**Increase Your Yield Per Acre**  
You Can See The Growth  
Virginia-Carolina Fertilizers  
If you want to see dollars grow, feed your soils with Virginia-Carolina Fertilizers. They will "increase your yields per acre," and thus bring down the cost of production, even if you use fewer teams and less labor.  
We have thousands of strong testimonials from farmers who have tried other makes of fertilizers and assert that  
"Virginia-Carolina Fertilizers are by far the best. They will give you crops that will make more money for you. Buy no other, even if some dealer endeavors to get you to buy some "cheap" brand just because he may make a little more profit on that. Of course, that would be his interest—not yours."

**Colored People Celebrate Their Freedom.**  
A large crowd of the representative and more respectable class of the colored people of New Bern and Craven county gathered at the court house New Year's day to celebrate the 43rd anniversary of their emancipation. The order maintained and the program rendered was most excellent; the program consisted of patriotic, literary and musical selections, and an oration by Dr. J. Harvey Anderson, pastor of St. Peter's church.

The officers of the Lincoln Social Club, who conducted the affair, prominent guests, and participants were taken to the court house in carriages. L. W. Ham, President, called to order, and made some preliminary remarks; a choir of select voices rendered the National Hymn; Rev. D. L. Maultzley, of Clinton Chapel, offered prayer; several exceptionally fine selections were rendered by the Decorum Glee Club; James A. McWilliam, of the Eastern North Carolina Industrial Academy, read the Emancipation Proclamation; Mrs. Mamie B. Green, sang well received solo; Mrs. Ella M. Battle, recited; the Misses Elitha Carter, and Violet Wooten rendered a duet; J. H. Harris, who annually contributes an original poem, appeared to be at his best, and his production was highly creditable; Miss Lillian Phisic presided at organ. Important parts of the program was occupied by Mrs. Annie E. Green, H. C. Sparrow, and Miss Martha A. Green.

The President introduced the principal speaker, Dr. J. Harvey Anderson, who delivered a most excellent oration occupying nearly an hour. The speech was conservative, eloquent, and abounded in wholesome advice to the colored people, and the consensus of opinion is, that it was best address ever delivered on a similar occasion by a colored orator in New Bern.

The speaker showed himself possessed of a wide knowledge of national history and events. The Lincoln Social Club are deservedly proud of the success of their efforts, and orderly, creditable conduct of the colored throughout the entire day.

**"Pictorial Perfection."**  
The January issue of The Burr McIntosh Monthly, which is now on all news stands, is a remarkable example of "pictorial perfection." It is the only publication of the kind extant and the publishers as well as the public are to be congratulated in being able to obtain such exquisite pictures so attractively presented. The portrait form of the January number contains such eminent stage people as the late Sir Henry Irving, Sarah Barnhardt, Emma Eames Viola Allen, Mrs. Leslie Carter, Edna May, Fritz Scheff and Julia Marlowe. The charming holiday story by the well known writer, Zona Gale, is beautifully illustrated. A liberal space is given to the portraits and brief biographies of such famous people as Thomas A. Edison, Sacy of War Taft, Sir Henry Irving and Chas. E. Hughes, who has been directing the insurance investigation in New York City.

The cover is a portrait of Miss Marguerite Clark, the little lady of the stage who has made such a success in the light opera "Happyland." Miss Clark posed specially for this portrait. With this number the monthly calendar in colors is again introduced, the purpose being each month to show some seasonable pictorial effect in connection with the calendar for the month the twelve issues making a splendid collection of artistic scenes and coloring well worth the price of the magazine.

Mr. E. J. Ragsdale of Fuquay Springs a tobacco grower, was here today and said he had spent the last four months travelling through the tobacco section of Eastern North Carolina and that he hears it everywhere that the tobacco acreage will be reduced from 30 to 40 per cent and that the cotton crop will be largely increased. He says this is talked very freely among the farmers there and he expects the cut in the tobacco crop to be a very heavy one.

President John A. Mills of the Raleigh and Southport Railway says that upon its completion to Fayetteville, probably some time in April, there will be a celebration at that place on a very extensive scale and that large numbers of persons will be taken there from Raleigh on special trains.

Governor Glenn is examining the report concerning the treatment of county convicts in the State, made by the board of charities. **COTTON GROWERS CONVENTION**  
State Association Meets. Elects Delegates to New Orleans And Holds Long Discussion.

Raleigh, Jan. 4.—The North Carolina Cotton Growers Convention had a five hours session last night, and it was really considerable time before it got down to business. It has chosen a good delegation to the Southern Cotton Convention at New Orleans, this being composed of John S. Cunningham, W. C. Heath, James H. Pou, C. C. Sparrow, J. Y. Hamrick, M. S. Griffith, J. J. Mott, R. W. Livermore, and H. C. Dockery, all of the these except Col. Cunningham being large planters, Mr. Dockery leading in the vote for committee-men. The election of Mr. C. C. Moore of Mecklenburg was by no means unexpected, his position in the organization having been very prominent and valuable during all the past year. Col. Cunningham had served during his year's tenure of office with his usual zeal and had travelled on practically all the cotton-growing counties. The matter which prolonged the session of the association was the question of the management but the final agreement that this should be really in the hands of an executive committee of five members settled the question very well indeed. The first arrangement made was for \$2,500 salary for the president and \$600 for the secretary-treasurer, then the latter salary as increased to a salary of \$1,000 and then all this was done away with and the matter of salaries as well as the general management left to the executive committee which is given plenary power and which is regarded as being the best solution of any and all difficulties which have arisen or may arise. It is the opinion of members that the State can be more thoroughly organized through such a committee which will carefully choose the workers in the various counties, than in any other way.
