 pensioners, Virginia \$300,000, 14,000 pensioners, North Carolina applace out of a desire to give efficient service and not solely for the salary of the position. I assume this in spite of the fact that you leave the decision in the Governor's hands instead of resting it upon your own sense of duty and of right as a citizen in a republic occupy ing a public office. Assuming these things, do you really believe you retain a shred of confidence anywhere in the South or the country in your posicion as head of the State Board of Health? Do you believe seriously that your retention of this job will not seriously injure the business interests and conse Why then leave the decision to Gov. Blanchard? Where is your own desision? wherein must the Governor's be better than that of a man competen to occupy a place of such importance as that you fill? Come down, Doctor uchon. The people do not want you It is the people's money you are drawing. It is genteel to resign the service

of an employer to whom one is not giving satisfaction. Counterfeiting The Genuine.

Col. Whitford Gives to Hall of History

Raleigh, Nov. 24-Col. John D. Whit ford, of New Bern, is here, and preents to the Hall of History a hand bell sed in "palace" of Gov. Tyron, at New Bern in assembly hall of Lower louse, and afterwards by Speaker Cas well of State Senate, to call it to asmble, etc. Col. Whitford will make sentation of other historical objects
