A Friend.

A Menace to Health.

Kidney trouble is an insidious danger, and many people are victims of a serious malady before the symptoms are recognized. Foley's Kidney Cure corrects irregularities and strengthens and builds up the kidneys, and it should be taken at the first indication of kidney trouble, as it is impossible to have good health if the kidneys are deranged. ### The Woman's Club

There was a large and enthusiastic meeting of all the departments of the Woman's Club last Tuesday afternoon in the Elks Club rooms. The meeting was opened with prayer, after which the secretary called the roll, and read the minutes of the last meeting which were approved. Treasurer's report was also read and approved. Mrs. M. M. Marks read report from Childs Study Department, which showed good work done in that department and great interest taken in the work by the members. Mrs. Marks has made a most able chairman, and much credit is due her for the advancement of this department. And with the hearty cooperation of the superintendent, and his efficient corps of teachers of the Graduated School, plans have been effected.

Mrs. R. P. Williams, chairman of the Village Improvement Department read a most carefully prepared report, and showed that this department of energetic workers has accomplished a great deal, regardless of the fact, that they have received no encouragement whatever from those whose duty it was and whose pride and pleasure it should have been to aid this department. But with such a public spirited chairman, and willing workers, we hope yet to make marked improvements in our city, and that the source of comfort reaped from the untiring efforts of the Village Improvement Department will be a monument to the solid and undoubted truth—that the women did the work. A much enjoyed report from the Literary Department was read by the leader, Miss Mary Hendren. It is just to say this department enjoys a literary treat with Miss Hendren as their leader. She has a thorough knowledge of the best writers, and her ability to impart this knowledge is too well and favorably known throughout the State for any words from the writer to add to it. On motion made by Miss Hendren, the Circulating Library was taken in to be a part of the Woman's Club, and Miss Mary G. Oliver was unanimously elected chairman of the Library Extension Department. Mrs. Marks stated she had received a letter from Mrs. Hollowell of Goldsboro, accepting the invitation to address the Club next Wednesday night. Mrs. Weil will accompany Mrs. Hollowell, and give the Club a round table talk on the Literary Department after tea. A committee composed of Mrs. F. W. Hughes, Mrs. R. P. Williams and Miss Stevenson was appointed to select a proper place for the address. The Club will give a reception in honor of Mrs. Hollowell and Mrs. Weil Wednesday afternoon in the Elks Hall.

As a club we acknowledge our hearty thanks to the Journal for the courtesy extended each department of the Club and the very prompt fulfillment of all promises made. It is a noted fact that the Club is growing in interest and numbers. S. R. S.

## OUR NEW YORK WEEKLY LETTER

Beautiful Displays in Shop Windows. Airy Spring Novelties Shown Beside Winter Furs.

The shops of New York have never presented a more fascinating appearance than during these last few weeks of midwinter when all the between season fashions are displayed at such amazingly low prices. Early spring novelties, which look deliciously fresh after the heavier fabrics of winter, are shown in airy smartness beside automobile coats and furs.

Appropos of furs, the woman who is thoughtful can now procure the most beautiful pieces—coats, muffs, boas, etc.—in such bargains as to make it a good investment for colder weather still to come or for next winter. The luxury of owning a beautiful set of furs is wonderfully gratifying. They lend an air of richness that nothing can equal, and a fur set in three pieces—hat, scarf, and muff—can be secured most reasonably. Then, too, fur trimmings are always popular on evening wraps or gowns, and combined with these are some of the choicest of laces which make a hat or miff simply adorable. Devotees of fashion spend hours in the selection of rare old laces, whose filmy trimmings cost a fabulous sum, for lace is like wine—its value increases with age.

Seen in one of the shops this week that is noted for its exquisite lingerie waists were several that showed instead of medallions tiny lace bouquets of such flowers as snowdrops, lilies of the valley, etc., in such wonderful imitations that it would be hard to distinguish them from real lace. These have an air of individuality about them that was not seen in other models.

### THE LATEST CREATION IN LINEN WAISTS.

German valencienes in clear cut patterns is found in underwear which can be picked up for a very inconsiderable sum. A pretty petticoat was finished with rows of insertion alternating with tucks, and the absence of a lace edging at the hem meant good wear, for constant laundering could not harm it.

To be described with all delicacy things were some stockings whose design showed a great amount of thought. As smart stockings are worn at all seasons of the year to correspond with gowns, one shop was just overflowing with every variety of production, some of fine silk lined with real lace buttermilk. Openwork stockings are not so popular as last season, but the real thing is a fine mesh with hand embroidery. The loud colorings of a season ago have been relegated to the background of the out of dates and are replaced by exquisite pale tints to match pale shaded gowns. Clockwork stockings lend a slenderness to the ankle and are the essence of smartness. A very economical way in selecting fancy silk stockings is to get those having lisle thread feet, as they are more durable.

Nearly every girl, be she rich or poor, has some net and in dress that she indulges. One girl with pretty feet shows her individuality in hose, and from a shopper's standpoint she has a great variety to choose from; another, having a soft, velvety complexion, enhances it by always appearing in the most original and daintiest of stocks and collars. Her stocks are of the finest embroidered linen, and the more elaborate ones are made of soft chiffons and meshlins.

One of the prettiest things ever created to adorn the neck of fair woman was a stock of chiffon meshlins tarfeta in soft folds, with a turn-over of Allee blue embroidered in a miniature design of fleur-de-lis. Long ends of plaited meshlins were caught at intervals with fine lace bands. All the new gowns show the collars to be quite high. Some are fastened in the back with tiny bows, which take away the bare appearance and the long line at the back of the neck. They also hide the fastenings that spoil the beauty of so many gowns.

Our readers may have advice on purchasing and any question concerning fashion or fabrics answered without charge by Rose Deveraux, the fashion expert, by addressing: Rose Deveraux, F. O. Box 229, Madison Square, New York, (including stamp for reply.)

### A HOME MISSION NOTE

The Heroism of Duty. "Heroism takes many forms in the complicated life of the world, but undoubtedly the highest exhibit is to be found in the quiet home existence where present self-sacrifice is the promise of future comfort. The mother denies herself for the child and the father represses his own tendency to outlay for the sake of the family, while both forego many an expenditure in order that they may provide for the future. This is the clear heroism of duty and is being witnessed by thousands of homes. Fortunately, it is seldom without reward. True, there is much of life's work that is done without return, and ingratitude is only too common. Even governments are sometimes unjust to their heroes, and republics are said to be particularly ungrateful. But the economy and denial at the end, is worth all that it costs and repays every outlay. In that hour of final redemption we have yet to learn of the father or mother who regretted the past cost and effort."

Common Colds are The Cause of Many Serious Diseases. Physicians who have gained a national reputation as analysts of the cause of various diseases, claim that if catching cold could be avoided a long list of dangerous ailments would never be heard of. Every one knows that pneumonia and consumption originate from a cold, and chronic catarrh, bronchitis, and all throat and lung trouble are aggravated and rendered more serious by each fresh attack. Do not risk your life or take chances when you have a cold. Chamberlain's Cough Remedy will cure it before these diseases develop. This remedy contains no opium, morphine or other harmful drug and has thirty years of reputation back of it, gained by its cures under every condition. For sale by Davis Pharmacy and F. S. Duffy.
