The Journal is only sent on payment in advance. Subscribers will receive notice of expiration of their subscription and an immediate response to notices will be appreciated by the Journal.

Entered at the Postoffice, New Bern, N. C., as second-class matter.

New Bern, N. C., Feb. 16, 1906.

WHAT THE IMPENDING COAL STRIKE MEANS.

The impending coal strike, set for April first, is an event, which if it takes place, means disaster in some degree to every commercial interest of this country. Few people outside of those directly concerned, really appreciate what a coal strike, like the impending one, means in the magnitude of money losses, while the sufferings of the families of the miners who strike, cannot be measured in dollars and cents.

In the miners coal strike of 1902, the losses were placed at \$150,000,000 represented as follows: loss in wages, by miners, \$29,000,000; loss to other workers, not miners, \$6,500,000; coal operators lost, \$52,250,000, railroads, \$26,000,000; business losses connected with coal operations, \$20,000,000; mines damaged; \$7,200,000.

The strike in 1902 was in the anthracite mines, but the impending strike of April 1st involves both anthracite and bituminous coal miners, about 85,000 men in Pennsylvania, 38,000 in Ohio, 17,000 in Indiana, 60,000 in Illinois, 16,000 in Iowa, 30,000 in West Virginia, 3,000 in Michigan, and in Kansas, Missouri, Texas, Indian Territory and Arkansas, about 60,000.

If the strike takes place this spring, 636,000 men will be idle, and taking into consideration those dependent upon these men for their living, it means some three millions who must receive support, yet be no wage producers.

In anticipation of this strike the Mine Workers Union by assessment now going on, and with money already in the treasury of the Union, the strikers expect to start in their fight with \$5,000,000.

At the same time the coal operators have mined industriously this winter, and now have millions of tons of coal on hand, and this coal means money, for the consumers must buy it at constantly advancing prices as the strike continues, so that while the miners and their families must suffer, the coal operators will likely be able to sit quietly down, and let the strikers exhaust their substance, while the consumers will support the coal operators, in paying for their losses during the strike.

If this strike takes place, the one or two hundred million dollars losses which will follow, affecting directly those engaged in the coal trade, does not by any means represent the disastrous effects which this strike will produce throughout this country. It means fallen values in every kind of commodity, and will also be productive of distrust in every line of mercantile trade.

FEDERAL NATURALIZATION

(Pueblo Chieflain.)

The growing sentiment in favor of naturalization by federal courts alone is due to two causes. The steadily increasing volume of immigration and the steady deterioration of the class of immigrants, in spite of all the restrictive measures that have been adopted, has created widespread alarm. It is clearly evident that the danger of this mass of unassimilated people, who are strangers to our customs and our national institutions is greatly increased by the fact that large numbers of them are promptly naturalized by local courts when they are totally unfit for citizenship and when they have no serious intention of remaining permanently in American citizenship.

The Chieflain recently called attention in conversation to the fact that the practice of naturalizing Americans citizenship merely for the purpose of returning to some foreign country, there to enjoy privilege and immunities that are not possessed by citizens of this country. This is the case with the many who are naturalized in this country, and who are not for a moment intended to remain in this country, but who are merely using the law to their advantage.

laws among the States, and laxer practices that are frequently in direct violation of those laws.

The same subject may be considered, and practically the same conclusion reached, from a different side. The corruption of politics and of public service in the large American cities is greatly assisted by the presence of large numbers of easily naturalized, or fraudulently naturalized, voters. It frequently happens that men are brought to the naturalization offices in herds, and they are made into American citizens, not as a result of their own will and intelligence, but solely in order that they may cast their votes for a certain party or a certain candidate, influenced by the most unworthy motives and without any sufficient knowledge of the principles of the party or the character of the candidate.

The inconsistencies of the naturalization laws of the various States, the frequency with which those laws are violated, the ease with which naturalized citizens are made without any regard for the welfare of the American nation, have reached the proportions of a national disgrace and a national danger. It is high time that these methods and practices should be reformed and unquestionably the best method of securing this reform would be to turn the entire matter over to the federal government. At the same time a law should be enacted requiring a much longer residence in this country before naturalization than is now necessary, and prescribing stricter qualifications for citizenship.

The most valuable right and the greatest privilege that can be conferred upon foreigners resident in this country is citizenship in the American republic. This should always be held at its full dignity and value and should be conferred only upon those that have shown themselves worthy of it, and who have the purpose as well as the ability to become American citizens in all that the term implies.

AD SPACE AND BUSINESS

There are merchants, men who individually style themselves as mercants, who boast to never having paid a dollar for advertising in their local newspaper. There are also persons who think it smart to say that they never read a newspaper.

But take each and both of these classes, and what force are they to their communities, and what city could be a city, if the majority of its people neither advertised in their local newspaper, nor subscribed and read it? The truth is, that there is no city where these classes predominate, for such people would never have given the place an opportunity to develop and grow into a city.

The non-users of newspapers, for advertising or reading, can boast. There are persons who boast of success in life who never went to school or college. But what had been the loss in the greater success, if there had been instead, an intelligent use of the daily newspaper, and the enjoyment of school education, no one can estimate.

But the intelligent, practical business world knows the value of newspapers, be it in ad space or the perusal of the columns of reading matter. Ad space has won success through every kind of trade obstacle and competition. It has brought the small store business, and forced it by an increased trade, to go into larger quarters.

Ad space is to be most feared thing in the retail trade of every city, for it is the liberal and intelligent use of such space which places the seemingly insignificant merchant on a parity with the large merchant, unless the big merchant displays an equal force and discretion in the use of the local newspaper. Ad space is indicative of enterprise. It shows that the merchant has goods, and well proves that he wants the public to know the fact. The greater the mercantile enterprise the greater the size of ad space is likely to be, for trade enterprise finds a fascinating and profitable outlet in an ever increasing ad space. It is business desire which prompts this use of ad space, and the result is found in the increase of trade. The two go together, ad space and business.

Common Colds are the Causes of Many Serious Diseases.

Physicians who have gained a national reputation as analysts of the cause of various diseases, claim that if catching colds could be avoided a long list of dangerous ailments would never be heard of. Every one knows that pneumonia and consumption originate from a cold, and chronic catarrh, bronchitis, and all throat and lung troubles are aggravated and rendered more serious by such cold attacks. Do not risk your life or take chances when you have a cold. Chamberlain's Cough Remedy will cure it before these diseases develop. This remedy contains no opium, morphine or other harmful drug and has thirty years of reputation back of it, and is sold by the corner drug store.

A Raleigh visitor is Charles J. Adams, whose home is Crystal Springs Farm, near New Bern, North Carolina. Adams has been a member of the National Congress, and with the aim in view that such lands shall not be condemned but shall be purchased by the government; and secondly that the states may be induced to take action in the establishment of private preserves in lands belonging to them for educational purposes. Mr. Adams announces that there will be present the governors from North Carolina, South Carolina, Georgia, Alabama, Tennessee, Florida and Kentucky, and there is every indication of the attendance of some of the most prominent men in a number of other states.

EXTRADITION LAWS

Meeting of National Importance to be Held in Washington, D. C.

Death of An Old Time Negro. Success of A North Carolina Boy. A Farm That Will Bring a Fortune To Its Owner. (Special Correspondence.)

Raleigh, Feb. 13.—In the incorporation of Hunter Bros. & Brewer Company at Raleigh for the conduct of a dry goods, shoe and department store, the fifteen thousand dollars subscribed out of an authorized capital stock of \$50,000 is by G. E., W. K., and J. P. Hunter, G. W. Brewer, and J. L. Hill all of Raleigh. The store has heretofore been conducted distinctively for the sale of shoes.

The H. E. Moseley Hardware Company at Kinston is chartered for the conduct of a wholesale and retail business. H. E., W. O. and S. O. Moseley, all of Kinston are incorporators, \$12,000 is paid in out of a total capitalization of \$50,000.

The many friends of Mr. Albert W. Latta, a son of the late C. G. Latta of Raleigh, who are interested in the success and advancement of that young man will be glad to learn that after having proved his apprenticeship with the General Electric Company at Schenectady, N. Y., he has found favor by reason of his ability among the southern mill friends, and has just placed a large outfit for one of the big mills in North Carolina. The company desiring the machinery stated to the General Electric Company their wishes as to supplies and requested that young Mr. Latta, a North Carolinian in their employ, be sent for the purpose of figuring the details. He came and won out over three competitors, who were men of many more years and of far more varied experience.

Governor Glenn who always finds time for special work outside of his executive office, will tonight at the Tabernacle Baptist church deliver an address to the "B. B." class of that Sunday school on the subject "Is a young man safe?"

Another one of the old-time type negro mummies has died at her home a few miles from Raleigh. She has long borne the name of Aunt Betsy Holmes and both photographs and caricatures of the negroes have been painted. Her real personality was best depicted when seated in an ancient top buggy—a two wheel contrivance and drawn by a cow nearly as ancient. Vegetables, roots and herbs, together with an indomitable will have been her stock in trade, coupled with a kindness not usual. Along with her happy manner there was a conjointed real spirit of business, as was evidenced not long ago by her comment to a prominent Raleigh citizen, this comment being to this effect: "When asked why she did not drive a mule instead of the aged ox she replied: 'Master its this way. When de mule die he's dead, when de ox dies I'll sell him at de market.'"

There were received today by the State Auditor two large boxes of books returned by Gen. Ainsworth, of the Military Secretary's office at Washington, D. C., and which had been used by the National government in the compilation of the Confederate war records.

A congress for the specific investigation of methods to be more universally adopted by all the States in the Union will be held in Washington City February 19. Gov. Glenn has appointed the following named delegates from North Carolina to participate in the deliberations of the body: A. B. Andrews, Jr., and F. H. Busbee, of Raleigh, J. Crawford Briggs, Durham, J. C. Buxton, Winston, D. B. Winborn, Murfreesboro, and George Rountree, of Wilmington. This congress has been instigated by Governor Pennypacker, of Pennsylvania, and the most vital matters to be considered will uniformly in divorce laws, and certain changes regarding extraditions by State on State. The Governor in speaking of the matter said: "North Carolina is already one of the States that exacts no charge for extradition, but at the same time, there are many States in which a cost is fixed on all matters of extradition of prisoners. That is, this State does not charge States which exempt us. We hope to be able at this congress to set straight and make uniform all these points together with the benefit of a more active co-operation."

J. H. Cutler, Boston, and Washington, the enthusiastic propagandist and well-wisher of the forestry question has again been in close conference with Governor Glenn, concerning the meeting to be held in Charlotte March 3, at which time there will be convened one of the most representative and distinguished bodies ever called together in the south, for the discussion of facts appertaining to matters of forestry interest with special reference to a two-fold object; that of the establishment of the Appalachian Park, by influencing the National Congress, and with the aim in view that such lands shall not be condemned but shall be purchased by the government; and secondly that the states may be induced to take action in the establishment of private preserves in lands belonging to them for educational purposes. Mr. Cutler announces that there will be present the governors from North Carolina, South Carolina, Georgia, Alabama, Tennessee, Florida and Kentucky, and there is every indication of the attendance of some of the most prominent men in a number of other states.

A Raleigh visitor is Charles J. Adams, whose home is Crystal Springs Farm, near New Bern, North Carolina. Adams has been a member of the National Congress, and with the aim in view that such lands shall not be condemned but shall be purchased by the government; and secondly that the states may be induced to take action in the establishment of private preserves in lands belonging to them for educational purposes. Mr. Adams announces that there will be present the governors from North Carolina, South Carolina, Georgia, Alabama, Tennessee, Florida and Kentucky, and there is every indication of the attendance of some of the most prominent men in a number of other states.

President Jordan, of the Southern Cotton Association, is interested with the Eastern syndicate to take 500,000 bales of cotton at a minimum price of 13 cents.

Chas. Moore, a machinist of Food City, Pa., had his hand frightfully burned in an electrical furnace. He applied Baileys' Arnica Balm with the usual result: "A quick and perfect cure." Greatest healer on earth for Burns, Wounds, Sores, Eczema and Ulcers. See all Druggists.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a tea spoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address F. J. CHENEY & CO., Toledo, O. Sold by Druggists, 75c. Take Hall's Family Pills for constipation.

and down the commercial roads of the entire country, and whose good fortune it has been to discover that he has a 1 about his farm, of something more than 400 acres, earth that is teeming with untouched gold and in the branches about the place unknown quantities of a high quality of black lead. Then in addition thereto is a mineral spring of lithia water, with a copious flow and the promise of fine results from sales of this water. Hard by his own lands on the farm of a kinsman, Mr. Alston states there are such deposits of yellow ochre that a train of 20 cars moving daily for a year could not remove the supply. This gentleman also states that there are six gold mines which literally surround his properties, all of which are being worked while as yet all the rich find of gold within his domains have come forth undivided for, since the cyclone passed through Warren county about two years ago. All of the metal is in the rough, and his expectations are hardly to be stated yet in figures. Owners of adjacent property are at work with dredges one of which was constructed at a cost of \$140,000, and the other at \$80,000. Mr. Alston is quietly making his way on the road and is not yet worried over the possibilities at his feet which in a way recall the story of "Acres of diamonds." Though the property has been in the family for more than 100 years its richness was discovered by the cyclone, and not by a more human investigator.

The Yellow Fever Germ has recently been discovered. It bears a close resemblance to the malarial germ. To free the system from disease germs, the most effective remedy is Dr. King's New Life Pills. Guaranteed to cure all diseases due to malaria, poison and constipation. 25c at All Druggists.

Report: Commands Hospital Management.

Special to Journal. Raleigh, Feb. 13.—Governor Glenn's report concerning the State hospitals for the white insane has been given out. It relates facts concerning his personal observation, as well as the matters brought to his attention regarding acts and management by official boards. There is recounted good management, dereliction on the part of the State's properly provide for its indigent insane, and a comparison of cost as between the State institutions and those privately conducted. The board of directors is commended and those who would detract from their worth and the assailants of their official action is indicted in strong terms.

There is considered the number of applicants and the truth that a great many would be forced into the jails of the State without such discretionary as well as discreet action had been observed by that body. In the end the governor calls on all who have criticism to make such to him, and where reflection is indulged in by citizens and newspapers, he requests that all such shall be placed before him, with names of those who are either friendless or are strong with the power of a pull.

No pill is as pleasant and positive as DeWitt's Little Early Risers. These Famous Little Pills are so mild and effective that children, delicate ladies and weak people enjoy their cleansing effect, while strong people say they are the best liver pills sold. Never gripe. Sold by F. S. Duffy.

Samuel's Trial to Proceed

Special to Journal. Greensboro, Feb. 13.—Judge Boyd after hearing argument all day on question of dismissing Samuel's case for alleged defective indictment, overruled the motion and ordered that argument to jury proceed on Wednesday.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. GUILFORD SUPERIOR COURT

Some Citizens of Greensboro Not Satisfied With the Procedure.

Death of Attorney Holton's Brother Temporarily Stays the Proceedings Against Him. A House Warming at the Enlarged and Improved McAdoo House. Forty Years a Telegraph Operator. (Special Correspondence.)

Greensboro, Feb. 13.—Mr. S. A. Howard, who has been manager of the Western Union Telegraph office here for forty years without a break has been rewarded for his faithful attention to duty, being relieved of the heavy work of active manager, though retained as manager at the same salary. Mr. H. T. Boggs, of Richmond, arrived here Saturday and assumed the duties as assistant manager.

Cone Athletic Park is to be moved further out on Summit street and improved. The new site will be beyond Mr. Caesar Cone's residence. One thousand dollars will be expended in putting the new park in shape.

Judge Ferguson is presiding over the present two weeks term of civil court which began Monday morning. As he has become the custom there was practically no work done yesterday, the lawyers not wanting to have cases tried having no difficulty in getting a continuance, and it was but a short while before the days calendar was exhausted and court adjourned. Before the present move gave Guilford county, made into one judicial district so as to provide another lawyer with a judgeship, is successful, the members of the bar will have to satisfy the taxpayers and litigants of this county that the present almost continuous session of court here with nothing done is not their fault. If not their fault, something must lie in the matter with the judges. If this is so, it would seem that the fewer there are of these the better.

There was a house warming given last night at the McAdoo Hotel a large number of citizens being entertained and shown over the newly renovated and enlarged building, by its new lessee and manager, M. W. Sterne, of West Virginia. The travelling public has felt the need of the McAdoo accommodations since it was closed for repairs and enlargement nearly a year ago. For the past three weeks every one of the four hotels here have been at times over crowded, two nights last week at least fifty applicants for rooms being denied.

When Federal Court was called in session at ten o'clock yesterday morning to continue the trial of the Samuel case which has been in progress 27 days Solicitor General Hayes, announced to the court, that District Attorney Holton, who had been absent on account of the critical illness of his brother Hon. John Q. Holton, was in the city but that his brother died yesterday and the remains would arrive here at one o'clock to be taken to High Point for interment, and he would request that Court adjourn until Tuesday so that he could be present and present the argument of the Government in reply to the argument made by Judge Bynum Saturday in the law affecting the sufficiency of the bill of indictment Governor Aycock of counsel for defense said the suggestion was eminently proper and they joined in the motion. Judge Boyd adjourned the court, saying that not only out of sympathy for the district attorney one of its honored officials, but that John Q. Holton, being a practicing attorney before the court, and one of the State's most worthy citizens, should himself be entitled to this mark of respect. He expressed the greatest sympathy for the bereavement of the District Attorney and paid a touching tribute to the worth and ability of the deceased lawyer.

Lame Back This ailment is usually caused by rheumatism of the muscles and may be cured by applying Chamberlain's Pain Balm two or three times a day and rubbing the parts vigorously at each application. If this does not afford relief, bind on a piece of flannel slightly dampened with Pain Balm, and quick relief is almost sure to follow. For sale by Davis Pharmacy and F. S. Duffy.

It is stated on good authority that the Austro-Hungarian Government has sent a fully equipped battery of mountain guns as a gift to Emperor Menelik of Abyssinia.

If in a kind of bilious mood, You wish an aid to digest food, No other pill is half so good As DeWitt's Little Early Risers. When ever you feel impending ill, And need a magic little pill, No other one will fill the bill Like DeWitt's Little Early Risers.

The new railroad over the Andes, between Santiago, Chile and Buenos Ayres, Argentina, is in operation.

Lackey Was in Arkansas. "I'm the luckiest man in Arkansas," writes H. L. Stanley, of Brown, "since the restoration of my wife's health after coughing and bleeding from the lungs, and I owe my good fortune to the world's greatest medicine, Dr. King's New Discovery, for Consumption, which I know from experience will cure consumption if taken in time. My wife improved with the first bottle and twelve bottles completed the cure." Cures the worst coughs and cures in many instances. At all Druggists, and 25c. Trial bottles free.
