The JOURNAL IS only sent on payn-advance basis. Subscribers will tece ve notice of expiration of their subacceptions and an immediate response to DURNAL.

Entered at the Postoffice, New Bern C. G. se second-cizes matter.

New Bern, N. C., March 20, 1906.

# **CONSIDERATION OF LEADERS ALSO**

IMPORTANT

Nothing more clearly demonstrates the fact that Republicanism is a living force in North Carolina than the indiscriminate and violent abuse which is being hurled at the party by the more rabid element of the Democratic press. But the truth is that such treatment does the Republican party far more good than harm, for it shows to hon-est, thinking men that while the party not be perfect it is opposed by which can defend themselves may not b ouly by charging the atmosphere with hatred and clouding the public vision with the smoke of partisan abuse. Al we ask for is a thoughtful considera-tion of the public issues now before the people, and if our political enemies car have their way that is the last thing we will ever get.

While in no way a member of the "rabid element of the Democratic press," the Journal cannot but think its esteemed contemporary, the Greens boro News, from which the above editorial comment was taken falls short of the mark, in its desire to support North Carolina Republicanism, in placing Democratic criticism of its party in this State, as called forth by Democratic partisanism. The fact is that Repub licanism as exemplified by the Roose velt administration has many sympa shop thizers, even more, admirers in North Carolina among men who vote for the State Democratic ticket at elections. Of course national republicanism, its issues and principles, are a part of State republicanism. Some of these issues, notably a protective tariff, is favorable to many prominent interests in North Carolina. But while this issue, and perhaps other republican issues might secure a following, and so enlarge the republican vote in this State.

for his product will net him a loss, or to small a profit that his own labor reeives no recompense, the thought must be, of the unfairness of it all, for the grower has given his very life, a So part of it, and some one else has profited by his sacrifice.

It is no surprise that the producer is antagonistic to the trust which profits immensely by his efforts, instead of there being a just profit to both producer and manufacturing trust, for there is no reason why the manufacturer cannot pay the price for the raw product which gives the grower his justly earned profit.

But there may be more for the tobacco farmer this year, and there should be, for the trust has had a year of fat profits, and the grower is entitled to his season of being well profited for his own labor in tobacco growing.

### MUNICIPAL GROWTH DEPENDENT UPON TRANSPORTATION.

This age with its hurry and demand for speed in every line of trade and profession, calls for transportation between home and business that shall be egular and fast. The working man. and even the professional man and clerk, who would own their own homes an seldom own their homes near their places of business or occupation in the city, because of the high prices of such property. To own homes they must go into territory either in the outskirts of tained to prevent this payment being the city, or buy in the suburb adjacent to the city, and to reach their homes they must have means of transportation by which they may be quickly, and at small cost, go to and from their occupation and home.

A local application of this, is to be found in New Bern, where homes can not be secured except at prices too high for the young man, whose family must be supported upon his wages said tonight that the Board courted the And in addition to the high price for a ome, there is equally the high price which must be paid for a rented home What is the remedy? The opening up of subdivisions to this city, and the establishment of transportation facilitention. ties which shall enable those who secure homes to have a quick and cheap means to reach their office or work

The fact that the territory of New Bern for residences is already conjest- laboring classes had been imposed upon ed, acts as a check to local development and growth, for the would be home seeker can find no property within his reach or means that he may secure. It also keeps away outsiders who might Governor Glenn made a notable speech eek this city as a home, and this serves this afternoon to a large audience. to check the increase of population and speaking particularly to the children, the coming of men who would assist in and women consecrated to public serlocal development.

# NOT GOOD WORK

Greensboro Tax Payers Enjoin **Against Contractors** 

And Paving Work Stops. Socialistic Ad dress. High School Closing and Presentation of Flag and Bible. Oak **Ridge Institute Will Not be Em-**

barrassed by New College.

(Special Correspondence.) Greensboro, March 16 .- There was a local sensation here vesterday when it became known that Judge Allen, on application of property owners on South Elm street had issued an order to Mayor Murphy, enjoining the city from makingifurther payment on the contract for street paving now in progress. The city contracted to have three quarters of a mile laid in concrete and vitrified brick, at a cost of about thirty eight thousand dollars and two thirds of the work has been completed, the city paying ninety per cent of the contract price as work progressed. The injunction is returnable within twenty days, and is said to have obtained by property owners, who having been allowed no voice in making the contract are required by city ordi ance to pay one third the cost, and who allege that the work is being imperfectly done at an exorbitant price. E. J. Justice, is attorney for complainants, and secured the restraining order from Judge Allen at Asheville A payment of three thousand dollars was due today, and the precipitate order was ob-

made. The work is just now at a most critical stage, the intersection of South Eim and Market streets between the Federal building and the county court house where the street car lines con verge, being excavated and impassible As to whether work will be suspended or not is not known, as a telegram sent to the chief contractor concerning this has only been answered by a message saying he will arrive here Friday. Chairman of Street Commission Hunte

### Query: Has the Horlolk & Southern Bought up the Prospective Virginia & Carolina Coast Railway.

A rumor that is merely a conjecture was published in the Elizabeth City Economist of Wednesday March I4, relative to another railway transfer. There are some signs that the Norfolk & Southern Co. has bought the Virginia & Carolina Coast railway, the project now contemplated from Norfolk to Beaufort. The deal, if the rumors are correct, will go far to prove that there is a "power behind the throne". In the Norfolk & Southern accumulating so much property and always buying that which it can use to good advantage the fine Italian hand of the Standard Oil Co, is easily seen.

WRITE

US

The Norfolk & Southern is buying tere and there, or at least there are evidences of its transactions, and inasnuch as the Virginia & Carolina Coast ailway would in a measure be a competitor with it and as it is a very deirable piece of property it is but naturd to suppose that such a deal has been nade. The Standard Oil Co. is not in he havit of leaving anything undone that will be to its ultimate advantage. It can readily be seen that this will be. Work is well ander way on the construction of the Virginia & Carolina loast Railway, and the termini are we important parts in this section. It he Standard Oil Co. is doing business a this section at all it is natural to appose that it is making deals like the me mentioned.

EX-MAYOR CRUMBO

**RECOMMENDS PE-RU-NA** 

"My Endorsement of Pe-ru-na is Based On Its Merits." Ed. Crumbe

E D. CRUMBO, Ex-Mayor of New Albany, Ind., writes from 511 E. Oak street:

"My endorsement of Peruna is pased on its merits. "If a man is sick he looks anxiously

for something which will cure him and Peruna will do the work. "I know that it will cure catarrh of

the head or stomach, indigestion, headache and any weary or sick feeling

"It is bound to help anyone, if used according to directions. "I also know dozens of men wh speak in the highest terms of Peruns and have yet to hear of anyone being

disappointed in it." Mr. Crumbo, in a later letter, dated Aug. 25, 1904, says:

"My health is good, at present, but if I should have to take any more medi eine I will fall back on Peruna."

## The Origin of Bridge

Where does Bridge come from ? Per sia is said to have given us the game of Poker, and Turkey, according to R. F Foster, author of "Foster's Complete Bridge," was the home of this latest popular card game. Mr. toster sav in his preface: "Bridge would seem to be a combination or outgrowth of vari ous other games, notably Gerelasch Siberia and Preference. A game very much like Bridge has long been popu lar in Holland; and all the elements it are to be traced in many of the older games of cards. The name is suppose to be derived from the word 'biritch. which is popularly believed to be a Rus sian word, but there is no such word in the Russian language. The game it self is generally credited to the East, and is said to have long been popular

in Constantinople, Smyrna and south

eastern Europe" Mr. Foster gives

1893 as the date of the first appear-

the republican leadership is of such char acter as to disgust any would be sympa thizer of State republicanism, and such a voter is lost.

It is in a leadership, the character of its man or men, be it political, commercial or religious, which is as essential to success and the gathering of a respectable and solid following, as are issues and principles, and it is this lamentable weakness of leadership of North Carolina republicanism, which prevents the party from gathering any following. North Carolina Republicanism, today, is a party for office, and its leaders show their littleness to outsiders by their constant scramble for office, and their desire for a party which shall consist of leaders for office, only, with just enough offices for these leaders.

# PROFITS

The proceedings of the American Tobacco Company, at its annual meeting, held a few days ago, that is the financial reports of the company made publie at the meeting, are worth the attention of every one, farmer and buyer, dealer and merchant, who may be engaged in the tobacco trade. Particularly are the figures of interest to tobacco farmers, and worthy of consideration, for the profits of the manufacturer of any staple product is of vital concern to the grower or producer of the article manufactured.

This being true, what have been the profits of the American Tobacco Co. during 1905, the company which controls very argely and determines the price which the tobacco grower is to receive for is crop? According to reports pubd the net earnings for 1905 were 5,912,285, being an increase of \$2,907 over 1964. Further figures give at halance for the year \$14,294,551. in increase over the previous year of
